THEREMIN **QUICK START**

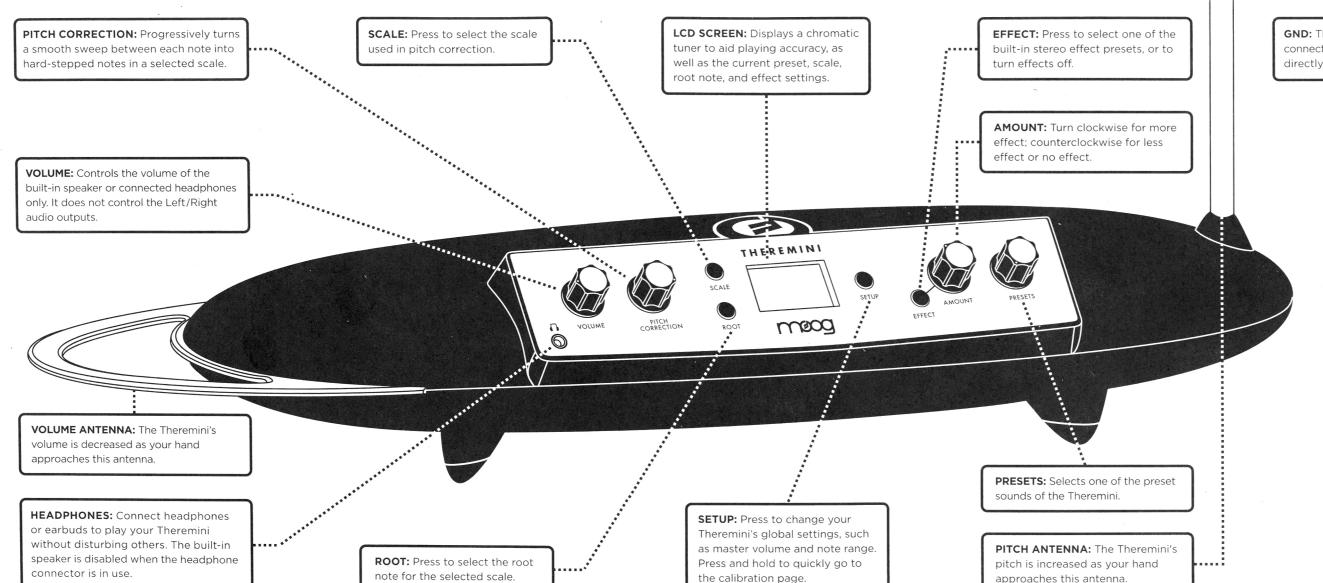

GETTING STARTED

- 1. Mount your Theremini on a microphone stand or place it on a non-metallic table
- 2. Ensure that the Theremini is at least 4 feet away from any large metal objects.
- 3. Place the pitch antenna snugly into the pitch antenna slot.
- 4. Using the supplied power adapter, plug the Theremini into a wall outlet.
- 5. Press the POWER button on the back panel.
- 6. After the tuner screen appears, press and hold the SETUP button for two seconds. The CALIBRATION screen will appear.
- 7. Press EFFECT and follow the on-screen instructions to calibrate your Theremini.

REGISTER YOUR THEREMINI

It is important to register your Theremini to be notified of new sounds, features, and updates as they become available.

WWW.MOOGMUSIC.COM/REGISTER
