

Popular Tablet Comparison Guide

Tablets have screens that are similar to computer screens. They are great for playing games, browsing the web, and watching movies but are difficult to see in bright sunlight. Many tablets are compatible with CADL eBooks, audiobooks, and eMagazines. Smartphones also have many of the same downloading capabilities as a tablet does. Visit your local branch or call our Digital Literacy Librarian at (517)334-1529 if you have any questions about our downloadable media.
