Dominican Rebels Release Captured Mason Marine

Private 1st class Darrell Jay Southwell is back with his detachment of United States Marines on duty in the Dominican Republic again after several harrowing hours last Thursday when he was taken prisoner by rebel forces in the war-torn area of Santo Domingo.

Mr. and Mrs. B. Joseph Southwell of 212 S. Cedar street, Mason, first heard the news of their son's capture about 2 p.m. Thursday. It came over news wires from Mexico City, to which point the announcement was sent by telephone.

About 12 hours later the Southwell family received a call from Congressman Charles E. Chamberlain of the 6th Michigan district, informing them that the young marine had been released by the rebel leader, although his jeep and arms were confiscated by the rebels.

Young Southwell's father, a sergeant on the staff of the Ingham county sheriff's department, said the news of his son's release was "the best I have had in a long time."

The elder Southwell said he spent several worried hours until Congressman Chamberlain's message came.

Private Southwell, who is 21

years old, is a member of the 2nd Marine division which arrived in Santo Domingo only this week. It is assumed he was on patrol duty when captured.

He joined the Marines after graduating from Mason high school with the class of 1962, along with 9 other Mason classmates. He did his training at San Diego and advanced training at Camp Pendleton, California.

Following his leave after finishing boot camp he served 14 months overseas in Okinawa and on off shore duty aboard ship in Vietnam.

He has been stationed recently at the Portsmouth, New Hampshire, naval base as a prison guard, his father said.

His last visit home was last Christmas time.

Last Monday he called home and reported his unit had been alerted. Four days later he was captured; then released.

Sergeant Southwell received a telephone call from his son May 1 from Camp Lejeune, North Carolina. He said then he was on 24 hour standby and his gear packed and ready. He said he hoped to call his parents before he left but apparently did not get the chance.

Young Southwell spent many of his boyhood days in Stockbridge where his father was a deputy sheriff and marshal of Stockbridge township.

Mason O.E.S. will hold a rummage sale Friday, May 14, 9 a.m. to 6 p.m. and May 15, 9 a.m. to noon at the Masonic Temple (over Dart's bank). There will also be a snack bar and a bake sale by the Eastern Star Belles.

Bids Okayed For Work On Old Jail

Supervisors authorized the first steps Tuesday toward remodeling the old Ingham jail for county offices.

A contract was awarded to Lansing Iron and Metal Co. for removing the steel bars and other steel fixtures from the building. The Lansing firm agreed to do the job for \$300 plus the salvage.

Before some of the steel work can be removed Douglas Steel Co. has a contract to shore up the third floor now being held up by steel jail bars. The contract on this work will run at \$7,500.

Supervisor Paul Richards of the Buildings committee pointed out that the remodeling is going to go slow under the direction of the committee and Frank & Stein, Lansing architects.

There are some major expenditures needed, he pointed out, not the least of which is a complete renovation of the elevator to meet the standards of the state inspectors.

Both the jail and the former sheriff's residence will eventually be turned into office space.

sprinkler systems. The cost is estimated at about \$100,000.

Architects said the junior high school building is structurally sound and the board must consider whether at some future date to completely modernize it.

The high school program, when it comes, would be in 2 stages. The full program calls for additions to the present 26 classroom building. The board members say they hope to have one addition ready by the fall of 1966.

The first stage of the program calls for 12 classrooms and a new office suite at a cost of about \$410,000.

Included in the classroom additions are 2 special education rooms. The Ingham county intermediate board of education has allotted \$45,000 for these.

This stage of the program would increase the capacity of the high school from the present 600 pupils to 850 or 900. It would include, besides the 2 special education rooms, one speech, 3 English, 1 typing, 1 drafting, 2 biology, and 2 language classrooms.

At present there are 600 pupils enrolled in the senior high school.

Pre-School Sign-Up To Begin on May 27

Registration of children in the Mason school district who will start kindergarten in September will begin May 27 at all 4 Mason elementary schools, Alaleidon, Cedar, Steel and Aurelius. Pupils whose last names begin with A through M may register at any of the schools at 9 a.m. and those whose last names begin with N through Z at 1 p.m. Requirements for registration include:

Birth date of those who will be 5 years old before December 1, 1965.

A birth certificate to authenticate birth date should be presented.

Health examination blanks will be provided each child so that the health examinations may be completed before the start of the 1965-66 school year.

Certificates of birth for children born in Ingham county may be obtained at the county clerk's office in Mason. For those born elsewhere in Michigan, certified copies of birth records may be obtained from the state health department on DeWitt road, Lansing.

Laws of Michigan require that

all children enrolling in public, private or parochial schools for the first time must show a certificate from a physician that the child has been immunized against small pox, diphtheria, tetanus, whooping cough and polio.

Parents of children not immunized because of religious convictions must bring a signed statement to that effect.

Ingham Jail Is Inspected

Officials of Hammond, Indiana, visited the Ingham county jail this week on an inspection tour. They are planning to build a new jail in their city and were advised by federal jail inspectors to look over the Ingham jail for ideas in constructing their jail facility. Sheriff Kenneth L. Preadmore said they were impressed with the Ingham jail and will be returning here at intervals for further inspections.

PASTOR PAUL TIDEMANN of All-Saints Lutheran church turned over the first chunk of sod for the new church building Sunday in groundbreaking ceremonies at the church site on South street. Participating in the services were E. L. Sutcliffe, pastor of Mason Methodist church, and Murl Eastman, pastor of Mason Baptist church, standing at the left. Members of the Lutheran choir are at the right.

The smoking trash burner aided the Yorkshire in hiding from the enemy.

Trapped at last, the Yorkshire gave one last arrogant look around before giving in to Jim Rife.

Chief Stolz tells his deputy, "You hold it by the tail and I'll put him to sleep."

This Little Pig Went to Market

... and everywhere else in town, too

JIM RIFE'S PIG almost got a poke Tuesday afternoon. While Jim was sleeping in his apartment on Maple street, a Yorkshire pig wiggled out of a truck parked at the Ashland gas station and cavorted through town. With law officers, squealing kids and adults in hot pursuit, the pig danced all the way to the alley off of

Park street.

Chief Tim Stolz was close behind attempting to load his anasthetical gun. But suddenly the Yorkshire entered the fenced back yard of Dr. R.R. DeMartin and the posse of hog wrestlers closed in. The gun wasn't necessary and Jim Rife soon had the playful pig back in his truck.

Ingham Deputies Get a Pay Boost

County law officers will receive pay boosts.

At Tuesday's session of the board of supervisors approval was given advancing all sheriff's officers one grade in the county pay scale. The raise applies to everyone except Sheriff Kenneth Preadmore whose pay can't be raised during his term of office.

According to Supervisor Jack Patriarche of East Lansing, chairman of the ways and means committee, the raise covers the balance of the year and will amount to about \$300 per man for

a total additional cost to the taxpayers of \$6,300.

In asking for the boost Supervisor Robert Bruegel of the salaries committee pointed out that Ingham is having a hard time holding officers on the job. He maintained the pay boost would bring the Ingham salaries into line with those of other law agencies in the area.

ARMED WITH A SEARCH WARRANT, the Keystone Kops swept down on the Ingham County News Monday afternoon in search of the Old Reliable tombstone. The stone turned up missing a week ago from the courthouse lawn and the crime has the Keystone Kops baffled. Acting upon groundless inferences and half-truths Kangaroo Court Judge Howard McCowan issued the search warrant and had the stone been found at the News building, was prepared to try the News publishers with a hangman's rope. The top picture shows some of the bungling that went on when the Kops attempted to remove the handcuffs from Jim Brown. From the left are Claude Cady, Versile Babcock and Ken Merindorf. Covering in the background with Judge McCowan are Alton Stroud, Frank Guerriero, Laurence Parker and Joe Southwell. The second picture shows Kop Merindorf reading the search warrant, with the condemned Dick and Jim Brown at the right and Claude Cady and Laurence Parker at the left. The lower picture depicts a pout on the face of Alton Stroud who with Ken Merindorf, Joe Southwell and Laurence Parker thought they had found the missing tombstone. It was a tombstone, all right, but not the one the Kops were looking for. Stroud said, "If these men are tombstone collectors, we can assume they may have the one we're looking for." The search ended without success and the Kops and their judge went out the doors of the News building dragging their hangman's rope, a ball and chain, 3 News pencils and a gallon of maple syrup.

Bulldogs Defeat Raiders With 6th Inning Outburst

Tuesday afternoon Mason's baseball team snapped a losing streak by stopping O'Rafferty 5 to 3 on the Mason diamond. It took a sixth inning rally to do the trick.

Mason grabbed the lead in the fourth inning when Rocky Conklin singled and Larry Ziegler advanced him with another single. Then Harold Moore belted a double to score both runners.

The lead didn't stand long, though. In the first of the fifth Mike Daily singled, Tom Hughes doubled, Mike Cook walked, Mike Ruedtschle singled and Mike Flynn singled. The results were

3 runs and the lead for the Raiders.

Mason waited until the sixth to regain the lead and the win. In this inning Conklin opened with a single, Moore made it to first on a fielders choice and Conklin took second. Doug Bullen singled to bring home Conklin and then Gary Barker came through with a single which scored Moore and Bullen.

Jim Bodrie went the route for Mason on the mound and gave up only 5 hits. Mason batters collected 9 hits with Conklin leading the attack with 3 for 3. Moore had 2 for 3.

PLOWING CHAMP for Mason high school is Elmer Belman, on the right. In a plow-off on Mason high school land Saturday Belman put together the most points and won the trophy. Here he discusses the results with Instructor Mike O'Malley in the middle with Alan Harvath looking on. Clare Everett placed second, George Helbig third and Art Crowner fourth. The results were ground fitted for an FFA corn project.

Holt Sport Shorts

Holt and Okemos carried their rivalry to the baseball diamond Monday afternoon and for the first time in the season Okemos took the Rams 7-3.

The victory of Okemos over Holt threw the Capitol Circuit standing into a three way deadlock for first place. Holt only made 2 hits in the game, one a 3-run homer by Ron Karr.

On the golf course, the score was Okemos 160, Holt 168. Individual scores for Holt are Steve Perry - 40, Dale Hildebrandt - 40, Jim Miles - 41 and Nelson Kent - 42.

Some of the state's top high school tennis players will be among the more than 70 athletes representing six Lansing area schools participating in the first annual Central Michigan Tennis tournament this week. The tournament will be at Waverly High school and Ranney courts on Thursday and Saturday. Drawings for first round opponents will be Monday at Waverly High.

Representing Holt in the tournament will be Mike Bostrom. Bostrom won the regional singles title at Flint last year and has lost only once this season. One of his six victories was over Strat in the capitol circuit encounter.

Holt coach Bill York says he is a consistent player with good quick moves. He's not an overpowering player, he simply returns almost anything and forces his opponents to make mistakes.

On Wednesday Holt got great individual effort in the Capitol Circuit triangular meet.

Holt's John Walsh won 4 events as the Rams scored 66 points to defeat O'Rafferty 63 and Easton Rapids 18 at Sexton's track. Walsh took both hurdles, the long jump and the pole vault. Individual winners were 100 yard dash, Greenhoe 10.8; 440 yard dash, Williams 54.1; 120 high hurdles, Walsh 17.1; 180 small hurdles, Walsh 21.4; high jump, White 5-6; long jump, Walsh 18-7; pole vault, Walsh 10-0, 880 Relay, Holt 1:37.4.

Wednesday Holt met Howell at the Chisholm golf course with resulting score of Holt 155-Howell 158. Individual scores: Steve Perry 38, Nelson Cantin 37, Jim Mills 39, and Dale Hildebrandt 41.

The Holt Rams scored 64 points Friday in a triangular track meet to defeat both Mason -22 and Waverly -51. Waverly had as many firsts as the Rams, six each, but Walsh was enough to give the Capitol Circuit team the victory.

The Ram star won 2 events and took second in two others

to wind up with 16 points. Walsh's best performance came in the 100 yard low hurdles where he set track and school records with a clocking of :20.8. He also took the long jump with a good leap of 20 feet 6 1/4 inches and was second in the high hurdles and pole vault.

Other individual Holt scores are: 880 yard dash, Platt, 2; 09:3; Mile, Roath, 4:45.8; high jump, Kemmerer, :20.6; and the mile relay 3:39.6.

For the second time in one week Holt met Howell on the baseball diamond and was defeated. Thursday night the score was Holt 1 and Howell 7. This was the third loss in a row for the Holt team and they dropped to an even 4-4 in the circuit race. The game was 1-1 in a tie until Howell took the lead with a squeeze in run in the fourth and then broke the game wide open with a five run uprising in the sixth.

On the golf course Holt also took a back seat for Howell with a score of Howell 170 and Holt 184. Individual Holt scores are: Nelson Cantin 44; Jim Mills 47; Dale Hildebrandt 49; and Greg Fay 44.

Howell and Holt met on the baseball diamond Tuesday with Holt coming out on the short end of a 2-1 score. Holt made one run in the first inning on two errors and a walk and that was the only scoring for Holt throughout the game.

Aggies Falter To Lose Pair of Clutch Games

Dansville ran into trouble this week which all but eliminated the Aggies from Ingham County league contention. The Aggies have a 4-3 record with only 2 more games to go.

On Friday Stockbridge stopped Dansville 4-2 in a well-played game. On Tuesday the Aggies fell before Pinckney 4-0.

Dansville scored first in the Stockbridge game, getting one run in the first on 2 walks plus a ground ball by Russ Rae which allowed one runner to score.

Stockbridge didn't stay behind for long, though. The Panthers came up in their half of the first inning with 3 runs on a walk, a hit batter, a fielder's choice and a single by Roger Poe.

Dansville pared the lead in the second when Jack Prince singled, Larry Soule reached first on a fielder's choice which erased

Prince and then came home when Gary Caskey singled.

Stockbridge added an insurance run in the third inning when Poe singled and stole second. On a pick-off play the ball went through second and past the center fielder to allow Poe to come home.

Jerry Ernst was on the mound for Dansville. Dan Bloxum was on the mound for Stockbridge.

Good pitching made the difference in the Dansville-Pinckney game. Dennis Williams held Dansville's batters to 4 scattered hits.

In the fourth Pinckney picked up 3 runs on a triple by Tom Trumble, a sacrifice fly, a single by Roger Nesbit, a walk to Jim Pine and a Dansville error which brought in 2 runs.

In the sixth Pinckney added another run on 2 singles and a stolen base.

Jaycees School Board Asks Plan Events 6 Mills for a Year On July 4

The Stockbridge Junior Chamber of Commerce is making plans for their second annual 4th of July family day celebration.

Last year's affair saw some \$500 worth of fireworks go up in smoke, drawing spectators from many miles around, and cars lined up on roads outside town for several miles.

The Jaycees are hoping to have such an extravaganza again this year. All local merchants and many organizations have already contributed to help make it possible.

Dennis Shaekelford, chairman of the day's events, said the activities will be similar to last year with games for all age groups, and prizes too. Robert Boyd will be in charge of that department.

Larry Mills will be in charge of the concession stand and others yet to be appointed.

Also on July 4, as part of the day's activities, the Stockbridge Boy Scouts will sponsor their annual chicken barbecue at the fire barn.

The Stockbridge board of education Monday night adopted a resolution asking for 6 mills for one year for school operation.

After much thought, the board said it found it necessary to ask for 2 additional mills over last year's 4 mills because of needed maintenance work such as boiler units for the junior high school, a new roof at the junior high and many other repairs.

The board sat Monday, June 14, as the date for the annual school election.

Teaching contracts for next year were awarded to:

Charles Devidson, a May graduate of the University of Michigan, to teach instrumental music on the Stockbridge school system.

Mrs. Peggy Parrott, a graduate of Michigan State university, to teach girls' physical education.

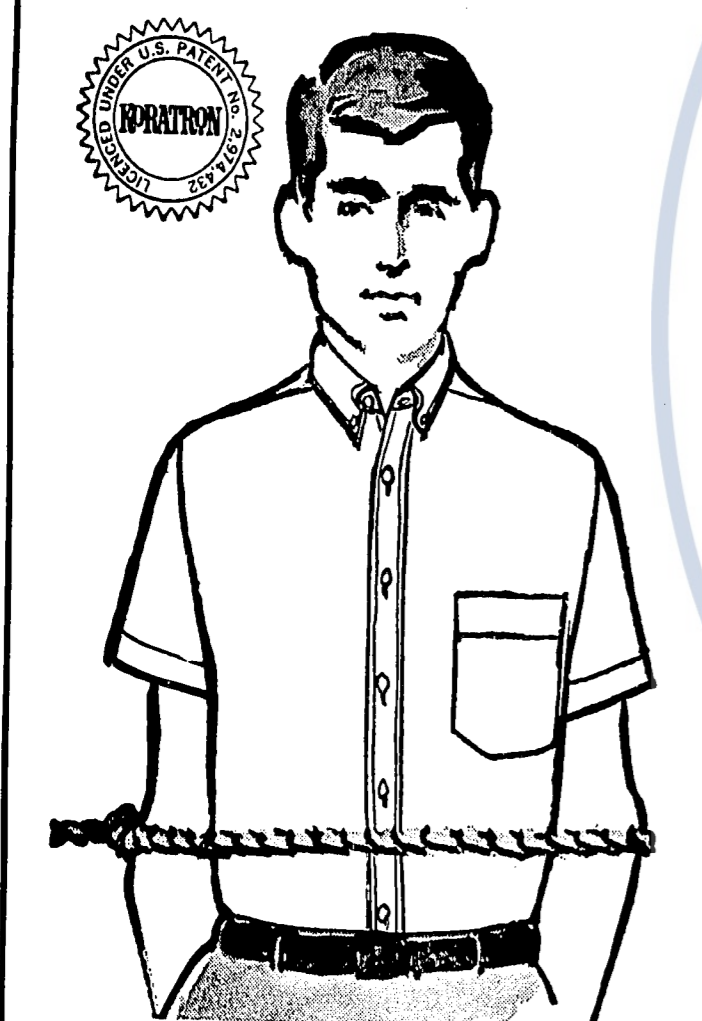

Miss Marilyn Potter, a graduate of Michigan State university, to teach elementary classes.

The board also paid off a \$35,000 loan borrowed last October for operating expenses.

Panthers Defeat Aggies

The Stockbridge high school baseball team defeated Dansville 3-2 here Friday, May 7th. This win gives the Panthers a 4-3 season record. Stockbridge combined good hitting with the fine pitching of Dan Bloxum to defeat Dansville, who, earlier in the year, beat Stockbridge. Harold Randolph and Rodger Poe did an excellent job in the infield for Stockbridge.

LEGAL NOTICES Give Bikes Room Attention motorists. It is spring again. I am a bike rider. Watch out for me. I am erratic and love this beautiful country. I believe the best way to travel is by bicycle. You can see all kinds of animals and wildlife with your young. You can smell the fresh country air and see the flowers and trees. There is much to see and do on a bike, so watch out for us, please. Kids will be on the roads in great number. Please give them a brake--no horns, please--it startles them. Just slow down and go around. Bike riders cannot hear a horn behind them because of wind in the ears. Bicycle riders try to be orderly and obey the laws. So, Mr. Motorist, please be cautious of the bicycle rider in front of you. By the way, hop on a bike and have some fun. An Adult Bike Rider Dansville

LEGAL NOTICES I thought I had found a fairly new business establishment in Mason that provided reasonable prices on their cosmetics and toiletries, but when I had to pay the price of seeing 3 11 or 12 year old boys going through their girlie magazines, I came to the conclusion that I'd rather do my business elsewhere. It's amazing what some merchants will do for an extra 10¢. It's also amazing what parents won't do for the younger generation. Who knows, maybe one of those boys was yours. WOULD RATHER PAY THAN SEE! SHOW-STEALER Rayme Mohlman contrasts his beetle haircut with the way Maurice Rickly, show emcee, wears his hair.

DON DENSMORE, right, spent most of the evening on stage and in the audience looking for his wife. At the end of the program he found her. Leone Densmore, left, was playing the piano all the time. Emcee Maurice Rickly introduced the Densmores to each other.

FOOT-STOMPIN' MUSIC was provided by these 3 youngsters, all grandchildren of Mrs. Neva Royer. Audry Miller is at the left, Danny Bond is in the middle and Rusty Miller plays the guitar.

MARILYN CHENEY gave her version of a modern thinker at the show. To get the message across, she wore slimline glasses and armed herself with a book of Aristotle and a set of bongo drums.

Then and Now . . .

An estimated 800 people packed the senior high school auditorium Tuesday night to attend the centennial style show. Interspersed with talent acts, the theme compared with dress and entertainment of yesterday and today. Mrs. Lynn Bullen was general chairman of the event. Others who helped make a success of the show were Judy Mohlman, Jan Augustine, Lorraine Beebe, Judy McConnell, Tom Christensen, Annette Schaeffer, Valerie Backus, Betty Ryal, Nancy Nevins, Jaycee Jills, Mary Harkness, and many Belles and Brothers groups who also served as official hosts and hostesses. Sixty-seven people plus Belle and Brush groups participated.

Mrs. Bullen and Maurice Rickly narrated the program and Mrs. Don Densmore provided piano music. Narrations contained parts of city council minutes of 1865.

THE AVANTIS band beat out the tempo for these Mason high schoolers to show what modern dancing is all about.

MR. AND MRS. RANDY POWERS showed the audience what the well-dressed married couple used to look like.

SWIM SUITS - yesterday and today. Jane Beebe wears what modern gals wear and Mrs. Neva Royer sports a 30-year-old model.

OLD AND NEW THEME was carried out by these youngsters. Sitting are Denice Cheney, Michael Every, Patrice Good and Jay Dean. Jane Burke is standing.

Sacred Music Program

Is Centennial Feature

Gerald Woughter

Sunday, June 20, will be Faith of Our Fathers day at the Mason Area Centennial.

In keeping with this theme, the Mason Ministerial association and the Mason Music club will present a Sacred concert at the senior high school at 8 p.m. The Rev. Paul A. Tidemann is in charge.

The concert, "Begotten Unto a Lively Hope," will express the Christian faith in the resurrection of Jesus Christ. The program will consist of six scripture lessons, dramatically read by local men, with choral response.

The seven choral numbers will include contemporary music as well as numbers by Bach and Handel. Trumpets, trombones and tympani will be used in some of the numbers as well as piano and organ. One number will use the congregation in hymn singing.

The chorus is under the direc-

tion of Gerald Woughter, who also directed the Messiah which was recently presented in Mason.

Drivers Hurt In Car Crash

Bonita Louise Loper, 21, of Eaton Rapids, driver of one car, and David Asa Beatty, 20, of Lansing, driver of a second car, both suffered cuts and bruises when their vehicles collided Sunday afternoon at Columbia and Onondaga roads.

Beatty said he stopped at a stop sign but didn't see the Loper car approaching and so proceeded across the highway into the path of the other car. Miss Loper said she saw the Beatty car stop but when it started up again she could not stop in time to avoid a collision.

Beatty was ticketed by sheriff's officers for failure to yield the right of way.

THE JOE BULLEN FARM was taken up from the government in the year of 1846 by a Deacon Miller. The house, the Bullen present home, was built in 1847. The frame is made from hand hewn timbers and put together with pegs. The nails used are the square type. Mrs. Stillman, a daughter of Mr. Miller told about this house in Adam's History. She mentioned a fireplace between the kitchen and living room. It can be seen in the Bullen cellar exactly where it was placed. Later owners removed the fireplace and planked up the partition. There are large posts in each corner for support. This home is located at 2989 Tomlinson road.

On Dean's List

Included on the Lansing Business university dean's list were Dan Ayers, son of Mr. and Mrs. Lowell Ayers, and Cheri Lee Clipper, daughter of Mr. and Mrs. Charles A. Clipper, both of Mason. According to Dr. Jack O. Anderson, director of education at Lansing Business university, a grade-point average of 3.00 or higher is the criterion for being named on the list. This is the second consecutive term that Miss Clipper and Ayers have earned this honor.

It will be a potluck supper. Dr. Arthur Farrell, executive of the Michigan Baptist convention will present "The Call of Congo". It will be a program with colored slides taken in a recent trip to that land. A musical program also is being planned.

Last Sunday the America for Christ offering was taken. Prayers are still asked for Charles Davis and Cheryl Swift. Young People are asked to get their reservations in for MBA and Lake Louise. Those wishing to go to summer camps should see Rev. Raft for the schedule.

The monthly worker's conference and board of christian education will meet May 18.

The following were baptized last Sunday. Terrance Davis,

Deborah Dillingham, David Droschia, Christiana Raft, Ginger Taylor, Kathy Taylor and Margaret Taylor.

The Aurelius Center school had a tea for the mothers of the school children last Friday in celebration of Mother's Day.

Group Hears About Life In S. America

Mrs. Harold Weaver told Holt Garden club members about life in Colombia, South America, at the May meeting of the group last week at the home of Mrs. Cecil Parisian. Mrs. Weaver gave some of the highlights of her visit to Colombia, illustrating with candid snapshots, maps, clippings and curios.

The club discussed plans for a men's night and picnic supper to be held in June during the business session.

Mrs. Parasiian served her guests a gelatin dessert with crackers, coffee and tea.

THERE HAVE BEEN SOME CHANGES in Jefferson street since 1891. Here is a shot taken from in front of what is now the Dart bank, looking south. The building on the left with the outside stairway was of frame construction and ended up being Mason's most spectacular fire a few years after this picture was taken. The livery stable pictured is now part of the property the city council purchased from Al Rice Chevrolet. Caarence Adlof furnished the picture.

20 Years Ago-1945
Donald G. Curry, assistant county agent in Jackson county for the past 2 years, has been engaged as county agent of Ingham county and will begin his duties here May 15.

Thousands of acres of Ingham land are under water and the head start gained by farmers in March has been more than offset by the almost continual rain of the past 2 weeks. Rivers, creeks and farm drains are at their highest levels in several years.

30 Years Ago-1935
Charles W. Reck of Lansing was chosen to head the Ingham county board of supervisors this week. After 7 ballots he won out over Jacob Schepers of East Lansing by a vote of 17 to 15.

The families of C.H. Roberts and James O'Dell moved here from Leslie last week and are located in the Williams residence on Columbia street.

Barbs and Praise

Mason's centennial is getting a big play, not only in Michigan but throughout the United States.

Last week Mrs. Wayne Skiver, former Mason resident now living in Meridian, Idaho, sent a couple of clippings. One was in the form of a guest editorial in the Idaho Statesman of Boise which had appeared in the Memphis Tennessee Commercial Appeal concerning Mason's wooden nickels. The editorial pointed out that Mason's wooden nickels were probably more valuable than the kind turned out in U. S. government mints in these days of Johnson inflation.

Darrell Southwell's short capture by the rebels in the Dominican Republic also brought Mason into the limelight.

It's easy to tell the new home owners from the lazy oldtimers in drives through subdivisions on warm spring Saturdays and Sundays.

Over on VanderVeen Drive Mr. and Mrs. Orrin Kinnison spend all their spare time putting in lawn and shrubs. Dr. and Mrs. Tom Miller and Mr. and Mrs. E. R. Pomeroy also spend their time manicuring lawns, planting shrubs and generally working themselves toward a good comforting Sunday night rest and Monday aches.

While they do that the rest of us loafers put in our time trying

out lawn furniture, playing softball and giving up completely to the crab grass, dandelions, aphids and other landscape monsters. Being an old timer in the subdivision, I would guess that it takes about 2 years for the average member of suburbia to give in to Mother Nature and her weedy friends.

For a few minutes Sunday noon I thought Central Michigan university had carried the co-ed dormitory system a little too far. In a visit to the campus I walked through what I thought was the male wing of a combined men's and women's dorm.

At first glance it seemed that there were girls present but then I got word that I was confusing the latest in male campus hair style with coeds.

What with seeing mop-haired pseudo-musicians on TV and seeing them in high schools and colleges, it is increasingly difficult to tell one sex from the other. One pig-tailed character with high heels and a plunging neckline on the Ed Sullivan show the other night really had me guessing.

What ever happened to the desire for masculinity on the part of today's young male?

Down by the Sycamore

June 14, 1945

People are getting used to standing in line. On Saturday morning one of my volunteer observers called to notify me of two queues on Maple street. I went over to investigate. There was one line up at the A & P store waiting for cigarettes while the big mob scene was at the Millerille market. Hungry for a bone, a scrap of meat, or even a good whiff of meat were scores of Mason people. There was a lot of good-natured banter and neighborliness. No one could help having a neighborly feeling with a neighbor's elbow in his ribs or a neighbor's foot pressing down on his own.

Then in the afternoon I had to go to Lansing to buy photographic supplies and on South Washington avenue, just south of Arbaugh's, was another line. People were lined up half a block buying cabbage and tomato plants. My wife was out of laundry soap Saturday night and so I stood in line at two stores only to learn there was no soap. That's one reason why I am still wearing this shirt.

I had an enjoyable hour waiting for my wife in Lansing. Somehow my attention was attracted to the feet of women shoppers. My observation was that few women under 30 walk well. Half of them were stalking and staggering along on high heels while the other half were slouching, scuffing and slogging along in heeled shoes. The ones on high heels were teetering backward and forward trying to keep their balance, while the ones with the heeled shoes had to exert every bit of energy to keep their shoes on their feet.

People can be recognized as well by their footsteps, their footprints and the general appearance of their feet and legs as by their faces. While watching the feet of hundreds of men, women and children, as they shuffled or teetered or otherwise went past in front of the Arbaugh store, I heard a familiar beat. To test myself I never looked up at all. A second later I saw two familiar feet tripping daintily along and I called out, "Hello, Eva." Sure enough, my faculties didn't fool me. The owner of the well-shod feet was none other than Eva Spencer of the Ingham County News staff. She was on her way to stand in line for nylons.

"So sorry-Chinese lotus blossom is Japanese cherry blossom." That's the cryptic message I received Tuesday morning from Wooster college, where Margaret Kunyoshi of Hawaii is enrolled as a pre-med student. I was glad to get the message. It explains why Miss Kunyoshi didn't understand when I tried to converse with her in both Pekingese and Cantonese.

Miss Kunyoshi did not

tell me she was a Chinese descent. Had she worn open-toed shoes I would have recognized her descent. There is a wide space between the first and second toes of all Japanese. That's because of a thong worn to hold sandals in place. I can see no harm in the fact that Miss Kunyoshi is a cherry blossom instead of a lotus blossom. Charm, poise and beauty are universal.

October 25, 1945

This is National Flower Week, so gathers ye rosebuds while ye may. Without flowers poets would soon find themselves out of work. So would florists. There is a language of flowers. For instance, on Monday there occurred my 24th wedding anniversary. I wanted to say something; I didn't know just what. I passed up yellow roses, which mean "Try to care." That sounded foolish after 24 years. There were pink carnations. They mean, "I'll never forget you." I didn't think that sentiment complimentary. I was unable to procure lilies of the valley. They mean "You've made my life complete." Sweet peas say, "Thank you for the lovely time." I ordered sweet peas but they were out of stock, so I finally settled for violets. They were reasonable in price and mean "I'll be true-always."

Many people overlook or dodge education unless or until the subject has been officially recognized by the professors or unless somebody writes a textbook. Every good mother used to teach her girl how to cook, bake, sew and sweep. That was just as much a part of child training as it was to teach children to keep their noses wiped. Then the schools took up home economics and there are now a lot of girls who don't learn how to even boil an egg until they are enrolled in home economics in high school. Many men used to teach their sons how to use saws, hammers, chisels and other tools back in kindergarten. Now the boys have to wait until they are enrolled in a shop course at school, and then instead of learning how to use a hand saw, they are taught how to operate band saws and jig saws.

All of us should learn day by day and week by week from the cradle to the grave, whether the subject is or is not covered by textbooks. And all of us should teach our children and other children what we know, regardless of the number of degrees we hold. There are many mothers in Ingham County who are as well equipped to teach their daughters home economics as are any teachers who can be hired.

This is National Education Week. All of us, not just the members of school faculties, have a duty in educating boys and girls.

country and town

Saying goodbye to Tillie (Kramer) Martin this past week was difficult. Tillie handled the front desk at the News for 4 years and has slipped into retirement for maternal reasons. We're happy with her over the reasons, but we're not happy one bit over having to say goodbye.

Tillie managed to retain her poise and charm in a business that often tempts a staffer to be the opposite. I'm sure News customers enjoyed working with her on women's features, want ads and subscriptions. Nelson Brown detested the everyday use of the word Lady, often claiming that too often the designation didn't fit the personality. I don't believe he would have quarrelled with calling Tillie a lady. We're just plain going to miss Tillie around the office.

BUT . . . we're also aware of the fact that each cloud has a silver lining. Mrs. Roy (Edie) Starr has joined the News staff to succeed Tillie. We're anxious to have you meet Edie. We're so sure of Edie's winning ways, your want ad won't cost a cent if Edie fails to give you one of the warmest smiles in the world. The fact is, the world is full of wonderful people (many of them females) and at the News we're blessed with an abundant share. (Is this a sign of spring or isn't it?)

son Tim went wading in Rayner creek to celebrate Mother's Day. And just to be sanitary he wore his tennis shoes and socks into the surf. That was in the morning. About noon, his right ankle seemed to itch. He put his hand down inside his sock and scratched a blood-sucker off of his foot. By this time, the sucker had acquired a crimson hew. Tim turned white.

We had heard a time or 2 about the virtues of Mrs. Iva Wright, but it took a phone call from Mrs. William Swartswaelder to suggest a story about Mrs.

Wright for last week's Mother's Day issue. Mrs. Wright has spent a lifetime raising orphaned and neglected boys in her home. Thanks to Mrs. Swartswaelder for tipping us off. The News staff appreciates news tips. If there's something interesting going on in your neighborhood, just give us a call.

Friday night was the biggest night in the lifetimes of more than 200 Mason sixth graders. For 6 years Mason 6th grade teachers have staged a sort of introduction-to-junior-high party complete with group dancing and refreshments. Eldy Toutant, Charlotte physical education instructor and tennis coach, is the annual master of ceremonies. Dave Babcock and I went to the party to take pictures. While helping sort records for the grand march, Toutant, stopped what he was doing and said, "You know, I put on parties like this in high schools all over the state. I don't know why, but Mason youngsters seem to me to be the most polite and the finest acting youngsters of any towns I visit."

Later in the evening, I sat on the sidelines with Mrs. Mina Howe, Mason 6th grade teacher. Out of the blue she commented, "Mason must be just the nicest town in the world." She was fondly looking out across the floor at many of the youngsters who will soon be passed up to the seventh grade.

Mina claims the school system plays a big part in the social development of Mason youngsters. She points specifically to many teachers who have thrown their whole selves into the job of guiding youngsters to responsible adulthood. Mina is certainly no exception. She and the other 6th grade teachers are giving boys and girls far more than the basic 3 or 4 'R's'. They're learning to be ladies and gentlemen

This Wrong Needs Righting

The most patient, understanding people in Mason live along North Mason street. For 20 years, Mason city councils have talked and talked and talked about doing something to promote an orderly development of the area. Foremost recommendation on every committee report has been the development of a full-fledged street extending from North street along the trail to the city dump. The obvious catch to achieving this has always been the confusion of property descriptions in the area. Property line descriptions frequently overlap with the result that some of the people who are willing to deed property to the city for a new street right-of-way have their property descriptions clouded with neighbors' property descriptions and they perhaps aren't willing to deed property. The situation is bewildering, but not impossible.

In spite of the winding trail that leads to the city dump and its apparent intrusion onto the very doorsteps of some of the homes along the route, the area has improved over the years. There are many good solid families and neat homes along the road. Yet, their battle is an uphill fight that can never be fully

won until a legitimate roadway is established.

We talk a lot about the sins of Appalachia, about righting wrongs around the globe. Right here in Mason - on Mason street - is a wrong that needs to be righted. The city council has the legal machinery to get the job done. It should do it. If there are any doubts about the plight of residents along Mason street, take a drive along the route to the dump at the far end of Mason street. Notice how the car fenders intrude into the dooryards, notice the roll of dust behind the car, the many children who have to share their front yards with the car traffic, the litter left by people going to the city dump.

It isn't going to be easy to straighten up the roadway in the North Mason street area. It will call for some bold thinking; probably condemnation proceedings; a real determination to get the job done. But just as surely as state and federal agencies can forge great turnpikes throughout the country dislodging and interrupting the lives of people in the public interest, so can the city council take remedial action to make the Mason street neighborhood a better place to live.

Let's accomplish this objective this year - our centennial year.

One Is Better Than 3

Mason's Jefferson avenue - Ash street intersection now has as many traffic lights as the corner of State and Randolph in Chicago or at most of the intersections of Grand Circus Park in Detroit. A couple of months ago the state highway department provided 3 trucks and 10 men to string 3 lights at the Mason intersection. It took them 2 days to complete the project.

The result: The intersection traffic is 3 times as confused as before. The lights are so shielded that pedestrians have difficulty seeing the color of the lights.

We'll assume that the state highway department is seeking a better, safer intersection for Mason. That's a proper goal. Unfortunately, the fantastic array of lights isn't doing the job as well as the old single light did. The intersection is in fact more dangerous, more confusing than ever.

Why not put the one light back in the middle of the intersection as before and place the other lights at some other corners where they will do some good? Or install them in some other town. We don't need 3 lights where one will do.

Coffee Table Quips

BOB RAAB

Several years ago while I was still in grade school the News printed a column put out by the ad staff entitled "UP AND DOWN THE MAIN DRAG". Possibly some of you readers will remember this. I found this column by digging around in the files this week. Very curious I asked Jim about it. He suggested that we start something of the same and run it as a weekly feature in the News so, this is the beginning week of "COFFEE TABLE QUIPS".

Ivan Kerr, a gentleman who has been on the Mason scene for several years, has decided to go into business for himself. He is going to be located at the old Al Rice used car building on Cedar street. Kerr's Hardware and Garden center will be open for business from the hours of 9 a.m. to 9 p.m. Monday through Saturday and from noon to 5 p.m. on Sunday. Ivan is planning a May 18th opening with his grand opening sometime in June. GOOD LUCK IVAN ON YOUR NEW VENTURE.

Not mentioning any names, but a retail store manager next to Davis men's clothing store thinks that you, Jack Davis, know more about the missing grave marker for "OLD RELIABLE" than you're letting on.

It's golf season again and reliable sources told me that "Bud" Dunn shot a sizzling 40 out at the Mason golf course last week. Come on fellas let's get out there and beat that "great" score.

Bob Ware attended a photographic convention in New York last week, glad to have you back home in Mason, Bob. See you all next week.

Mrs. Zimmer To Judge Top Pianists

Mrs. Emma Grant Zimmer of Mason has been selected by the National Guild of Piano Teachers to rate pupils of Louis Kohnop, a member of the staff at Interlochen Arts Academy. Two of his pupils are former students of Mrs. H.L. Cliburn, teacher of Van Cliburn.

Mrs. Zimmer will rate the students on Wednesday.

The ratings are part of the 3-day national piano playing tournament set for Monday, Tuesday and Wednesday at Wilde Conservatory of Music. Sixty candidates have enrolled in the tournament.

Dr. Kohnop will assist with the judging.

Local members of the National Guild are Mrs. Zimmer, Mrs. A.V. Smith, Mrs. Marcella Heithorn and Mrs. Margaret Landis.

The pianist Louis Kohnop has been the recipient of many honors. A graduate of the Juillard School of Music, he received his Bachelor's degree in music, cum laude, from the Cincinnati Conservatory and two years later, his Master's degree.

A winner of the Prokofiev Contest sponsored by the Chicago Music College, he also received the Gold Medal in a contest sponsored by the Cincinnati Post. In 1950 he won the Musical Arts Piano Award in Chicago, and in 1953, the American Artists Award offered by the Brooklyn Institute of Arts and Sciences.

Another major achievement for Kohnop was winning \$100,000 in the Music News Contest.

Scholarships and prizes have been landmarks in his career so consistently, it comes as no surprise to learn that he has made many appearances as soloist with leading symphony organizations such as the Cincinnati Symphony under Eugene Goossens, The Chicago Symphony, both at Orchestra Hall under Rafael Kubelik, and in Grant Park under Hans Schwieger, and while serving with the Air Force, with the Mediterranean Symphony in Naples.

He made his debut via radio on the Crosley Concert Hour under William Stoess, and concertized widely thereafter. For two years, as Assistant Professor of Music at Southeastern Louisiana College, he headed that institution's Piano Department. He has been heard in recital at Chicago's Orchestra Hall, New York's Town Hall, on the Major Concert Series of the Brooklyn Academy of Music, and served on the faculty of the Cincinnati Conservatory of Music.

All were taken to Mason General hospital where they were treated and released.

10 Commandments For Hospital Visitors

1. Always bear in mind that the hospital is a temple of healing and not a club or a meeting hall. The rule that limits visitors to a bedside is a sound and necessary one for the patient. May we ask that you look at these suggestions in that light.

MGH Belles Organize

Twenty-eight girls of Mason General have formed a Belle Chapter and will be known as "The M.G.H. Belles." They will hold a meeting every week, Thursday, 3:15 p.m. in the hospital dining room.

Officers elected were: Ethel Beratta - President, Betsy Church - Secretary, Hazel Strouse - Treasurer, Mary Glynn - Sheriff and Gertie Hills - Governor.

Pat Laws Housekeeping - Stella Kauffman, Kristine Lee Bus Office - Helen Pollok, Peggy Recher, Barbara Lyons Physical Therapy - Barbara Swan Lab - Diane Brooks Grant C.S.R. - Grace Proctor Nursing - Betsy Church, Katie Huber, Vi Kulpers, Gretchen Schnepf, Jane McCabe, Mary Glynn, Lucille Carl, Marie Masterson, Mabel McKinney, Lois Launstein, Doris Mickelsen, Ina Stroud, Theresa Berratta, Eunice Recher, Gertie Hills. Pink Lady News
Friday morning, April 16, we held a meeting in the hospital dining room. In spite of the fact that only one of our officers (Mrs. Bergin-Vice Pres.) was present, it turned out to be a most productive meeting.

the sick so the patient, his family and the entire community may be assured of our help and understanding. We in turn ask for your cooperation so that the patients care will not be interrupted.

5. Never, never give a patient (especially a post-operative or a pediatric patient) anything to eat or drink, without asking the nurse in charge.

6. The patients comfort depends on our tending his needs many times during the day. Your prolonged presence at the bedside may keep him from asking for some essential service or attention. Please keep this in mind as you time your visit.

7. In the case of maternity patients only two visitors are permitted during any one visiting session. Pediatric visiting is limited to the child's parents. In all other areas, remember, only two visitors to a bedside at any one time.

8. Observe the No Smoking restriction, especially in the patients room. Remember not to sit on the bed and do help us keep your hospital clean.

9. Now that you have our point of view let us assure you that we welcome your opinion.

10. Remember the old English proverb, "A pleasant smile doeth good like medicine."

Thanks to the Hawley Extension group for the tray favors for the patients trays. Also thanks to the organization for Good Morning favors, whoever you may be.

MASON GENERAL hospital's admissions desk is a busy place. Every year admissions numbering in the thousands cross the desk of Mrs. Barbara Lyon. There is a lot of paper work involved in hospital operation which the average patient or visitor is not aware of. There's insurance, medical records, purchasing, accounting records, payroll records and the many other things of the modern business world to keep the staff busy.

Administration News
This week is National Hospital Week. It is, of course, the time of year that hospitals traditionally shine up their buildings and equipment, put on their best bib and tucker, assume their best "company manners," and open their doors for public inspection. We can be proud of the fact that our building and equipment are constantly kept in condition for inspection, and no special effort in this direction is needed. We can easily pass inspection any time.

Gertie Hills, Dr. Clinton and I certainly appreciate the wonderful way in which the employees have involved themselves in this project. Much mental exercise and many hours of hard work have gone into the posters, exhibits and displays prepared for Open House.

It is fortunate that the redecorating schedule timed itself so well with openhouse. The hospital will have new clothes, so to speak, for the party.

The theme for Hospital Week is "People Heart of the Hospital." We are all aware of the drastic shortage of personnel in almost every hospital and medical field. Hospital Week is an excellent opportunity to do a big job of recruiting in every department.

Personally I love hospitals, especially Mason General hospital; and at every opportunity, I try to interest young people in some aspect of hospital work. Please join me this week.

Robert Recher
Assistant Administrator

Patrol Car Is Involved In Car Crash

A police car and another vehicle collided on highway M-43 about 500 feet west of Park Lake road at 10:44 p.m. Monday.

The police car was going east with a red flashing light and siren operating. William C. May-sill, 22, of East Lansing, driver of the police car told sheriff's officers he was on his way to a road block at M-43 and Hamilton road when the other car, driven by John A. Seager, 59, of Tecumseh pulled out from a gas-line station to make a U turn and ran into the side of the police car.

Seager, officers said, told them he did not see the flasher nor hear the siren. He was ticketed for failure to yield the right of way to an emergency vehicle.

Light OK'd At Cedar, Aurelius

HOLT - The controversy over a traffic light at Aurelius road and Cedar street (US-127) has come to an end and a light will be placed at the intersection.

Supervisor Joe Kiersey made the announcement at the meeting of the Delhi Charter township board Monday night.

He said the work order has been issued by the state highway department, but it probably will be September before the light is installed. Kiersey explained that the state has 2 crews working on such projects in the entire state, and work orders will keep them busy until fall, when the Holt job will be done.

A proposed ordinance designated as No. 22, to establish control of the dumping of waste from septic tanks, sewage pits or cesspools and to provide penalties for violations was given its 1st reading.

It is due to be brought up for final adoption at the board's next meeting on May 24.

The board approved the purchase of 3 drums of a concentrated odor control chemical for sewage and sewage treatment plants. A representative of the Dow company was present to explain the uses of the concentrate which can be sprayed or dripped into sewage vats and lift stations.

DeVere Murray, operator of the sewage treatment plant recommended that the board purchase three 20 gallon drums of the concentrate for \$182.50 each. The board adopted his recommendation.

The board approved the installation of a yard gas burner to be used to help eliminate odors from the sewage treatment plant by burning excess sewage.

DAVID MANNING at his home in Dansville engaged in one of his favorite hobbies. He has a collection of all of the records of the M.S.U. group of "Singing Statesmen" which he is a member.

David Manning Plans Summer Study Overseas

WILLIAMSTON - The enthusiasm that the photographer caught in a picture of an 11-year-old boy is a part of the young man's life today, nine years later.

David Manning displays the same ardor for his college work and future as he did for an animal painting by a local artist.

David, son of Mr. and Mrs. G.N. Manning of Dansville is now a junior at Michigan State University. He will leave June 25 for Europe, first for 2 weeks of sight seeing on the continent and seven weeks of intensive studies in the languages. Three professors from MSU will accompany the group and teach the languages.

Advanced courses in Spanish, French and German will be taught for which the students will receive 9 hours of college credit.

David will take advanced German conversation and composition in Cologne under the supervision of Dr. Mark O. Kistler. The students will return September 5 in time to enroll for the next college year.

Through high school and college Manning has had school related activities. In high school he was in the junior and senior plays, worked on the year book and used photography for pleasure and advancement. He also was in the high school band and chorus.

In college he has been in the college republican club, college glee club, University chorus and with the "Singing Statesmen" which has held many engagements and made many records. He has been active in Wesley Foundation and Young Peoples University M.E. church.

The Manning family has had its interests in foreign student exchange enriched by association of student Heidi Meyer who lived in their home in 1962 and 1963.

Foreign Service is David's goal at the end of college career. Along with his academic efforts Manning has enjoyed several hobbies—his books and records and a bewildering collection

Rev. Suthers terminated his work at St. Katherine's at Easter time.

During his stay here a modern church has been built. The chapel is kept and preserved for special occasions.

Farmer Squeeze Discussed

An impressive list of nationally-known farm spokesmen and agricultural scientists, a Michigan man among them, have participated in the recent "silver anniversary" meeting of the Animal Health Institute, in Chicago.

Speakers on the program included Hollis Brower, representing the Dow Chemical company, Midland. Among others with him on the program was Charles B. Shuman, president of the American Farm Bureau federation. Both men had much of significance to say.

"Young nations and societies require additional protein for vigor, growth and health, just as young animals need a greater percentage of protein in their diets than do older animals," Brower said. He said that many societies in the past have "plateaued" (reached their growth-peak and then leveled off) because of the inability of their agriculture to produce an adequate supply of protein and adequate amounts of food.

Brower drew another parallel when he said that the political slogan of a "chicken in every pot" of a few years ago had mass appeal to our voters, and that such a promise would now have mass appeal throughout the protein-poor world, "simplifying our diplomacy and world-wide involvements."

Shuman, speaking as head of the nation's largest general farm organization, suggested in turn, that the kind of government spending needed to fulfill such promises as outlined in new spending programs of the "Great Society," serves to increase the cost-price squeeze placed on farmers, whose efforts have first produced the super-abundance which has placed a dozen chickens or more, in every pot.

Stephen Dexter and Tomato Cart

No Hoeing or Cultivating

He Grows Tomatoes In a 2 Wheel Cart

In the back yard of Dr. and Mrs. Stephen Dexter of 727 Linden street, in East Lansing tomatoes are grown the easy way. They do not need to be hoed cultivated, but just fertilized and watered.

The Dexters have a small box on wooden wheels that can be moved periodically to prevent shading the grass and placed in sunny areas. The box is approximately 3 x 4 ft. and 6 inches deep. This box is filled with vermiculite which is mica in-

ulation material that contains the innox nutrients needed.

Just spread two handfuls of 12-12-12 fertilizer at planting time and again a month later. This box size is sufficient for four tomato plants which produce plenty of tomatoes for his family, plus some for the neighbors.

The year he weighed the production from four plants, he calculated a yield of 60 tons of tomatoes per acre. Watering the plants thoroughly when needed is important. As the plants get large, considerable water will be transferred from 4 tomato plants. A small trellis attached to the box is used to hold the plants erect. Tying the main stems to the trellis will train the plant to stand upright.

Dr. Dexter is research professor of crop science at Michigan State university.

Junior and Senior High Band Concert Next Sunday

By RUTH CAMP
Stockbridge High School
The junior and senior high bands will present their annual spring concert Sunday May 16, at 3 p.m. in the new high school gym.

Among the songs to be played by the Sr. band are: Symphonic Overture, Blue Danube, Dream of Owen, and others.

Last week the junior band members received their blue and red medals for their efforts at the local and state festivals. The senior band also received blue medals for their superior rating at the festival.

The journalism class is proud of a \$168 purchase they recently made. They bought an Omega B-22 enlarger last Tuesday. The enlarger will aid the photographer a lot and give them practice for future careers.

All 8th graders spent all morning last Wednesday and a little of their noon hour in study hall 109.

They were taking high school placement tests. This test, when graded and returned will influence each student greatly in choosing his subjects.

Judy Hamlin and Margie Myers represented S.H.S. at the Regional Forensics meet at MSU May 4.

Judy won 3rd place, competing with students from 19 schools, many of which were class A. Margie went through 2 rounds to become a semi-finalist in extemporaneous speaking before she was eliminated. Congratulations girls!

The juniors are preparing the new gym for the junior prom which will be May 14. This year the theme is Evening in Paris at the Moulin Rouge. The waiters already have been chosen. The style of formal this year tends to lean to the floor length gown. Many of the girls will be wearing them. The party will be from 9 p.m. to 1 a.m.

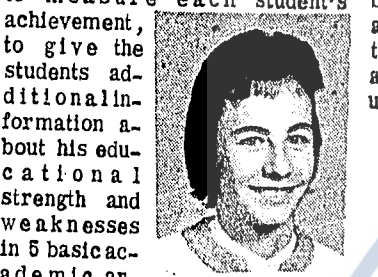

The Girls Glee club presented the annual variety show, Friday, May 7. To start the program, Sharon Holloway presented the director, Miss Nellie Stephens with a corsage.

The show was presented in the old gym, contrary to last

year's show which was in the new gym. However, there was no stage and due to many complaints, the show was moved to the old gym.

Results of Merit Tests Discussed

By CHERI RUEST
Dansville High School
DANSVILLE - Donald Mueller, principal of Dansville high school, met with the members of the Junior class who took the national merit scholarship qualifying tests earlier this year. The results were discussed and explained. The test is designed to measure each student's achievement, to give the students additional information about his educational strength and weaknesses in 5 basic academic areas. The 5 basic areas include, English usage, mathematics usage, social studies, reading, natural sciences, and word usage. The score from each area of study measures the educational development of the students in this area.

The sophomore class ring committee met Monday with a representative of a ring company to select the style of class ring. The entire sophomore class ordered class rings Friday noon. Members will receive their rings in September.

The Juniors presented their Junior play "Ghost Business" at a matinee Wednesday, for students in grades 4 through 6. The play was presented to an audience of more than 100 parents and students Thursday night. The play was considered a great success by Mrs. Alice Hunt, the director.

All students of Dansville high school are asked to make the Kenneth Sly Memorial Fund a success. The fund will help provide a memorial to the Stockbridge junior at the Methodist Summer Youth Camp in Port Huron, Michigan. Sly was killed in an automobile accident last winter.

The Dansville baseball team

played at Stockbridge Friday and lost, 4-2.

The Dansville F.F.A. sponsored its 2nd annual chicken barbecue last Saturday. The chickens were raised by the F.F.A. boys as one of their projects.

All Dansville high classes are busy this week preparing for the annual all-high banquet. The entertainment will be provided by a group from Michigan State university.

Holt and Okemos Teens Attending Science Fair

HOLT - Sharon K. Lambeth and Pat A. Somers, sophomores of Holt and Okemos schools respectively began their 6-day trip to the National Science Fair International in St. Louis, Missouri, Monday morning, May 3. 2 Student Council Forums Bring Forth Several Ideas

HOLT - The student council of Holt high school, under the direction of Daniel Hovanessian, sponsored two forums which enabled students to present ideas and complaints.

Hovanessian was the only faculty member present and Bob Hoffman, senior class president, was chairman at both sessions. Assisting him Tuesday were Jay Dannelley, student council president; John Warren, vice-president; and Dan Peacock, chairman of the building and grounds committee; Jim Cooley, freshman class president, also was on the panel.

Freshmen inquired as to whether it would be possible to hold spring instead of fall elections for the student council. This year they feel that the council could get off to an earlier start.

Orientation, which all freshmen undergo, brought a few comments that it could possibly be better organized. Its purpose is to give incoming students a general idea of the layout of the school and what is expected of them.

Parties and dances were discussed. A pizza party is under discussion by the student council.

Advanced announcement of sports events, a teen center for youths in the Holt area, improvement in the boy's locker room, delivery of year book and class rings, and a suggestion box were discussed. Nearly all present agreed by a show of hands that the forum was worthwhile.

Mr. and Mrs. Francis Burgess of rural Mason.

The regular meeting of the Onondaga O.E.S. will be Wednesday, May 19, at 8 p.m. at the Masonic hall.

Mr. and Mrs. Robert Bush were Saturday night and Sunday guests of their sister, Mrs. Lucille Kimball, in Toledo, Ohio.

Mr. and Mrs. Harold Barton were Saturday evening guests of Mr. and Mrs. Walter Losey of Rives Junction. On Friday, Mrs. Barton and her mother, Mrs. Emma Moyer, visited Walter Barton in Jackson.

Mrs. Emma Moyer and Mrs. Rose Barton were guests of Mrs. Vivian Steffy in Eaton Rapids Sunday. Other guests were Mr. and Mrs. Gerald Steffy and Casper Gay of Lansing. On Sunday evening, Mr. and Mrs. Barton and Mrs. Moyer were guests of Mr. and Mrs. DeWaine Bienz and family. Other guests were Mr. and Mrs. Earl Moyer of Tompkins and Mr. and Mrs. Forrest Smith of Charlesworth. Mrs. Moyer received telephone calls from her daughter Mrs. Don Patterson of Bay City and another daughter Mrs. Lee Carpenter from Mahomet, Illinois.

The sophomores met to discuss almost the same problems, with an emphasis on gym classes and intramural sports for girls. Students expressed a desire for a smaller gym class for those who cared to elect them.

Scurvy Day and Bermuda Day were discussed. Dress-up Day is required, so some students asked why not a scurvy day. They

were reminded that when a similar request was granted several years ago, some students went to extremes.

This is the second year for this type of forum. This year the student council experimented with taking each grade separately instead of having freshmen and sophomores together, and then juniors and seniors together.

The band members received the awards and letters they have earned throughout this year.

May 14, will be the day for the Spring Ball which was cancelled April 23. This will be sponsored by the F.H.A.

The play was fairly well attended but the attendance was better Saturday night than Friday.

The Juniors also enjoyed a wonderful play party Saturday afternoon after the play at Sandi Erickson's home. The cast members and their guests enjoyed a pleasant evening.

The sophomore class members enjoyed the fine day Saturday washing the village fire trucks.

The Senior government classes enjoyed a day at the capitol building in Lansing Thursday. The Seniors are also making big plans for graduation and their weekend trip.

The student council met last week to further discuss the Mich-

igan Week activities. They also decided that the next meeting will be primarily concerned with the 1965-66 student council elections.

The National Honor society met Monday for the first time with the new members present. President Jane Guenther discussed the annual book sale the National Honor society co-sponsors with the Friends of the Library. This year's sale will be on Thursday and Friday, May 13 and 14, at the high school, and Saturday, May 15, in front of the Dart Insurance building. Anyone with books, magazines, or comic books that are in fairly good condition may donate them to the N.H.S. for this cause. The books may be delivered to the high school.

A Hawaiian luau sponsored by the art club took place Friday, May 7. The art club members and the honored guests ate a meal of shrimp, scallops, swordfish, red snappers, ocean perch, glorified rice, coconut pudding, assorted salads, and Hawaiian punch. The high school patio was decorated in tropic style with bamboo trees, Tahitian war gods, fishing nets, and a fountain supplied by a Mason merchant. After the dinner, Mr. and Mrs. Lyle Kinyon showed movies of their visit to Hawaii. All the guests received Hawaiian leis and orchids.

Sixth Graders Have a Party

Every year Mason 6th graders are treated to a "coming-out" party. Friday night was the sixth such event at Mason junior high school. The 200-plus youngsters had a taste of group dancing including the Bunny Hop, grand marches, circle two-steps and then topped off the evening with refreshments.

There are 6 sixth grade rooms in Mason, and all of the teachers turned out to help entertain the youngsters. Teachers are Mrs. Howard McCowan, Mrs. Richard Mills, Mrs. Elmer Juderjohn, Mrs. Herb Howe, Mrs. Paul Tidemann and Garrett Wheaton.

Eldy Toutant of Charlotte was master of ceremonies. Toutant, a professional youth party giver around the state, claims the Mason youngsters display the best manners of any school he visits.

Eager faces are proof of the good time these sixth graders had midway in the grand march.

Students and teachers help Eldy Toutant of Charlotte pick out records for the grand march.

Fun and the Frog.

MASON SENIOR HIGH CENTENNIAL DANCE is scheduled for Friday night, May 14, at the high school. Here is the decorating committee making decorations at the Russell Hershiser residence. Holt To Seek U.S. Funds For Youth Corps Program

HOLT - The Capital Area Economic Opportunity committee has approved an application for

Wholesalers Show Increase

Sales by wholesale establishments in the greater Lansing area totaled \$411 million in 1963, an increase of 25 percent over 1958 sales, according to a report published recently by the U.S. Commerce Department.

The figures, from the 1963 and 1958 censuses of business, are included in the final report on wholesale trade for 1963 in Michigan.

Total payroll for the entire year 1963 of wholesale establishments in the area amounted to \$23 million, an increase of 30 percent over 1958. The report shows the 4,016 employees at work during the week of November 15, 1963, were paid \$456,000. This was an increase of 13 percent in the number of paid employees, and 29 percent in the amount of total payroll over the corresponding week in 1958.

a \$36,017 federal grant to finance a Neighborhood Youth Corps program in the Holt school system. The next step is for the proposal to be sent to Washington for federal approval. The grant would be awarded under the Economic Opportunity act.

Dr. Maurice Pernert, Holt school superintendent, said the program is set up for 35 boys and 15 girls. These students would be employed in the schools as office, teacher, custodian and cafeteria aides.

Similar to the program in effect in the Lansing schools, it is an in-school program aimed at cutting down on school dropouts by allowing youngsters in the lower income families to supplement their family incomes.

Dr. Pernert said that Holt has about a 2 percent dropout rate, which is relatively low. "But we do have some boys and girls who do drop out of school for lack of funds," he said.

He also expressed hope that the students who have dropped out for financial reasons might be induced to return to school through this employment program. Total cost of the 12-month period, which would start in September

1, 1965 would be \$40,410. The school system's share would be \$4,393.

Students employed by the school under this grant would receive \$1.25 an hour, working part time in addition to their school studies.

The committee also approved a revised application for a 6 month \$21,778 federal grant to be used to hire a full time director and staff for the committee. The director's job will pay \$12,000 a year. Mrs. Black said that federal officials indicated the grant would be awarded in approximately 3 weeks.

Dr. Augenstein Accorded Honor

HOLT - Dr. Leroy G. Augenstein, professor and chairman of the Michigan State university biophysics department, was honored Wednesday night for service in the field of adult education. Dr. Augenstein received the annual award of the Michigan Adult Education association at the group's meeting at Gull Lake. The citation read, "Seldom has any university faculty member served the cause of adult education with such competency and devotion".

Dr. Augenstein has made many appearances on behalf of adult education, including lectures at 25 conferences at the MSU Kellogg center in the past year. He has taught evening classes and assisted the MSU television department in preparing a teaching film which is being made available for nationwide use. Dr. Augenstein lives in Holt, and appeared and gave a talk to the Sycamore school PTA in January.

Romney Reports

Last week I returned with 50 Michigan businessmen from a market study tour of seven European countries. The purpose of this trip was in line with the theme of Michigan Week, "Dynamic in World Progress," and I will report on the tour in my Michigan Week column, May 16-22.

Here at home we still have that major problem of maintaining our state's reputation while at the same time continuing to meet the needs of people.

Last Friday I met with the members of the legislature who have been designated to study and discuss the financial problems and future of Michigan. As you may know, I submitted various alternative proposals designed to avoid a financial crisis and provide sufficient income for the state to keep pace with our expanding population and essential state services necessary to meet these needs.

I believe that it is absolutely essential that every citizen understand the financial position in which we now find ourselves. Briefly, the next two budget years will require all of the estimated revenue from current state taxes together with our \$105 million surplus that we expect at the end of this fiscal year.

On this basis, we will only be able to apply about \$40 million of the revenue and surplus for the improvement of programs of all types. In my 1965-66 budget recommendations, the bulk of this improvement is applied to education and mental health. If additional improvement is to occur and if we are to avoid deficit financing, which we are required to avoid under the new constitution it will be necessary to support it with increased taxes.

If we live within indicated revenue and surplus for the next two fiscal years, the following fiscal year will confront us with a financial problem of major proportions. Our surplus will have been used - about \$72 million of it in the 1966-67 fiscal year. And the state services initially supported with this money will have to either be supported with new revenue or the level of services cut back drastically. At the same time, in the 1967-68 fiscal year, we will face additional built-in expenditures just to stand still at the existing level of state services. This will be at least in the \$70 million area. Thus to meet just these two requirements, without any consideration of larger expenditures so necessary in the fields of education, mental health and others, we will need additional sources of revenue of at least \$140 million.

As I have indicated, this does not include other factors such as current funding of pension requirements or other obligations not covered by built-in expenditures and services supported from the surplus.

It is my judgment that the worst thing that could happen to our state would be to find

ourselves again in a position where we would be unable to meet our obligations and, as a result, lose the confidence of the people of the nation.

Under these circumstances, maintaining the state's integrity and good name becomes even more important than fiscal reform. I therefore believe our minimum objective should be to keep expenditures within the limits of available revenue and if revenue is not sufficient to support essential services, to enact the additional taxes required for this purpose.

Therefore, in my continuing efforts to get the necessary facts and figures to every Michigan citizen, I have called a Governor's Conference on State Finances to be held in Lansing on Thursday morning, May 13th.

I have sent out more than 1,600 invitations to legislators, news media officials, state government agency heads, mayors, the chairmen of both political parties as well as many leaders in business, labor, church, civic, educational and veterans organizations.

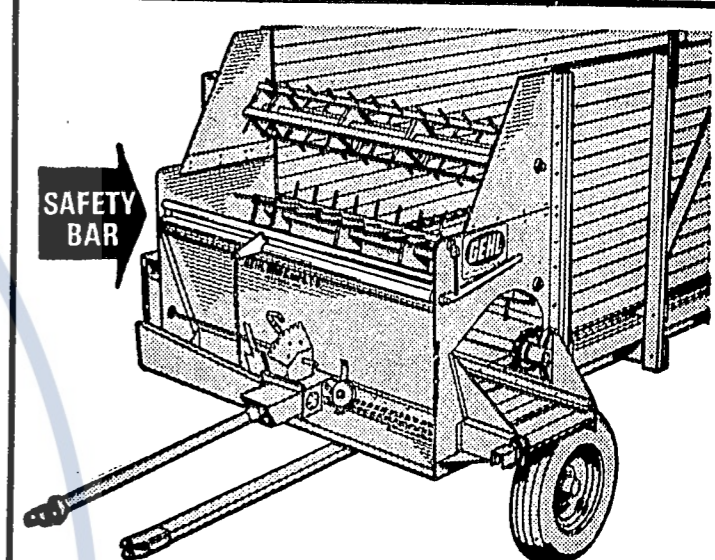

I fervently hope that every

Michigan citizen will take the time to inform himself as to the problems that lie ahead and then join in making his voice heard for continued progress and fiscal responsibility in Michigan.

50 Plus Club Hears of Nigeria

HOLT - Dr. Hugh Anderson of Michigan State university, guest speaker at the dinner meeting of the Fifty Plus club of the Holt Presbyterian church Saturday evening told the group of the United States government's program in Nigeria to aid that country in farm improvement methods and development in stock raising, milk production, general farming and equipment. He showed pictures taken in Nigeria where he and his family lived for 3 or 4 years working for the government.

Mr. and Mrs. Casper Lott are co-chairmen and Mr. and Mrs. Andrew Farnsworth were hosts for the meal and had charge of the table decorations.

DIRTY PEOPLE
Social change is a major cause for the estimated \$750,000 bill Michigan taxpayers meet each year just for picking up litter, according to a national study.

The Institute for Motivational Research recently confirmed previous indications that thoughtlessness and carelessness were the chief reasons people strew litter in public places.

"Apparently the complex social trends of our modern world have tended to sever the individual's relationship to his community and thus reduce his sense of social responsibility and civic pride," the study says.

Simply stated, the Institute reported that the litterer who wouldn't think of dropping his cigarette pack on his living room floor could be expected to discard it unnoticed in a public building.

Much of the cost of pickup is on the highways. State Highway Department officials estimate it costs an average of 32 cents to pick up a single litter item.

Cleanup campaigns in communities across the state properly center the burden of responsibility on each individual. Yearly statewide clean-up costs would indicate a need for these special campaigns to last 12 months rather than just a few days or a week.

Little relief has been gained from Michigan's anti-litter law, touted as one of the best of its kind in the nation, although a stepped up enforcement program is under way.

As Gov. George Romney said in a proclamation for Michigan's special cleanup week this year, "It is absolutely essential for every citizen, regardless of where one lives or how busy one is, to exercise a relentless concern and personal responsibility to keep trash of any kind off our public and private thoroughfares and lands."

There is one year-round private statewide effort being conducted to rid Michigan of litter problems. Working in cooperation with the State Chamber of Commerce, Keep Michigan Beautiful, Inc., has as its goal "to make Michigan the best groomed state in the nation."

To achieve this worthy goal, the organization is soliciting and must have the support of all government agencies, industries and individuals.

KEEN COMPETITION
Talk about a unified budget request for higher education seemed just so much malarky when spokesmen for the various institutions went before the legislative appropriations committees this year.

Previously hope was voiced by some spokesmen that a single

budget request could be planned for next year. When this year's hearings went down to the wire it was the same old story, however.

The story, so familiar because of its annual retelling, goes, "Once upon a time in years back, and today, and tomorrow and next year we have been, are and always will be the worthiest."

Each institution has its reasons why it should get the lion's share of the higher education budget pie.

Spokesmen for one institution say it needs more money because of its extensive graduate program. Others need a big share of the funds because of the growing demand for education facilities.

Still a third provides some specialty field of training which demands special consideration, and another demands attention simply because its administrators feel they are not getting their fair share.

At the continuing rate of rivalry between the several state-supported colleges, it would appear there is little hope of any future agreement on a unified budget request for higher education.

College officials are not alone in presenting the "I like me best and you should too" attitude to the legislature, however.

Every agency administrator in state government brings in a similar plea when the budget hearings are held annually. This year, legislators will hear this twice, but the colleges will be left out of the second round.

Once the budget is settled upon hearings are anticipated on the government reorganization proposals. In these the fighting is likely to become even more bitter since administrative survival will be at stake.

In budget hearings, agency heads know they will get some portion of their request. Government reorganization will result in the absorption of some agencies and possible abolition of others.

RECORD COUNTS
Proof of effective service likely will become a key tool in arguing for self-preservation in the organization shuffle. It also looms largely as a big vs. little fight.

Each agency head will want to remain at or near the top of the bureaucratic hierarchy.

Chiefs of smaller units, such as the banking department, will have an uphill battle trying to convince the legislators they have what it would take, for example, to assimilate the insurance department, municipal finance commission and other agencies which might be lumped into a single department.

Michigan Dry Bean Industry Has Fine Achievement Record

By Ray Bliss
Okemos

The Michigan dry bean industry has a record of achievement which probably cannot be equaled by any other agricultural industry in Michigan, and probably in the country.

Here is a crop which is dependent on ideal weather conditions (which we do not always have) for maximum yields, but still it grows and prospers. Let us look at the record of this valuable cash crop for the past 30 years as it has expanded in the rich fertile Saginaw valley and the Thumb of Michigan.

Thirty years ago, a farmer was doing well if he could gross \$20 an

acre from growing beans. We all remember the hard work attached to growing a crop of beans back in the good old days. In the last four years, the average farmer with average yields has had a gross profit of over \$85 an acre, and many growers tell me they have grossed well over \$125 an acre. How has this been accomplished? By better seed, new varieties of beans as developed by Michigan State university, better methods of weed control, more and better fertilizers, new pesticides, and modern machinery, just to name a few. Looking at the record of bean production, we must give credit to the producer for growing twice as

many beans on practically the same number of acres. This is a real achievement and is done without the back-breaking labor of 30 years ago. No other cash crop can show an increase in gross income per acre equal to navy beans which has increased four times on an average, and in some cases, even five and six times.

Let's take a look at the handlers of beans who have built elevators and storage terminals and processing equipment to handle this crop efficiently, to expand the markets in this country, and in foreign lands, to sell this vast increase in production in competition with all other foods on the market. In the 1930's and early 1940's, the average price was a little over \$3 per cwt. In the last 5 years, the growers have averaged better than \$6.25 per cwt. or more than double the price of a few years ago.

These men and companies who have processed and sold Michigan beans have been willing to put their money and their futures on the line to match the production of the growers. They have done a real marketing job to keep pace with the expanding production.

And last, but not least, credit must be given the canning industry. Those giants of the food industry, such as Campbell Soup, H. J. Heinz, Stokely-Van Camp, Libby, McNeill & Libby, and others who have taken our navy beans, and through advertising and promotion, put them on every grocery shelf in ever-increasing volume, in attractive packages as a wholesome, delicious, nutritious food at a reasonable price.

As we look back over the past 30 years, we must give credit to all segments of the industry for a fine job of working together to build a business which can look to the future with confidence. With all the know-how of the growers, handlers, and processors, and a willingness to work together, the next few years could easily see a 10,000,000 bag crop or 12,000,000 or 15,000,000 bag crop. However, to achieve this goal, each segment of the industry must understand the problems of the other in order to make it profitable.

But, we see danger signals ahead. Different farm organizations and groups of farmers are not satisfied with the rapid progress made by the bean industry. One organization thinks the growers should have \$9 cwt. for their beans or start a withholding action. Another group thinks the growers should get \$8 cwt. and still another group feels that an

increase of 25¢ per cwt. is enough.

One farm organization is rapidly buying country elevators with the idea that once they control enough volume, they can force the price up. Still another organization, and certain politicians, think a bean commission financed by a deduction from the farmer of 2 cents per cwt. would solve all the problems of the bean industry. Even our governor, the Michigan Department of Agriculture, and Michigan State university, and the U.S.D.A., are willing to take the taxpayers' money and get in the act of selling beans. Maybe before we get any more organizations and politicians and government regulations into the bean business, we should look at the record of the bean business in Michigan, and navy beans in particular. Do we realize that Michigan is the only bean area which is showing this phenomenal growth?

The Great Northern bean and Pinto bean areas of the western states are not showing any increase, neither are the Lima bean growers in California. In fact, Idaho, which has a Bean commission is down 8 per cent and California down 20 per cent in total bean production since 1955.

Maybe we had better take a second look before we try an unproven course. An excellent working relationship between growers, handlers and processors up to this time has been one of the main reasons for the outstanding achievements of this industry. Each is a specialist in his own field, each needs and wants the cooperation of the others. Who from the outside has the knowledge and know-how that is found right in the industry? The bean industry until now has been built by those within the industry. It has been built in the American way, the good old Yankee way, with hard work and good common sense. Let us keep it that way.

LATE LAST SUMMER Jim Myall fulfilled an ambition to go into the Arctic after big game. On this trip he bagged this caribou along with a bog bear, mountain goats and other critters of the north. He vowed to return after a polar bear.

RETURN HE DID AND HERE IS THE EVIDENCE of his success with this 9 ft. white monster. Myall liked Alaska so well he has stayed on there and is currently working with Eskimos in the whaling season.

Jim Myall Shoots Straight

Mason's Great White Hunter Finds Arctic Game Exciting

Far away in the frozen north near the Arctic circle in Alaska a Mason young man is working as a whaler with a group of Eskimos.

He is James Myall Jr., 23, son of Mr. and Mrs. James Myall of 1350 W. Columbia road. Young Myall graduated from Mason high school with the class of 1959. For 2 years he worked on the farm on Columbia road with his father.

In 1961 adventure beckoned and he joined a cousin who was assigned as a forester from Michigan State university to Alaska.

The cousin went to Juneau but Myall went on to Kotzebue in the Bering straits to hunt polar bears. It was a guaranteed hunt, that is the hunters were guaranteed a bear. But they didn't get one and Myall was offered a chance to go on a brown bear hunt later.

He came back to Mason and in 1963 returned to Alaska, going first to Kodiak and then on to the Aleutian islands.

The next year—in 1964—he went to the Wrangell mountains of Alaska above Anchorage with 2 brothers he had met at Kodiak. The hunting party lived with the Eskimos around Point Hope

where Myall began work with them as a whaler.

His mother says they hunt the whales in small boats. Throughout the whaling season he has been living and working with Eskimos. That season is now drawing to a close and his parents are looking for him to return home the latter part of May or early in June.

His prowess as a hunter is revealed in photographs he has sent back to Mason. On March 31 of this year he shot a polar bear that measured 9 feet, 7 inches. Last October he shot a caribou in the Aleutian islands, a moose with a 67 inch antler span and a brown bear that measured 9 feet, 6 inches.

County Farm 77 To Get Concept Is Outmoded Diplomas At Leslie

Better public understanding of the curative and rehabilitation aspects of today's county medical care facility is a major aim of a May 28-27 conference at Michigan State university.

Reappraisal of the concepts of the county facility and new methods for strengthening the public understanding of these concepts are subjects of major conference sessions. Reducing safety hazards, developing staff leadership and improving internal and external communications are others.

Participating in the conference will be more than 200 county people concerned with medical care facilities--administrators, directors of nursing, therapists, non-nursing personnel and county welfare directors and board members--from all sections of the state.

Workshop sessions for special-interest groups will examine new techniques for patient treatment and care and for operation of the facility.

The conference is co-sponsored by the MSU College of Business, the Michigan Social Welfare Commission and the State Association of County Social Welfare Boards.

Lost Chance

There was a time when 4 nations controlled most of the world's resources. That was considered dangerous to the peace of the world. Today that situation has changed drastically. Today one nation controls most of the world's resources, we do. And that fact gives these United States power to influence the world, undreamed of for any nation in all history.

Power to help shape the world along lines that were laid out by earlier Americans, founding fathers who really believed that they had a message, a political, social, economic and philosophical message for the whole human race—not just for this country. It's the fact of that kind of power, at this time when the world is on the edge of an industrial and scientific explosion, that puts today's American in the most difficult spot in our history. We have the power, but how are we to use it?

How are we to live up to the responsibilities of that power so as not to misuse it or lose it—because it can be lost, and in the most important part in the world, for us and our friends . . . our allies. It can be lost this way in Africa.

In the battle over Africa, our slavery period and our present record of race discrimination weighs heavily against us. A recent unfortunate episode that took place in North Africa, in Morocco, may well indicate our chances in that continent. What we have in mind, is, or was, an important American air base in Morocco. This base in Morocco has been an important place since America went into North Africa at Casablanca during World War II. Morocco was the center of our air and communication network in the Mediterranean area until that country got its independence in 1956. Soon after that we were asked to get that air base—and our Voice of America relay station that was located nearby—out of Morocco in a certain time.

We were more than a little upset by that request. In fact we found it very hard to understand—or was it?

We were running that air base, as one of many around the world, to keep the world the kind of place in which Morocco or any other country could become independent and stay free of domination or control by communists. We were there to defend the free world against an aggressive, expanding communist power and we simply could not understand why these people could be so indifferent to that threat. When we learned that our planes on that one-time important base would be replaced by Soviet MIG fighters and bombers it was clear, as we saw the situation, that we had taken a whole of a beating in Morocco.

The problem involved here is one of mineral resources, the stuff of power—the iron ore, copper, nickel, cobalt, manganese and vanadium—the raw materials that are the basis of power today in war and peace; more important to you this minute than ever before in history. J.H. Ewje, Leslie

Preadmore

Is Re-Elected

Ingham County Sheriff Kenneth L. Preadmore was re-elected president of the Ingham County Tuberculosis and Respiratory Disease association at the annual membership meeting last week in Lansing.

Ray C. Hitchkiss of East Lansing was re-elected vice-president. Other officers chosen are: Mrs. Dean F. Lovitt, Lansing, secretary; and Ford C. Ceasar, Lansing, treasurer.

Directors chosen were Frederick S. Gable, Okemos; George H. Stewart, Williamston; Dr. Kenneth E. Murray and Mrs. Eli Chastine, both of Lansing; Dr. D. Bonta Hiscoe and Rev. Wallace Robertson, both of East Lansing, and Preadmore.

Speaker at the meeting was Dr. William H. Kusely, director of the Michigan State university institute of biology and medicine, who spoke on the anatomy and diseases of the lung. He said that while some lung diseases probably are caused by cigaret smoking, that there are other causes also.

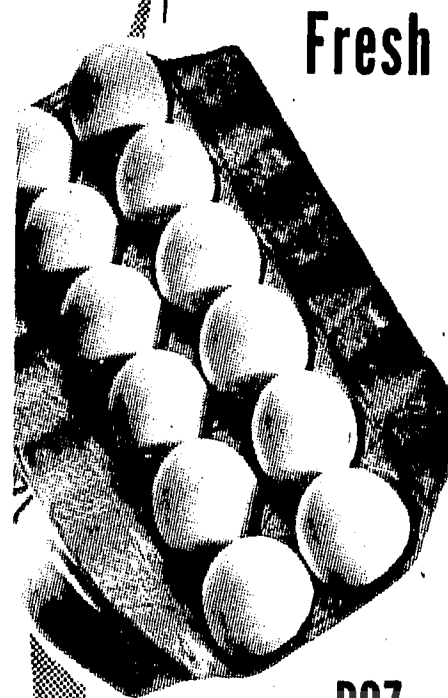

Several volunteer workers received certificates for their work, and their chairman, Mrs. LaVanch McKouen, was awarded an emblem.

Livestock Prices Bright Spot In the Farm Picture

The bright spot in the farm price picture so far this year has been the livestock market as of May 1, reports John Ferris, Michigan State university extension agricultural economist.

While Ferris and associates had predicted higher prices for hogs, lambs and fed cattle, the extent of increase has been surprising.

Here's how Ferris sees the situation.
CATTLE: Choice cattle are up about \$3 a hundred over a year ago or about 15 per cent. Standard steers have made about half that gain, and cows are off slightly. Lower cow prices are the result of culling of dairy stock and bigger beef cow slaughter. Farmers have cut back weights at which choice cattle are being sold, thus reducing the total volume of meat per animal marketed. By fall there could be a weakening of market so few feeders are urged to continue moving cattle at lighter weights.

HOGS: Barrows and gilts selling at around \$18 a hundred recently are up \$2.50 over a year ago—a jump of 15 per cent. The outlook is very good for 1965 and early 1966. If producers

show restraint in number build-up the price could hold good through all of 1966.

LAMBS: Lamb prices are also 10 to 15 per cent over a year ago and the short range outlook is good with slaughter down.

106 Attend Banquet

DANSVILLE - The Mother-Daughter banquet of the Dansville Methodist church was Friday at 6:30 p.m. at the Lendrum Fellowship hall, with 106 in attendance for the chicken dinner.

After the dinner Mrs. Loren Stid presided as toastmistress for a program consisting of toasts to daughters, mothers, granddaughters and grandmothers, songs, a flute duet, a puppet skit and dance routine.

Awards were given to several of those present.

As I See It

By Hayden Palmer

It's odd sometimes how little things catch on and speed across the country in almost nothing flat.

Take songs, for instance. Lorne Green, star of the television show, Bonanza, made the song "Ringo" a household musical bit.

Now comes another, known as "The Square", which Aladdin, of the Lawrence Welk show, brought on the air the other night. Perhaps you heard it, but I think it is worth printing and here it is:

"Square". . . Another of the good old words has gone the way of love and modesty and patriotism.

Something to be snickered over or outright laughed at.

Why it used to be that there was no higher compliment you could pay a man than to call him a squareshooter.

The ad man's promise of a square deal once was as binding as an oath on the Bible.

But today, a square is a guy who volunteers when he doesn't have to. . .

He's a guy who gets his kicks from trying to do a job better than anybody else. . .

He's a boob who gets so lost in his work, he has to be reminded to go home.

A square's a guy who doesn't want to stop at the bar and get all juiced up. . . Because he prefers to go to his own home, his own dinner table. . . his own bed. He hasn't learned to cut corners or goof off.

This nut we call a square gets all choked up when he hears children singing "My Country 'Tis of Thee". . .

He even believes in God. . . and says so in public.

Some of the old squares were Nathan Hale, Patrick Henry, George Washington and Ben Franklin.

Some of the new squares are Glenn, Grissom, Sheppard, Carpenter, Cooper and Schirra.

John Glenn says he gets a funny feeling down deep inside when he sees the flag go by. . .

He says he's proud he belonged to the Boy Scouts and the YMCA.

How "Square" can you get? A square's a guy who lives within his means whether the Jones's do or not. . . and thinks his Uncle Sam should, too.

He doesn't want to fly now and pay later.

A square is likely to save some of his own money for a rainy day rather than count on using yours.

A square gets his books out of the library instead of the drug store. . .

He tells his son it's more important to play fair than to win. Imagine:

A square's a guy who reads scripture when nobody's watching and prays when nobody's listening. . .

A guy who thinks Christmas trees should be green and Christmas gifts hand picked.

He wants to see America first. . . in everything.

He believes in honoring Mother and Father and do unto others. . . and that kind of stuff. . . He thinks he knows more than his teenager knows. . . about car, freedom and curfew.

So, all you goony birds answering this description please stand up!

You misfits in this brave new age. . . you dimly disorganized, improperly apologetic ghosts of the past. . .

STAND UP. . . STAND UP AND BE COUNTED. . . you squares who turn the wheels, and dig the fields and move mountains and put rivets in our dreams. . .

You SQUARES who dignify the human race, you SQUARES who hold the thankless world in place!

The Square. . . Dick Whittinghill Vin-Sun Music Corp. ASCAP Dot Records, Inc.

Bullet Crashes Into Residence

WILLIAMSTON - Andrew Furgason, 2835 E. Grand River avenue had a narrow escape from death or serious injury last Wednesday when a 22 calibre bullet ripped into his home. The bullet smashed through a window, then traveled through a den where Furgason was sitting and finally lodged in the floor of the living room.

Furgason told state police he saw a man with a rifle across the river from his house flee after the shot was fired.

How To Curb Milk Fever

To eliminate milk fever, Michigan's dairy farmers are advised to feed low calcium, high phosphorus rations to their dry cows. "The first step in avoiding this disease is to remove all alfalfa hay from the dry cow ration," says Roy S. Emery, Michigan State university dairy scientist.

"Corn silage presents an economical and practical dry ration which will meet the nutrient requirements of the dry cow exclusive of salt and protein which can be supplied as a small amount of supplement. Calcium carbonate must not be used as a mineral supplement."

Emery notes that researchers in California and Illinois have shown this type of treatment to be effective. The Illinois scientists eliminated milk fever in cows which previously contracted the disease by feeding 1 lb. of grain per 100 lbs. of body weight during the dry period.

"This grain was fed at the expense of alfalfa hay, so some of the benefit may have been due to the reduced calcium-phosphorus ratio," explains Emery. "However, the increased energy intake may also have had beneficial effects."

Emery points out that milk fever is a stress disease. And the stress is caused by excess calcium during the dry period combined with the stress of calving and initiation of lactation.

"The result is a paralysis at calving time due to a decrease in blood calcium," he says.

"Some cows are more prone to milk fever than others. In fact, a cow which has had milk fever in a previous lactation will almost certainly have it in succeeding lactations if she is subjected to the same calcium stress."

MSU Jersey Cow Rated Tested Dam

A registered Jersey cow owned by Michigan State university, East Lansing, Michigan, has been rated a Tested Dam by the American Jersey Cattle club. The distinction was awarded Michigan Nick Rinda for having three offspring with official production records.

The cow's progeny averaged 10,559 pounds milk and 570 pounds butterfat on twice-daily milking, 305-day mature equivalent basis. The records were made under one of the programs of official testing of the American Jersey Cattle club, which has its national headquarters located in Columbus, Ohio.

The Tested Dam rating aids Jersey owners in the selection of superior breeding stock. The three tested progeny required to qualify a cow as a Tested Dam may either be three tested daughters or three tested sons, or any combination thereof totaling three.

Holt Schools To Seek OK On Big Expansion Program

HOLT - Voters in the Holt school district will go to the polls on Monday, June 14 to cast their ballots on a proposed \$875,000 school bond issue for an expanded building program.

The program, if carried, would provide for additions to 4 elementary school buildings-- in Dimondale and at Elliott, Midway and Sycamore in Holt.

Educators agree that maximum educational opportunities can best be offered with 3 sections of a grade in each building. This is the fundamental aim. Under the proposed project the 4 elementary schools would have classrooms as follows:

Dimondale - One kindergarten (2 sections), 3 sections grades 1 through 6.

Elliott - One kindergarten (2 sections) 3 sections grades 1 through 6.

Midway - Two kindergarten (4 sections) 3 sections grades 1 through 6.

Sycamore - The same except for 3 Type A special education rooms.

This arrangement, school officials point out, makes possible full educational use of an administrator in each building and the efficient use of the services of specialists when such persons as art, physical education and reading instructors can be afforded.

Much less shifting of children between buildings also would result with the construction of these facilities, it is pointed out. The buildings then would be at maximum size and when filled a new elementary building on a new site would be in order.

Proponents of the building plan say it is more economical to operate buildings of this size and the addition of classrooms to present structures avoids duplication of certain basic units.

The special rooms in these buildings will include those usually found in elementary buildings-- offices, health clinics, a room for teachers, multi-purpose room, smaller activity room such as now at the Midway school, small group conference room, library and a resource room for science, math, and art demonstration and small group use and for vocal and instrumental groups.

These new classrooms are expected to be filled by the fall of 1971. It is estimated that elementary school growth in the Holt-Dimondale district will be about 100 additional boys and girls each year for the next few

years and that this rate of growth would fill the classrooms in about 6 years.

Secondary school estimates predict the senior high school will reach capacity by the fall of 1969 and the junior high school by the fall of 1970, provided that 2 classrooms now used for board of education offices are freed from this use.

Redistricting of elementary school children will be necessary whether the additions to present elementary buildings are made or if a new building is constructed.

The best answer educationally, economically, it is pointed out, appears to be to provide the best educational environment possible. This, school officials say, is best done by adding to present structures.

All 4 elementary buildings will be similar in size, in facilities, in service, in materials and supplies and in equipment and in age. The oldest part of any building at the elementary level, and this is modern, is the original Midway wing constructed in 1950.

Dr. Maurice Pernert, superintendent of the Holt-Dimondale district, asked how many mills each year this program would require, replied this varies with a district's valuation-- approximately 3 mills on the estimated 1965 valuation. This would have to be approved by the voters at the June 14 election in order to proceed with the building program.

He pointed out that no school tax increase will result. The millage would have to be voted, he said, but not levied until such time as the total debt millage levy was less than 7 mills. The board of education would annually apply to the state of Michigan for funds to pay principal and interest on the bond issue.

The present debt millage in the district is this:

1964-65	Estimated	1965-66
1966 debt	4.62	4.40
1961 debt	.35	.30
1963 debt	2.73	2.40
Total	7.70	7.10

Also included in the proposed expansion program is the erection of an education center-- administration building which would provide space for a board of education meeting room, administrative offices and offices for specialized curriculum persons now employed with no home base.

"The placement of the office of the superintendent and book-keeper alone releases 2 classrooms at the junior high school which will soon be needed and which have a replacement value of \$32,000", Dr. Pernert said. "It also releases office space now used by the administrative assistant at the senior high school which will soon be needed for other office personnel".

If approved it is planned to build the new center at the west end of the Midway school property.

Dr. Pernert said it will cost more to operate these facilities but with additions less than with the erection of a new elementary building. Operating funds, he said, are received from the state on an enrolled child basis and property tax from homes whence the additional children would come. He added that it would be easier to operate financially if a greater amount of industrial and commercial development took place.

Dr. Pernert said the school tax rate in the Holt-Dimondale district has not varied much over the years and is actually lower now than it was 9 years ago. "This is true", he said, "despite newer and better facilities and programs of education."

This entire proposed expansion program is part of a long range plan. As far as can be seen the best educational plan for use of elementary buildings has been developed. The next step in the future at this level of education, in the thinking of the board of education, will be to consider proper sites for building in the future.

The Delhi township government and the major part of the Holt-Dimondale school district which lies in 2 townships, Delhi and Windsor, are actively planning for future growth and because of this mutual planning on mutual problems are expected to be more in evidence.

"It is certain that growth in our school district will continue and not improbable that growth will even be accelerated," Dr. Pernert said.

"Our state legislators have begun to recognize the difficulties involved in making accurate predictions in districts of low valuation and rapid growth. It is generally believed that this is the fundamental reason for the 1964 legislation that enables school districts such as ours to take advantage of state funds for building purposes."

"At the time of the 1963 bond issue it was believed that the elementary facilities erected would not be filled until the fall of 1970. Then the enlargement of the district by 2 transfers of property, then a 3rd and major building developments made estimates of growth unrealistic.

Daddy Date Night Fetes Holt Fathers

HOLT - Holt Future Homemakers of America sponsored a "Daddy Date Night" Tuesday. Each girl in the organization was to bring her father, or brother or uncle, if her father could not attend. A barbecue was followed by a game of volleyball and then relay races. After this the group had a dance and showed their fathers some of the current dances.

Approximately 20 daughters attended the event. Promoters of the idea were Peggy Dulling and Candy Clark.

Officers of the club are: Kathy Repichowski, president; Vicki Parker, vice-president; Sue Robertson, secretary; Cindy Ploch, treasurer. Election of new officers will be Tuesday, May 18.

Installation of new officers will take place in June at a formal candlelight service attended by families of members.

Another FHA project is enabling the girls to gain experience at Holt Home Inc., a nursing home. This experience can later be applied to the work hours of the girls who decide to become Candy Strippers, volunteer workers who help the nurses.

Peggy Dulling is in charge of this project, which has 2 goals-- to help the girls earn credits toward their chapter or junior degree and also to train them to become candy strippers.

400 Pupils Take Part In Concert

HOLT - The combined Holt elementary schools presented their annual spring concert in the High school gymnasium Thursday evening, May 6, at 7:30 p.m. Approximately 400 children participated in the event. The most of the children were from the 5th and 6th grades, although there were several special selections from other grades.

The concert was opened by all pupils singing the Pledge of Allegiance to the Flag. For the first time in a concert children from the second, third and fourth grades were presented. Ten selected children sang Billy Boy. The next selection, a solo, was sung by Sue Grow, a 2nd grader.

Ten 4th graders sang an old English folk song "Lavender Blue" and approximately 25 third graders sang a medley of Stephen Foster songs.

The boys' choir was accompanied in the singing of Mexico Round by David Perkins on the ukelele and Tim Ward on the tone blocks. The boys' choir of 80 voices sang several selections. In singing the "Orchestra Song" the choir was accompanied by 18 members of the band.

4H's Get Food \$ \$ \$ Worth

MILK MEAT • EGGS

VEGETABLES • FRUITS BREAD • CEREALS

Many teenagers short change themselves by skipping breakfast and by satisfying their hunger with snacks of insufficient nutritional value.

The 4-H Foods-Nutrition program helps youngsters to get their nutritional money's worth, observes the Cooperative Extension Service. More than 708,000 4-H Club boys and girls are enrolled in the program.

The necessity for the program is evidenced by nutritional studies showing that 4 out of 10 teenage boys, and 6 out of 10 teenage girls have poor diets.

Club members develop demonstrations which they present before groups and on TV showing how meals are planned around the four basic food groups:

Meat—including poultry, fish, eggs and other high-protein foods; milk and dairy products; vegetables and fruits; bread and cereals.

They learn why protein, minerals and vitamins are essential in their diets. They know that breakfast should furnish from one-fourth to one-third of the day's food nutrients.

Projects are built around the interests and needs of individual club members. Some concentrate on balanced meal planning and cooking while others delve into the scientific aspects of nutrition. But whatever the subject matter, the 4-H's strive to do the very best job possible so they can compete for annual awards.

Again this year General Foods Corporation, sponsor of the 4-H Foods-Nutrition program, will award six \$500 scholarships to national winners. The state award winner will attend the National 4-H Club Congress at Chicago next fall. Medals will be presented to county champions.

God's Soil

...and it's time to conserve it... time to save it! It is evident, when we witness the increased destruction of timber lands, national cover crops and wide-spread erosion, America needs a national Save-The-Soil-Week. It is urgent that we treat Mother Earth with greater respect and appreciation. We must give back to her as much as we take away. There's no better time than during National Save-The-Soil-Week, to come to a full realization that "The earth is the Lord's and the fullness thereof." We are stewards, appointed by God, to look after the earth He gave us. It is time to renew your faith in God and the Good Earth.
