In the best use of pictures the News took second with Lapeer County Press first.

In overall judging for the Michigan Press association general excellence contest the Ingham County News placed second with Lapeer taking first and Clinton County News taking third.

A lot of people, including you our readers and advertisers, helped make this record in competition with the outstanding weeklies in Michigan.

Board Tries To Pare Swimming Pool Bids

Monday night considered once Columbia and Aurelius roads, more the matter of bids for the proposed new swimming pool to be built at Mason senior high school, but came to no definite decision as to how to solve the problem of too high bids on the project.

Last week the board opened bids for the pool project. The 3 lowest bids were about \$38,000 higher than the \$200,000 voted for the pool construction.

The board Monday night received a tabulation of bids prepared by architects and also suggestions from the low bidders to pare the costs to keep the pool within the budget.

The pool architect also suggested ways to reduce the cost. The board took the matter under advisement and set another meeting for Thursday to act on the bids.

Mason, Williamston, Webberville Area Seeks Uniform Planning

Seeking an orderly system of zoning and planning for areas of US-127 interchanges to be built at the north and south boundaries of Mason, a group representing governing bodies of Mason, Vevay township and Alaiedon township, met at the city hall in Mason Tuesday night to plan a cooperative movement to assure orderly development of the areas.

Robert Young, executive director of the Tri-County Planning commission, was present in an advisory capacity.

The group included Lewis Wilson, Alaiedon township supervisor and his township board and zoning board; Supervisor Wilfred Jewett of Vevay township and his township board. Mayor Gilson Pearsall and members of the Mason city council and Robert Shafer, chairman, and members of the Fire Chief Hugh Silsby re-Mason city planning commission.

S-T-R-E-T-C-H is necessary in this game of modern basketball and that's what Mason's Larry Zigler and O'Rafferty's Bill Murphy were doing Saturday night in this action under the basket. Leo Bateman was giving with the facial expression in an effort to help Zigler get off his shot.

FINGERTIP CONTROL of the ball is essential in basketball but this Okemos player seemed to do all right taking the ball the hard way. Joe Schaeffer and Bill Strait are the Mason players.

OOPS, where did the ball go? Mason's Les Jones and Bill Breckenfeld and Dick Vary of Okemos didn't have the answer on this situation but Mason's Ken Cornelisse has his eyes on the round ball.

At Haslett Friday

Mason Bounces Back Highlanders slowed down the game with a stall. They were able to ride out the storm. Gary Kowalske was high man for Howell with 16 points. Jim To Take O'Rafferty

After losing to Okemos Friday night Mason bounced back with its third win of the season by defeating O'Rafferty 64-57.

boys will try to make it the fourth slowed down in the second period win of the season in a game over with Mason leaving the floor

The first time around Mason lost a close one to the Lakers after leading all the way. The Bulldogs have their fangs showing for this one.

In order to win Mason willhave to come up with a way to stop Steve Johnson and Pat Main. Johnson has come on strong after recovering from football injuries and is a power to reckon with under the backboards. Main has been scoring at a steady pace with most of his shots coming from out on the floor.

Against O'Rafferty Jim Bodrie again had an excellent night. He ended up with 28 points or 10 field goals and 8 free throws. Leslie Jones added 14 points to the Mason total.

For O'Rafferty Mike Mierzwa was high with 14, Mike Early

came through with 13 and E Murphy hit for 10. Mason had a good first quarte finishing the period on the los Friday night Coach Bob Finch's side of a 20-15 count. Both team

Okemos Scalps Mason

Okemos did the expected Friday night. The Chiefs dumped Mason 81-60. Coach Bob Baker's. crew did the damage in the first half with 21 points in the first quarter and 23 in the second and then played it cool with all the squad getting into the act.

All told 12 Chieftains had a hand in the scoring with Doug Rettinger and Mike Baker sharing the honors with 15 each, Bill Breckenfeld put in 10 points in his limited appearance.

Coach Bob Finch used all his crew, too. Jim Bodrie continued his hot shooting with 17 points with all but 2 of them coming in

Leo Bateman was next in the scoring column with 11 points.

Williamston Gains **County League Lead**

An important victory last Friday night placed the Williamston Hornets in first place in the Ingham County league when they topped Fowlerville 74 - 60. Previously, Fowlerville had been the only team able to outscore the Hornets.

The Hornets are now 5-1 in the league with Stockbridge a close second with 4-2.

After a half-time tie score of 30-30, the Hornets settled down to eliminate their errors in the second half and managed to pull ahead so that by the final 5 minutes of the game a good margin had been accumulated.

According to Coach Dorow, team balance won the game for the Williamston 5. Jim Oesterle and Milo Gaffner concentrated on stopping the Fowlerville shooters while Mike McNeilly and Rod Kirk concentrated on the scoring.

Both McNeilly and Kirk played outstanding games. McNeilly made 23 points and kept the Hornets in the game. Kirk played an outstanding floor game and was able to come through with the important baskets at the cru-

Stall Works For Howell

Howell used a stall to good advantage Saturday night and came out on top of Eaton Rapids 61-50. The win boosted Howell into third place with a 5-4 record. The Greyhounds ended up in sixth place along with Mason with a 3-6 mark.

Howell moved in front 19-11 in the first quarter and at the midway point they were in front

Howell lost ground in the third and with 3 minutes remaining in the last quarter the Greyhounds climbed to within 4 points of

Simmons was next with 10. For Eaton Rapids Dana Houston was the only man in double figures with 13 points.

Raider Rally Falls Short

Haslett dumped O'Rafferty last-quarter Raider rally for a 64-58 victory.

Haslett went in front 15-6 in the first period, played the Raiders on even terms in the second quarter, had one point pared off the margin in the third and 2 pared off in the last period.

It was Bill Youatt's turn to lead the Haslett scoring attack. He bagged 17 points while steady Steve Johnson came through with 15 and Pat Main contributed 10.

For O'Rafferty Jack Maloney was high with 12. Mike Mierzwa had 11 and Dave Mlenko came through with 10.

cial time. Both were excellent ball handlers.

After McNeilly's high score of 23 points came Kirk with 17 points and Gaffner with 14 points. McNeilly also scored on 13 out of 16 free throws.

High scorer for Fowlerville was Tom Tanner with an outstanding 29 points. Following him with a 2-figure score was Gary Benjamin with 10. Most of Tanner's baskets were made from the outside and were impossible

Fouls also hurt Fowlerville with Williamston making 24 out of 37 free throws while Fowlerville only had 8 out of 17

Freshmen Take Chiefs

Led by Dan Crowe and Pat Birney, the Freshman basketball team won its fourth game in a row as it beat Okemos Thursday 67-43. Crowe and Birney each scored 16 points as the team continued to win in a "streak" that began before the holidays. Gary VanderVeen was right behind the leaders with a total of 13.

Only in the early moments of the second quarter did the team show any signs of weakness and that was only through a series of bad passes and other ball control errors which did not prove costly. Quickly regaining its form the team went off the floor at the half with a 35-26 lead.

The secret to the winning ways seems to be good teamwork, making high percentages of shots from the floor, and exhibiting some of the skills that the members of the opposition have not mastered, according to coach Leigh Beagle.

This week the team willentertain Haslett as it tries to repeat a pre-holiday victory. The game is at 7:00 p.m. at the junior high

Chiefs Edge Haslett 60-54

Okemos slapped down Haslett Saturday night 60-54. The win allowed the Chiefs to stay in second place in the Capital Circuit. Haslett has a 6-6 record. Friday night Haslett will enter-

tain Mason. It was again Bill Breckenfeld's night to shine for the Chiefs. He dumped in 24 points in leading his teammates to the win. For Haslett Pat Main was high with 16 and Harold Campbell tallied

It didn't look too good for the Chiefs at the start. Haslett moved to a 12-9 lead in the first quarter but Okemos came on to make it 26-26 at the half. Then the Chiefs grabbed a 4-point margin in the third quarter and added 2 more in the last period.

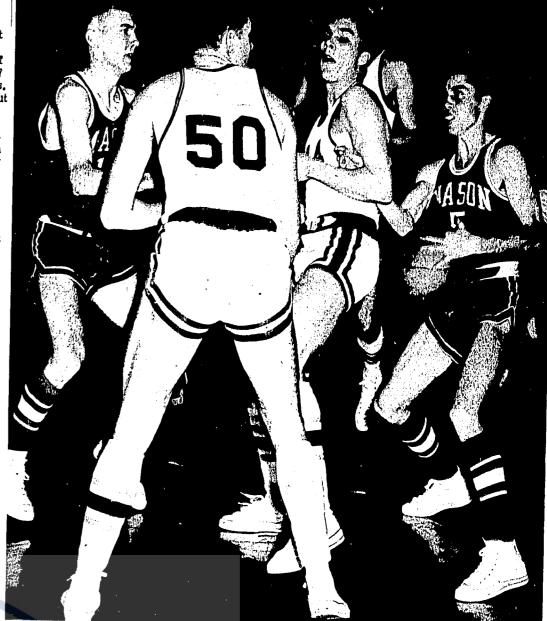

Junior High Hits .500

Mason's red hot eighth grade basketball team bumped into trouble Wednesday night against Okemos, losing 67-40 but the seventh graders saved the day by taking a 31-27 decision from the Chiefs.

In the seventh grade game Mason fell way behind in the first half but came on strong in the last half to post the win.

Dan Ware and Dave Fink shared the scoring honors for Mason with 8 points each. Randy Caltrider was next with 7.

In the eighth grade game Mason fell way behind in the first quarter and struggled the rest of the way trying to catch up. Craig Webster was high man with 9 points. Steve Reeser, Ron Taylor and Ron Perrine each shared

MASON'S BILL FULLER didn't want to go along with Jim Westwood Friday night but the Okemos player insisted and put on an arm lock. Leo Bateman is a witness to the strongarm play. Dick Hill is No. 50.

2 To List

Mason's reserve basketball team continued to mow down all comers with 2 big wins over the week end. Friday night the Jayvees beat Okemos 90-77. On Saturday night it was a little closer as Mason downed O'Rafferty

In both games Jim Powers and Paul Allaire carried the bulk of the scoring load.

Against O'Rafferty each came up with 15 points. Dan Webster bagged 10.

Jayvees Add Stockbridge Takes Leslie With Ease

In a showdown for second place in the Ingham County league, Stockbridge easily defeated Leslie Friday night on the Stockbridge court 80-59. The Panthers were led to victory by Rick Owen with 24 points and Mike Barbour with 22.

Leslie's Blackhawks jumped off to an early lead and held a 17-13 advantage at the end In addition to Owen's 24 and of the first period. Stockbridge moved into the lead in the first minute of the second quarter and never trailed thereafter.

By halftime the Panthers held a 36-26 margin. Both teams were hot in the third period as Stockbridge collected 23 points to Leslie's 21. The final period was all Stockbridge as the Panthers outscored the Blackhawks 21-12. The victory left the Panthers

The game started out with Gabriels in the driver's seat. The Rocks pushed to a 15-13 lead in the first quarter and they ended the first half in front 33-25. It was a different story in the third period, though. The Grey-

hounds came onto make the score 49-46 at the 3-quartermark. In the final period the Greyhounds continued their hot streak until foul trouble took over. In the final 3 minutes Eaton Rapids lost 3 players thanks to the referee's whistle. Then the Rocks clinched the game with the last ditch foul shot of Larkins.

a decisive role in Leslie junior varsity's second defeat of the season Friday night as Stockbridge came through in a squeaker 62-59. It was the second defeat for the junior Hawks and both came at the hands of Stockbridge, the first by 2 points. Leslie was ice-cold in the first period and did not score until the 6-minute mark after Stockbridge built up a 13-0 lead. Coach Richard Moon sent in 5 substitutes and the offense began to click, but only slowly. At the end of the first quarter, the junior Panthers held a 19-3 lead as Bob

third quarter and outscored Howell 28-16 to pull out a 73-64 come-from-behind Capital Circuit victory over Howell at Howell Friday night.

Wtih Tom Hicks scoring 19 of his 25 points in the first half, the Highlanders carved out a 35-26 halftime lead. But Hicks ran into foul trouble the third period and sat out much of the second half. With Hicks on the bench and the Rams press working perfectly, the Ramstook over the lead and pulled away.

Terry Faught, Mary Burt and John Walsh were the big men in the third period for Holt, sweeping the boards and harassing the Highlanders on defense. Faught topped Holt scorers with 22 points, but Hicks' 25 was big for the night. Holt now stands 9-1 for the season with a per-

Guest speaker for the day, Don VanderVeen, landscape archiwas introduced by president, Mrs. Robert Seyfarth. He talked about shrubs and their care and showed slides to illustrate his talk. He stressed the importance of proper environment for shrubs if they are to survive and be beautiful. Pruning was also discussed and Vander Veen related to the group that this process is necessary for the health of any plant, shrub or tree. There is also a right and wrong way to prune different plants and also time is important to this process. Pruning can be used to control size and to increase yields as in fruit trees. Proper tools for pruning are also a must. Many questions were asked by members with specific problems and answered by VanderVeen.

President Mrs. Seyfarth conducted the business meeting during which time the group heard a report from Mrs. Chellis Hall on the Centennial organization meeting she had attended as the club will participate in this civic event. Mrs. Seyfarth also related forthcoming activities of the month so members could attend them and Mrs. Abe Cohn. program chairman, handed out ogram books for the nev year and these were reviewed.

Ingham County Library Since 1895 the reading public has followed what has come to be known as the "best seller" list. Webster defines best-seller as "a book or other publication sales of which are among the highest in its class". The appearance of a title on such a list is no assurance of its quality, but frequently books of literary merit also achieve record sales; in tribute to the national taste this latter instance is becoming predominant. Remember "How Green Was My Valley" by Richard Llewellyn; "The Keys of the Kingdom" by A.J. Cronin; "The Song of Bernadette" by Franz Werfel; "The Robe" by Lloyd Douglas; "Strange Fruit" by Lillian Smith? These were at the top of the list in the 1940's and are still widely read. The first fiction title to earn this distinction was "Beside the Bonnie Brier Bush" by Ian McLaren; now it has been consigned to literary obscurity but many of our grandparents

knew it as a No. 1 best-seller. A recent survey has shown a marked increase in the reading of good fiction since 1963. Much of this is due to the fact that "The Spy Who Came in From the Cold" is now celebrating its 55th week in bestsellerdom. All this goes to prove that the general quality that makes a real best seller has not changed except with the taste of the times. I seriously doubt if "Spy" could have been a best-seller 20 years

One can't help but wonder how many of the current crop will be remembered in 20 years. Will your grandchildren be reading "Herzog, The Rector of Jus-tin, " "Candy" or MacArthur's "Reminiscences"?

ing, January 26, the Women's society of Mason Baptist church learned about the Nevada-Sierra Desert ministry, Randy Rowe, MSU sophomore from Detroit, told of his experiences as a studeat missionary intern this past summer. Working under the direction of Rev. Keith Goss, formerly of Marshall, Michigan, Rowe joined several other high school and college students to conduct '2 week Bible schools in various Nevada communities. Illustrating his report with slides of the work he did, Rowe said that for many of the boys and girls these Bible schools were their only chance for Sunday school training of any kind. Of particular interest to the women were slides that illustrated the "receiving end" of White Cross work. The speaker assured the women that their White Cross work was greatly appreciated on the field. Following the missionary re-

port, Mrs. Janice McMichael led devotions around the theme of Making the Best of a Bad Situation.

Mrs. Richard Woodland and daughter, Carol, co-program chairmen, invited the women and guests to enjoy cake, tea and coffee served by circle members and to view the desert novelties the speaker had on display.

When is a Stranger a Friend will be the program presented by Miss Lorraine Demorest at the next Women's society meeting Tuesday, February 23.

many Long Distance rates are reduced

Low Evening Rates now apply to daytime calls on Saturday. Low Night Rates now in effect anytime on Sunday and one hour earlier on other nights.

Here's what it now costs you to make a 3-minute station call from Michigan:

	To Anywhere in Continental U.S. (except Alaska)	To Anywhere in Michigan
MonFri. 4:30 a.m. to 6 p.m. (Day Rates)	\$2.10 or less	\$1.00 or less
Saturday 4:30 a.m. to 8 p.m. MonFri. 6 p.m. to 8 p.m. (Evening Rates)	\$1.40 or less	\$.70 or less
Sunday anytime MonSat. 8 p.m. to 4:30 a.m. (Night Rates)	\$1.00 or less	\$.50 or less

The above rates apply only to station calls. They do not include the 10% Federal excise tax which applies to all calls, or the 4% State sales tax which applies only to calls within Michigan. Rates for "collect" station calls between points in Michigan are somewhat higher.

Probate Judge Reports On 1964 Court Business

James T. Kallman reported to the board of supervisors that during the year 1964, the court handled 764 estates, a decrease of 126 from 1963; 295 guardianships, a decrease of 1 from 1963; 157 commitments to state institutions (of which 36 were voluntary commitments), an increase of 29 over 1963; 17 determination of heirs, an increase of 7 over 1983; 18 poor persons, a decrease of 23 from 1963; 23 change of name cases, an increase of 1 over 1963; 268 adoptions, an increase of 63 over 1963; 32 determination of births. an increase of 6 over 1963; 49 delayed registration of births. a decrease of 3 from 1963; 121 marriage waivers, an increase of 1 over 1963; 82 inventories of safety deposit boxes, a decrease of 34 from 1963; and 1 drain

The court keeps no record of the number of secret marriages or minor settlement cases handled, and which consume several hours of work each week.

Juvenile division during 1964 handled 512 new delinquency petitions, and 126 new neglect petitions. It is necessary to have at least 2 hearings on each one of these petitions.

In the neglect division, the 126 petitions involved 276 children, with an average of 11 petitions per month. The court terminated the rights of parents of 42 children. The juvenile division averaged 219 children supervised in their own home; averaged 80 supervised in relatives' homes; 84 children supervised by private agencies; and an average of 218 children in court boarding homes. The average number of children handled per month was 601.

In the delinquency division, the 512 petitions average out to 43 petitions per month; and the average number of delinquent children handled by the court was 409 per month: 603 children were detained in the Juvenile Home for observation and study for a total of 4635 days' care of children last year. We placed 303 children on probation in their homes under the supervision of the Court; committed 19 to Boys' Training School and Girls' Training School; placed 19 children in private institutions, and waived 11 minors to Circuit Coart.

There are 3 groups of delinquency cases; Type A includes cases such as rape, robbery, aggravated assault, etc. There were 166 cases in this category. Type B includes running away from

Aurelius Board Petitions To Keep Name On School

By an act of the legislature of Michigan, approved March 11, 1837, the west half of the county of Ingham was set off and organized as a separate township by the name of Aurelius. The name had been brought here from Cayuga County, New York.

The townships of Onondaga, Leslie, Vovay, Delhi, Alaiedon, Lansing, Meridian and Aurelius have since been organized from the territory, originally in Aur-

North Aurelius, so named because of its location in the township, was once a village having a general store, blacksmith shop, tile and brick factory, sawmill, a cemetery, schoolhouse, Gleaner hall and a church.

In 1963 the U.S. government established a post office in the store. Daily mail was carried by horse and cart from Mason to North Aurelius and to Aurelius enter.

There are a few living today who remember coming to this post office to get their mail: some coming by horse, others walking.

The first North Aurelius schoolhouse, a log one, was built on the George Webb farm in 1844. This school was later replaced by a brick structure on the Northeast corner of section 9 and was named after Mr. Webb.

In 1880 a neat frame Union church was erected on the Southeast corner of section 4 by the Methodists and Baptists. The name North Aurelius church was easily seen above the front entrance. The 2 denominations alternated in holding meetings, the pastor coming from Mason.

East of the Webb school on the Northwest corner of section 10 the Gleaner lodge erected a large 2-story hall for their meeting place. The hall was used by the community for social gatherings. Dances were held on the second floor.

At a later date the Church was raised up and remodelled to make a basement for Sunday school classrooms and kitchen.

This Church was destroyed by fire in 1956 but a new one was built, just to the west, of brick and of modern design.

Nearly 40 rods north of Columbia and Aurelius road corners on the west side of Aurelius road in section 3, the Mason school district is now constructing a new elementary school. The school, according to the present vote of the Mason school board, will be named after former Superin-

tendent James Vander Ven. Looking into the future we, the township board, are certain this new school, which is only four and three-quarters miles south of the city limits of Lansing, will have great significance in the growth of the North Aurelius area of our township and the school name will be of great value to the community.

With the full realization that the board has full powers to name

The name North Aurelius is the school, the township board wishes to petition that the elementary school reflect in its name the long and rich history of this area. In support of this request a petition, circulated in parts of the school district, shows significant backing in this matter. It is our humble wish that the board should consider voting at its next meeting to change the name of the school from Vander

Aurelius Center

Sunday started the National Youth week. We who have children with us daily know only too well the trying times but must also remember the many many happinesses they bring and the lonesomeness that would exist

without them. The Aurelius Baptist church has listed the following daily emphasis for youth week: my heart, my will, my talents, my time, my possessions (money), my in-

tellect and my life. The church is showing its usual busy week which started Monday with the Board of Christian education meeting at the Merindorf home at 7 p.m. Thursday Mrs. Zembia Davis of the Home society will be the speaker. Saturday there will be a party at the home of Mr. and Mrs. Merindorf for the Friendship class.

The church also has announced that a nursery is provided during the worship for children 5 years and younger. Mr. and Mrs. Ben Hiebert will head it this Sunday.

The Baptist Youth Fellowship will have a party February 7 at 8 p.m. There are choir practices for the children and funior choir on Tuesday and the adult choir on Saturday.

Law Group Advocates

Changes The permanent committee of Michigan law enforcement agencies has approved for forwarding to the legislature the draft of a Good Samaritan act to provide Immunity from civil damages for any person who in good faith renders care or treatment of a person at the scene of an emergency outside a doctor's office or a place having proper medical equipment.

The bill is a companion bill enacted into law in 1964 to provide the same immunity for physicians and nurses who render emergency treatment at an emergency.

The present proposal is patterned after an Ohio law and results from damage suits filed in other states by persons who had been given emergency treatment and later claimed that because of it they had suffered ill effects. It differs from the provision covering doctors and nurses in that the immunity is not effective if there has been remuneration.

The committee also approved the draft of a bill which would make it a felony to forcibly assault or use or attempt to use a firearm upon a police officer. Because of the increasing prevalence of this type of offense, normally now classed as a misdemeanor, it is hoped to provide a greater punishment to

deter such attacks. The committee represents the M chigan associations of chiefs Library The committee represents the of police, sheriffs, circuit, recorder and municipal judges. justices of the peace and prosecutors, and the State Police and Attorney General's department. Among other actions it endorsed in principle a proposal for a lower court system plan offered by the Michigan Justices of the Peace Association for consideration by the legislature. The plan would substitute a county district court system for justices of the peace, an office which is to be abolished under the terms of the new constitution.

DEAR DORIS advice from **Doris Clark**

This Boy Takes Liberties

DEAR DORIS - Last year I took in my stepdaughter, who had been living with her mother but was unhappy there. Then I discovered she was about to have a baby. She is 17.

When the baby was born she refused to give him up because she said the boy was coming

back to marry her. Now she works but pays no board. She has started dating the boy and he is here all the time. He sleeps in her room with the baby and she squashes in with her younger sister.

I have five daughters and one

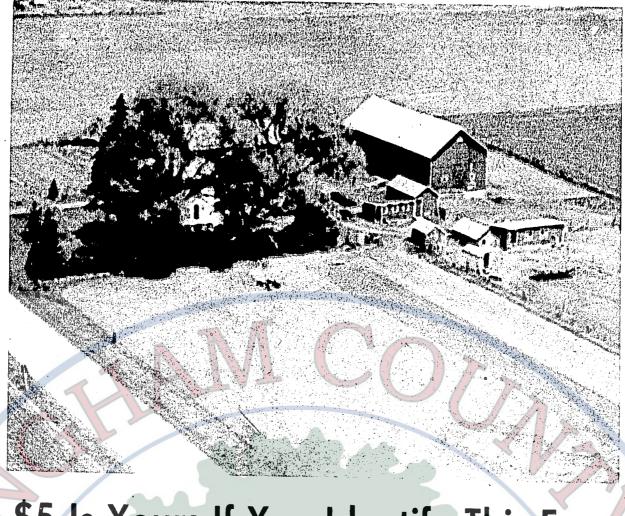

son. I don't think he should go upstairs, but I'm told I have a dirty mind.

DEAR FED UP - Protesting to me will do no good. Take charge where you are.

This unmarried father is taking liberties; your girl is assuming that they have a right to live like a family. At this point there is no real proof that these two are good marriage mates, since they are both adolescent.

You do both a real disfavor by permitting intimacies at this stage. Since apparently even her father is no help to you, seek personal counselling from the family agency in your area.

Loading Your Own Shotgun Shells

Here is what it takes to get started in the hobby of hand-loading shotgun shells at home. A good pastime for winter eves, the do-it-yourself project is not as complex nor as expensive as this display of materials looks. Set in the box (lower right) is the main item of equipment needed, a hand-loading set which retails for about \$10. The other items include a cannister of powder (upper right), cups full of wads, a hotplate for melting wax to seal the ends of loaded shells, shot, and powder; the bar serves to level off the measuring cups as these components are scooped up. For a step-by-step picture account of hand-loading, write the Conservation Department's Publications Room in Lansing. Ask for a free copy of "Shotgun Shells and Shell Reloading."

THE OTHER FOOT Dialogue remained the same, but the participants traded scripts in the early days of the

1965 legislative session. When committee assignments were announced, this session it was the Republican members who claimed they were the victims of unequal representation.

In past sessions, year after year, the Democrats complained they never got representation on committees proportionateto their strength in the Legislature. These were the years Republicans held majority control.

Tables turned this year and House Minority Leader Robert Waldron was given the role of chief complainer about com-

mittee assignments. Waldron apparently didn't feel he should issue a blanket complaint. He concentrated instead on the important committees, the same ones on which Democrats had attempted to gain members in recent sessions when the partisan

House division was nearly equal. Democrats this year increased the Ways and Means Committee, most powerful in the House, to 16 members. This is three above previous sessions, but the minority party still was given only four seats.

This important committee dispute was the only major complaint Waldron voiced, although in past sessions Democrats said they were also short-changed in two

other areas. Democrats long and loudly lamented that ruling Republicans refused to accept their recommendations for committee assignment of their own party membership. Waldron sald he was pleased his recommendations for GOP member placements were accepted this year.

The other traditional complaint, proportionate division of committees, found Waldron straddling the fence. He said Democrats "came close to the Republican-Democratic ratio of the total House membership" but "fell short of fair" on the more important working units.

GROWING PROBLEM Mental health must be allowed to remain an independent unit fective relief except from state of state government, according

to an advisory council serving in Being the largest government agency already, the council said, "Any further combining of the Department with other departments would interfere with its ability to deliver quality ser-

vice, rather than strengthen it." Goals of the department's new director, Robert A. Kimmich, are set high for the next few years.

"More people, and the resulttouched, the advisory council has ing increase in the number of farm and home animals, are putting greater demands on a veterinarian's time," he told some 650 veterinarians meeting at Michigan State university January 21.

> "The hours spent with the client away from the clinic has become a vital factor in the veterinarian's daily schedule."

Dr. Page said there are many advantages to treating both large and small animals at the clinic, one of these being a considerable financial savings to the

"There is less loss of time for the client in waiting for the 'Doc' to arrive, and there are generally more and better facilities for restraint at the clinic," he declared.

He also pointed out that the clinic offers the utilization of more aseptic techniques, and noted that better use can be made of laboratory facilities. Dr. Page said the problem of transporting large animals today is not nearly as great as it once way, due to better roads and greater accessibility to ambulatory vehicles.

He added, however, that regardless of the demands on their time, veterinarians will always be on call to treat those animals that cannot be moved or that must have immediate attention.

Bible' Ends 70th Year

The "Bible" for spraying Mi-chigan fruit trees has completed its 70th year of service to Mich-

igan growers. The Fruit Spraying calendar, prepared by Michigan State university, stands as one of the keys to the achievements and progress of Michigan's \$80 million fruit

"Fruit growers who follow its recommendations deliver unblemished, residue-free fruit to stores and processors all over the country," comments John Carew, chairman of MSU's horticulture department.

He says the spray calendar has earned the reputation of being one of the best of its kind in the world. It provides complete information on the selection of chemicals, the pests for which the chemicals are used and the best time of application for all fruits grown in Michigan.

"Chemicals are recommended only if they will not leave harmful residues on the fruit at harvest time," says Carew.

The Fruit Spraying calendar is prepared jointly by Drs. A. E. Mitchell, horticulturist, Paul Wooley, entomologist, and E.J. Klos, plant pathologist, all of whom are well known fruit pest control specialists.

The calendar is sent to county extension agents who, in turn, mail it to all interested growers.

Find a suitable place on the wall. Sit in front of a light and try to make this snow-shoe rabbit's portrait.

Dr. Mitchell points out that nearly every acre of Michigan's fruit crop is sprayed and many processors will not accept crops unless growers have followed the recommendations in the spray

of Registered Holstein breeders have set March 20, 1965, as the date for their second "Good Neighbor" observance. The nationwide program of personal, on-the-farm visits was first carried out in 1964 to encourage dairymen to switch to pedigreed black and white cattle. More than 30,000 active adult and junior members are expected to

"Building on last year's success, the national organization will support its 500-plus state and local Holstein clubs with program planning and direct mail maexplained Robert H. Rumler, executive secretary of Holstein-Friesian association of America. Individuals and groups of Registered Holstein dairymen will make calls on other farm operators in their locality. Still other groups will invite their neighbors to such planned functions as field days, barn meetings and dinner programs.

Long-term goal of Holstein "Good Neighbor" day is to increase the number of Registered Holstein herds in all parts of the country. This in turn will furnish a broader base of breeding animals to support the proportionately larger populations of Holstein dairy animals in com-

mercial milk producing areas. The March 20 event is primarily a contact program to acquaint dairymen with the opportunities for faster herd improvement and increased income potential with Registered Holstein dairy cattle.

"This personal contact approach with local success testimonials is considered one of our finest assets for continued growth of Registered Holsteins within the dairy industry," Rumler noted.

Mason Pupils To Attend Farmers Week

About 65 students of Mason high school are planning to visit the Michigan State university campus on Thursday. They will join students from all over the state of Michigan, farmers and other businessmen who will visit MSU during Farmers' Week.

Michael O'Malley, Mason high agricultural instructor, plans to "just look around", examining exhibits and displays.

UNIFYING FACTOR? Many observers are predicting the appointment of Ray C. Bliss (above) as new National Republican Chairman will help unify the GOP. Bliss, an Ohio businessman, remained aloof throughout the internal Republican bickering between conservatives and moderates.

'WHY?'

MMPA Gets New Contract

Southern Michigan dairy farmers and milk dealers last week reached agreement on a new 6-

month price contract. The contract provides that dairies will pay \$5 per hundred pounds for Class I (drinking) milk, delivered in Detroit, from now until July 31. Dairies in now until July 31. Dairies in other Southern Michigan cities Farmers will pay the same price less a location differential based on their distance from Detroit.

The new price is 3 cents higher than dairies have paid for the last year and will average a dollar per hundred pounds of milk more than farmers would receive under the federal milk marketing order.

Glenn Lake, president of Michigan Milk Producers association and chief spokesman for the 10 Michigan cooperatives involved in negotiations with dairies, said the new price agreement will be worth about \$900 to the average dairyman in the next 6 months.

"While the price we negotiated is not as much as we had hoped for," Lake said, "it is far more than any other group of producers in the nation have been able to bargain. We must now look forward to July when many of the uncertainties in surrounding markets should be removed and our bargaining position will be stronger."

Lake referred specifically to the Chicago market where dairy farmers recently rejected an amended federal order. Since Chicago is the center of the greatest milk producing area in the nation, many feel that the absence of a federal order in that market could have violent repercussions throughout the midwest.

Producer groups in the Chicago markets are attempting to head off a complete breakdown of pricing in that area but at last report had been able to extend their current pricing agreement for the month of February

The Michigan price agreement was the result of 3 days of negotiations between dairies and producers. Final agreement did not come until 6:30 a.m. Saturday, January 30. The previous agreement expired January 31.

Superintendents Meet

The Superintendents' roundtable, an organization of school superintendents in Ingham county will meet Wednesday at Waverly high school with Waverly Superintendent Edwin B. Olds as host. The principal subject matter to be discussed is planning a promotional campaign for the fixed millage vote, probably in April.

Six members of the Michigan department of agriculture will appear on the Farmers' Week program from February 1-5 on the Michigan State university campus in East Lansing. The event will be the golden anniversary of Farmers' Week in the state.

On the initial day Agricultural Commission Vice Chairmen Edward J. Wright of Saginaw will report on the state's livestock health program at the annual business meeting of the Guernsey Breeders' Association.

Agricultural Director G.S. Mc-Intyre will make two appearances. As chairman of the Michigan Potato Industry Council, he will preside at that organization's annual meeting at 10 a.m. Thursday. At 3:15 p.m. on Thursday he will discuss the legal responsibilities of his department concerning use of pesticides on field and forage crops.

Dual appearances also are on the program for Kenneth Van Patten, assistant chief of the Dairy Division in the Department. Wednesday at 11:30 a.m. he will talk on staying ahead of the milk inspector. But on Tuesday he will appear on an agricultural engineering and dairy panel to discuss the regulatory point of view in the "too - rapid expansion" of a dairy enterprise.

State Apiarist James Terrill. Jr. on Wednesday's beekeepers' program will review apiary inspection in 1964 and on Thursday will chair the afternoon program for beekeepers.

William Young, plant pathologist in the Plant Industry Division, on Tuesday afternoon will explain Michigan's program to provide nurserymen with disease-free foundation stock.

Mel Andrus, a Department marketing specialist, will speak on how an attractive roadside market pays dividends. His talk

will be Wednesday at 3:45 p.m. In the looby of the Engineering Building will be a "marexplaining the Seal of Quality, market news reports, and other

Farm Bureau Fights for Tax Reform

The president of Michigan's largest farm organization has placed the weight of organized farmers squarely behind an immediate program of tax reform.

In a letter to Governor Romney and all members of the legislature, Elton R. Smith, president of the Michigan Farm Bureau, called for tax reform this year, within the current session of the legislature.

His communication with the governor and legislators followed a meeting in Lansing, January 22, in which the Michigan Farm Bureau board of directors drafted a statement calling for reform in Michigan's present "inequitable and antiquated tax structure."

"No longer can local government survive and flourish by depending on a single source of revenue -- the property tax." they said. "Farmers, inparticular. find themselves in the unenviable position of paying a greater portion of their income on property tax than most other groups pay on all state taxes

"We believe every Michigan citizen expects to support his schools and other local and state governmental services through

a fair and equitable tax structure," the farm leaders concluded in their appeal to leg-Smith, speaking in behalf of Michigan Farm Bureau's 70,000

family members, expressed the

belief that Michigan citizens are "ready and willing" to give a sympathetic ear to reasonable proposals to develop an equitable tax base which will produce needed revenue. "This is not something to be

put off until 1966 or 1967. Smith said. "This is a year when the legislature can approach the subject without the pressure of budget deficits." He called the attention of legis-

lators to tax-reform policies adopted by the voting delegate body of the Michigan Farm Bureau at their annual meeting. The farmer delegates supported a state-wide, broad-based flat rate tax on net income with provisions to lower taxes on real and personal property. Repeal of the business activities and intangibles taxes, and improved assessment and equalization procedures were other items included in their tax-

Here we are in February with the first month of the new year of 1965 behind us.

February sort of brings us to a point in winter that makes one feel as if we are over the hump. February, someway, brings thoughts of spring. Maybe the groundhog theory has something to do with that.

The little woodchuck is supposed to come out of hibernation and if he sees his shadow scoot back in for another 6 weeks of sleep, and spring is that far for that year known as leap away. Child Education Vital To Good Dental Health

LANSING: Children who are taught good dental habits can look forward to a lifetime of healthier teeth. The Michigan State Dental Association says early dental care coupled with good home care not only helps prevent decay but helps to avoid conditions which lend to crooked teeth, faulty bite and other major dental disorders.

The dental association is stressing the importance of child dental health as part of the observance of National Children's Dental Health Week, February 7-13. The Week has been proclaimed nationally by President Johnson and in Michigan by Governor Romney:

The state dental group says that figures released by the American Dental Association show that approximately 50 per cent of all twoyear olds in the nation have one or more decayed teeth, and that the Dental Health Week in Michigan. Showing Gov. Romney the official Children's Dental Health Week observance is designed to get parents Lynn Travis, 10, and her sister, Lisa-Jo, 6, of Detroit. In proclaiming to consider early professional care the Week, the Governor called on parents to seek early, preventive for their children, and to begin care and to educate children as to good home-care habits home care by teaching children regular and proper dental health philosophy that teeth can last a life-

curately measuring the pressure within the eye through the use of an instrument called an electronic tonometer.

Such a machine has just been purchased by T. VanderBoll, Jr., Mason optometrist.

Glaucoma, VanderBoll-said, is a disease that attacks the flow of moisture in the eye. When moisture is unable to drain from the eye, additional pressure is put on the eyeball.

Sensitive nerve endings are then destroyed, causing the line of vision to narrow, an enlargement of the blindspot, and eventual blindness.

Glaucoma, once it is diagnosed in time, can usually be controlled by eyedrops or surgery.

citizens of Mason were urged to recognize the patriotic service of members of the Boy Scouts of America in a proclamation signed by Mayor Gilson

The proclamation calls for observance of Boy Scout Week, February 7 to 13, to celebrate the 55th anniversary of the Boy Scouts of America. It was signed in the presence of representative Cub Scouts, Boy Scouts, Explorers, and volunteer leaders from the Chief Okemos Council, Boy Scouts of America.

Mayor Pearsall noted that the theme for Boy Scout Week is Strengthen America's Heritage, a program to preserve freedom through reverent, resolute, and responsible patriotism.

Community Colleges Continue To Grow

Growth of community colleges in Michigan was stressed by speakers at a meeting of the Michigan Council of Community Colleges at the Jack Tar hotel last Thursday evening.

Addressing the group of some 100 educators, school administrators and representatives of press, radio and television, were Dr. Ferris Crawford of the state department of public instruction and James C. Browning, dean of the Port Huron Community col-

Dr. Crawford said that 1964 was a significant year in the history of community colleges in Michigan. Four additional community college districts were formed, he said, one of which will start operations in the fall

He said the Michigan legislature has approved funds for capital outlay and operation of community colleges and "this implies to me that the legislature has put its full stamp of approval of community colleges in this state."

He added that the legislature has provided for implementation of an 8-man college board to advise the state board of education on legislation and financing of community colleges. Dr. Ferris predicted that with-

in 10 years all of Michigan will be part of some community college district and some may operate 2 or more campuses. Browning said in describing

the growth of the community college movement, the first community college in Michigan was established in Grand Rapids in 1914 with 49 students enrolled. This year, 8 community colleges On Increase

VA Gives Warning

Approximately 8,700 Michigan veterans and their dependents have just one week more in which to file their annual reports for pension purposes, Robert M. Fitz Gerald, manager of the veterans administration regional office in Detroit, warned.

The Detroit regional office mailed 68.142 questionnaires with pension checks last December 1. To date only 59,500 have been returned. Under the law, pension payments must be suspended and overpayments later collected if the filled out cards are not returned by February 1.

FitzGerald explained that VA needs the cards to determine entitlement of pension beneficiaries to continued payment in the light of their income last year and their anticipated income this

Pensions are paid on the basis of need. FitzGerald said, and to exceed the established maximum income limit results in removal from the rolls. He warned veterans and beneficiaries that they must return the cards even though they know they are no longer eligible for pensions because of outside income.

Failure to return the card compels VA not only to suspend payments but to demand payment. of all pensions paid since January 1964.

Witnesses Gather At Brighton

The Gilbert Hewitt and the Richard Small families residing on Bunker road, Mason, had a week end at the Brighton Assembly of Jehovah's Witnesses, Hewitt had charge of the equipment and trucking for the 17 congregations that make up the local circuit. Small and his family worked in the refreshment stands taking care of serving the needs of the delegates.

J. W. Filson, district supervisor of Jehovah's Witnesses. delivered his talk "Our Divided World--Is It Here to Stay?" He pointed out the causes for division: opposing world political ideologies, many religions with conflicting beliefs, racial discrimination, and economic inequity. "Disagreement in the United Nations, the nuclear stalemate, and forming of new nations in Africa and Asia would seem to make prospects dim for world unity," Filson said.

World unity is assured because God has purposed it, the speaker emphasized. Filson quoted Daniei chapter two verse 44 where Christ Jesus is to destroy all individuals who refuse to obey Jehovah God's inspired laws. Under the just rule of Jesus Christ's kingdom government, then all remaining mankind will enjoy many blessings.

"The critical times that the world is having are in fulfillment of Bible prophecy," Filson reasoned. "These prophecies definitely indicate that this present generation will see a unlfied world."

He concluded his discourse with an exhortation to build faith and to live your faith in order to merit God's approval. Fourteen new ministers were

baptized at the meeting.

Telephone

More telephones were added throughout the world in 1963 than in any previous year. There was an increase of 9.9 million telephones, bringing the world's total to 171,000,000.

Previously, the largest gain recorded was in 1962 when 9.5 million telephones were placed

These figures were included in the 1964 edition of "The World's" Telephones," released by the American Telephone and Telegraph company. All figures are as of January 1, 1964, since it takes a year to obtain and compile the data.

The United States ranked first with 84,453,000 telephones. Japan was second with 10,682,492. The United Kingdom followed with 9,345,000.

Telephones continued to increase more rapidly than total world population. At the beginning of 1964, there were 5.3 telephones for every 100 per- Chamber sons in the world.

The United States, with 44.26 gory. Sweden followed with 42.25. New Zealand had 35; Canada, 34.89, and Switzerland, 33.95. All five countries have more than one-half-million telephones

In places with less than onehalf-million phones, Monaco had a percentage of 48.18 per 100 population; Bermuda, 38.94, and Midway Island, 41.

The Canadians apparently continued to talk more than anyone else. They average 597.7 telephone conversations per person

Iceland displaced the United States as the second "talkingest" nation with 574.9 conversations per person to the United States' 570.

The only other area with more than 500 conversations was the Virgin Islands with 547.3. "The World's Telephones" re-

vealed that 28 countries now have as many as one-half-million telephones each.

Hungary was added to the list with 505,198 phones. Twelve of these 28 countries have more than two million telephones.

In addition to the USA, Japan and the United Kingdom, they are: West Germany, 7,599,571; Canada, 6,664,000; Russia, an estimated 6,502,000; France, 5,336,374; Italy, 5,056,947; Sweden, 3,222,699; Australia, 2,522,-522; Spain, 2,283,465, and The Netherlands, 2,023,258.

Reisig Gives Warning

Inquiries have been made of the Ingham County Prosecutor's office concerning the legality of certain devices which are being sold as methods of self-protection from assaulters under the representation that they contain disabling chemicals.

Agency Members of the Michigan $Hears\ Report$ Of Sociologist

Tender-hearted concern for the problems of all children and all families and tough-mindedness enough to think through and institute new solutions, is a primary need of our time, an East Lansing sociologist contends.

Dr. Ruth Hill Useem, professor in the Michigan State university department of sociology, a researcher and author infields related to family life, made the assertion as she spoke before the 54th Annual Dinner Meeting of the Lansing Family Service agency. More than 100 Civic leaders from the capitol area attended the dinner in the Reo clubhouse, January 28th.

Three East Lansing, one Haslett and 4 Lansing residents were elected or reelected to the governing board of the agency. They include Sgt. John Brown, Michigan state police; Mrs. Warren Day and Jack C. Krause, East Lansing; Dr. John Plant, Haslett; and Warren Detrick, Mrs. Mortimer Waldo, Henry Fine and Mrs. E.T. Hacker, Lansing.

'Neutralization' Didn't Work

Sometimes in the sphere of international politics a good idea outlives its usefulness and becomes a mere echo senselessly bouncing around the meeting halls where statesmen gather.

Such an echo was Neville Chamberlain's "peace in our time" thesis which had its vogue at the merry moment when the Fascist dictators were in the process of destroying the peace of the world.

The most recent example of the echo phenomenon is the neutralization theory which holds that Southeast Asia can somehow be kept out of the turmoil and skullduggery of international politics.

The neutralization idea came up in the fifties as the French colonial regime in Indochina began to disintegrate in a maelstrom of nationalism and Com-

The result was the Geneva Accords of 1954 which were supposed to guarantee the existence of the newly independent states of the Indochina region, and also to preserve the peace throughout Southeast Asia.

The Eisenhower administration didn't have much faith in the neutralization theory, but President Kennedy went for it in a big way.

The Kennedy administration reversed U.S. policy by supporting neutralist Premier Souvanna Phouma in Laos.

The first step toward the neutralization of South Vietnam was made when the White House backed the coup which overthrew the Diem Regime. Efforts were made to placate left-leaning Cambodia.

On paper anyway, things should have eased up in Southeast Asia as a result of Washington's new attitude. However, this isn't what happened.

In Laos, the neutralist regime has been under military attack... determined Communist regime by Communist forces aided

from North Vietnam and Red China. Cambodia has become nothing more than a stooge for Peking. In South Vietnam, the Johnson administration's only alternative to carrying on the bloody war seems to be a complete Communist takeover in the

The fatal flaw in the neutralization theory was, of course, Red China Although Peking supported the Geneva Accords, the Red Chinese interpretation of "neutralization" is Communist control of Southeast Asia. 'As a result, it's somewhat lu-

dicrous to witness the unhappy mien of American officials at Washington and U-N cocktail parties when they are told by their foreign colleagues that Southeast Asia must be neutralized and the U.S. must with-

The American officials are uncomfortable and annoyed because no one wants the neutralization of Southeast Asia more than the U.S. State Department and President Johnson. The big question is how to achieve it.

Even if Washington were to agree to a complete pullout in South Vietnam in order to end our losses there, this would not solve anything. The pressure from Peking would merely be transferred to Thailand and after that to other Asian countries including India.

Any Asian country which refused to play the Cambodia stooge line would ipso facto have a South Vietnam-type guerrilla war on its hands. Because of the misery and injustice throughout Asia, every country in the area can field a Vietcong rebellion - especially India and Malaysia.

Thus, the American problem is not how to get out of South Vietnam, but how to keep Asia and its teeming millions from falling under the control of a in Peking

Consumers Power Co. Great Society' To Expand Services

More than \$5,000,000 will be strengthen service to existing invested in its Lansing division Society" legislative proposals by Consumers Power company such as excise tax reform, the during 1965 on projects to expand and improve the company's electric and natural gas services, Lansing Division Manager Wil-

liam R. Carlyon announced. Carlyon said just under \$2,000,000 will be spent on electric department expansion, and just over \$3,000,000 on gas department projects.

Highlights of the gas construction program listed by him include the extension of 42 miles of gas distribution system mains to reach an estimated 3,000 new gas customers which the company expects to add to its lines in the Lansing division during the

A new 12-inch gas transmission line connecting to the existing pipeline which extends from the Overisel gas storage fields, near Kalamazoo, to Laingsburg, will be installed. This will extend 14 miles from Charlotte to connect to the existing pipeline. It will result in another source of gas supply for the division and help to meet president of Greater Lansing the growing demands for gas in the entire area.

At Howell, the company will build a modern area headquarters and service center on a site which it already owns. It will provide a central, efficient office and operating headquarters for Consumers employes who at present are housed in a number of older, leased facilities in the community. Carlyon said the Howell area facility will be ready for use by the fall of the year.

In the electric department, projects include a major expansion of the company's Island Road high-voltage substation at Charlotte with the addition of 138,000 volt transformer facilities, greatly increasing the bulk power supplies available to smaller substations serving the Lansing division area.

The division projects are part of Consumers Power company's 1965 general construction program, in which the company will invest \$92,000,000 during the year throughout its 66-county service area in Michigan's Lower Peninsula.

Carlyon said the company's Lansing division projects during 1964 also involved expenditures of just over \$5,000,000, and included the extension of natural gas service for the first time to Pinckney, Rush Lake, Zukey Lake, Buck Lake, Hamburg, Westphalia, Fowler, Pewamo, Lyons and Muir.

"Green Monster" Sets World Land Speed Mark

This is Art Arfons' Timken bearing-equipped "Green Monster" jet streamliner which holds the world land speed record.

Akron, Ohio's Art Arfons recently set | to use and advised on modifications to a new world land speed mark of 536.71 miles per hour in his Green Monster jetpowered racer. At one point during the second half of his two-way run over the half-mile salt track, his car reached a speed of more than 600 miles per hour.

Engineers from The Timken Roller Bearing Company's Automotive Division worked with Arfons on installing Timken tapered roller bearings in the inner and outer positions on the four wheels. They also suggested the proper type of grease | record of 434.02 miles per hour.

the wheel seals.

R. L. Williams, Chief Engineer - Automotive Division of The Timken Roller Bearing Company, said the outside diameter of the tires on the big racer was 30 inches. Traveling at 536.71 miles per hour, the wheels were making 5,800 revolutions per minute.

Arfons' record represented the fourth time in one month that the record was broken, and the second time by Art Arfons. Earlier in the month he set a

In Our Opinion

A Good Decision

Mason councilmen Monday night took the proper step in developing plans for a proposed city hall-fire barn. The issue has provoked much argument in the past few months.

Councilmen have come up with 3 plans for needed city hall facilities. They agreed Monday night to placing the 3 proposals before the electorate in a non-binding preferential advisory vote at the February 15 primary election.

Here's a chance for Mason voters to direct their council representatives toward a specific course of action.

However, this action on the part of the city council will be wasted unless voters turn out in greater numbers for the city primary than they have in the

Here's a chance to prove that there are just as many ballot booth citizens as there are debating society citizens.

The 3 proposals call for: (1) The tearing down of the north half of the former Al Rice garage now owned by the city, use of the south half for fire department purposes, development of

the north half for parking and remodeling of the present city hall for more room. The estimated price tag, including the property, is \$75,000.

(2) The tearing down of the north half of the former Al Rice garage, the use of the south half for a fire department, and the construction of a new city hall and police station on the north half. The estimated price tag on this program is placed at \$120,000, including the price of the property.

(3) The building of a new city hall and fire station on a new proposed site at an estimated cost of \$190,000, including both the price of the former Al Rice property and the price of the property and the site under consideration.

There is nothing binding in this advisory vote. The council is seeking to take the pulse of public opinion on this city hall issue.

Study the proposals and then be sure your opinion is placed in the ballot box. It will do a better job there than it will over the coffee table, the bridge table or on the street corner.

GUEST EDITORIAL

Trumpet Solo

In a recent article one of the leading figures in the world of television wrote that journalists today scarcely ever bring to the public anything at all that the public does not already know. Well, that's his opinion and he's entitled to hold it. If he is thinking of the sort of news that explodes on the front page of the morning paper he is probably right, for you can hear it on the radio at half-past six, seven, eight, or nine o'clock, according to what time you get up. You may have heard it three times before you get round to reading the paper. But there are other kinds of news in which people are equally interested and which they would never get but for the local journalist and the local paper.

No radio or television will ever tell you in detail who has just been married or buried in your town or village, how much the bandit got away with when he raided the grocer's shop round the corner, what a score of clubs and societies have been up to, what is going on in the realm of local sport, where the next housing estate is going up and by how much the rates will do likewise. Nor will you discover by any other means who won the prizes at the last village whist drive. People do like to know these

It may be that our descendants, instead of taking a morning newspaper that has been printed in London and sent down by train, will have an attachment to the household radio set that will print the latest news for them on the spot at the turn of a knob, but that won't do the job of the local paper either. The columns of this issue of the Bedfordshire Times contain several hundred items of information, besides pictures, feature articles, and all the facets of life in town and country that are reflected in the advertisements. You can read as much of it as you wish at whatever time suits you. You can keep it handy all next week in case you want to know what's on at the pictures. Each member of the family can handle it in turn, and when you have all finished you can post it to Aunt Jane in Australia.

That's more than television will ever do for you. -Bedford (England) Bedfordshire Times

Goals for 1965

The Ingham County News supports these objectives:

- A popular vote to assure the people's choice as to what type of city hall fire station is needed.
- Expansion of new and completion of existing city parks with emphasis on playgrounds and picnic areas.
- Continued planting of trees with provisions requiring subdividers to plant at least one tree on each lot before acceptance by the city.
- A community center with regular hours and projects for senior citizens.
- An industrial park to be operated by a non-profit community corporation with the avowed purpose of attracting desirable industries.
- A Mason museum.

barbs, praise and consequence

Vanity is a punishing whim and just how punishing it can be and will be in due to be shown Saturday night and probably all of the next 2 weeks.

It seems that the eager beavers from the newly-formed Mason Junior Chamber of Commerce cast reflections on the manliness and athletic ability of the Mason Kiwanis club. The Jaycees challenged the Kiwanians to a basketball game Saturday night at the high school

Coach Jack Davis put out the call to all senile Kiwanis athletes and a handful of them are searching attics, basements and garages for longforgotten basketball shoes.

The game is slated for 7:30. It might be a good idea for the paying customers to show up on time because there may be some Kiwanians who won't last over 2 or 3 laps on the big court.

Coach Davis has not called for any practice sessions. He's afraid that his players would burn themselves out before the game of the

I'm not trying to scare out the young whippersnappers on the Jaycee squad but us Kiwanians are going to have Dave Diehl, former Michigan State and Detroit Lion star, playing goalie along with some other beefy characters, providing they can find gym shorts big enough.

A good stock market tip would be to load up big on liniment and adhesive tape stock. Business should

All is not play for old men. There are some big decisions which have to be faced for fathers. One Mason father reported Monday that he had been very thorough on reading all the books on psychology, biology and related subjects in anticipation of the question from his youngsters concerning propagation and the birds and bees bit.

Saturday during a walk with his kindergarten son, the opportunity came up.

"Dad," the boy said, "Where do little birds come from?"

"Why they come from eggs laid by the mother bird," Pop quickly replied.

With a slap of the thigh, the youngster exclaimed, "Good for you! You guessed right."

Ah, this modern education.

Every once in a while we get letters to the editor which take the hide off the editors, their progeny and their ancestors. We do not hold them back but publish them. This week we received one which lumped the editors and Bull, the famous or infamous dog, together with the same scathing remarks. The letter opened by daring us to print it but unfortunately the big brave letter writer forgot to sign his or her

So will the real "East Side Resident" please step forward and sign and we'll be glad to print the epistle.

February has all the earmarks of being a "fun" month. First off several from Mason are involved in the Lansing Civic Players presentation of Sound of Music scheduled for February 10-13. And all area people 65 years of age or older are invited to a special get-acquainted party February 13.

Evidentally, Mason abounds with theatrical talent. Among the Sound of Music cast are Mrs. Walter Robinson, Lee Snook, Mrs. Dale Brown, Mrs. Gerald Durbin and Mrs. James Conley, wife of the Mason Presbyterian pastor, and their daughter, Tami, are also in the cast. Mrs. Robinson plays the part of the housekeeper. Lee has a stellar role with a solo and his own dance routine. Mrs. Brown also solos. Mrs. Durbin and Mrs. Conley portray nuns and little Tami, 8, has one of the biggest parts in the play. Tickets are available from any of the cast members or call the news office and we'll get the tickets for you.

The Sweetheart's luncheon for those 65 and older fits right into 1965's goal of providing some worthwhile activities for senior citizens. Planning the event are Nels Rumbles, Ken Sheffer and Don Bates. The luncheon is free and all that is needed to attend is to make a reservation with any one of the men or by calling the Mason Presbyterian church.

The event is open to all regardless of any church ties or the absence of church ties. The object is to put a little pep into the social life of senior citizens. This project could be the start of something big. The luncheon will begin at 1:00 p.m. and will be coupled with a program of good entertainment.

Of all the people who write the News about the old pictures published on this editorial page, none show as keen a memory as Mrs. E. R. Doc. little of Edinburg, Texas. She is the only one to identify the picture published a couple of weeks ago showing an unknown mail carrier with a horse and buggy. She claims the man was John Marshall and that the picture was taken about 1912-1914. What about it, Judge Adams, is she right?

It's weeks like this that make me truly sorry for the people who have run off to sunny southern spots for the winter. The beauty of falling snow is a relative thing-depending on whether you like to shovel snow and baby a car out of a drifted driveway. This week we've had plenty of winter wonders and it's been beautiful. * * * *

Virtue is its own reward, so the

adage goes. Not that there is anything virtuous about the News' editorial page! Yet it should be noted that the News has placed first among ALL weekly newspapers, large and small, in the Best Editorial category of the Michigan Press association. Such an award doesn't imply that the News editorials concur with the opinions of the judges. They didn't. The award is based upon logic, force of presentation, subject matter and issues. There are nearly 300 eligible newspapers for the contest. The News also placed second in general excellence among the state's largest weekly newspapers, placed second in the best use of pictures, second in best news coverage and tied with the Highland Parker for second place in typographical excellence. The News reaped more awards in the annual contest than at any time in the paper's history. If you see the News staffers popping buttons off their chests, that's why.

Down by the Sycamore

For nearly 25 years, a favorite feature of The Ingham County News was the Down by the Sycamore column written by Nelson Brown, With his death in 1961, the column ended. Margaret Brown, daughter of the late editor and sister of the present News editors, has been poring over the old columns and has extracted some of the best of Down by the Sycamore. The feature will continue indefinitely. The weekly column contains observations of the daily scene and an occasional cryptic look at life in general. The series is being planned with the hope that some or all of the selections will strike a familiar note to oldtimers and a fresh thought or 2 for new readers of the News.

January 6, 1944

Sunday there was good ice and few skaters. Caroline kept teasing me to go skating with her and late in the afternoon I succumbed to her wiles, hunted up a pair of shoeskates belonging to the boys and off we went. We took to the ice at the Elm street bridge but found rough going on the Sycamore. At the confluence of the Sycamore and Willow. we followed the Willow and just beyond the US-127 bridge we struck the slick

We met Gloria Rathburn and a flock of boys and girls at the trunk line bridge. They were headed downstream. They were the only ones on the ice and Caroline and I had the upper reaches of the Willow on which to cut figure eights and other intricate convolutions. An hour later the Adams

family began to report. First came Elizabeth and Alberta. They had skated from the Elm street bridge, A little. later the father and, the youngest daughter, Patricia, arrived. They came by car to the McRoberts street

Ralph S. Adams is a fancy skater of the old school. He eschews the modern shoe skates and even the key clamp skates. He had the first pair of skates the Adams family ever owned. They were bought by Roy Adams when he was eight years old. They are rockers with one lever operating the heel and toe

clamps. The head of the family and the second in command of the Brown family put on a neat display of skating for the edification of the four girls. Finally, along after sundown and well into the moonlight, the Adams girls dragged their father off the ice and insisted he go home. They declared he was overdoing and wouldn't be able to work or even do his chores for a week, he would be that

Caroline also coaxed me to return. It seemed a long way back to the Elm street bridge but we finally made it and had the good fortune to find our shoes, carefully hidden under brush, in the pale moonlight. I took a good rubdown with Dolbee's peppermint oil and went to bed. I bounded out Monday morning feeling not a day older than 92. It strikes me as queer that Mason boys have petitioned the city_to keep the shack heated at the Rayner ponds. They can't skate in the shack. The girls are made of hardier stuff, or

more likely, they dress more sensibly for the cold. They don those wool ski pants and keep themselves warm while the boys shiver and shake in their summer scanties and have to continually hover around a fire. That's where Ralph and I had the edge on the boys. We discovered that both of us had the good sense to be wearing long-legged underwear.

January 13, 1944 Developments of the past month may even force us to have both parties to a wedding announcement sign an affidavit that the match has been made and that both are waiting anxiously for the wedding bells to sing. Some practical joker brought in an announcement a month ago that was not the real McCoy and two people besides those on the newspaper. staff were embarrassed.

Thanks to Clarence Puffenberger of Onondaga for a peck of the best beans I have seen or tasted in some time. The gift has so touched me that I have decided to give away a family secret

-the secret of how my wife bakes beans which taste as good as strawberry shortcake and are a lot more fill-

To make a mess of beans, take 4 cups of beans and soak them in cold water overnight. Then the next morning parboil the beans until they are tender. Put them in a beanpot along with one-half pound of salt pork, a tablespoonful of salt, a half cup of brown sugar, 2 tablespoons of molasses. one half teaspoonful of dry mustard and then drop in an onion. Cover the beans and condiments with boiling water. Bake in a covered beanpot with a slow oven for from 6 to 8 hours, adding more water as needed. Take off the cover the last hour so that the pork will brown up and so that the piquant odor will permeate the entire neighborhood. At the end of the hour, ladle out the beans generously and no one will leave the table hungry. Hearty eaters may

have to be dragged away.

adopted. The following report was made by Supervisor Dean, Chairman of the Committee appointed to study the matter of increased millage:
Background: The 1963 Michigan
Constitution permitted an increase
in the 15 mill limitation up to 18 mills and assignment of fixed millmills and assignment of fixed min-age rates to the several units, pro-vided the people of a county ap-prove. The 1964 Michigan Legisla-ture passed a law implementing this

On February 4th, 1964, Ingham School Superintendents invited Jack Patriarche and Glen Watkins of the Patriarche and Glen Watkins of the Board of Supervisors to meet with them to consider the fixed millings plan, At this meeting it was decided to recommend formation of a joint Study Committee to consider the idea, Board of Supervisors' appointments (Dean, Carr, Dillinger, Glover) were made in March, 1964.

Committee Structure: Four committee members were county oriented mittee members were county oriented and 4 school oriented. Eight ad-ditional members serving as an ad-visory group were also divided evenly in this respect. Township and In-termediate School District represent-

termediate School District represent-atives were included.

Committee Operation: Four meet-ings jointly chaired by Bob Bruegel and Alton Stroud were held, the first on June 8, 1964. Tax Allocation Board was invited to and attended the final meeting January 6th the final meeting, January 6th.
Committee Action: The Study Committee by unanimous vote recommended and the Allocation Board by mended and the Allocation Board by unanimous vote of members present, approved the following division, using the full 18 mills allowed: for County, 6.55 mills; Schools, 10.25: Townships, 1.0: Intermediate School District, 0.2. Under provisions of the Act no unit may levy more than its budget calls for and rates as here set for a given unit may be

here set for a given unit may be increased only by vote of electors. Committee Reasoning:

1. The 15 mill limitation in practical terms doesn't limit and hasn't for several years. Nearly all limits are limits and limits and limits are limits. Ingham people live in areas where combined tax rates far exceed 15 mills — most where the rate is at least double that.

2. The annual hassle before the Tax Allocation Board by competing units gives government a bad image. It joins in battle governmental units

which should be working hand in

3. With fixed millage a unit of government knows where it stands in budget planning. It can vote additional millage without the of losing some of it by Allocation action the following year.

4. The County is facing a new expense of indeterminate amount in expense of indeterminate amount in the new appensie court, as well as a strong possibility of substantial in-crease in expense for mental health programs. It appeared to the Com-mittee that if these needs are to be met, more flexibility in the County
tax rate will be necessary.
Supervisor Dean reported that a petition would be presented at the next meeting from the Tax Allocation Board.

Chairman Bruegel then appointed the following Special Committee to. draft resolutions upon the death of former supervisors Lloyd Aseltine and Charles S. Woods: Wilson, Glo-ver and Ruthig, The meeting was then recessed un-

Forgetting winter the group concentrated on the summer baseball and playground season. Plans were discussed for bleachers, shuffleboard and equipment

for the park and the announcement was made that brush has been cleared in the park. Plans call for creation of paths and also for the seeding of the lawn area to the river.

A player-manager committee was formed with Robert Mitten-

Mason H.S. Has New Schedule

Mason High School

Starting Monday, Mason High students began a new schedule. Instead of having a 20-minute home room at the end of the day, there is a 10-minute period at the beginning of each day in which to take roll call and have announcements. Then, whenever there is need of one, there will be an acitivity period, in which club meetings, assemblies, and

the like, will take place. there is an activity period, all the classes will be short-

Due to the fact that four more teach-

ers are at the high school in the morning than in the afternoon, it enabled some of the home rooms to be diminished in size, creating four new home rooms.

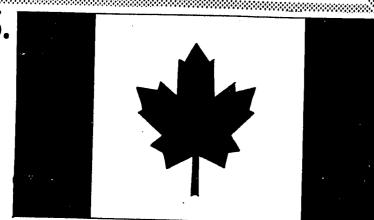

Robert Prudon, the principal, explained this new schedule to the student council last Monday, so that those students would be "briefed" on the situation.

prize of \$2.50 was given to Thomas Haskell for a vocal number.

"Kathy" Douglas King, high school principal, provided an entertainment "filler" with his guitar while the judges were making their

final decisions. The Spanish and French classes received pins acknowledging their hard work.

The Seniors and other members of the government classes were dismissed from school Thursday afternoon to attend a debate in Fowlerville.

Also on Thursday, Leslie's wrestling team had its first match on their new mats, only to lose. Leslie winners who pinned their opponents included Norman Keesler and Larry Nevins. The match was with Chelsea.

Friday ended the much dreaded week of exams at Leslie. Monday students who rescheduled their classes started attending these classes. Reports tending these classes. Report cards will be received Wednes-

No club activities were set this week because of exams. The annual staff met in the English room Saturday morning to work on the year book which is running behind schedule.

The Leslie Future Farmers are preparing for District F.F.A. contests at Leslie February 10. Lynn Taylor and Larry Higdon have been elected to go to State convention March 24 and 25. Both the F.F.A. and F.H.A. are planning to attend Farmers' Week activities at Michigan State university February 1-5.

The Leslie high senior class has announced that on Friday, March 26, there will be another wrestling match but this year the class is featuring women wrestlers! This is a "first" at Leslie. Another important aspect is that the match will be in the new Leslie high school gymnasium, which will seat 2,500

To build an alley. Phelps pointed out that utility poles would have to be moved which would be an expense. One property owner appeared

at the meeting to tell the council he had heard no reasonable reason for an alley and his tenants are satisfied. Councilmen Robert Shipman and William Durfee were appoint-
