How to Transact Business with the Company

OUR AIM is to render a service that will be satisfactory to our customers. We realize that difficulties will sometimes occur notwithstanding all our efforts to avoid them. On the outside front cover of this directory are shown the telephone numbers which should be called to report service difficulties.

If at any time difficulties are not promptly corrected or unsatisfactory conditions persist, we shall appreciate your communicating the facts direct to the Manager.

The Office at which business may be transacted is located at 220 N. Capitol, Lansing. The manager in charge is R. Van Meter, Telephone Number 9911. Office hours are from 8:00 A.M., to 5:00 P.M. The office is closed on Sundays, and on generally observed legal holidays.

ORDERS FOR NEW SERVICE, CHANGING OF LOCATION AND DISCONTINUANCE

Applications for new service, rates, changes in, or additions to existing service or equipment and other information may be made by telephone, or by mail, or in person to the Company's business office.

BILLS AND PAYMENTS

Bills are rendered monthly and are payable when rendered. They cover local service charges in advance for a one month period from the date of the bill, and long distance service charges for a one month period ending at the date of the bill. If the bill is not paid within fifteen days from its date, service may be refused without further notice. When service is denied because of non-payment, a charge of \$1.50 is applicable for the restoration of service. Each customer is held responsible for all long distance messages originating at his telephone.

How to Use the Dial Telephone

BEFORE DIALING, obtain the correct telephone number from your "Ready Reference Register" last page of Classified Section or the Directory, then remove the receiver and listen for the dial tone. The dial tone is a "humming" sound and when heard it indicates that the equipment is ready for your call.

The ringing signal (an intermittent burr-ing sound) or the busy signal (a rapid buzz-buzz-buzz)—will be heard after you have finished dialing the number.

If further instructions are desired, dial "O", operator, for assistance.

How to Use the Manual Telephone

ALWAYS secure the correct telephone number from your "Ready Reference Register" list of numbers or from the current issue of the telephone directory before you make a call. If the desired listing is not found, call "Information."

When making a call, give the operator the desired number slowly and distinctly in a moderate tone of voice, speaking directly into the mouthpiece of the telephone.

If for any reason, service difficulties are encountered such as a wrong number, a double connection or cut-off, signal the operator and report the condition.

Long Distance Calls

RATE INFORMATION to certain out-of-town points will be found on page 8. The rates to

points not listed, and the station-to-station reduced rates may be obtained by dialing Long Distance. Reduced Evening and Night rates apply on station-to-station calls only, and then only when the day rate is more than thirty-five cents. Evening rates apply from 7:00 P.M. to 8:30 P.M. and are less than the day rates. Night rates apply from 8:30 P.M. to 4:30 A.M. and represent a further reduction from the Evening rates.

Before placing a call, first determine whether the lower priced station-to-station service can be used or whether the person-to-person service is more suitable.

When placing out-of-town calls, give the Operator the telephone number at the called point, if known, or if listed on your "Ready Reference Register" as it will speed the completion of your call.

TO MAKE A LONG DISTANCE CALL Dial "110"

In placing a long distance call, dial 110 and give the Long Distance Operator:

1. The number of the place you wish to reach.
2. The number you wish at that place, or, if the number is not known, the name and address under which the number might be listed.
3. If a Person-to-Person call, the name of the person with whom you wish to talk, or the extension number of the Private Branch Exchange.

When requested by the Operator, give your telephone number. Hold the line until the called telephone answers or the Operator gives a report.

Station-to-Station Service

A STATION - TO - STATION CALL is one on which you agree to talk to anyone who answers at the called telephone. The rates are less than Person-to-Person rates.

Person-to-Person Service

A PERSON-TO-PERSON CALL is one on which you desire to talk to a certain person, or to be connected with a specified telephone reached through a Private Branch Exchange.

International Telephone Service

LONG DISTANCE telephone service is available to practically all points in foreign countries. Ship-to-Shore service is furnished on certain steamships. Place your call in the usual way for this service. For rates, call Long Distance.

Collect Calls

A COLLECT CALL is an out-of-town call on which arrangements are made to have the called telephone pay the charges. The collect basis is available at the same rate as non-collect calls for all Person-to-Person calls and for Station-to-Station calls if the initial period rate is 25c or more. On Station-to-Station calls, if the initial period rate is 20c, a re-

versed call is accepted at the 25c rate. When the initial rate is less than 20c, reversal of charges is made only under the corresponding Person-to-Person rate. If the request for reversal of charges is not accepted without delay, or the call is cancelled, then the regular Report Charge applies.

Report Charges

A REPORT CHARGE is made on person-to-person calls when the called party is not available at the called telephone or if the calling party is not available when the called station or party is reached. On collect calls, this charge applies if the called party does not accept the charges. No report charge is made if the call is completed following a chargeable report.

Messenger Calls

A MESSENGER CALL is an out-of-town call on which the Telephone Company sends a messenger to notify the called party to come to a telephone to talk. The messenger fee is added to the charge of the call.

Telegrams by Telephone

TO SEND telegrams, cablegrams or radiograms by telephone, call the desired Telegraph Company by name. Charges for telegraph messages filed by telephone will be placed on your telephone bill.

General Information

ANSWERING TELEPHONE CALLS

ANSWER calls promptly so as to prevent having the calling party wait. When answering calls, announce your name and the name of your firm.

RURAL LINE SERVICE

To place a rural call from a city telephone, dial 116, or call the rural operator and give her the number you are calling.

All rural subscribers on a line have equal rights and should limit their conversation to five minutes duration.

They should answer their own ring signals. If there is any confusion about the ring signals, the fact should be reported promptly to the Chief Operator.

Before making a call, remove the receiver and listen a moment to make certain no one is talking on the line.

Disconnect by ringing off when conversation is finished.

ADVERTISING

The Telephone Directory Advertising Company, 321 W. Lafayette Blvd., Detroit, is the only agency authorized by the Telephone Company to sell telephone directory advertising. It will furnish, upon request, advertising rates and other

Lansing

information regarding directory advertising.

BUYERS SERVICE

If you cannot buy locally what you need—whether it is a commodity or service—write the Telephone Directory Advertising Company, 321 W. Lafayette, Detroit, Michigan. You will be furnished with the names of firms that can supply your needs. There is no charge for this service.

ERRORS IN THIS DIRECTORY

The Company cannot and does not assume any liability because of errors and omissions in compiling this book. Sometimes notwithstanding care and attention given it, errors will creep in. Please check your listing in the directory. If it is incorrect in any way, please call the Business Office so that it may be corrected in the next issue.

ATTACHMENTS TO TELEPHONES

This Company is responsible for giving efficient telephone service. The equipment and apparatus furnished you have been designed to produce the best telephone results, therefore we cannot permit the attachment of devices and so-called improvements which may prove detrimental to the service, and to protect the service the Company will remove any such device. We are prepared to furnish apparatus to meet any special conditions.

SPEAK DIRECTLY INTO THE TELEPHONE FOR BEST RESULTS

Speak with the lips close to the mouthpiece, for best results.

With the lips one inch from the mouthpiece, results are only $1/4$ as good.

With the lips three inches from the mouthpiece, results are only $1/30$ as good.

YOU will be heard most easily and distinctly on your telephone calls if you speak in a moderate, normal tone of voice, directly into the mouthpiece.

MICHIGAN BELL

TELEPHONE CO.

LONG DISTANCE TELEPHONE SERVICE IS **FASTER** if you give

the number of the tele-
phone you are calling.

If you do not know the
number, give the name of
the person under which
it probably is listed.

Usually, if you give the
number, your call will be
completed while you
“hold the line.”

The Best Way to Make a Long Distance Telephone Call

Give the Operator Handling Your Call:

1. The name of the city or town you wish to reach.
2. The telephone number at that city or town, as in making a local call. (If you do not know the number, give the name under which it probably is listed.)
3. If you are making a Person-to-Person call, (that is, if you wish to talk only to some particular person), also give the name of the person with whom you wish to talk.
4. Give *your* telephone number *when requested by the operator.*

To nearby towns, calls usually are handled by your local operator. Look in your telephone directory for detailed information.

Giving the called number speeds your call.

Air Mail Information

Eight cents for the first ounce or fraction thereof, and 13 cents for each additional ounce or fraction thereof. Air mail can be insured, registered, sent C. O. D. or special delivery when the additional fees are prepaid. It may be deposited in any mail box, but must be indorsed "VIA AIR MAIL" underneath the postage stamp immediately above the address.

Aids to Proper Mailing

Write name and address plainly and completely. Place name and address of sender on all matter. Prepay postage fully on all letters and parcels. Always address mail for city delivery to street and number and request correspondents to do likewise. Use designation North or South, East or West when it is a proper part of the address and save delay in delivery.

Insure valuable parcels. Wrap parcel post carefully in heavy paper and tie knots securely.

You Will Often Gain a Day's Time in Delivery by Depositing Mail as Soon as It is Ready.

A better plan for BORROWING

\$100, \$200, or more

Offered families, keeping house, who can make regular monthly repayments.

The charge is as low or lower than the price charged for other retail services of equal value.

The only signatures required are those of husband and wife.

Confidential service; the only investigations made are the questions asked of you.

Up to 20 months to repay.

Prompt service—usually within 24 hours.

Phone, write, or call—no obligation.
