

Update to the New RBdigital Magazines

RBdigital is replacing Zinio for Libraries! Just like before, the rebranded service will have current issues of popular magazines with no limit on the number of issues you can check out, and you can still keep the magazines as long as you wish.

There is an update to the website and a new app to use! To switch to the new service, please follow the directions below.

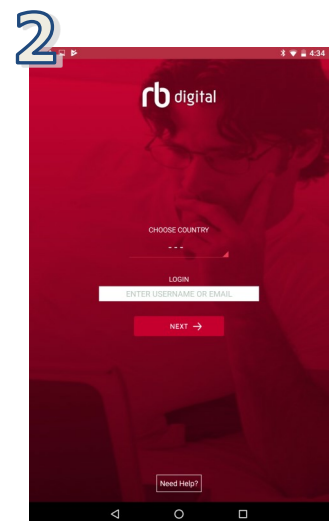

Web Browser:

To access your digital magazines in the web browser, simply navigate to the Digital Downloads area as usual. However, instead of “ZINIO” the link will now say “RBDIGITAL”.

After clicking the link, use the same email and password to sign in as you normally would. All your account information and magazines will have transferred.

RBdigital App:

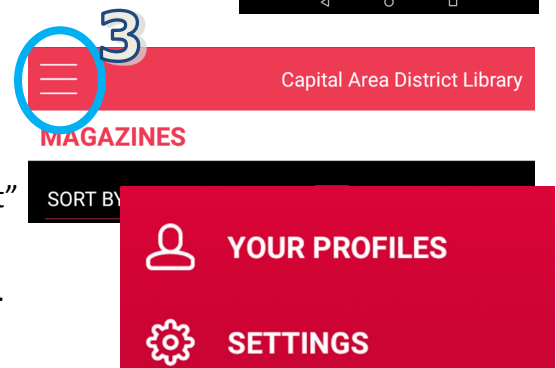

1. Downloading the App:

- In the Play Store, search “RBdigital” to find the app and download it.
- In the App Store, search “RB digital”. An app called “OneClickdigital” will appear, but this is the correct app (the icon should look like the one shown).

2. Linking an Account:

- Once downloaded, select “USA” as the country and then put in the login email (it will be the same one as before).
- Hit the “Next” button.
- It should show “Capital Area District Library” as the library
- Input your password (also same as before) and hit “Next” again.
- It may take a moment while the app loads your account.

3. Multiple Accounts:

- If you have another user that you would like to have their own profile in the app on that device, you can add it under the “Your Profiles” section of the side menu.
- Add the new profile following the same directions as “Linking an Account” above.
