To transfer the title to a portable device or to burn it to a CD, select the title and click either Transfer or Burn. If you burn a title to CD, it will take 1 CD for every part. For example, this title has 11 parts, so it would take 11 CD's.

Once you click Transfer, the Transfer Wizard will open.

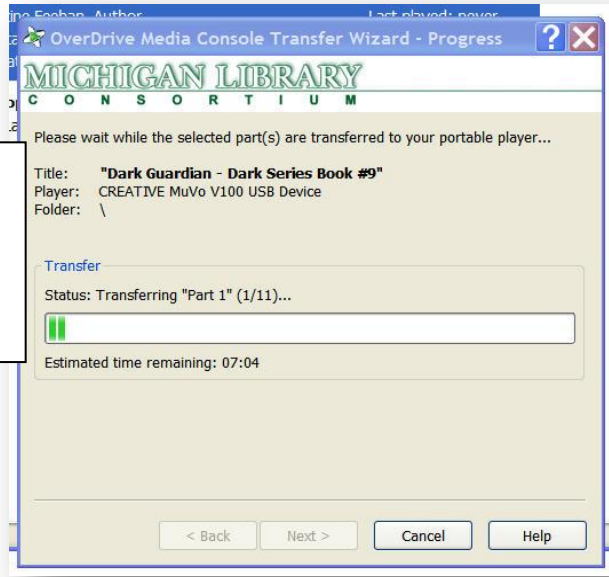

Similar to downloading the audiobook, you can choose which parts you would like to transfer to your portable device.

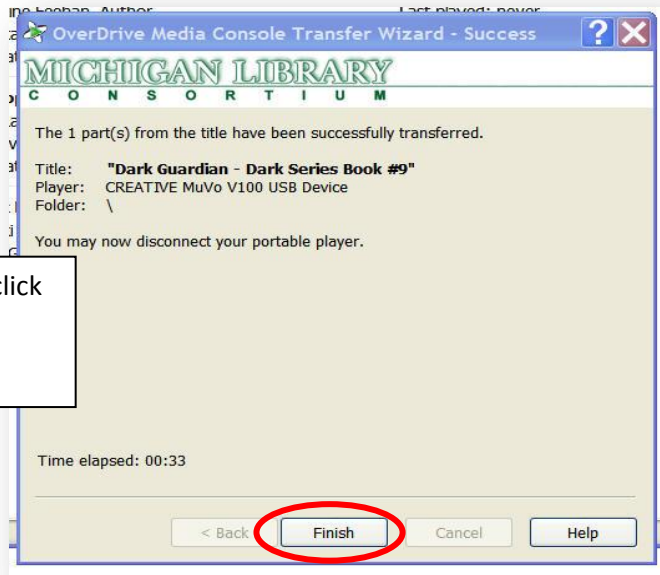

Your portable device will be listed under the title. If it isn't compatible with the file format, you will receive a message stating that it's not compatible or that the player couldn't be found.

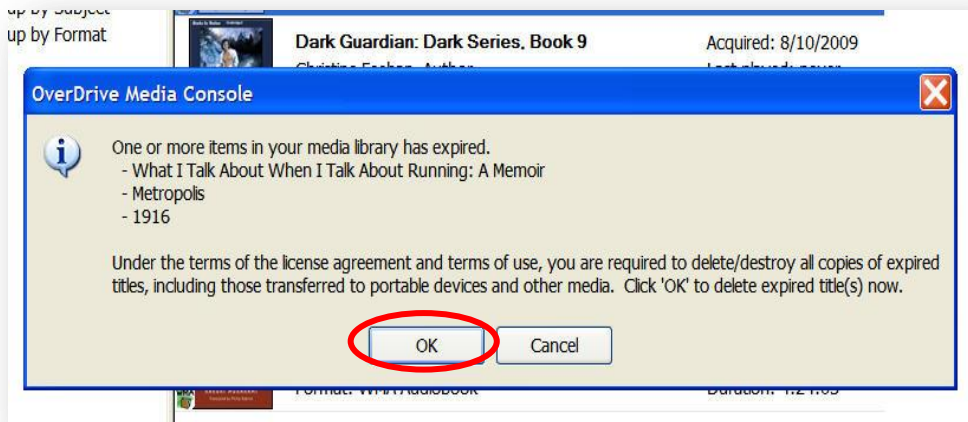

The next screen will show the progress of the transfer. You can cancel the transfer at any time and the Transfer Wizard will remember where you stopped.

When the transfer is finished, click Finish and disconnect your portable device.

Expired Items

When an item expires, you will receive the above message the next time you open the OverDrive Media Console. Once you click OK, the item(s) will be deleted from your OverDrive Media Console, but you will have to manually delete the file(s) from your desktop and portable device.
