

Downloading and Transferring eBooks to an Android Tablet or Smartphone

Before browsing our eBook collection, you'll need to download the OverDrive Media Console app from the Android Marketplace. The app is free and will allow you to check out, download and read eBooks on your device.

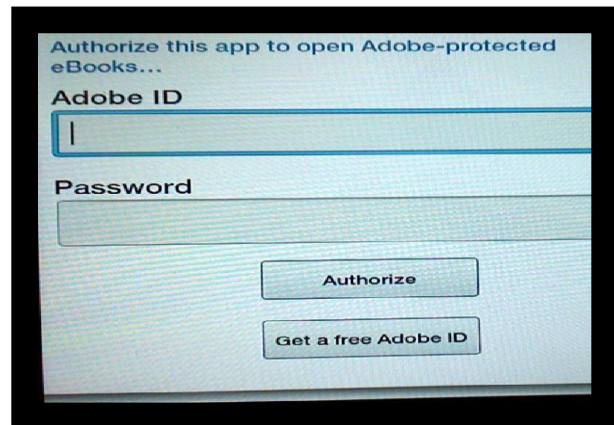

1. Once the OverDrive Media Console app is downloaded to your device, touch the icon to open it.

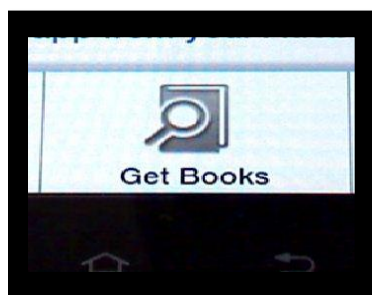

2. This will bring you to the app's main page. To begin, select Menu on your device and then the **App Settings** icon located on the upper right side of the page.

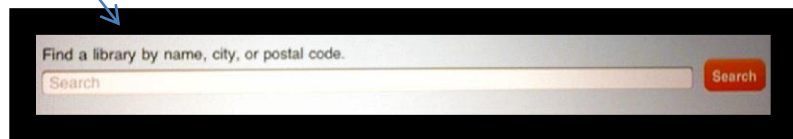

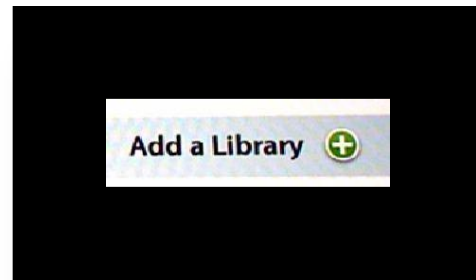

3. Under **App Settings**, you'll need to authorize the app with an **Adobe ID**. To do this, select **Authorize**. If you don't have an Adobe ID, select **Get a free Adobe ID**.

4. Next, select Menu on your device and then **Get Books**.

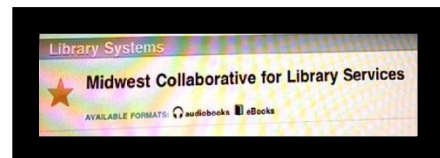

5. To begin searching our collection, select **Add a Library**. To find CADL's collection, you can search by library name, city or postal code.

6. Select any CADL branch that's listed. You don't have to select your home library.

7. Next, CADL's collection will be displayed. We subscribe through the Midwest Collaborative for Library Services (MCLS).

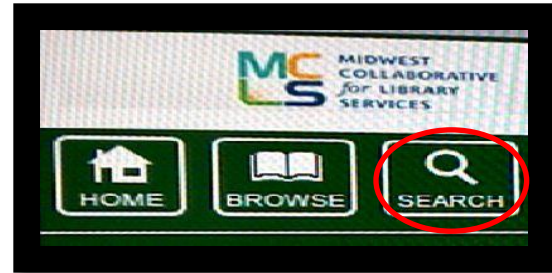

8. You will be brought to a mobile version of the collection's website, ebooks.mcls.org. To begin, click on **Login** in the upper right corner.

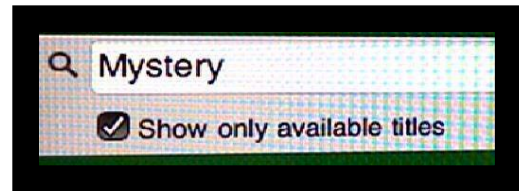

9. Select Capital Area District Library from the list of libraries and enter your entire library card number including 23000.

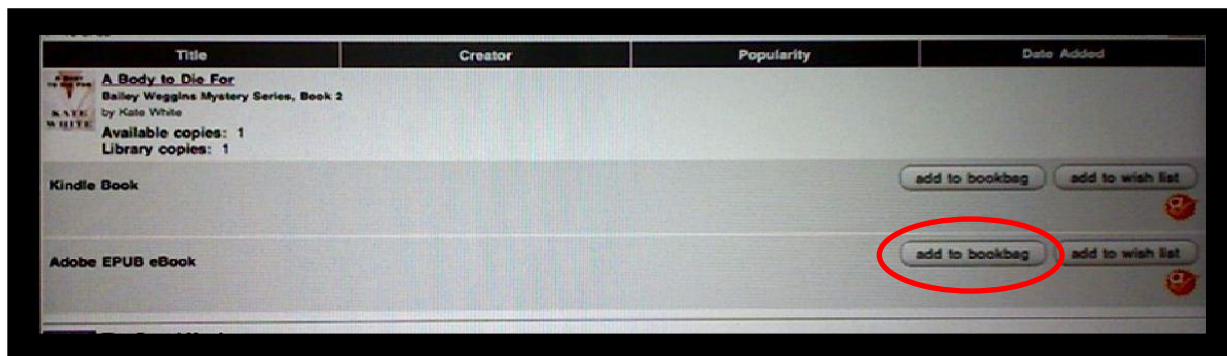

10. To begin searching for eBooks, select **Search** in the top menu bar.

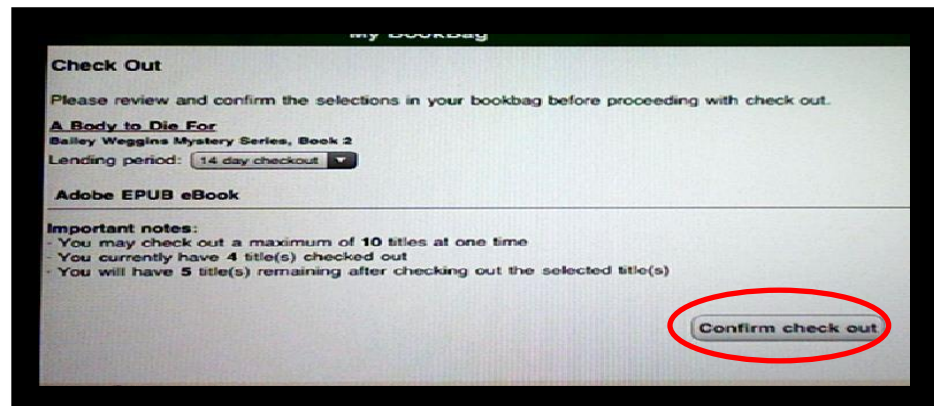

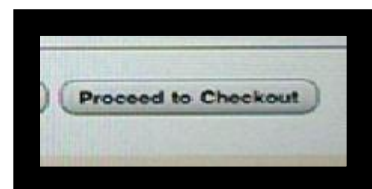

11. Enter a title, author, series or genre in the search box. To only view available titles, check the box below the search box.

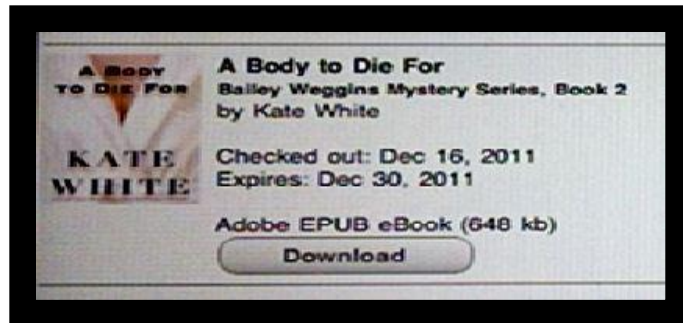

12. Once you've selected a title you wish to checkout, select **Add to bookbag** for the EPUB version.

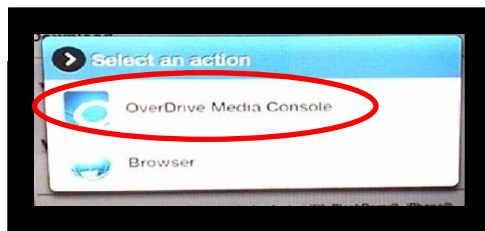

13. Next, select **Proceed to Checkout** and then **Confirm check out** on the next screen.

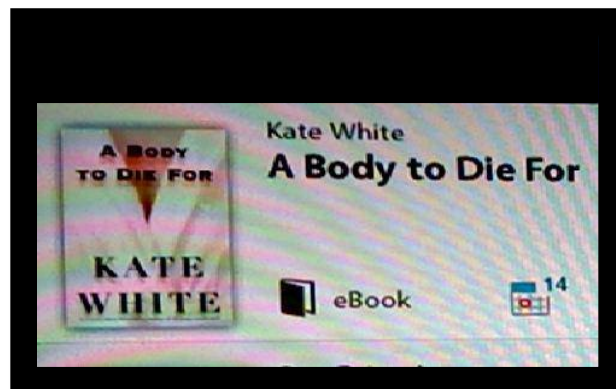

14. Click **Download** to begin downloading the eBook to the OverDrive app.

15. On the popup box that will appear, select OverDrive Media Console.

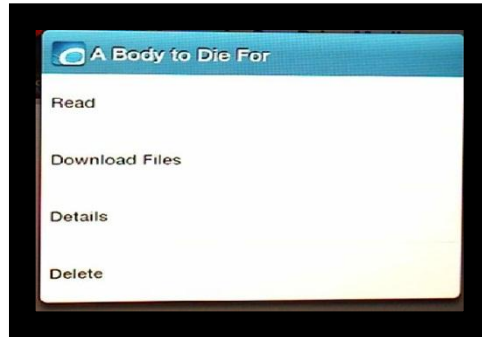

16. The eBook will appear on the OverDrive Media Console app's main screen. A calendar will list how many days are left on the check out. To open the eBook, simply touch the cover.

Returning and Deleting an eBook

17. If you would like to return an eBook early or delete it after the checkout period, hold your finger down on the title you wish to return or delete. Then, select **Delete** from the popup box that appears.

18. A message box will pop up asking if you'd like to return the eBook early and then delete it or just delete it from the app.
