FAIR GROUNDS IMPROVED, NEW BUILDINGS ERECTED

BOULEVARD WILL RELIEVE TRAFFIC CONGESTION.

Extensive improvements are being made at the county park and fair grounds under a WPA project which calls for an expenditure of \$35,000 for labor and materials. A boulevard extending from the south pond back to the woods, a building to house 4-H club members, a public toilet near the grandstand, a hog barn and many other improvements are included in the WPA program which has been underway since November. An average force of 35 men have been at work and the men have held steadily to a work schedule.

The boulevard will replace the narrow lane which heretofore has led from the south pond to the entrance at the rear of the grandstand. The boulevard is being constructed to the west of the lane and what was the lane has been added to the midway, making 30 feet more width available for the roadway.

Fifty young maples have been set along the boulevard by the road commission. The road commission is also handling the 8000 cubic yards of excavation and surfacing with 3000 yards of gravel. Roll curb and gutter will be placed and it is probable that blacktop surfacing will be done in 1940.

Dormitory Built

Exterior work on the 4-H club building has been completed. The 34x80 two-story structure is located near the road commission storage building at the north end of the grounds. The building is more than a dormitory. It is designed to serve as an auditorium and a place for group meetings of every kind.

On the main floor will be the dining room, kitchen, sleeping quarters for girls and toilets. The second floor, reached by an inside stairway on the south end and an outside stairway on the north end, will serve as the boys' sleeping quarters. Folding cots will be used for beds and they can be folded and stored in lockers, so that the big room can be used as an auditorium.

There are four eight-foot dormers and 16 3x10 screened openings in the second floor dormitory. A public toilet is to be built near the grandstand. A 34x100 hog barn is also to be constructed by the WPA. The hog house will be located southeast of the cattle barns.

William Swartout, WPA supervisor, stated that the fair grounds project is being handled efficiently. He credits the unit cost system recently installed to govern WPA work as partly responsible for increased efficiency. Wayne Curtis is in charge of the cost finding on Mason jobs. Mr. Swartout said, "Under this new system the progress of work is checked day by day. If work assignments are not carried out then employees are shifted."

In addition to the excavation, gravel and concrete on the boulevard project, the fair grounds job calls for 655 cubic yards of excavation, 190 cubic yards of concrete, 66 cubic yards of sand fill, 19,000 feet of lumber for framing, 11,500 feet of roof deck, 95 squares of roofing, 504 cement blocks, a septic tank, 1410 feet of drain pipe and the moving of water mains and sewer lines heretofore placed.

Seven Masonic Lodges To Join Here Friday

SCHOOL OF INSTRUCTION TO BE HELD.

On Friday night six Masonic lodges of the county are to join with Mason lodge No. 70, F. & A. M., in a school of instruction. Officers and members of blue lodges at Mason, Williamston, Waberville, Stockbridge, Danville, Leslie and Onondaga are expected to be present. Charles T. Sherman of Lansing, the grand senior warden of the Michigan grand lodge, Arthur J. Fox of Almont, grand lecturer, and George Williams of Lansing, deputy instructor, will have charge of the instruction.

A dinner is to be served by Mason lodge No. 70 at 8:30. Members of Mason and visiting lodges and sojourners from other lodges are invited to attend the dinner and school of instruction.

Winners In Contest Are Awarded Prizes

MASON PUPILS WIN ESSAY AND POSTER AWARDS.

Rep. Dora H. Stockman of East Lansing, member of the legislature, former member of the state board of agriculture and a leader in Orange work, made the presentation of awards Wednesday morning to winners in the Mason W. C. T. U. essay and poster contests. The awards were presented at a general assembly of the school.

Dewey Doane won first in the essay contest open to seventh, eighth and ninth graders. Pauline Carroll was second, Jim Cotton was third and Laylin Jewett was fourth. Bernard Ridge won first in the essay contest for fifth and sixth graders with Mary Hill, second; Helen Ann Lehman, third; and Max Bement, fourth.

Jim Brown won the poster contest open to fifth and sixth graders. Edwin Benedict and Mary Hill were tied for second. Billy Hamlin won fourth and Billy Richards placed fifth.

Cash prizes to the contest winners ranged up to \$2.00. They were provided by the Mason W. C. T. U. unit. A regular meeting of the Mason W. C. T. U. was held at the Hall Memorial library Wednesday afternoon. After school winners of the contests were served refreshments by the W. C. T. U. Mrs. Fred L. Smith, president of the unit; Mrs. Claude Post, county president, and other temperance leaders were present at the awarding of prizes Wednesday morning.

To Observe Golden Wedding Anniversary

MR. AND MRS. ERNEST A. DENSMORE

Mr. and Mrs. Ernest A. Densmore of Mason, now sojourning at Tarpon Springs, Florida, will observe their fiftieth wedding anniversary Tuesday, February 21. They were married February 21, 1889, at the home of the bride's parents, Mr. and Mrs. Egbert Rice in Danville. The minister was the Rev. D. B. Miller, pastor of the Danville Methodist church. E. J. Brown of Danville, now living in Orange, California, and Mrs. Minnie Randall Fray, then and now a resident of Danville, attended the bride and groom at the wedding 50 years ago.

Ernest A. Densmore is the son of Addison and Emma Densmore, farmers who resided near Danville. Mrs. Emma Densmore, now 91, lived to see the golden anniversary of the marriage of her son and daughter-in-law. She is spending the winter with her daughter, Mrs. Eber Thompson of Lansing.

The parents of Mrs. Ernest A. Densmore were Egbert and Frances Rice. Mr. Rice operated a general store in Danville for many years.

Mr. and Mrs. Densmore began their married life on what is now known as the Walter Fosdick farm, one and one-half miles south of Danville. The farm miles south of Danville. The farm miles south of Danville. The farm miles south of Danville.

In 1899, ten years after his marriage, Mr. Densmore decided to carry out his determination to study law. The family moved to Ann Arbor and Mr. Densmore entered the University of Michigan law school, graduating in 1902. Two years ago Mr. Densmore, his son, Gail E. Densmore, and grandson, Frederick Densmore, all graduates of the University of Michigan, were photographed at a Michigan alumni reunion at Ann Arbor.

After receiving his law degree from the University of Michigan in 1902, Mr. and Mrs. Densmore and their two sons came to Mason where Mr. Densmore opened a law office. Shortly thereafter he was appointed city attorney, a position he holds at the present. Within a short time Mr. Densmore and Archie Marshall purchased the hardware store of the Raymond family. Alvin Bell subsequently replaced Mr. Marshall as a partner in the hardware business. Later Mr. Densmore conducted the business alone. After disposing of his successful hardware business Mr. Densmore was nominated and elected register of deeds. He served two terms, from January 1, 1915, to December 31, 1918.

After retiring from the register's office Mr. Densmore resumed legal practice. In 1923 he was appointed Mason postmaster and served for eight years in that capacity. Mr. Densmore was elected president of the Ingham County Farmers Mutual Fire Insurance company in January of 1932 and has served continuously since. He was re-elected president last month. He is also a director of the Dart National bank.

For many years Mr. and Mrs. Densmore have been active in the Mason Methodist church and Sunday school and in the Ingham County Pioneer and Historical Society.

Mason friends of Mr. and Mrs. Densmore are joining in a postcard shower to mark the anniversary. The Florida address is 132 Lemon street, Tarpon Springs.

Three children were born to Mr. and Mrs. Densmore, Merle R., who died in 1930; Gail E., head of the department of speech and general linguistics at the University of Michigan; and Doris, Mrs. Edward E. Loeborg of Ann Arbor. There are also two grandchildren, Frederick Densmore, a teacher in the Port Huron schools, and Linda Loeborg of Ann Arbor.

Holt Boy Is Killed When Struck By Car

WAS WALKING ALONG US 127 NORTH OF HOLT.

James Goldsworthy, 12, of Holt, died about 9:30 Tuesday night enroute to a Lansing hospital. He was walking along US 127 north of the Methodist church when he was struck by a north-bound car driven by Fred D. Green, 17, of Holt.

The driver stated that he did not see the boy walking along the edge of the pavement.

The accident victim was the son of Mr. and Mrs. John Goldsworthy. Besides the parents he is survived by two sisters, Janet and Carol; and grandparents, Mr. and Mrs. Paul Goldsworthy of Rochester and Mrs. Mary Hirsch of Decker. Funeral services will be held at the Hobart funeral home in Rochester Saturday afternoon at 2:30 o'clock.

CONVENTIONS AT FLINT TO CHOOSE CANDIDATES

INGHAM FURNISHES TWO CANDIDATES FOR SCHOOL JOB.

Delegates from county conventions will meet in Flint this week and next to name state tickets. The democrats will hold their convention in Flint Saturday, February 18. Republicans will meet next Monday, February 23.

At the state convention nominations will be made for two justices of the supreme court, two regents of the University of Michigan, superintendent of public instruction, member of the state board of education and two members of the state board of agriculture. The election of supreme court judges and members of governing boards of state educational institutions was scheduled for spring elections so that politics would not guide the choice of the electorate. This year, however, political interest is being carried over from last fall's election and both major parties are making plans for bangup political campaigns for the April election.

Two Ingham Men

Dr. Eugene Elliott, superintendent of public instruction, and E. E. Gallup, head of the vocational division of Michigan schools for a number of years, are the leading contenders for the republican nomination of superintendent of public instruction. Dr. Elliott is given the inside track. Both are from Ingham county and both were chosen at the county convention last week as delegates to the state convention.

Ingham county has another candidate for state office in Justice Howard West of the supreme court. His re-nomination is assured as is that of Justice Henry M. Butzel of Detroit. Both are republicans.

Regents of the University of Michigan whose terms expire are republicans. Democrats whose offices are at stake in the election are Mrs. Edna Cornell Wilson of Saginaw, member of the state board of education; and Charles E. Downing of Willis, and Benjamin H. Halstead of Petoskey, members of the state board of agriculture. The governing board of Michigan State college. The state board of education has charge of state normal schools.

Livestock Exchange Entertains Farmers

INGHAM MEN GUESTS AT LANSING SESSION.

Many Ingham county livestock men met Thursday with others from throughout the state in the annual business meeting of the Michigan Livestock Exchange. Both the forenoon and afternoon business sessions as well as the late evening banquet and party are being held in the Hotel Olds.

Delegates to the event from Ingham county are C. W. Keltch, Webber and W. E. Bearse, C. J. Porter, L. H. Culver, Tom Simons, C. W. Holmes, George Rice and Gilbert Putnam; Williamston; Edgar Artz, Stockbridge; W. L. Jewett and Paul Cheney, Mason; H. J. Taylor and George Wilson, Leslie; William J. Renz and Asa Wilmarth, East Lansing; Charles Woods, Danville; W. F. Grettenberger, Okemos and Fred Angell, Lansing.

Headliners of the program are H. Hilbert of the state board of agriculture; Max Cullen of the National Livestock and Meat Board who will demonstrate meat cutting, and Ernest Smith, rural humorist from Ohio. Nate Fry's orchestra is to furnish music for the dance which follows the banquet.

Ingham Court Order Halts State Action

UTILITIES COMMISSION OUSTER IS RESTRAINED.

Judge Leland W. Carr of the Ingham circuit court issued a temporary injunction Wednesday to restrain Governor Frank D. Fitzgerald and the state legislature from ousting the utilities commission and installing a new one. The enjoinder was issued on petition of Chairman Paul H. Todd and the board which was in law, expired Thursday. The temporary injunction is returnable in the Ingham circuit court in Lansing at nine o'clock Friday morning.

The injunction was issued after Governor Fitzgerald had signed the bill abolishing the utilities commission and substituting a public service commission. Applicants of the governor to serve on the new commission were confirmed by the senate Wednesday. They were Miss Florence M. Kieley, a commission secretarial worker for a number of years; Don McIntyre, Jackson; John J. O'Hara, Menominee; Ivan Hull, Grand Rapids; and Gilbert T. Shilson, Lansing.

Until the injunction is heard Friday the new commission is restrained from entering upon its duties.

The petition filed by Todd attacks the legality of the action taken by the legislature in abolishing the commission.

Governor Fitzgerald requested Todd to resign from the commission. When Todd refused to resign the governor had a bill introduced to reorganize the commission under a new name.

OBSERVE DAY OF PRAYER

A union service for women of Mason churches is to be held at the Presbyterian church Friday afternoon, February 24, at 2:30 to observe the World Day of Prayer. Mrs. Martha V. Reason of Lansing, will be the speaker.

TOLD OF ORGANIZATION

M. J. Maynard, operator of the J. C. Penny store in Lansing, was the speaker at the Mason Kiwanis club meeting Tuesday night. He told of the founding of the Penny organization and how the business is operated throughout the country.

CANNING DEMONSTRATION

MRS. MARGARET RAY

A meat canning demonstration is being sponsored by the Ingham county home economics extension groups on Monday, February 20, at the Methodist church in Mason at two o'clock, as announced by Mrs. Bertine Benedict, Ingham county home extension agent.

Mrs. Margaret Donnelly Ray, home economist of the Ball Bros. company will give the demonstration. Latest methods in meat canning will be given. This will be an open meeting and those interested are urged to attend.

CITY HALL UNDERGOING EXTENSIVE REMODELING

COUNCIL CHAMBERS AND OFFICES BEING PROVIDED.

Fire Trucks And Garage Remodeled, Individual Offices For Three City Officials.

Mason's city hall is undergoing extensive repairs under WPA. The work has been underway since November and it will likely be six weeks before the project is completed. The entire interior and part of the exterior is being changed. A new floor is being placed throughout the building.

A fire station and garage extend across the rear of the building. The fire station will accommodate two big house fire-fighting equipment. A city truck will also be kept in the west side of the station. There will be a shop for making repairs on the trucks. The fire station and garage are equipped with overhead doors which open onto the alley.

New Council Room

The stairway leading to the I. O. O. F. hall above the city offices has been moved to the east and a new and private entrance provided from Maple street. Public toilets will be installed at the west end of the Maple street frontage.

Persons who have business with the city will enter the clerk's office from a small corridor. Opening on the corridor will be offices of the superintendent of the water department and the city street commissioner. At the rear of the clerk's office will be the council chamber.

Ivory-finish wallboard will be used on the sidewalls and ceilings in the council chamber and city offices. Indirect lighting will be installed in the chamber and offices.

Cost to the city of rebuilding the hall will probably run about \$2500. A sum of \$1200 was originally made available and city officials believe the \$1300 will cover the cost of materials used to complete the project, although it may not be possible for the present to complete the public toilets or to install a heating system. All except skilled labor used on the remodeling program is paid by WPA.

Changes In Business Under Consideration

DRUG STORES TO BE CONSOLIDATED SOON.

More business changes are under consideration in Mason. A chain store organization is interested in leasing the Couch store at the corner of Maple and Park streets. The Michigan Bell Telephone company still has under consideration leasing the old postoffice quarters in the Knights of Pythias building. The lease is being held up, it is said, awaiting definite plans for shifting to a dial telephone system.

Walter C. Peters will move the stock in the former Longyear Bros. drug store to the former L. H. Harrison store next week. Mr. Peters purchased the Longyear store in December and bought the Harrison store in January. The Harrison store has been completely remodeled and new store equipment has been installed. Several business firms are interested in securing a lease of the former Longyear quarters in the George McArthur building.

CAR OVERTURNS

Eileen Smith was uninjured in an automobile accident Tuesday night. The car was driving swerved in a frozen rut and overturned in the ditch on College road north of the Pink school.

Equipment Arrives For New Production Lines

AMERICAN HOME PRODUCTS CO. REBUILDING PLANT AND ADDING NEW MANUFACTURING EQUIPMENT.

Those who have not visited the S. M. A. plant since its sale to the American Home Products company last year would hardly recognize the factory today. It should be stated that the factory is not yet open for public inspection.

Thousands of dollars worth of new equipment is being installed. Equipment used by the S. M. A. company has been shifted around. Partitions have been moved. Processing machinery and equipment have been dismantled and erected in new locations. Production has been and is being streamlined under American Home Products expansion plans.

Manufacture of S. M. A. products is being concentrated in the main building with the so-called west wing to be used for the manufacture of pharmaceutical and proprietary products. Machinery shipped here for the manufacture of Anacin, Amphetol and Kaomagma by the John Wyeth & Bro. company of Philadelphia is being installed at the Mason plant now. Coopers brought big vats for processing the products. Giant machines for filling, capping and packing the bottles are being installed.

William Bogely of the Philadelphia factory is assigned to Mason to supervise the installation of the special machinery and it is expected that he will remain here until manufacturing operations begin. It will probably be several months before production on the new lines can be started.

Equipment for a manufacturing Wyeth proprietary lines, now made in a Detroit factory of American Home Products, will be installed after the pharmaceutical production is begun. Manufacturing of S. M. A. powder and liquid has been resumed and the production schedule will be expanded. The entire factory has been redecorated, using white and aluminum paints. The lighting and heating arrangements have also been improved. Steam pipes have been covered with canvas. The factory is spic and span from one end to the other.

Office space has been tripled and much of the accounting formerly done in Cleveland has been transferred to Mason. Four Mason stenographers have been added to the staff with F. Walter Gies, formerly of Petrolgum unit of American Home Products in Chicago, in charge.

Walter H. Brush from American Home Products headquarters in Jersey City is the engineer in charge of rebuilding the Mason factory. In every section of the factory are crews engaged in installing new equipment and rearranging the old. Servicing with Mr. Brush are key men sent here from other American Home Products plants in New York, Philadelphia, Jersey City and Chicago.

Much work remains to be done in rebuilding and expanding the Mason factory. A new power plant will probably be constructed. Final decision on the power plant is expected within a few weeks.

When the new equipment is installed and manufacturing of the new products is begun many employees will be added to the payroll. However, William F. Richards, manager, and other executives explain that they do not have time to accept employment applications at present.

Williamston Watched Spectacular Suicide

TRANSIENT MADE DEATH LEAP FROM WATER TOWER.

Ray David Matull, 30, of Kalamazoo horrified a group of Williamston spectators Thursday evening when he leaped to his death from the top of the village's new 85-foot water tower erected last summer.

Matull had been around Williamston several hours asking for food and employment. He appeared to be mentally unbalanced. Finally he climbed to the top of the water tower. For an hour he climbed around the top of the tower and at one time apparently started to descend. He took his foot from the ladder and sat on top of the tower and then fell off.

The identity of the suicide victim was not known until late Thursday night when fingerprint records revealed the man as Matull. The fingerprint record was made voluntarily four years ago, state police said.

Railroad Worker Hurt By Fall Inside Of Car

O. D. Campbell, telegraph operator at the Michigan Central station, received severe injuries Saturday night when he tripped on a metal band strung across a freight car opening. Mr. Campbell was checking freight. He opened the door of the freight car just far enough to enter. He cut two metal bands across the entrance and was stopping over another while he reached above to jerk at a higher band when he tripped and fell.

His upper right arm was fractured. Bone fragments were telescoped into the shoulder bones. Mr. Campbell is at the Corsaut hospital and will be incapacitated for several weeks.

Rehearsals are to be held in the Williamston school auditorium Thursday afternoon at two o'clock. The concert is to begin at eight o'clock.

Each orchestra is to play one number alone and then the four orchestras, numbering 100 musicians are to play under the guest conductor.

Joseph D. Wyman, instructor in instrumental music at Mason, said that Mason's full orchestra of 36 pieces will be taken to Williamston. He also stated that the Williamston school has made arrangements to seat Mason pupils and parents who go to Williamston to hear the concert.

Harshel Jewett's insurance office moved over to Mill's store.

THE DETENTION HOME

Ingham county needs a detention home. The present building is old and should be replaced by a modern, fire-proof structure.

There is no need for any imposing edifice. What is needed is a building that will serve efficiently and economically as a temporary home for children while real homes are being found for them. The building should be so constructed that delinquents can be kept by themselves, segregated from the dependent and neglected children. The wing for the delinquents should be a place of detention where boys held on serious charges can actually be detained.

The present detention home is a detention home in name only. It does not detain any boy who wants to run away. Within the last few months that has been proved beyond peradventure. At the present time three boys are being held in the county jail because they can not be detained at the detention home. The building is not designed to detain anyone who has a notion to leave.

We do not need or want a jail for children. We do not need any institution to be operated as an orphanage. For most of the wards who are cared for at the detention home there can be found private homes after a few weeks or a few months of investigation.

Some members of the board of supervisors are talking of spending \$40,000 or \$50,000 and entering on a PWA or WPA project to build a detention home. Why is it necessary to build in that fashion? Those who have compared the construction and the cost of construction of the Hall Memorial library with the postoffice and other buildings constructed by PWA and WPA must realize that the library was built better, will last far longer and that it cost much less in proportion than buildings constructed through federal agencies.

We believe that the supervisors and the board of control of the detention home will decide on a simple, home-like structure to replace the present building and we suggest that when they have decided on the plans that the county go ahead and build it without tying up with the PWA or WPA. Ingham county was able to build its tuberculosis sanatorium, its fine county infirmary and one of the best jails in the state without having to join with federal agencies in an orgy of extravagance. Let's build the sort of detention home we need with our own money. We will have a better building and at less cost of construction and maintenance than we will get by matching extravagances with Washington.

REMOVE ELECTRICITY SALES TAX

Since the enactment of the state sales tax there has existed an inequality among customers. The sales tax is a tax on the ultimate consumer, not a tax on the retailer, on the manufacturer or wholesaler. It is a tax designed to be collected from the consumer.

It happens that many municipalities own their light and power plants. The sales tax law exempts customers who buy from municipal plants from paying the tax. Customers of privately-owned utilities must pay. If a Mason family uses \$5.00 worth of electricity a month that family must pay 15c to the state. When a Lansing family uses \$5.00 worth of electricity there is no tax to pay. That difference amounts to \$1.80 a year.

If the distributors and not the customers were taxed there would be logic in exempting municipal plants. Distributors act only as tax collecting agencies of the state. When returns are made to the state, retailers are in fact paying to the state the taxes collected from customers.

To exempt its residents from payment of all state sales taxes all a city would have to do would be enter all business fields. A city could establish its coal yard, grocery store, automobile agency, shoe store, clothing store and other retail outlets and under the same ruling upheld by the courts in the tax on electricity residents of the city would have no state taxes to pay.

Either all consumers of electricity should pay the state sales tax or none of them should pay. If present legal provisions allow exemptions to those who purchase electricity from municipal plants then all purchasers of electricity should be exempt from paying the tax. The present legislature should remove the existing inequality from the sales tax law. It has existed for five years and in that period thousands, perhaps millions of dollars, have been taken from customers of private utilities and paid out in state aid to electricity users in cities where no tax is levied on consumers. The present situation is manifestly unfair and should be altered at once.

Request has been made by the state hospital commission to have the name of Wahjamega, the state institution for epileptics, changed to Caro state hospital. It is disclosed that Wahjamega is not an Indian name, as most of us supposed, but is the name manufactured by the former owner of the land. He took Wah from his own initials, William A. Hart; ja from the initials of his son, James A.; me from the initials of his wife, Mary Elizabeth; and ga from the initials of another son, George Albert. The name of the institution should remain Wahjamega. Such ingenuity should be rewarded.

VOTING AT CONVENTIONS

The proposal that delegates at state conventions cast secret ballots to circumvent the machinations of political manipulators was given a try at the Ingham county republican convention held in Mason last week. Although secret balloting takes more time, and in a large convention might be cumbersome, it works. Delegates may cast their ballots for whom they please without going along in blocs on the unit vote system.

Secret voting could be speeded up in state conventions by the use of voting machines. Ten or 12 voting machines could be set up and the delegates could file through voting lanes, showing their credentials to those in charge before being allowed to vote.

Political manipulators like the unit rule where a county casts its entire ballot for certain candidates. It is unreasonable to suppose that a county casting 44 ballots as does Ingham at republican state republican conventions has a delegation all of the same mind. Secret voting would permit delegates to vote as their consciences dictate without fear of embarrassment or political recrimination.

Secret voting would accomplish something else, too. It would give delegates a sense of responsibility. It would give them a direct hand in choosing candidates.

For years both political parties in Michigan have charged each other with steamroller tactics at conventions.

And the charges have been true, as most state convention delegates will attest. Why not try the secret voting method?

ROADSIDE BEAUTY

The state legislature will again be asked to pass a law to protect the beauty of Michigan roadsides. A bill was introduced at the last session but it was amended to death and finally withered on the vine. Garden clubs, women's organizations and groups interested in the tourist industry are now marshaling their forces for another try. This time the legislative program has the support of Murray D. VanWagoner, state highway commissioner.

Commissioner VanWagoner points out that highway beautification has brought commercial development to offset the beautification, that the state highway department needs a new weapon in its beautification program and that the weapon must be a statute banning signs, shacks and other eyesores.

Restrictions favored by the highway commissioner would not be punitive nor designed to raise money. They would primarily regulate the erection of signs. Along scenic and tourist routes commercial boards and signs would be restricted to special zones adjacent to cities and towns.

Millions of dollars have been spent in Michigan to attract tourists. Many more millions of dollars have been invested in a highway system second to none in the world. We have been backward in protecting our investments. We have permitted manufacturers and distributors of shaving cream, beer, whiskey, cigarettes, patent medicines and other products to mar the beauty and in some cases actually make unsafe the use of our highway system. We have allowed shacks to be erected along roadsides without protest. Michigan roadsides should be protected against despoliation. Responsible firms engaged in outdoor advertising are as concerned as Garden club members about the despoliation of the scenery. They are willing to abide by reasonable regulations and want to have the present sorry messes along highways cleaned up for their own benefit. With the tourist industry, civic clubs, outdoor advertisers and the state highway commissioner all in favor of reasonable regulation we should be able to begin soon on a cleanup campaign.

Government of the people, by the people and for the people doesn't mean chiseling a Monday off when Lincoln's Birthday falls on Monday. If state and county officials keep on we'll have as many holidays as Mexico.

TAXING PUBLIC OFFICIALS

There is a widespread demand among the general public, and even among some public officials, that salaries paid public employees in the upper brackets should not be exempt from taxation. There is a bill now before congress to levy taxes on federal and state employees.

Yet the levying of taxes on public officials isn't as easy as it sounds. According to Rep. William W. Blackney, "Under the constitution each state is independent, insofar as the general principles of government are concerned. The courts have repeatedly held that the United States government has no authority to tax state agencies. That has been the line of decisions since the inception of the federal government. But this bill, if passed, would change the whole picture, as the federal government would then have a right to tax various state agencies."

"The bill provides a reciprocal feature, however, giving the state the right to tax federal officers residing within the boundaries of the state. For Michigan to be benefited directly in any respect, it would be necessary for her to pass a state income tax law, in order to enjoy the reciprocal features of the bill."

To make \$5000 a year in business a man must have initiative, experience and ability. Such jobs are few and far between in these days. Yet in state and federal governmental circles such jobs grow on every tree. The man who earns \$5000 from his business may have a big cash investment. The man who receives a \$5000 political plum may have nothing invested. Maybe our salvation lies in having the federal government tax state jobs out of existence and the state government, in turn, balancing the federal budget by punitive taxation on federal employees.

What's become of the San Quentin hunger strike? Did the inmates win their point for strawberry shortcake twice a week?

THE TABLES TURNED

If a saving sense of humor existed among the economic planners in Washington they might avoid some of their inconsistencies. The current blast from the rural electrification administration against a Michigan power firm is a ludicrous case in point.

The REA, it seems, is exceedingly wrath because the private utility in this state is offering to serve farmers at rates which are lower than those which the REA co-operatives can offer. Ignoring the fact that the private farm rates have been the same as city rates for ten years—long before the REA came into existence—the administration attempts to create the impression that the power firm is to be condemned for giving the people power at low cost.

The inconsistency of the situation is to be found in the frequent utterances from Washington demanding lower rates for consumers on the part of the private utilities. Government competition, it has been widely heralded, would provide a yardstick which would measure the private rates and force them down to a point at which the consumer might enjoy the benefits of service to a larger extent.

Now that a Michigan utility is discovered to be offering low rates a howl goes up in Washington to the effect that they are not fair to the government-sponsored lines. The REA associations furthermore are facing the prospect of raising their rates in order to make ends meet.

It makes a difference, it seems, whose toes are trod upon. When a government subsidized system is able to underbid a private firm that is all right because it is "for the good of the people." But when the private firm turns the tables it is all wrong, the Washington planners intimate.

The customers who enjoy the lower rates, we suspect, will be laughing up their sleeves. And the majority of the public probably will do likewise. In Washington, apparently, they have forgotten how to laugh.—The Grand Rapids Press.

Down by the SYCAMORE

Fred Parker and Mr. and Mrs. Earl Whipple prefer Florida to California. There may be more to see in California, they report, but it can't be seen before noon because of fog. They had a cool two weeks in California and then fled for Florida to get warm. Mr. Parker liked Florida so well that after arriving in Mason on Wednesday he set out for a return trip to Florida Saturday morning. He intends to spend two months fishing.

Rudolph Michtsch has an eye for beauty. * * * Another charming woman is Dr. Jay Corstut's nurse, reports LeRoy Lee who spent three weeks in the hospital. LeRoy is now hobbling about on crutches and will likely have to wear a cast for a month. * * * Just as I feared, several people stated that the picture of Dewey Craddock in the NEWS last week did not do him justice. * * * A refreshing woman politician attended the republican convention. Her name is Mrs. George O'Connor. She is a Young Republican. * * * Dr. William E. Clark says that he will join the republican party when his net income reaches \$5000. That's playing for republican parties.

Bill Cansfield of the Livingston County Republican-Press has purchased the Northville Record. Dick Baldwin of the Record must leave newspaper work because of his health. Last year he was just getting around after a major operation when he was punctured in the lung with a 22-calibre bullet fired by a wild shooter in a Northville shooting gallery. Mr. Baldwin was walking out his office door when he was struck. * * * Mr. Cansfield possesses the same high ideals held by Mr. Baldwin. Mr. Cansfield is the son of a Methodist minister. Mr. Baldwin is the son-in-law of a Methodist minister.

Clifford Walcott's father is a Jonesville dentist. Cliff's brother, a Ponton field and surgeon, is rightly named Carvor. Dr. R. Lehnhaide's father is an Ontario farmer. Claude Edgar roomed with Deputy Auditor General Gus Hartman when the two were students at Cleary. * * * Eber Robinson knows his figures. He spent many years in accounting and is now getting back into it. * * * Mrs. Ross Thorburn and Mrs. Dick Mills both taught public school music before they were married.

Wages paid to women teachers at the Mason school make no difference to the long list of applicants for positions here. Mason is known far and wide as a town where personable teachers always get their men, if they (the teachers) want them. There are now a round dozen of former teachers who have said "I do" to Mason men. Mrs. Howard McCowan (Miss Lillian Morford) was last to march down the aisle. I foresaw that event. She teaches the opportunity room and Howard has always been one who heeded the call of opportunity.

Of course, not every woman teacher wants to get married. In fact, according to reports filed with Nelson Hall, president of the Mason and Eden Bachelors' Club, there are six women members of the Mason teaching staff who can not be coaxed to abandon single blessedness. Yet isn't it nice that for those teachers who do prefer marriage to teaching that there are a number of willing men in Mason? This habit of Mason teachers marrying Mason men has raised the community I. Q. 7 1/2 per cent in the past five years.

Teachers make good wives, according to Ote Clipper, John Edgar, Gibbins Howlett and William J. McQuham. Personally I prefer stenographers; they like to take dictation. Some teachers are apt to be pedantic although Mrs. McCowan and other former teachers now residing in the Sycamore valley could not be so classified. Mrs. C. H. Hall was a No. 1 stenographer before she was married. So was my wife but she doesn't take dictation as well as she once did.

"Music has charms to soothe the savage breast, to soften rocks, and bend the knotted oak." I thought the quotation was meant to apply only to hearers until last week it came to me that the charms affect the players more than the hearers. I heard Mrs. LaVange Wyman, Miss Hattie Lucas, Joan Davis, Phyllis Bushnell, Margaret Everett, Lucille Dean, Ima Palmer and Ruth Collar play their instruments and I discovered that their music has given them charm. They are calm, self-possessed, confident and gentle in manner. They soothe themselves with their own music just like politicians convince themselves with their own bombast.

Confidence is a great asset in music, in politics, in sports and especially in the scotchish and gavot. * * * By the way, Jerry Strong and his band will play for a dress-up party at the Legion Memorial building Saturday night.

Founders Day Observed

In honor of Founders Day a program and banquet were enjoyed by the P. T. A. in the school cafeteria Monday night. Preceding the supper Miss Tessa Elliott, a teacher, and chairman of the evening's program, conducted the candle-lighting ceremony, explaining briefly the work. She asked Suzanne Troost, a kindergarten pupil and whose birthday anniversary it was, to light the candle and she named the two women, who originated P. T. A. Mrs. Mae Clever, a member of Holt P. T. A., since its organization, was asked to light the one representing our country, Miss Elizabeth Chandler, the English teacher, was asked to light the candle for the teachers and A. M. Knowles, president of P. T. A., lighted the one for the organization. A business meeting followed the supper, when Mrs. Romella VanWert, kindergarten teacher, reported on the success of the milk project. A motion was carried to send a delegate to the State P. T. A. convention at Sault Ste. Marie, in May. The delegate will be appointed at the next meeting. A nominating committee was selected: Mrs. Simmons, Mrs. Stuart Openlander and Mrs. A. W. Brown. Election takes place at the next meeting, March 13. Miss Marjorie Cooley entertained with a piano

solo and Maurice Green, Jr., played the violin, accompanied by his mother, Mrs. Maurice Green, Sr. of Lansing. The speaker of the evening, Miss Mollie G. Hutzel, chairman of social hygiene, Michigan congress of parents and teachers, was introduced. She is the lecturer for the state health department and gave a talk on the art of living with a foundation of health, personality and character as developed by the home, school and community.

Cranberry Beans Are Popular State Crop

ACREAGE COULD BE DOUBLED FOR MICHIGAN.

When surplused by other farmers, it is news which merchants outside of the farm crop department at Michigan State college that a certain specific crop can be doubled without much danger to the price.

Cranberry beans are the crop. Michigan leads the nation now in production of these beans. Yet in each of the past three years the bulk of the crop grown in this state has been shipped by February 1. It is so again this year, in spite of 20,000,000 pounds of them produced on Michigan farms in 1938. There is only an estimated 15,000 bags left in elevators.

Miners in several states lead the demand for the cranberry beans, says H. C. Fisher, head of the farm crops department at the college. The market lies in areas in Pennsylvania, West Virginia, Kentucky and Tennessee. California also produces some of the cranberries, but not as large a crop as does this state. At present the market quotations are \$4.50 a bag of 100 pounds, while the white pea or navy bean is obtaining around \$1.75 a bag.

What happens when the cranberry type is gone? The miners then turn to the pinto, grown in Colorado, but their first preference is for the cranberry.

Not much danger is seen in over-expansion in 1939. There is not sufficient seed to overplant beyond probable market demands. Another reason is that elevator men estimate Michigan farmers can double the cranberry bean production without injury to the market. Yield is nearly comparable to the pea type, and some additional precautions must be taken in harvest to avoid moisture injury.

SPORTS

NO OVERTIME NEEDED FOR ORIOLES TO WIN

CHARLOTTE TEAM TOO FAST FOR MASON CAGERS.

No overtime was needed for Charlotte to defeat Mason 28 to 20 at Mason Friday night and walk off with the Capital Circuit basketball title; at least a share of it. The Orioles still have a pair of games to play but it's a good bet that they will win.

In the first game between the two teams six weeks ago it took two overtime periods to decide the issue in favor of Charlotte. On Friday night the game was in the bag after the first five minutes. Mason didn't go into high gear until the last period and then the grade was too steep. In the last quarter Mason outplayed Charlotte and climbed up to within five points, 25 to 20. There Mason bogged down again and the Orioles coasted to win.

The Mason team was off form. Ball-handling was sloppy, shooting was inaccurate and there was a lack of drive. The Charlotte cagers ran circles around Mason and the Orioles

burged through the Mason defense (three-around) until the last period. Paul DeRose, Mason's leading scorer, was handcuffed and chalked up only one point. Bill Bergin led the team with seven points while Bernard Pancher and Raymond Heinzelman added five points each. Jim Young put down a pile of free throws. Heinzelman played a whole of a game.

Ladd played great basketball for Charlotte. He started fast and continued the pace throughout the game to rack up 12 points. Wetling, a substitute forward, aided the Charlotte cause with a pair of fancy tomato Tosses also played good ball. In fact, man for man, the Orioles were faster, more accurate and more aggressive than the Sycamores.

Ladd put down five points before the Mason lads realized the game had started. The score stood 11 to 5 at the quarter with Bergin hitting with a one-hander and Heinzelman swinging the mesh from far out. DeRose made his only point of the game.

Bergin was injured and had to have first aid during the second period in which the score continued mounting. It stood at 16 to 6 before Pancher and Heinzelman each made fancy tosses. At the half Charlotte led 20 to 11. Mason couldn't keep even the third

period and saw the score mount to 25 to 14.

Mason's only threat was made in the first two minutes of the last quarter. Bergin and Pancher each contributed three points to narrow the count to 25 to 20. The Orioles were plainly worried and took time out. When play was resumed the Sycamores had lost their ardor and Charlotte picked up two charity points in a fast and furious four minutes.

The Mason reserves failed to stage their long-delayed comeback against Charlotte and lost 29 to 21. A third-period drive narrowed the score to 21 to 17 and then the Mason boys faded. Don Lee and Morris Bailey played good basketball for Mason.

MASON RECOVERS FORM TO DEFEAT REDWINGS

ONLY ONE GAME REMAINING ON SCHEDULE.

Mason high school plays its best basketball Tuesday night, taking St. Johns 39 to 15 Tuesday. On Tuesday night of last week Mason mowed down Eaton Rapids 31 to 9 and lost to Charlotte 21 to 17 and then the Mason boys faded. Don Lee and Morris Bailey played good basketball for Mason.

Just one game on the regular schedule remains for Mason, tied with Eaton Rapids for second place in the conference with two losses each. The Cardinals still have Charlotte to play and Mason has the Grand Ledge Comets so it is almost a foregone conclusion that Mason will have second place to itself. Charlotte has not lost a game. Mason has a rest this week end, the Grand Ledge tilt being billed for Friday of next week. After the Comet game comes the district tournament at Lansing where Mason is entered in Class C.

COUNTY LEAGUE TEAMS COMPLETING SCHEDULE

DANSVILLE AND LESLIE TO MEET FRIDAY NIGHT.

By Nicholas Kerbaw

With but one more week to operate, attention in the Ingham county high school league is focused upon second and third places in the race as teams prime themselves for the acid test offered in the district tournaments to be run off at Williamston on March 2, 3 and 4.

The bulk of county games will be run off Friday night with Holt visiting Okemos and the vaulting Webberville team engaging Fowlerville. This battle will determine just which team will occupy the bracket next to the Williamston and Dansville teams. The remaining outfits will square off in non-league assignments. Haslett observes the lone open date. Stockbridge and Webberville, tangling one week hence, will ring down the curtain on the 1938-39 schedule.

Williamston, by virtue of its 29-16 victory over Okemos last week, steps into the charmed circle and for the second consecutive year claims a share of the league buntings. The Hornets amassed a record of seven league victories while dropping but one game, a 30-21 thriller to Fowlerville a few weeks ago. Ronald Stover and Hees led the Hornets attack in the game, scoring 12 and six points respectively. Cooper and Stark were high for Okemos, tallying seven and four points.

Dansville, maintaining the pace set by the Hornets by winning a 38-14 game from Haslett, last week, will automatically claim league honors after Friday night. Meeting the newly reinstated Leslie Blackhawks Friday will hardly affect the standings regardless of the outcome of the game. Dansville has lost but one game, that being to Williamston two weeks ago. It is rumored among those close to the Ingham outfit that when the league meets at East Lansing, Next Wednesday, games scheduled between Leslie and Williamston, Webberville and Okemos, prohibited because of the Hawk's recent suspension by the state athletic department, will automatically pull other league games into the fire, with a possible forfeit on all eight games that Leslie was figured on for the campaign. Should this action become official, the standings in the league will be changed slightly as the Hawks hold a victory over Fowlerville, played at the season's outset before Leslie's difficulty with state athletic circles arose.

Unable to set a special date for a rematch, Williamston automatically claims a forfeit on their game by a 2-0 score. According to J. E. Soper, Williamston coach and league secretary, the following statement is made: "The basketball schedule includes nine teams of the Ingham County interscholastic association. In reckoning with the point system adopted by the league last year Leslie's games must be included, whether actually played

or not. We regret that we are unable to play Leslie this year, but a filled schedule would force us to exceed the two games per school limit of the high school." In considering the Williamston view, Coach Soper bridges is gunning his Dansville Aggies to copy their game with Leslie to insure Dansville's qualification to the title should special restitutions offset the Aggies in case they come out on the short end of the score. As a result of the bone of contention, Friday's game between Dansville and Leslie is billed as a non-league affair.

The Aggies, as previously noted, had it comparatively easy against Haslett. Getting off to a 10-point lead in the first quarter, while the visitors had yet to connect, Dansville rode into a 16 to 5 score at intermission. The pace was maintained in the third and fourth quarters, with 10 and 12 points being scored respectively, while Haslett's best produced six points in the third stanza and but three in the last. James Scripser with 12 points led the Aggies with Bud Anderson and Lowell Somers following with 10 and seven points, respectively. House was high point man for Haslett, scoring six points.

Leslie's basketball prowess showed little effect from the penalty last week when they flashed plenty of zipper to defeat Haslett by a 37 to 21 score. The game was Leslie's first interscholastic affair since January 6. The first half lacked the usual Leslie luster with both Stockbridge and the visitors fighting at a 10 to 9 score when intermission arrived. However, in the third quarter, Hardy Whitney and David Carter, big guns in the Hawk attack, unleashed a virulent bomb on the Stockbridge court, and ran wild to lead an 18-point third quarter assault. With such a lead established, and the pace set, Leslie continued to pour it on, with nine additional points following in the last quarter. Whitney scored 17 points while Latter scored 17. Regardless of how considered in league circles, Leslie is going to be tough in the district meet.

Fowlerville spurred in the final quarter to defeat Holt by a 24 to 16 score Friday night. Bill Outwater paced the winners, scoring 10 points alone while the Ramblers were held sharpshooter, to but one lone field goal. The game was keenly fought, and rough in stages as the Ramblers chose to offset their smooth functioning offense for a close checking defense that provoked 18 personal fouls.

A team that is showing power is Coach William J. Meyer's Webberville outfit. Since the Williamston massacre at the season's outset by a 61-15 score, Webberville has experienced a new deal. With a host of non-league games sandwiched among the league contests, the Spartans have sneaked into third place in the race with three victories overshadowing two defeats. Webberville's power may be determined by the fact they have lost only to Williamston and Dansville, teams figuring for the championship of the league. Not a bad record for a class D school in the class C bracket. Coach Meyer has mounded his squad into a scrappy outfit and his in Marvin Fraser a chap who has scored 107 points in 10 games this season, for an average of better than 10 points per game.

The remaining games for Friday night lists New Hudson at Williamston and Stockbridge at Jackson Tech. These are non-league affairs. On November 29, Tech defeated Stockbridge by a score of 15 to 11.

THE STANDINGS

Team	W	L	Pct.
Williamston	7	1	.875
Dansville	6	1	.857
Webberville	3	2	.600
Fowlerville	3	3	.571

Mason Merchants Lose To Jackson Goodyears

GAME HERE TUESDAY WITH JACKSON JEWELERS.

Without the services of Harold Huse and Gordon Dawson, the Mason Merchants were unable to outlast the Jackson Goodyears in a basketball game played in the Mason gym Tuesday night and had to absorb a 51 to 39 trimming. Mason had a lead in the third period but was unable to hang to it.

Novak paced the Merchants with 12 points with his former Olivet teammates, Crawford and Charles Swart, out, close behind. Crawford marked up nine points and Swart worked a light. Kenneth Cline, Orrin Kinnison and LeRoy Snelens were the only others available for duty.

On Tuesday night in the Mason gymnasium the Merchants will outlast the Youngs' Jewelers of Jackson, a team highly regarded in the prison city.

ONE GAME REMAINING

Just one game on the regular schedule remains for Mason, tied with Eaton Rapids for second place in the conference with two losses each.

The Cardinals still have Charlotte to play and Mason has the Grand Ledge Comets so it is almost a foregone conclusion that Mason will have second place to itself. Charlotte has not lost a game. Mason has a rest this week end, the Grand Ledge tilt being billed for Friday of next week. After the Comet game comes the district tournament at Lansing where Mason is entered in Class C.

ESSAY HONORS AWARDED TO FIVE 4-H MEMBERS

SAULT STE. MARIE YOUTH IS WINNER

Five boys and girls in 4-H club work in Michigan have been named winners by a Detroit committee for their recent work in submitting an essay on the subject "Where and How Are Livestock Prices Established?"

William E. Dickinson, Jr., Sault Ste. Marie, takes top honors and a watch for best presentation of the answers. The second place contest was announced in December during conduct of the ninth annual Michigan 4-H Livestock show at the Detroit stock yards. The show and essay competition received cooperation of the 4-H staff of Michigan State college.

Judges were Howard Porter, superintendent of the yards, and Walter Chambers, secretary of the Detroit Livestock Exchange.

Other awards in the essay contest named John Houseman, Britton, for second place; Bruce Sibley, Cass City, third; Arlene Marshall, Concord, fourth; and Patricia Bolander, Lapeer, fifth.

The Dickinson boy's essay pointed out that supply and demand prove the two most important factors in determining prices.

Weather is credited by the boy for influencing both demand and supply. Business conditions in domestic markets and the effects of exports and conditions abroad also are pointed out in the essay as additional factors.

Some Sault Ste. Marie humor crops into the winning essay. The writer points out that farmers as yet have been unable to develop a hog that is all pork chops, ham or bacon, or a steer that is all steak. It still is true that one-fourth of a beef frequently brings as much as the other three-fourths of a carcass.

FARM GROUPS CHOOSE OFFICERS FOR YEAR

BREED ASSOCIATIONS RE-ELECT THEIR LEADERS

If names make news, Michigan State college has been abiding with news as dairy and livestock groups and other organizations met for annual sessions during Farmers' Week. Host to the thousands who attended despite snowdrifts were the agricultural division and the agricultural extension service of the college.

Many of the elections were re-elections. Michigan Breeders' association named Harold Harwood, Ionia, president; George A. Branaman of the college, secretary. Aberdeen Angus breeders again elected Sidney Smith, Lake Orion, president, and Avery Martin, Crosswell, secretary. Hereford men elected Harold Harwood, president, and Dan C. Miller, Swartz Creek, secretary.

Red Polled breeders re-elected John C. Killick, Doster, president, and Mark Westbrook, Ionia, secretary. Shorthorn breeders re-elected Eldon McLachlan, Ewart, as president, and Milo C. Shaw, Middleville, secretary.

In dairy associations, similar re-elections were common. The Holstein-Friesian breeders named Sarah Van Hoosen Jones, Rochester, to succeed A. L. Jones of Three Rivers as president, and M. A. Parsons, Linwood, vice president, and Herbert Miller, Ionia, as secretary. Ayrshire breeders learned their president, Howard E. Lamb of Hillsdale, was snowbound early in the week, so no election was held. Guernsey breeders named E. Scott of Charlotte, as president, and Henry Wigan, Lansing, as secretary.

Brown Swiss elections continued in office Stanley Maud of Plainwell as president and Ray Parker of Saranac as secretary but named W. E. Keller of Mt. Pleasant, as a new director. Jersey breeders kept George Cooper of Ann Arbor as president and S. H. LeTourrette, Flint, as secretary, but named Dale Dean, Hartford, as a new vice president.

In the Short Course association, principal officers were re-elected. They are Sidney Phillips, Charlotte, president; Lawrence Stewart, Lansing, vice president, and R. W. Tenney, college short course director, secretary. Directors named include Ellis Aldrich, Fairgrove, Raymond Bohnsack, Columblaville, and Charles Dimmick, Three Rivers, for one, two and three years, respectively.

FILM NEWS

Roy Rogers, co-star of the Republic Picture, "Under Western Stars," which opens Friday at the Fox Theatre, hitch-hiked to Hollywood from Cincinnati, Ohio, when he first made up his mind to "crash the movies."

Having no luck with the studios he turned to radio. It was nearly four years before he received his first screen role.

The new Roy Rogers-Smiley Burnette series of western pictures promises to make both of them full-fledged stars.

On the same program for Friday and Saturday is the timely story of International spy ring, based on the headlines of today's newspapers. It is a thrilling action story which every member of the family will like. The leading players are Ralph Bellamy and Fay Wray and the title of the picture is "Smashing the Spy Ring."

"Idiot's Delight," which co-stars Norma Shearer and Clark Gable, and opens Sunday at the Fox Theatre is directed by Clarence Brown. Others in the cast of this popular story are Virginia Dale, Bernadine Hayes, Lorraine Krueger, Virginia Grey, Paula Stone and Joan Marsh.

"The Storm," Universal's thrilling drama of marine wireless operators, comes Tuesday, with Charles Bickford, Barton MacLane, Preston Foster, Tom Brown and Nan Grey.

"Brother Rat," the screen comedy based on the recent Broadway success, comes to the Fox on Wednesday and Thursday. Frisella Lane and Wayne Morris head the cast.

Backs Dies Probe

WILLIAM W. BLACKNEY

Rep. Blackney, sixth district congressman, voted for the continuance of the Dies special committee to investigate anti-American activities. Said the sixth district congressman, "I received several hundred letters from Ingham county people asking me to vote for the resolution providing funds for the continuance of the probe."

On February 3 Rep. Blackney addressed the house on the resolution. He emphatically stated that he favored continuing the investigation begun by the Dies committee.

In his address before the house the sixth district congressman said, "I am particularly interested in this subject the last two years has been subjected to subversive activities and the part of outside radicals who came to Michigan in great numbers at the time of the labor difficulties, particularly in the cities of Flint and Lansing."

"Let me say first that the great mass of industrial workers in Flint and Lansing, and throughout my district, are law-abiding citizens, believers in the fundamental principles of America. The major difficulty during the strike occurring in Michigan, and particularly in my district was due to the propaganda spread by outside radicals."

"The testimony of the witnesses from Flint who appeared before the Dies investigating committee, under oath, stated conclusively that the great trouble was the presence and activities of outside communists and radicals who were using the local situation as a means of spreading their anti-American doctrine."

"We hear a great deal of the floor of congress in favor of freedom of speech. I know full well the constitutional provision which guarantees to each one freedom of speech. But I wish to call the attention of the house to this thought: that there is a vast difference between the freedom of speech guaranteed by the constitution, and unbridled license of speech as used by the communists and radicals who do not believe in American principles."

"I think the time has come in America when, instead of shedding useless tears in favor of those who do not believe in American institutions, we should pay some attention to the great mass of honest citizens who do believe in the constitution and who do believe in the orderly processes of government."

"In my judgment, one of the great causes of the spread of subversive doctrine in America has been the loose administration of our immigration laws. I believe in immigration properly regulated but I do not believe in letting down the bars of immigration so that radicals from foreign countries can come in every day and become law-abiding American citizens. For these people I have the utmost respect; but for those who come from foreign soils, unwilling to become citizens of the United States, unwilling to take the constitutional oath as citizens, but who come here for the sole purpose of undermining the principles of our government, for these people I have the utmost contempt."

"I think the quicker we put teeth in the immigration laws the better for us. I think the quicker we deport aliens illegally here the better for America. In other words, if aliens come from foreign soil, unwilling to adapt themselves to American principles and to become law-abiding citizens, let them be sent back to the land of their birth. America has no use for such people."

"I can honestly state that the Dies investigating committee has done much to alleviate the radical situation in my home city and the effect of the committee's activities, particularly in my home state, has been greatly beneficial and salutary. I am constantly receiving letters, letters by the hundreds, from patriotic citizens of my district, who stress the thought that the United States should free themselves from those radicals who do not believe in our form of government, that those who are here illegally should be deported, that the immigration laws should be greatly strengthened and then rigidly enforced. If we are to preserve the great heritage of American institutions and love of country, then this must be done, otherwise the great sacrifice made by loyal American soldiers who were willing to give their lives for the preservation of the constitution and the American form of government, was in vain. The great majority of Legionnaires, of Spanish War veterans, and of other soldier organizations, are preponderantly in favor of the continued investigation by this committee."

WEATHER OBSERVATIONS

Weather has been normal the past week. Saturday, Sunday and Monday were beautiful days with the sun warm during the day and the mercury slipping below freezing at night. There was a cold fog Tuesday. Wednesday was cold with a few wisps of snow. On Wednesday night the mercury dropped to zero. It rose Thursday morning and the sun came out bright.

Mrs. J. B. Dean heard wild geese going over Sunday night. That means a breakup in two weeks, according to weather prophets.
