

Downloading and Transferring eBooks

Before downloading and transferring an eBook, you'll need to download **Adobe Digital Editions**. This software is free and allows you to read and transfer eBooks to the Sony Reader, Barnes & Noble Nook, Kobo eReader or PanDigital Novel.

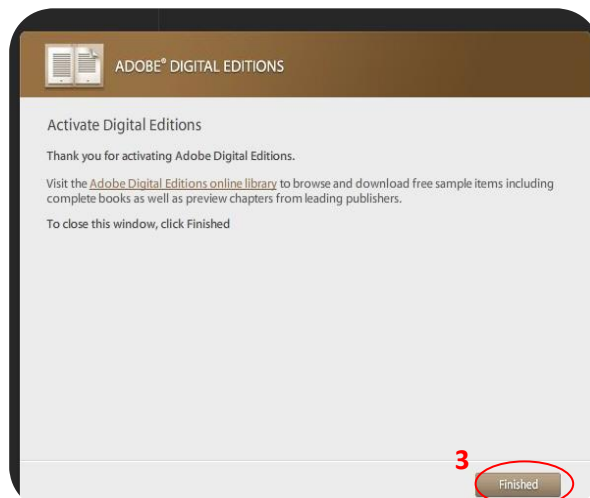

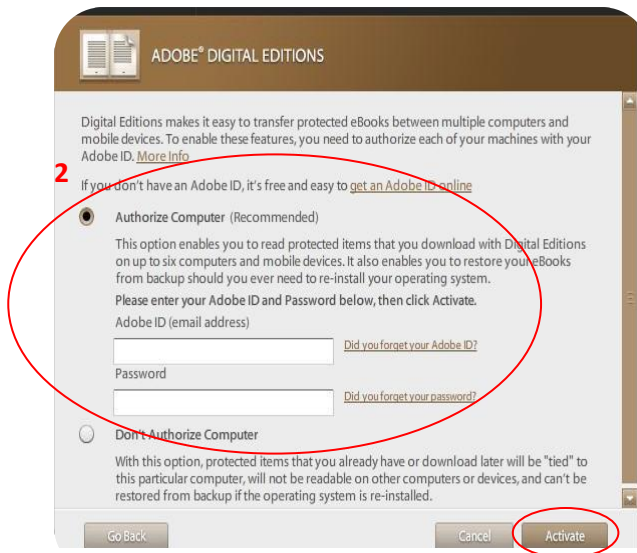

Adobe Digital Editions

To download the software, go to <http://www.adobe.com/products/digitaleditions/>. If you already have Adobe Digital Editions installed on your computer, please go directly to page 3.

The first time you open **Adobe Digital Editions**, you'll be asked to setup an Adobe ID. **It's very important that you set up an Adobe ID.** If you don't, you won't be able to transfer eBooks to an eReader. Follow the three steps for setting up your Adobe ID.

Transferring an eBook to an eReader

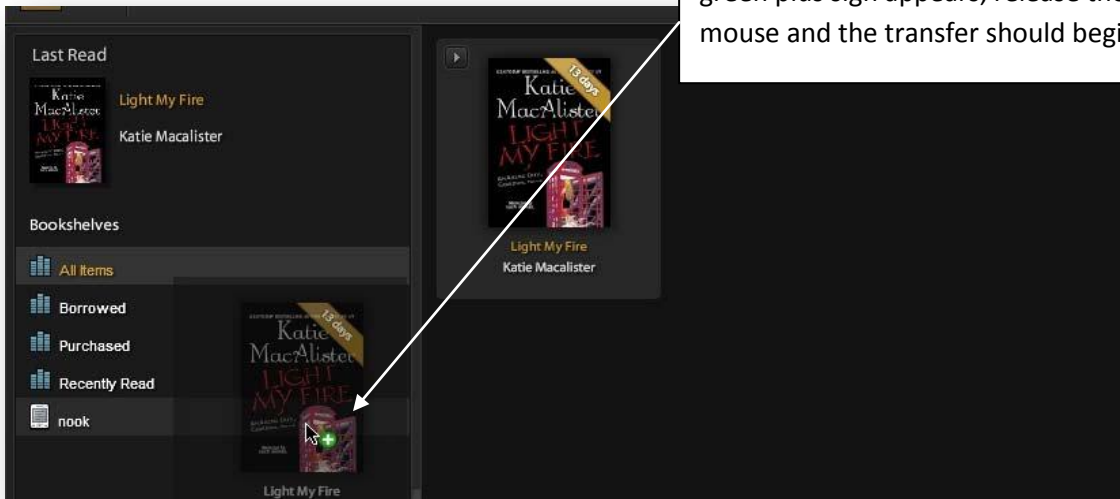

When you first connect your eReader to your computer, you'll need to authorize it with your Adobe ID.

Once the device is authorized you'll get a confirmation screen. The other content on your device will also be listed. Click **Finished** to begin transferring an eBook.

Select the eBook you'd like to transfer by clicking on the cover. Next, drag the eBook over to the eReader icon located under **Bookshelves**. When a green plus sign appears, release the mouse and the transfer should begin.

After you've transferred the title, you may need to use the **Check For New Content** option on your eReader. This will update the device to show the titles you've downloaded.
