Care

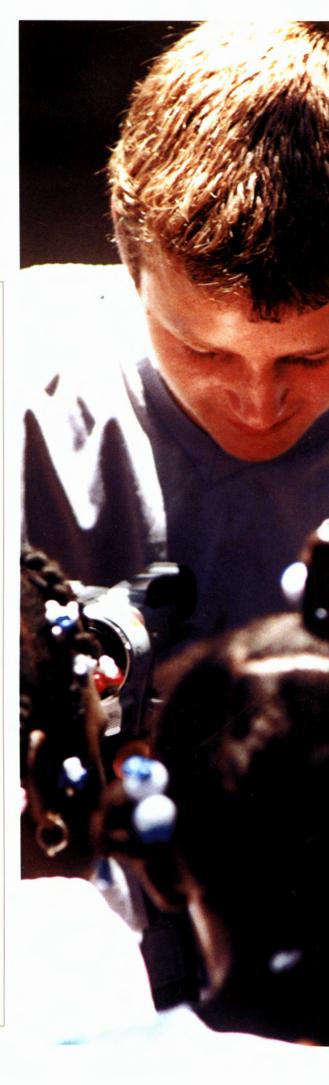

by Dani Dimmitt

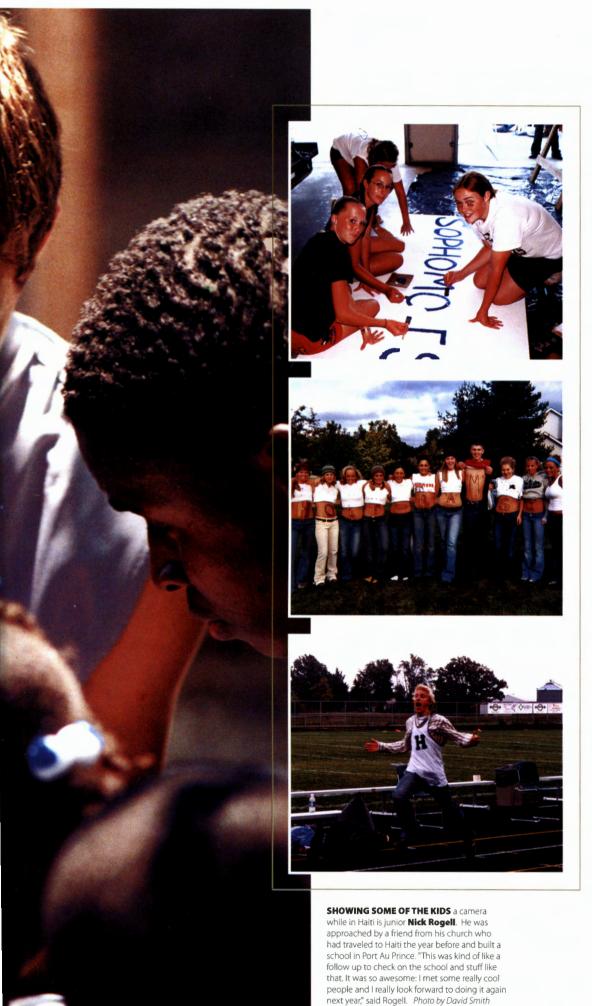

Whoever said that kids don't care haven't met any of the kids at Holt High School. Between all of the clubs, the sports and the extracurricular activities, students are showing just how much they care.

Many students have had oppurtunities to go elsewhere and show their level of devotion. For example, junior Nick Rogell traveled to Haiti with a group of friends on a mission trip last summer to check on a school they had built the year before.

"My friend from my church just called me up one day and was like, 'Do you want to go to Haiti?' And I was like, 'Let me ask my parents.' I'm so glad I went, though; it was really cool," said Rogell.

Nick plans on going back again this year, and he's inspired junior Kelli Hillard to go along. "I just love to help people; it's so fun and it always makes me feel so good," said Hillard.

working hard on the FLOAT are sophomores Jenn Watkins, Kendra Shaft and Jen Fisher. The sophomore float theme this year was Operation. "The most fun part of building the float was being able to work with my friends and contribute to homecoming. When we put the finishing touches on it, it felt so cool to finally see it done," said Fisher. The sophomores recieved third place in the judging, the seniors placed second with their Candyland float and the juniors received first for their Monopoly float. Photo by Kacie Dittenber For more information about floats and homecoming, see pages 40-41.

THE SPIRIT SQUAD HAS GROWN, although only for one game. Juniors Kelli Hillard and Ali Templin decided that some ladies needed to show some hardcore school spirit. "We didn't last as long as we would've liked, but it was still fun," said Templin. The girls met at Jessica Beesons house an hour before the game and decorated their stomachs and faces for the homecoming game against Everett. Photo by Miss. Beeson For more information about football see pages 132-133.

RUNNING TOWARD THE FINISH LINE, senior court representative Chad Rogers shows his spirit at the pep rally while representing the mens cross country team. Every team had a representative to update the school on how their specific sport was coming along up to that point in the season. Photo by Heather Piper For more information about cross country, see pages 122-125.

For more information about service, see the WE CARE Magazine beginning on page 8.

TECHNOLOGY and how it HAS CHANGED

everything...

Prior to this year, not many people could say what a DIP was. Or an ELMO. And quite frankly, many still can't. But most teachers claim to use them everyday. See how the new technology has changed the face of teaching and learning in a few short months.

MANY DIFFERENT CLASSES have taken advantage of the new computers, including most of the business technology classes, the

architectural drawing classes, and the publica-

tions classes. Additionally, there are computers available for student use in the John W. Chi library. Photo by John Zdankiewicz

Digital Image Projector

THE "DIP" IS USED for a variety of purposes in class, including watching a movie in Meal Management. "It's really cool because it's like having a big screen TV; I like it a lot," said junior Sean Johnson. In an informal survey of teachers, 20 out

Photography, photoshop and retail management. These are all classes you would expect to see in a brochure for college. Guess agair These are three of the new classes offered at Holt High School.

Retail management, otherwise known as the school store, is a group of Dan Knechtel's best and brightest. "The school store is definitely favorite class, but there's a lot more work involved than what meets the eye," said senior Laura Çumbow. The students who had Knechtel last ye for at least one of his classes learned how to apply the fundamentals in real-life situation.

"There's so much involved in running the store and it involves a lot before and after school hours," said junior Katie Flinton. Retail management is one of the best perks for students this year.

ening **6**

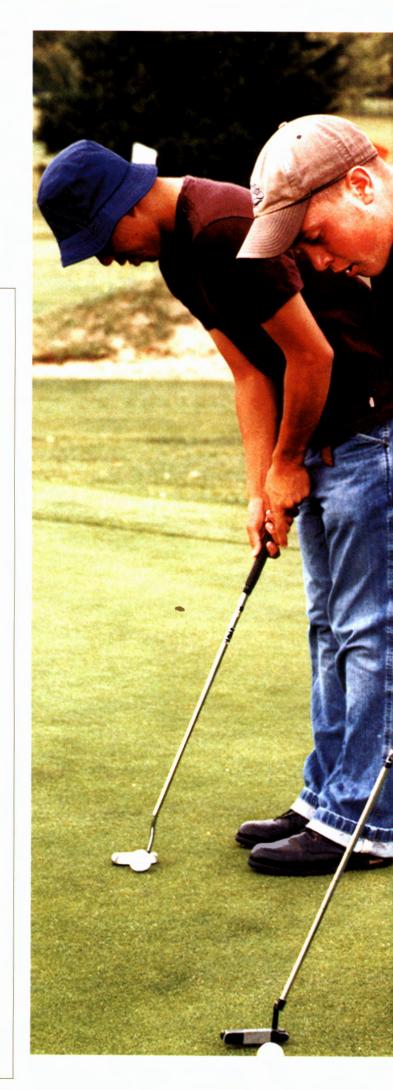

Grow

The Capital Area Activities Conference. The what!? It's our new and improved conference, featuring not only athletics, but also extracurricular activities like debate and quiz bowl.

Because of Holt's size, we are Division 1 of a three-division mega-league. The main difference is that we no longer compete against Waverly, but now face Okemos.

Athletic director Rick Schmidt approves of the changes, "Our new conference is great! All of the schools have really good athletic programs," said Schmidt.

But for some students the new conference will mean something totally different. Junior Precious Paul participated in forensics and track last year and plans on doing so again. "It's going to be really hard to get used to the new conference: we were so used to playing the teams, and now we have to learn about our new opponents; it will be a lot harder to prepare," said Paul.

SPECIAL OLYMPICS: GOING FOR THE GOLD

by heather piper and jesica craft-quenby

It's fun because WE LOVE IT! kenny limas

WINTER GAAA

nick ward

Nick Ward didn't just participate in the Special Olympics. He won.

Nick won the skiing Olympics game locally and went to Traverse City and also won there! Nick gets to go to Nogono, Japan, in 2005 to compete again.

Besides skiing, Nick also competes in swimming and bowling, which he said require a lot of practice. *Photo by Heather Piper*

"Special Olympics is an international organization dedicated to empowering individuals with intellectual disabilities to become physically fit, productive, and respected members of society through sports training and competition" (www.hugsfeelgood.com).

Special Olympics offers children and adults year-round training and competition in 26 Olympic-style sports.

There is no charge but an obvious benefit.

More than a million people are involved in Special Olympics. They come from all over the world, 150 differnt countries, to compete with each other. And some of those athletes belong to our school!

Every student that goes to Holt High School and participates in the Special Olympics thinks that it has been a positive experience for them; and most of them plan to continue participating in it.

The two participants that have competed for the longest amount of time are Kenny Limas and Paul Schafer, but there are others that may follow in their footsteps.

There is no age limit for the Special Olympics, although you have to be at least 4-years-old to start training and 6-years-old to compete in your first Special Olympics.

RENEE POLLOK AND LESLIE VENEMA

are very excited after winning medals in their gymnastics competition at the 200 Special Olympics. Renee also competes in basketball and bowling. *Courtesy pho*

KENNY, PAUL AND ASHLEY have been involved in Special Olympics for many years. Together, they have won several medals, which they are all very proud about. They said that their basketball team is the best now. They love playing in the Special Olympics. Kenny said that Special Olympics means practicing, like running laps, and thinking about what you're going to do in your head, then doing it. Ashley has won five medals and a bowling trophy in the Special Olympics. They are all star athletes that everyone can be proud of. *Photo by Heather Piper*

PAUL'S DREAM COME TRUE

Many people don't know that P aul Schafer is one of MSU's biggest fans, but seniors and friends Adam Burmeister, Nick Kyriakopoulos, Kenny Fellows, and Mike Adams do. So what did they do for his birthday this year? They picked him up and headed off to enjoy an MSU football game.

One of the greatest parts of his birthday was when they surprised him with some great presents that Paul absolutely loved, like the hat and coat Paul is wearing in the photograph below. They also bought him a small MSU helmet. Mike Adams got him a football signed by the Holt football players.

It's a sure thing that Paul has some great friends and memories that he'll be able to remember for the rest of his life.

ADAM BUR-MEISTER, NICK KYRIAKOPOULOS, PAUL SCHAEFER, KENNY FELLOWS, and MIKE ADAMS take a quick break to smile during the exciting MSU game they went to for Paul's birthday. Courtesy Photo

KEYCLUBS AND NHS ARE, DO YOU KNOW THE DIFFERENCE?

by heather piper

National Honor Society

ADVISOR: Kim Reichard and Jessica Cotter

NUMBER OF STUDENTS: Approximately 100

PRESIDENT: Destini Taylor

WHAT THEY DO: Food Drive, Blood Drive, Teacher

Luncheon, Tutor list for students to call if they need help

FOUR PILLARS OF NHS: Scholarship, Leadership,

Character, and Service

WHEN THEY MEET: Activity Period

MOST SUCCESSFUL EVENT: The Blood Drive

WHAT DO YOU LIKE ABOUT BEING IN NHS?

"I like working with advisors and other members and officers. It's a good opportunity."

- Destini Taylor

"The people, and the end result of everything we do."
- Chris Smith

"You get to help with friends and others."

- Serina Mazzoni

"Helping people with your friends and finding different ways to help people."

- Jessica Merriott

"Meeting new people and getting to work with them."
- Liz Wilcox

Kiwanis Educating Youth Club

ADVISOR: Jim Keckeisen

NUMBER OF STUDENTS: Approximately 20

PRESIDENTS: Gretchen Baker, Caroline Bowden, Laura Nichols, Christine Dykman

WHAT THEY DO: help special needs kids, raking for the elderly, community service, help at animal shelters, trick or treat for UNICEF, recycling, special bowling

WHAT MADE YOU DECIDE TO JOIN KEY CLUB?

"At the Junior High they had a club called the Builder's Club, which is a littler version of Key Club at the high school, so I joined that, and then when I came to the high school I just became a part of Key Club."

- Gretchen Baker

"Because of Laura, and to get hours for NHS."
- Caroline Bowden

"Curiosity" - Laura Nichols

HOW HAS KEY CLUB CHANGED OVER THE YEARS?

"This year we are kind of starting over, and rebuilding our interest in Key Club, it's like a fresh start."

- Gretchen Baker

"We've Improved to just the bare essentials during our meetings."

- Laura Nichols

SENIOR CASE MOODY stays after on the last day of school to help Key Club advisor Jim Kedriesen pack up his dass room to move to the nev school. Photo by

LENDING A HELPING HAND, Seniors Caroline Bowden, and Laura Nichols stay after to help the high school change locations, while most of their classmates went home to enjoy the last day of school. Photo by Gretchen Baker

HOW DO YOU VOLUNTEER YOUR TIME?:

"I work at a women's shelter, and I speak Urdu to women who have been battered who can't really speak English.

WHAT MADE YOU DECIDE TO DO THIS?:

"Well I grew up in a really supportive home, with both of my parents being doctors who help people. I just think if you're fortunate enough to be in a situation where you can help people, you should. Other than that I don't have a real specific reason why I like to do it."

WHY DO YOU WANT TO BE A TEACHER?:

I love working with teenagers, and I love the social studies. It's challenging and exciting at the same time, you also get to learn along with the students. There's a great mix of people. I have great colleagues and great students.

WHAT MADE YOU DECIDE TO TEACH YOGA

AND PILATES?: I've been taking it for about 5 years now, and I started teaching classes here and there at various gyms. I wanted to get to know the students outside of the classroom, that way I get to see them even when they aren't in my class. Plus when I mentioned it to my students, they got really excited. That got me really pumped up to really do it.

WHAT'S YOUR FAVORITE THING ABOUT THE ACADEMIC HELP ROOM?: Building relationships with the students. I get to know people better. I want to be a positive role model. I want the kids to trust me, plus it's rewarding when I help someone in help room and then I see that they did well on a test or something. I like to think I am making a difference.

WHAT DO YOU THINK ABOUT BEING A ROLE MODEL?: I don't really think about it, but I know that when students come to me with problems that they aren't comfortable talking to other people about. It just feels really

gratifying.

SENIORITIS WHEN YOU DON'T CARE

Every year seniors struggle with many tasks. These include keeping up with current class grades, completing homework assignments, studying for quizzes and tests, taking the SAT or ACT tests, and of course planning for college.

For most, this seems like too much work.

At this point of feeling a bit overwhelmed, seniors seem to slack off. Many would call this *Senioritis*.

Symptoms of senioritis cases include skipping class and/or school, becoming lazy, running late to early morning classes, boredom, turning in late homework or daily assignments, and the famous sleeping in class.

Over 85% of the 2004 graduating class admits they already have senioritis. They also believe the number one symptom of senioritis is the not wanting to do anything.

Senior Chris Dowling states that senioritis occurs "when you come to school and you just don't feel like doing anything."

AFTER EATING LUNCH, senior Kelli Fenstemaker rests her head on the table while thinking about her next class. Fenstemaker struggles getting to class every morning and swears she never has homework, or at least she never does any. Photo by Katie Ross

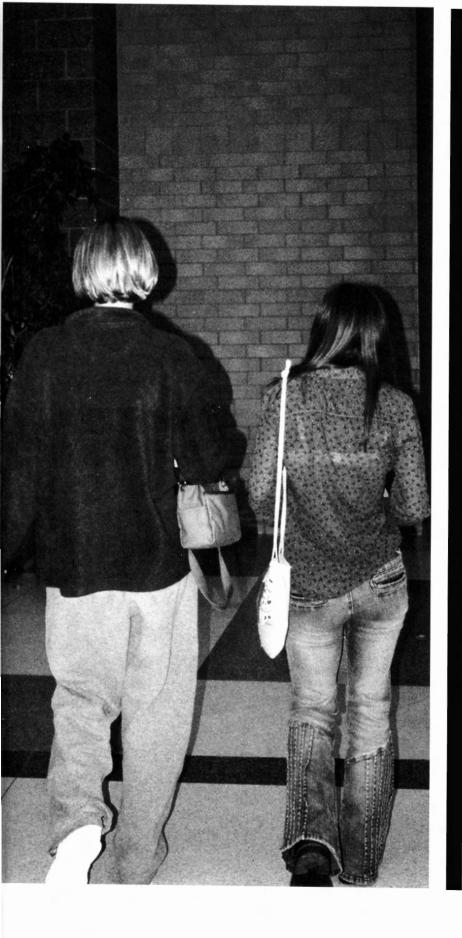

BEFORE HEADING INTO CLASS, senior Rob Hartley stops and takes a deep breath. Hartley's fourth hour Business Law class is the hardest so far this year. Hartley manages to keep a passing grade but fails to show up everyday. Photo by Katie Ross

When you get really sick of school and you know you'll be done soon, you just wanna leave.

~ lauracumbow

ON THEIR WAY TO CLASS, and taking their time are seniors Kelli Fenstemaker and Celeste Malkowski. Photo by Katie Ross

I DO CARE:

Erica Pfeiffer

Senior Erica Pfeiffer is involved in many things other than her daily high school life. After school she attends one of many different activities. She may be at practice for club gymnastics, which is a more competitive and traveling type of gymnastics, or practicing her diving techniques for the high school swimming and diving team.

Erica works hard to do her homework for school and makes sure that she at least turns something in when an assignment is due.

After high school, Erica plans to attend West Virginia University to study exercise physiology. For now, though, it's strictly books, working on Physics and Spanish 4.

> It's a lot harder to concentrate and motivate myself to do work, but I still manage.

~ ericapfeiffer

ARE YORE

HOLT HAS BEEN THE SAME FOREVER, BUT WITH THE NEW SCHOOL COMES NEW ORGANIZATIONS TO COMBAT PREJUDICE AND BRING AWARENESS

We just want one day

where hurtful words

can be silenced...

Caitlin Weaver

by ancles stuber newel

by Katio Lach

HOUSE

"We have to talk about issues around us or they just keep coming back," junior Matt Denny explained about the new organization HOUSE. HOUSE meets as much as once a week (depending on the students) to talk about how race affects the world today, as well as the history of race.

"It's about what people don't expect and what is underlying," said Denny. "It's a responsibility to ourselves to become more aware."

HOUSE stands for Holt's Opportunity for Unity Student Experience. Students met with a group from MSU called MRULE and with the help of Social Studies teacher Jessica Cotter came up with the idea to create a group that would not only educate the student body but would also give them a chance to tell how they feel. "Holt doesn't address potential problems and that makes people uncomfortable. We help to show people what's wrong and stay away from blaming everything on others," said Denny.

Human Rights Campaign

"If everyone was a little more open minded, everyone would be a little more happy", said junior Katie Hamlin. Hamlin and a few others began their strive for equality last year with the start of the Human Rights Campaign. Although the campai wasn't as successful as they had hoped, this year is a new str

With more members and more meeting this group is determined to make a difference. "We don't just focus on any or issue", said junior Caitlin Weaver, "We to

to cover a wide range of issues like race and gender equalit and sexual preference."

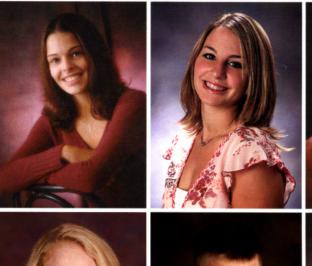

This year they have a longer list of goals they want to accomplish. One goal is to get a day of silence in April or May, "We just want one day where hurtful words can be silenced said Weaver. They also wanted to get the movie Bang, Bang Your Dead approved. "It takes a very long time to get activit approved," said Hamilin. "The principals and all the teachers have to approve what we do."

high school is over and you suddenly have all this extra time on your hands, but will you do with it?

it's your decision let's look into the game called life

by stephanie gibbs

THE GAME OF LIFE

This game consists of some of the single most important decisions you will make in your entire life. Education goes a long way. Are you going to take a chance with a job or go to college and make a few guarantees? What are you waiting for? The opportunities are there in front of you...

SOME GRADUATE

After many years of hard work and part time jobs, those who graduate and move into their chosen profession earn up to 40% more than the person who chose not to attend college. They move through the business chain faster. They are chosen over others because of their

SOME DROP OUT

The reasons, again, vary. Some have to retake classes and redundant classes cause them to be bored with school. Others take a year off to get married or start a job and never return for whatever reason life may throw them. Others change majors so much that the cost becomes too high.

SOME NEVER BEGIN

Those who never begin don't for many reasons. They may not know about financial aid options. Some are undecided on a college and put it off until they think it is too late. It is better to start off with basics and decide after a year. And some don't think they are cut out for college.

FROM THE SECOND FLOOR of the commons area, security guard Bruce Duling keeps watch over sophomore Chris McClure and the rest of the school . While security guards, like Duling, appreciate the bird's-eyeview of the student body, students like senior Josh Major dislike the constant supervision. "I hate the way they made the design: like catwalks so they can watch everything," Major said. Photo by Nathan Parsons

newschool, newopinions

Sixty-eight million dollars never looked so good! As students entered the school for the first time, they were faced with the best educational surroundings money could buy. Senior Ben Trentham admitted, "I like all the new technology. It makes it easier for making the Ramparts Newspaper." Senior Adam Burmeister agreed with Trentham's positive outlook, saying, "I like the stairs; it's like Saved by the Bell."

However, some students find it easier to criticize than to praise. Senior Joe Eastman said, "Some bathrooms don't have soap or paper towels. It's sick." To add to the disgust, junior Audrey Kuhn said, "The stalls have boogers wiped on them; it's gross!"

With such a new school, problems were unavoidable. But one thing, however, that all the students agreed on was how bad the speed bumps are for their cars. "My car scrapes like no other over the speed bumps," said senior Dane Ellis. While senior Josh Peek

added, "The speed bumps
are ridiculous. It messed up
the suspension on my car. I
need to get it fixed, but I'm too
poor."

Despite these bumps in the road, many students appreciate the new opportunities available at the new high school.

THE SIZE OF SPEED BUMPS were what 80% of students polled believed were the worst thing at the new school. On the other hand, 90% of those same students thought that the school's facilities were the best thing at our new campus. *Photo by Nathan Parsons*

Most students love Wednesday mornings: some sleep in or go to breakfast, others wake up and finish homework from the day before. Junior Mia Theroux doesn't do any of that. Instead she wakes up around 9:00 and comes to school at 10:00 for the weekly Student Council meeting. Theroux has been a member of Student Council for two years. "I like being a leader of my class and feeling like I am involved," said Theroux.

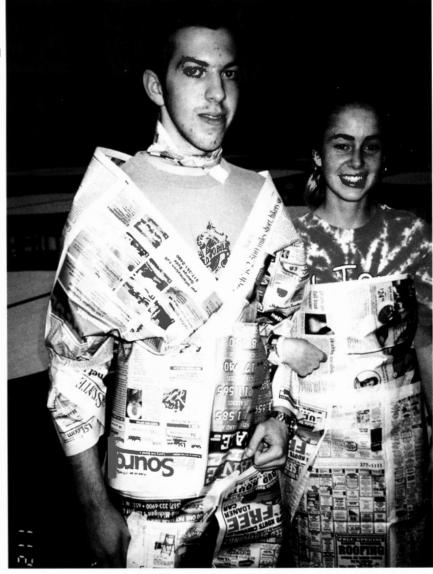

Many students do not realize all of the activities Student Council organizes for the school. "I like seeing something start from scratch and build into a successful event. If the reaction is positive, you know that all of your hard work payed off," said Student Council President Brooke Viele.

"I AM A BETTER SWORD FIGHTER THAN MIA," exclaimed junior Kaitlyn Sherer, as she has a newspaper sword fight with junior Mia Theroux during the annual Student Council Fall Retreat. The retreat is meant for Student Council members to talk about the activities they have already done and about future plans. "We got free pizza with lots of other food, plus we got to run around the school looking for candy

canes," Sherer said. Photo by Beth Frazier

EXTRA, EXTRA READ ALL **ABOUT IT.** Senior Brad Vermurlen and junior Rachel Porter are shown at the annual Student Council Fall Retreat. "We were required to show teamwork out of newspapers. I have no idea how we came up with it, but it just happened," said Vermulen. The purpose of the retreat is to build bonds within Student Council, as well as talk about upcoming events. making the world a better by bethany hollern and ashley duffy

Students all around Holt High School are being good leaders. The clubs Peer Resistance, PALS and SADD are helping to make the world a better place.

Peer Assistance Leaders (PALS)

Have you ever, for just one day wanted to start off new, and go somewhere that no one knows your name or anything about you? That is what the PALS do every year, PALS from our school go to other schools around the area and in exchange we get a few new faces around our campus. "It's a really good idea because PALS from other schools get to see what ours is all about and vise versa, and it's a great way to meet new people," said junior Talon Ireland.

The student exchange isn't the only thing the PALS do. They also talk to the students on a day-to-day

If there is anything that is bothering you, from a bad grade to a break up, you can go to the office and recieve a list of all the PALS and students can pick which one you want to talk to. Any time of the day is okay to go talk to them because they are always available.

The great thing is that they have actually been trained to help students with their problems because in order to be a PAL you have to go to training for a couple days over the summer. "I really enjoyed going to the PALS training because I got to meet tons of new people and I learned what kind of advice to give to people that need it," said junior Korbi Bare.

The PALS also do the new student luncheons and the orientations for the sophomores in the beginning of the year.

UP BRIGHT AND EARLY ON A WEDNESDAY morning is junior Korbi Bare. While most students are sleeping the PAL members are at the school taking care of business. "Being a PAL has it's disadvantages, like not sleeping in on Wednesdays, but it always pays off when I get the chance to help people," said Bare. Courtesy photo

"PASSING OUT CANDY DELIVERS A good message to the students about making positive decisions," junior Sherri Powers said. Powers has been a member of SADD for 2 years. As the holiday break approaches it's a reminder to students that good decisions can keep you out of bad situations. Photo by Katie Lash

I remember how Peer Resistence had these hotties that came in when I was in 5th grade. Although I tried hard, none of them wanted to go on a date with me Senior Nate Parsons

There are not a lot of members in SADD this year so it is hard to think of things to do. We want to do the mock accident in the spring though.

Junior Katie Lash

Peer Resistance / TATU

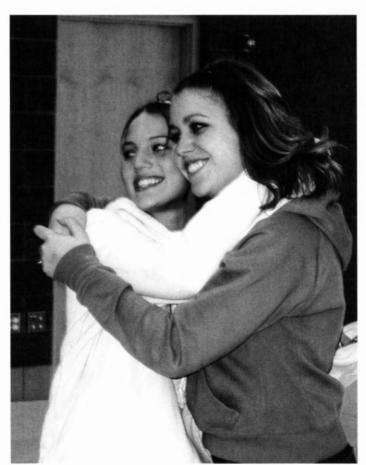

Do you remember how excited you were when the big high school students would come to your elementary school and talk to you about making good decisions. Those students were members of a club named Peer Reisitance. "I remember I got a twizzler with a message on it. I really liked them passing out candy becuse I got to eat it when I got hungry in first hour. I also liked the positive message that was taped to it," reminsced junior Sarah Castor.

Peer Resistance and TATU
(Teens Against Tobacco Use) are
organizations where high school
students travel to the elementary
schools and warn kids about the
dangers of tobacco use. They urge
them not to give in to peer pressure
and to avoid the harmful substance.
The club is organized by Penelope
Restau.

"It feels really good to know that you're helping to prevent kids from making a bad decision by using tobacco," said sophomore Kadie Hein.

Students Against Destructive Decisions

It's seven in the morning and dark. The wind is blowing as the temperature barely reaches above freezing. As the students shuffle into the building to start off their day of school the members of SADD greet them at the door, where they receive candy with messages stapled to them. The message on the candy is to have a safe Christmas and make good decisions during the break. "The candy is a great way to start promoting good decisions because it gets the message out to everyone", said junior Keegan Long. Although there are only six members in the organization their message is still just as strong. "We try to pass out a positive message for people and plan activities like dances that are alternatives to going to parties and getting into trouble," said junior Sherri Powers.

PEER RESISTANCE AND TATU member, sophomore Kadie Hein is hugging sophomore Tiffeny Royston. "I like being a role model for other students," said Hein. This is Hein's first year as a member of the organizations. Photo by John Zdankiewicz

Heat or Sleet

by eve ayala

Some people go away on vacation, some people hang out with their friends, and some people work, while others take it to the extreme by rock climbing, snowboarding, slush cupping, or wakeboarding. Christine Beno's intern, Stephanie Fizzell, spends her summers and winters doing all kinds of sports.

"I've always had an interest in extreme sports and my family always went skiing so I decided to convert to snowboarding."

Fizzell said. "I love doing extreme sports in general because it's great to spend time outdoors and it's different than a traditional team sport, it's more challenging." Some people call it extreme, and others, think of it as challenging.

FLYING OVER A BLOW- UP whale,is junior S hawn Adams. Courtesy photo

nie Fizzell smiles at the camera making snowboarding seem easy. "I have been snowboarding for eight years." Fizzell said. "I really like snowboarding because it requires more energy than skiing and it is a great way to spend time outdoors in the winter." Courtesy photo

SWITCHING IT UP Stephanie

Fizzell is slush cupping at Slush Mountain. "It's when you go down a regular race course and then you have to try to make it over a 40 foot pool of water." Courtesy photo

WAITING TO GO INTO THE WATER

waffing To go into the water is junior Shawn Adams. While wakeboarding in the summer, Adams takes things to the extreme by gliding on water using only a board. "I started wakeboarding because my cousin did it and I kind of grew into it." Adams said Courtesy photo

GLIDING WITH A FRIEND is junior Shawn Adams. As he glides in the air he smiles to the camera his friend reaches up to him. Courtesy photo

fashion

We are giving six people the chance of a lifetime. Two students from each grade were given \$10 to spend on an outfit. Impossible you say? Well, not if they have to get their ensemble at Goodwill...

WHAT DO YOU SEE when you look at this picture? Some people see half a smiley face first and others see a "g" first. Sophomore Laura Wilke said, "I always saw the face. Now that someone pointed out the "g" that's all I can see." Logo courtesy of Goodwill Industries

Students are increasingly finding Goodwill a great place to find trendy clothes. "The clothes are inexpensive, yet of a high quality. I like how they have older retro-style suits like the ones Outkast wears. You can find some fly clothes," said senior Dustin Baughman. Senior Bryan Johnson agreed: "I like their tacky shirts, and they only cost \$1.50."

The students who participated in our challenge also agreed. "I feel like Mr. Trunk," sophomore Ben Roberts said, as he tried on an older-style sweater.

"Ben looked so hot in his sweater and little white pants; I look forward to see him wearing it [to school] this year," junior Lindsay Langkamp said.

Junior Afton Bondarenko was delighted to find reindeer shoes: "I'm going to get so many guys in these sneakers."

Regardless whether they went for retro or just plain silly, all of our shoppers agreed the trip was fun. "It was like dress up," said Bondarenko.

stop the SPIRIT

by jesica craft-quenby & katie dillon

People wearing pajamas, prom dresses, and tinfoil? No, it's not Halloween. It's Homecoming week, and people are showing their school spirit.

All week students showed their spirit for the Rams, leading up to the big game on Friday. With planned lunch time activities, students had a chance to fight for their class's reputation. Each day throughout the week, Student Council planned a different lunch activity and many students participated in the games. They hula hooped, did the limbo, ate baby food, and participated in many other activities to pass the time and support their class.

Excitement was in the air as the week slipped away until finally Friday arrived. At the school pep rally, all the fall sports teams introduced themselves and gave an update on their team's progress. Homecoming King and Queen nominees and those on court participated in games until King Nick Neumann and Queen Kelly Robinson were finally announced in a frenzy of balloon popping fun.

Cloudy skies threatened the outcome of the evening, but students didn't let that dampen their spirits. Many members of the community came to watch each grade's float as it passed by. With their Monopoly-themed float, the junior class broke the senior class float's winning streak. The seniors' float had a Candy Land theme; sophomores went under the knife with Operation; and freshman participated with Mouse Trap.

The highly anticipated game was alive and everyone's spirits were high. The team performed well, but their efforts were in vain. Everett came out on top v ith a score of 14 - 7. "It was a disappointment. It was the first time we lost to them in a decade; we didn't play as well as we should have. We didn't block as many passes as we should have," said Nick Neumann.

Even the team's loss couldn't crush our spirits as the evening continued with the dance, which was held in the commons. Despite problems with lighting the students made the best of their first dance at the new school. "They are nounced the Homecoming court and we all danced for a song, but the light's kept turning on and off," said sophomore Audry Dowell.

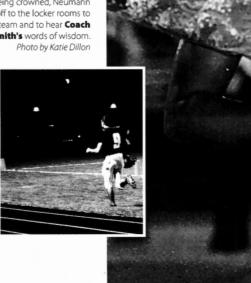

AS THE SENIORS' TIE-DYE SHIRTS

hung at Vahalla Park, the seniors waited and discussed the upcoming week. Every year the seniors gather and make their tradional brown and gold shirts that they wear Friday for class color day. They also decorate Burger King crowns to wear. *Photo by Katie Dillon*

SENIORS NICK NEUMANN AND

KELLY ROBINSON were crowned Homecoming king and queen. Immediately after being crowned, Neumann dashed off to the locker rooms to be with his team and to hear Coach Smith's words of wisdom.

AS THE HOMECOMING COURT CHEERED each other on at the pep rally held during sixth hour, they spun around the bat and raced down the track just to run back again to tag their teammate. It was a boys vs. girls challenge and the girls prevailed and beat the boys by mere seconds. Photo by

Heather Piper

GATHERED AT THE PEP RALLY,

seniors, juniors, sophomores, and, for the first time, freshmen, cheered on their class in the planned activites. Students ran back to school when the threatening clouds broke and drizzled them with rain. Photo by John Zdankiewicz.

EVERYBODY TOGETHER NOW

the whole cast of Footloose comes out dancing during the show, each step performed together like glue. Extensive practice after school helped perfect their moves. Photo by John Zdankiewicz

everybody kick off your SUNDAY 5 HOES

by john zdankiewicz

With a shuffle and a skip and a knock of the hip, and that's just backstage. The talented students who partook in this year's musical, *Footloose*, showed their fancy footwork to hundreds of people over the course of three nights.

Directed by choir teacher Monty Bishop, a solid performance was put on by cast and crew. Even some of the younger actors and actresses helped in the show.

But, not all was well. On opening night, the major role of Willard, played by junior John Quasarano, limped instead of skipped because of an unfortunate car accident right after school let out. Quasarano said, "Even though I was hurt, I felt I could rise through adversity, come to the top, and put on the best show ever." Obviously, Quasarano pulled through despite his injuries and the show was a hit.

In addition to injury, the cast and crew were faced with the challenge of new surroundings. The crew adapted well. The giant sound board and advanced lighting system would intimidate almost anyone. But the lighting was perfect, the sound crystal clear, and everything was set. "I got everything done," said senior Will Dunlap "I can't talk about other people."

Aside from the near tragedy, everyone enjoyed themselves with the production. "It's so wonderful just to be able to get on stage and with these people that you know are your friends, and we all just get really close during rehearsals," said senior Carly Skubick.

It was perhaps the challenges that helped bring the cast closer together. "Most of the time we do have enough preparation time, but there wasn't a lot of stuff here on time," said Phill Daneff, a senior who played the principal in the musical. In spite of their struggles, or maybe because of them, the cast and crew produced a show to be proud of.

SWEET SOUNDS senior **Carly Skubick** and junior **Shannon Bonney** sing "Holding Out For A Hero" in the Burger Blast scene. They played Ariel Moore and Rusty, respectively. *Photo by John Zdankiewicz*

LEGENDS REBORN: senior Brian Johnson stands in the limelight as the "Jaymz Hetfield" of his band, Metal Shark Tiger (left). Junior Nick Williams and senior Kevin Stowe rock the cosmos with their thundering performance (middle, right). Photos by John Zdankiewicz

can stop one the SChool of ROCK

by john zdankiewicz

What started with a disaster, ended with a victory as the acoustic talents of Ether pulled out on top, as judged by teachers Craig and Kellie Huhn, Mohawk of Q106 radio, and local musician Jesse Young. The musical duo dropped their tube PA system during the practice, causing a ruckus in their original plan. Cool headed, sophmore Brandon Baxter and sophmore Jacob Bonotto linked into the theater sound system and put on a perfectly clear performance. When asked about the victory, Baxter said, "I was surprised because we were only a sophomore band, and it was our first year playing. We didn't even expect to win." Bonotto, who handles the musical aspect of the band is a man of few words; his only reaction being: "Wow."

Aside from Ether's near tragedy, the first Battle of the Bands in the new theater system went by nearly flawless.

Bands Bloody Throat, Last Tragedy, Eastern Skyline, Dead End New Jersey, and Metal Shark Tiger tore up the stage with performances ranging from the funny to the phenomenal. Junior Nick Williams blazed across the fretboard with an amazing solo, while senior Nick Noble "gracefully" danced across stage for Bloody Throat. Junior Greg Rudawski, drummer and vocals for Eastern Skyline, got many of the "he's hot" comments from the lady fans. A common favorite among people who attended, Eastern Skyline, consisting of Greg Rudawski, junior Roy Kirby (guitar/vocals), and sophomore Shaun Spivak (bass) played very well, though they "didn't try to win," according to Spivak.

Dead End New Jersey, of whom the only Holt student is sophomore bassist Kevin Judy, got a respectable third, and local new comers Last Tragedy earned second place. One of the more entertaining performances was Bloody Throat, with dancers Noble and junior Stephen Spinner dressed in a priests cloak and a pink poodle outfit. The interprative dance performance was backed by senior Zack Buck's keyboard skills and senior Kyle Nabbefeld's original song and voice.

Now the only thing left is the future. "I'm confident about playing next year," says Bonotto "because now I know we have the talent and desire to win."

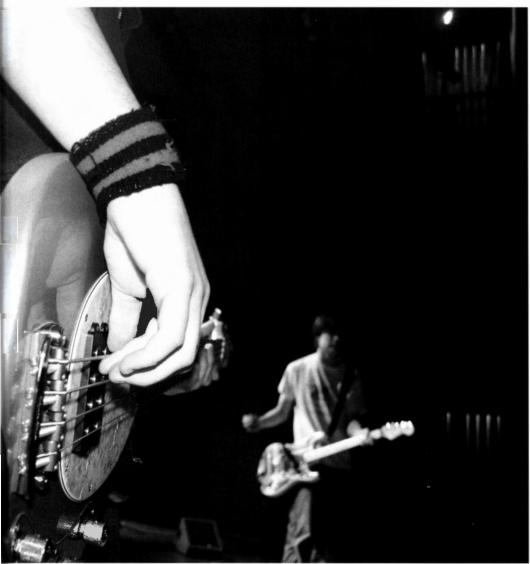

SEEING THE LIGHT: sophomore Shawn Spivak plays his bass for Eastern Skyline in this photo, which he calls his "Linkin Park" shot. Photo by John Zdankiewicz

GLORY TO THE KINGS: sophomore Brandon Baxter sings into the mic with Ether, the victors of the 2003 Battle of the Bands. His acoustic and vocal skills won over the judges this year. Their highly original set also pleased the audience that night. Photo by John Zdankiewicz

ALL IN THE WRIST: sophomores Shawk Spivak (left) and Roy Kirby (right) play with fire as they tear up the stage with Eastern Skyline. The local favorite plays many shows including the local coffee shop, Van Java. Photo by John Zdankiewicz

from beginning to END

"The Battle of the Bands was our best show so far," said senior Jamison Russ, guitarist and backing vocals for new local legends, The Last Tragedy. Since August, Russ and senior Brent White started the group after leaving their previous group, Dykstra, due to creative differences. White, who plays drums for The Last Tragedy, brought in Dustin Cook (bass), Kyle Matheny (guitar), and Jeremy Mason (vocals) to round off the edges.

Unfortunately, tragedy struck when Kyle left the band for unknown reasons. Fortunately, White's brother, Sean (who attends Lansing Community College along with Mason), jumped in to play guitar in place of Matheny.

Influenced by bands such as Thursday,
Thrice, Blindside, and Deftones, The Last Tragedy is a blend of rock, hardcore, and emotional music. The name came about when senior Curtis Lafond was throwing around ideas and The Last Tragedy popped out.

The band's first show was at Riverview
Church. "I expected us to be good," said
White, and they were. After all the line up
changes, The Last Tragedy is improving from
beginning to end.

winterfest 46

rolling through a winter Winter Wonder LAND

THIS YEAR'S WINTERFEST KING AND QUEEN take the time to dance to the music. Senior Serina Mazzoni stated "I was really suprised when I found out that I won beacause I didn't even think that I would get on court." Senior Nick Kyriakopoulos said, "I was really surprised I was chosen, but I enjoyed it. I liked winterfest a lot because my two best friends were on court with me and it was a good time. The dance was awesome since I got to bust out the moves I practiced with the dance team." Photo by Dani Dimmitt

by sara bullion

Remember that speech given at the end of the pep assembly during spirit week? Senior Ben Trentham decided to let the whole school know what was on his mind about miracles, in light of the varsity basketball team's game against Grand Ledge. "Don't you think that it's ironic that when the movie 'Miracle' comes out this weekend?" Trentham asked in an inspiring speech to the crowd.

This year spirit week consisted of Era Day, College Day, Winter Apparel Day, Brown and Gold Spirit Day, and Hat Day. The activities during lunches were carnival games, a Krispy Kreme donuteathing contest, Fear Factor, and Holt Idol. Sophomore Shaun Spivak said, "I did the donut contest because I wanted free donuts. It was cool that I won, but I really didn't care whether I won or not. It was hard for my opponent Jennifer Fisher because she had braces."

Senior Brittany Turner was one of quite a few people who participated in the Karaoke contest.

"I love to sing and it was really fun since I got to sing with my friends and help spirit in the school. It was fun to actually do instead of being out in the crowd," Turner said. After the outstanding success of the Karaoke contest, principal Brian Templin agreed to have Karaoke throughout the year as a way of building the school community and spirit.

The seniors on this year's Winterfest court were Serina Mazzoni, Beth Mastin, Jennie Hill, Katie Covello, Nick Kyriakopoulos, Ben Trentham, Chad Cole, and Kenny Fellows. The votes from all of the students made Mazzoni and Kyrakopoulos the king and queen. The junior representatives were Kate Brewer, Rachel Fessenden, Liz Huber, Jerrod Howlett, Greg Rudawski, and Tyler Holtz. The sophomores were represented by Jamie Patterson, Laura Mastin, Valerie Foy, Brandon Holybee, Kevin Judy, and Kirk Trentham. "I really didn't care about being on court, but I thought that it was cool that I was nominated by teachers," sophomore Jamie Patterson said.

"I thought spirit week was fun and the dance, overall, was fun. We need to keep working harder each year to get more people involved in these things because I think some people feel that they're not."

AND THE WINNER OF THE KRISPY KREME donut contest for the seniors is... Rustin Foley here they in almost a dozen boy full of the seniors is... understand something
Rouse has to work
herself through the
material time and time

again. Photo by Jesica Craft-Quenby

by heather piper and jesica craft-quenby

Does your learning style match the teaching style of your teacher? Do you ever feel confused by the way that your teacher presents the information needed in class? Many teachers choose to present the information taught in a visual manner, which may create a disadvantage for auditory and kinesthetic learners.

Everyone has an ability to learn in many different ways. Auditory learners can accurately remember details of information during conversations or lectures. They have strong communicational skills. Because of a "fine toned ear" they can find learning a foreign language guite easy.

The most common learners, visual learners, easily make images from the words they hear and read. Their mental images rapidly recall words they need to recognize during a written test.

Lastly, kinesthetic learners are often well coordinated and have a strong sense of timing and body movement. They frequently tap their feet, wiggle their feet, or move their legs when they sit.

Although many people learn in different ways, most often more than one learning style is used by an individual. What is important is to understand your strength and use strategies that match your learning style.

SCHOOL STATISTICS:

45% are Visual Learners

17% are Auditory Learners

38% are Kinesthetic Learners

(Based on 100 surveys)

HOW DO YOU STUDY FOR A TEST?

"I can see the notes in my head when I take a test."

Junior Jenna Smith

"I just take notes on what the teacher says and I look them over."

Sophomore Chris Case

"I write things over and over again. I read it and then I get it. I can also see the paper in my head."

Junior Kristi Riley

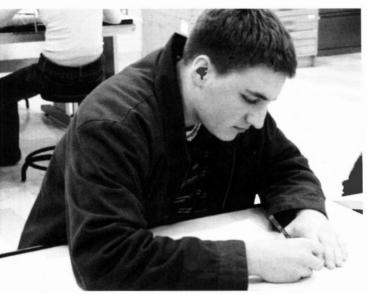

"I listen to my music and I go over my notes. When I play basketball and when I shoot I try to think about information so I remember it."

Sophomore Alan W. Scheall

while working on a computer junior Chris Cline listens to his music. Listening to music during class time can be an advantage to auditory learners because it helps them concentrate better. Photo by Heather Piper

SOPHOMORE JACOB BONOTTO Works on a project for Patty Pisano's Drawing class. Art classes tend to appeal more to kinesthetic learners because they get to use their hands. Photo by Heather Piper

SOPHOMORE **RYAN BORT** learns a math problem in Mike Lehman's Honors FST class by having fellow classmate sophomore Andrew Quebberman explain it to him on the dry erase board. Visual learners tend to learn better by having the information shown to them. Photo by Ashley Hunt

HALLO BONJOUR

by bethany hollern and sara bullion

Have you ever wanted to speak a different language and have people not understand what you were saying? Well the members of Spanish Club, French Club and German Club not only take the classes at school, they also spend time outside of class speaking the languages and doing activities together.

The French Club is organized by Sandy Bernier. "The first day of French Club was fun because they gave us cookies," said sophomore Megan Massa. Members of the French Club also went on a field trip to a museum in Chicago to see the artwork of French Impressionist Painter Claude Monet. They also spent time at the Water Tower and got a little shopping done. "The field trip to Chicago was a lot of fun," said sophomore Lindsey Konzman. French Club hasn't met that often this year but when they do meet, it's on Wednesdays during activity period. The reason that they haven't met as often as they would like is that there wasn't a French 4 class this year, so Sandy Bernier hasn't been in touch with the club's representatives. "Only 11 people signed up for the class," said Sandy Bernier.

German Club has already gone on a field trip to Frankenmuth. "Even though it was really cold outside, the field trip to Frankenmuth was a blast," sophomore Allison Vanderberg said. Besides going to Frankenmuth, members of German Club have done more fun activities. "We went Christmas caroling and we are designing t-shirts for ourselves right now," said sophomore Kacie Dittenber. Many members of German Club think that the organizer of it, Frau Peters, is "really fun and cool."

The organizer of Spanish Club is Juanita Grew. "We've met on Wednesday mornings for activity periods a couple of times, and we went out to eat at Maximo's one night," junior Erin Belt said. Although they haven't had too many meetings, the members enjoy having something fun to do in their free time with the club.

SHOWING OFF THEIR GERMAN DRESSES AT THE

SHOWING OFF THEIR GERMAN DRESSES AT THE Liederkranz Club are sophomores Amanda Hancock and Katie Shaw." We ate a lot and we danced a lot. We also had a costume contest, but I lost," Hancock said. This is Hancock's second year taking German. Courtesy photo

AWW HE'S HUGGING Santa somewhere in Frankenmuth." I had a lot of fun and good times there," junior **Bryon Carr** said. Carr is taking German because he wanted to experience good times. *Courtesy photo*

LANGUAGE CLUBS

Why did you decide to be in a language club?

"Ym taking Spanish as a class and I thought it would be cool to be in the club. I know that a lot of people speak it, and it seemed easy, so I wanted to learn how," said junior **Erin Belt**.

"I'm in the German club because both of my brothers took German and Frau Peters is AWESOME!! also knew that we would get to go to Frankenmuth and I've been there before so I knew it'd be fun," said sophomore **Amy Shinke!**.

"My grandpa can speak French fluently so I learned to really like the language. It's also cool to say stuff to my younger sisters and have them not understand what I'm saying," said sophomore **Kathleen Darbor.**

out of CLASS

by dani dimmitt

Students in high school have found ways to make the best of their high school experience. Some have taken advantage of the Capitol Area Career Center, and the Dual Enrollment courses offered through the school. Other students have taken classes in the summer through MSU's High Acheiver program where they can receive college credit in a smaller class environment that costs significantly less. Some students take advantage of classes through Lansing Community College to get college credit before they graduate either during or after school. The most extreme and exciting case is going to another country where a student can not only learn the basics, but learn about a culture and a language that they could never experience at home through student exchange programs.

Dual Enrollment

WHO: Dani Bennington
WHAT: French at LCC
WHY: "I wanted to take
another year of French so I
wouldn't forget everything
before I tested out of it."

WHO: Rachel Wrinkesmith **WHAT:** Audio Production at ICC

WHY: "I want to have my own recording studio and this teaches about the engineering behind recording."

WHO: Katie Lamphier WHAT: Philosophy, Critical Thinking and Logic at LCC. WHY: "It leads into the Forensic Psychology, which I plan on going into."

WHO: Whitney Aldrich
WHAT: Astronomy at LCC
WHY: "I'm interested in
the field"

William Lienhart is also dually enrolled., but is not at school during times convientent to be interviewed.

interns academic helproom

Every year you walk into at least one classroom with two teachers, the teacher and the infamous intern. The concept of learning from a teacher who is still learning is a bit weary at times, but you as well as the interns can learn a lot from the situations.

"I like having interns because most times they are more laid back than the teachers," said sophomore Tim Liles

Still, as high school students who can't wait to graduate, many of us cannot understand why anybody would want to be a teacher or even spend some of their college year at high school again. "It's fun but it's different because you're in high school but you're not," said Stephanie Fizzell, an intern with Christine Beno.

e biggest benefit of having an intern is that we get to talk about everything we do and they bring in ideas, and I get to think about why I do the things I do. **Craig Huhn**

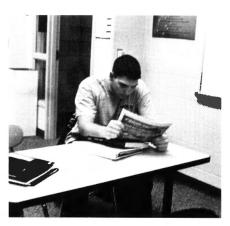

ANSWERING QUESTIONS in a class discussion is intern Shawn Gedert. Gedert interned for Laura Kueffner during the year. "He's a sweet teacher and explains a lot," said sophomore Dennis Reich.

WITH FELLOW **TEACHERS** is Mark Sharp. Student interns have to pay full price for lunch everyday but get to enjoy it in the teacher's lounge. Photo by Jeremy Overton.

mind just ngholly

LAST HUGS OF GOOD LUCK was part of Holly's support for her boyfriend junior Mike Gleason during the football season. "It was so great having her there, she has tons of school spirit!" said Gleason. Courtesy Photo

Favorite things to do:

Shopping, hanging out with friends, watching football games, scrapbooking, skiing, sledding, jet skiing, hanging out with her boyfriend, junior Mike Gleason.

"I love to ski, my favorite place to go skiing is at Nub's Nob. But we usually just go to Brighton because it's closer, I love scrapbooking and my favorite place to shop for supplies is Pages in Time," said Holly.

"I don't play any sports anymore, I used to play softball though. I love to watch sports. My favorite sport is football. I love to go to Holt's football games, I even made a shirt that says "Gleason's Girl on it!" said Holly.

"She's a really good friend, super bubbly and she makes things fun!" said friend junior Jamie Dadd.

"Holly is the mom of our group!" said friend junior Korbi Bare. "Holly is the nicest person, she's so generous and she'll do anything for you!" said friend junior Katelyn Sherer.

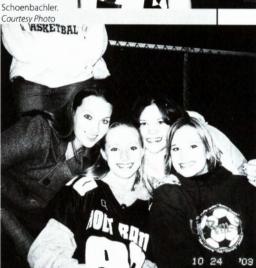

Mike:

They have been together since freshman year. "He is so sweet and he's really funny," said Holly. "She's the funniest person I know...besides me!" said Mike.

Classes:

"My favorite types of classes are business classes. I have taken all of the business classes with Mr. Knechtal. I'm in Retail Management, which is the school store. It's really fun," said Holly.

SMILING BROADLY Holly holds some of the present she

recieved for her 17th birthday on January 9th. "Birthdays and other special events are really important to me, and I also make sure that my friend's birthdays are special," said Schoenbachler. Courtesy Photo

what do with the testing **blues?**

by ashley duffy

If the big tests of the year have gotten you stressed out, then you're not alone. We all have to do it sometime or another. Sophomore year it's the PLAN, PSAT, and district assessment tests. Junior year--It's the MEAP, but if you plan on attending a college in Michigan, you are required to take the ACT's. If you are attending college out of state you are required to take the SAT's. Those two tests are often the most stressful of all because they can decide what college you do or do not get into.

"There is a lot of pressure on me to do well on the ACT's because I want to get into the best college possible," said junior Korbi Bare. Then, of course, there are the seniors who get a break because they don't have to take any tests. While all the seniors are sleeping in or going out to breakfast, the rest of us are filling out bubble sheets and watching the clock as time slowly passes. There are some ways that you can improve your test scores. It is a fact that a good night's sleep, at least eight hours, and a big breakfast can help you concentrate and get better scores.

A LOT OF STUDENTS choose not to eat breakfast in the morning because of lack of time. Breakfast is the most important meal of the day, especially if you are taking a test. Eating breakfast can help you concentrate better in class or when testing. On the other hand some people make sure to eat breakfast in the morning. "I love to eat a good healthy breakfast in the morning because it jump starts my day so I have lots of energy," said junior Annie Childs. Photo by Ashley Duffy

WITH JOBS, SPORTS, clubs, and homework getting to bed early is not always an easy thing to do during the week. Going to bed early on school nights is always a good idea. Especially the night before a test so you can stay focused. Getting a good nights sleep tucked within her warm and cozy bed is junior Sarah Benson. "I like to get at least eight hours of sleep every night. If I don't then it is hard for me to stay awake in class." Photo by Ashley Duffy

by jeremy overton

When you think of gold and silver medals and ribbons, you usually think of wrestling, gymnastics, or cheerleading. Not for Rory Goodine. He's a dancer who competes in competitions for medals and soon to be money.

Starting out at 12 years old,
Goodine's mom wanted him to try
it out and he found it he liked it and
continued with it. He started out
doing easier classes like jazz and tap
and now he does everything from
his roots of jazz and tap, to new
forms of hip hop and breakdancing. Goodine says, "Dance is good
exercise, helps with flexibility and
coordination."

Dance isn't the only thing he does, he also likes to mountain bike and work with machines. He is currently attending the Capitol Area Career Center for precision machinery, and hopes to go into a career in machinery.

Here are some...

Getting active

and

staying active

PRACTICING RUNNING, Huber and Tara Dell show off their skills. Huber and Dell are both on the cross country team. They have also started swimming for a club.

What is your favorite class?

What do you think about the new school? Its always cold and its really big. I have to sprint to all my classes.

What do you want to be when you grow up?

Нарру.

My dad wants me to be a neuroseurgon though

Whats your favorite T.V. show?

Sienfield.

Whats your favorite movie?

Zoolander and the Motorcycle Mouse

What sports do you play?

I run cross country in the fall but I run year round with the Detroit Cheetas. I also run track and I started swimming for the Capital Area Swim Team, also known as CAST.

Are you in any clubs?

I'm in German club and Pals

What do you do when you are not in

I like to hang out with friends but I also take piano lessons and sing in my church choir. Anything to get out of the house.

What are some of your other hobbies? I like to ski.

Her laugh is unmistakable and everything that comes out of her mouth seems to be funny, but its not all fun and games for junior Liz Huber. Huber spends a lot of hard work in school earning the grades that she deserves. She makes the most of the time that she does get out of school.

From hanging out with friends, to running a couple miles a day, Huber is always active in something.

ON VACATION,

Huber and her family went to Colorado for a ski trip. Skiing is one of Huber's favorite hobbies. "We go skiing often, last year we went during spring break." said Huber.

What is your favorite color?

Bright green, but not lime green.

Do you have a job?

Yeah kind of; I ref soccer.

What are your favorite bands?

Taking Back Sunday, Weezer, Switchfoot, Saves The Day, and Motion City Soundtrack.

Have you been to any concerts lately?

I went to a switchfoot concert with a friend but we couldn't get into it. Somehow we met up with the lead singer, John Forman, after the show. He jumped up onto a van and gave us a private show.

What is your favorite food?

I like food in general, but I would have to say peanut butter, Reeses, and pineapple (not all together).

Do you have any pets?

I like dogs and I used to have one, but I hate cats.

TAKING A BREAK IN FLORIADA, Huber heads off to the beach with a friend. Hanging out with friends is one of her favorite things to do. " I'll do anything to get out of

bad pictures bad drivers

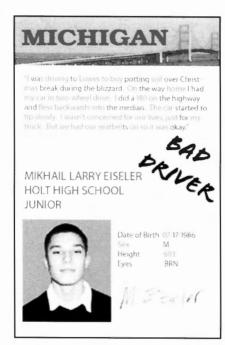

by ashley hunt and jesica craft-quenby

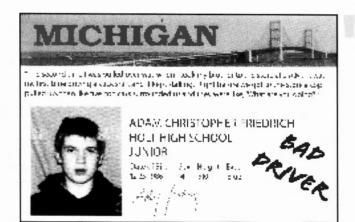

Getting your drivers license is an important event. Getting your picture taken for that license is a different story. Did you smile? How was your hair? Did you even care? "I wanted my picture to be bad, but it wasn't bad enough. I want cops to laugh when they see it," said junior Adam Friedrich.

Everyone agrees that their trip to The Secretary of State's office was a nightmare. "When I went I waited for two hours until they finally told me their computers were down. The next day I waited another two hours, so when they took the picture, I didn't care because I wanted to leave," said junior Tyler Lamie.

In reality the picture isn't a big deal, it's the license itself we all crave. Your license gives you the freedom to go where you want, when you want. Whether your picture is bad or not, every driver has a story to tell. What's yours?

Driving is fun at first, but it gets old really quick. **adam**friedrich how the new highschool has changed

planningprom

by beth keyes

Many things have changed since students have started attending the new high school. One of the biggest changes is that prom will now be held at the high school, instead of at the Summit, where it has been held for the past six years. Most students are not too thrilled about prom at school, "It's the freaking cafeteria! It's not big enough, and we come here everyday. Prom should be someplace cool, like a hotel," said junior Annie Childs. Others are hopeful that with all the money that will be saved from not renting out the Summit, the prom will be better than ever.

Not only has the location changed, but many other things about prom have changed since past years:

lastyear

thisyear

- Only Juniors were on planning committee
- **P**rom was held at the Summit

- The theme was "Night on the Town"
- There was no king or queen for prom
- The prom committee made all of the decisions about the prom

- Juniors as well as seniors are on the planning committee
- Prom will be held at Holt High School

- The theme will be "Hollywood Nights"
- There will be a prom king and queen
- The prom commitee sent out ballots so that the whole junior class could vote for the prom theme

AND THE VOTES ARE IN! After asking the student body for suggestions, the prom committee took the top choices and narrowed them down, then the whole junior class voted for the theme they wanted and Hollywood Nights won. Other choices

for the theme were Arabian Nights and Studio 64 Contemporary and Archives - Capital Area District Libraries

AFTER A BOMBING in Germany, Zoran's house

Germany, Zoran's house is destroyed and his family is forced to move. Zoran and his family then moved to America. Courtesy photo

moving

place to place

At first glance junior Zoran Tomic-Bobas looks like an ordinary good-looking guy. He may be shy at first but once you get to know him a little, you will learn that he has lived an interesting life.

On June 25, 1991, Croatia declared its independence from Yugoslavia. However, this caused the beginning of the Croatian war of independence. For four years fighting continued until December 14,1995, when the war was offically declared over.

On February 29, 1988, Zoran was born in Croatia and spent five years living there, along with the rest of his family, but in the middle of the Croatian war for independance, Zoran's family decided to move. "I'm proud of my heritage," said Tomic-Bobas "I'd like to got back and visit one day, but I would need a green card first."

Zoran and his family then moved to Germany, but their house was tragically bombed and they were forced to relocate again. That is when Zoran and his family moved to America. "I don't know why, but we were kicked out of Germany because they did not like us," said Zoran "That is why I am here."

Zoran came to Pattengil Middle School first, but he has spent his whole high school career in Holt. Zoran is a junior now and has a brother, Mark, who also goes to Holt who is a senior.

GETTING A BREAK from class, Zoran explains how he came to America. "I've lived in three or four different countries." said Zoran Photo by Katie Lash

How many languages do you speak?

What are they?

English, Kroacian, and German.

What do you speak most often and what is your favorite?

I speak English most often but I like German the most.

How are the other countries different than the U.S.?

In Germany, college is free.

What is your favorite country that you have been to? Why?

Bosnia. Because It's beautiful.

What do you want to be when you grow up? Maybe a lawyer.

What are your favorite classes in school? English and chemistry.

What is your favorite color?

Light blue. What is your favorite sport?

Soccer, but I don't play on Holt's team.

Do you have any animals?

I have three bunnies.

Do you have a favorite movie?

The Gladiator.

PLAYING AROUND his house in Germany, Zoran, his two brothers and cousin take a break to pose for a picture. Zoran moved to Germany when he was five years old after leaving Croatia. *Courtesy photo*

what do you do with your

wednesdaymorning

by beth keyes

84%

of students prefer to spend their mornings catching up on their sleep "I don't sleep in class as much on Wednesdays because we get to sleep in." said junior Leanne Nash

COUNTING SHEEP instead of stats, junior **Peter Piper** takes advantage of his Wednesday mornings
by sleeping in. *Photo by Eve Ayala*

How many times do you hit the snooze button?

After asking 100 juniors the average that they hit the snooze the average is: **3**

"I don't hit the snooze button, but my mom has to shake me awake like 5 times. before I get up." said Junior Alex Erhardt.

Cost of a Wednesday morning meal

Denny's Grandslam Slugger: \$6.69

Beaners
Bagel with cream cheese
and a tall Teddy Bear:
\$4.95

McDonalds Bacon Egg and Cheese McMuffin : \$2.65

THE MOST IMPORTANT MEAL OF THE DAY, breakfast, is enjoyed at McDonalds by junior Leanne Nash and senior Kelly VanHouten. Photo by Beth Keyes

10%

of students like to go out to breakfast on Wednesday mornings. Some of the most popular places for Holt students to go for breakfast are: Denny's, Beaners, and Mc Donalds

6%

of students come to school early. Practice for sports, meetings for clubs, and getting some extra help for grades are a few of the reasons that students cometo school early.

"AT FIRST NOT MANY PEOPLE SHOWED UP to the helproom, but now we have between ten

and fifteen people coming every week!" said intern **Stephanie Fizzell** as she helps sophomore **Bronson Wall**. *Photo by Beth Keyes*

when
a
class is
APPLIED
to life

by dani dimmitt

Many students feel that high school isn't necessarily preparing students for the "real world." But this year there is a new class that does just that. Retail Management has been one of the main perks of the new high school, giving many students the opportunity to see what it would be like to run or manage a business. Dan Knechtel is the teacher in charge of Retail Management. Knechtal chose students last year after he had them in either his Promotional Marketing, Business Management or Mentorship classes.

Between lunches, Knechtel goes over prices and new products. "He includes us in most of the decisions, which is really cool because in a normal class, you don't necessarily get to put your two cents in," said junior Katie Flinton.

"The students that I have chosen have done an outstanding job, not only this year but last year as well. They were critical in the planning process of the store," said Knechtel. Each student in his class has a different role, which often change so that every student can experience all the different aspects of a business. Some of the tasks include: clesign, management, security, clothing, cashier, shift management, and accounting. "The class is pretty easy," said senior Gisele Uwitonze." I like being a cashier."

Seniors dominate the class, with only four juniors and no sophomores. "I would've taken this class every year if we would've had it. It's so fun we get to socialize while we work," said senior Celeste Malkowski.

One of the biggest perks of the class is being able to have two lunches. "Having two lunches is the best part," said senior Preston Havens. "I can get all my work done really quick and then I have time to myself." Workers also get all of the merchandise at cost, but not fcod. Students earn a grade for the effort that they put in to the work they do, so while it may seem like all fun and games, they still have a lot of responsibility.

Forest Parke Library and Archives - Capital Area District Library

USING HIS HEIGHT TO REACH THE TOP OF THE CABINET is senior Emmanuel Paul. Senior Steve Florien does an inventory in the storage room along with Paul. The students are expected to take inventory periodically to ensure that they have all of the products that they provide. Photo by Dani Dimmitt

PUTTING PRICES ON ALL OF THE BEVERAGES is one of the jobs students practice. Senior Ali Hull labels the bottles of Gatorade in the stock room. "We decide as a class what the prices of the products are going to be," said Hull. Photo by Dani Dimmitt

DAN KNECHTEL GETS THE SCOOP on the latest happenings in the store from seniors Nikki Boyce, Melissa Anderson and Mark Tomic. Knechtel includes the students in all of the decisions that are made in the class. Tit's a learning experience the whole way through," said senior Brandon Conley. Photo by Dani Dimmitt

SECURITY DUTY IS AN IMPORTANT

part of having a successful business. Senior **Keith Lane** (left) stands at the entrance of the store to keep traffic flowing. Seniors **Cassie Martin** and **Steve Florian** and junior **Josh Looman** stand in the back of the store (far left) to watch for theft. "There's been a couple of situtaions with students who have sticky fingers," said Martin. "But as long as we watch everyone it isn't too big a problem." *Photo by Dani Dimmitt*

STOP.

GO.

While most students haven't found any room to 73 complain about the size or layout of the parking lots, most have a problem with the speedbumps. "I don't think it's bad to have speedbumps, but they are so big and they have caused accidents because people always stop to go over them," said senior Kami Kosloski.

While one would see many people just fly over them, many people don't have any choice but to stop. "I had to go really slow over the speed bumps, because my car sits really low to the ground and it was literally breaking my car," said junior Brooke Bambusch. "I rarely drive to school anymore, I usually ride with my friend Ashley Duffy."

IS IT A TINY CAR OR A GIANT SPEEDBUMP? It's the attack of the giant speed bumps. These pictures of toy cars show how big the speedbumps are. "There's some days when this is how my car feels when I'm going over the speedbumps," said junior **Mirlam Brewer**. Students can only hope that they will wear down, but until then it will be stop and go in the parking lot. *Photo by Nate Parsons*.

another CK in high schoo

by eve ayala

New school, new teachers, and of course, new classes are what made this school year completely, well, new. Students had a few more choices while signing up for classes in their schedule, and photoshop and photography were both on the list.

Photography was quite a popular class to sign up for. First semester 29 students were given the class out of at least 200 who had signed up. All students in this class were seniors, except one junior. After the first week of school there was a problem: the school said they would only pay for 28 students to take the class. So two students voluntarily dropped the class.

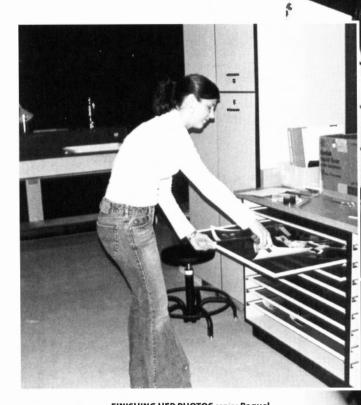

While getting the class together, building the dark room with the revolving door, and creating a separate room for film loading may have been difficult, finding a teacher was not. "I've had an interest in photography since I was a teenager. When I found out that we would be offering a class at the new high school, I jumped at the opportunity to teach it," said photography teacher Brooke Barrett.

Making the decision to teach the class was easy, but did she really know what she was getting herself into? "The hardest thing to explain to students is the role of the aperture, shutter speed, and meter on exposure," Barrett said. And that is, basically how the camera works.

As if having a new teacher, a new school and a new class wasn't "in the dark" enough, students had to do everything major in the actual dark. "The class is exciting, even though you have to do most of the work in the dark," said senior Sarah Murray.

tracking a Look at her picture through the grain focuser in the dark room is senior Raquel Llinas. The grain focuser is used to determine whether or not the picture is in focus or not. "The grain focuser was difficult to use at first and my pictures turned out a bit blurry, but as the class went on, I understood," senior Sarah Murray said. Photo by Eve Ayala

FINISHING HER PHOTOS senior Raquel Llinas carefully uses tongs to place her pictures on the drying rack after getting them out of the water for five minutes. In order for your print to come out correctly you have to go through four steps, and water, is the last and the longest. Photo by Eve Ayala

Most students expected a new smell to the school on the first day. It certainly was new but not at all what they thought. This was definitely one of the few times people were lucky to have the stuffed up nose of a cold, which

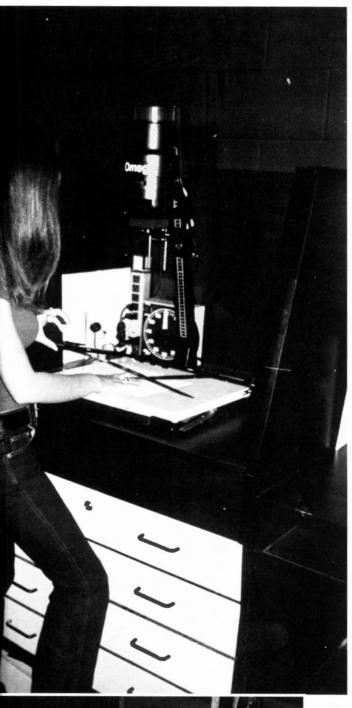

meant, not smelling what everyone else could. "It smelled like people let off stink bombs every day, and it reminded me of the end of the school year last year, when all the seniors would pull their senior pranks and stink up the school," said senior Rachel Ulch.

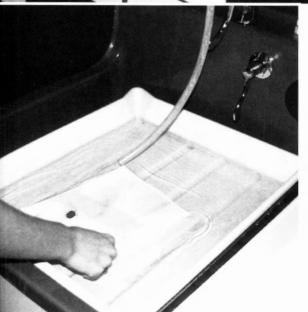

Sewer gas was coming from the sewer system down the road on Grovenburg that the high school was tied to and this building, unfortunatly became the vent of it. All the smell was coming into the school, from the drains.

While students walked through the hall trying to ignore the unavoidable smell the sewer company worked its hardest trying to fix everything for the students to have the wonderful new school year everyone had hoped for. This smell lasted for a few months into school, and just as students were getting immune to it, it was fixed.

The problem had been corrected by putting in man hole covers or sewer covers so that the smell wouldn't drain into the school anymore.

GETTING READY TO PRINT AN EN-LARGED PHOTO of her negative senior Sarah Murray puts them in place so they will copy on copy paper just right. "I hate the fact that you can't see what you're doing so the paper doesn't always fit directly under your negatives so they are always messed up when you print them," Murray said. Photo by Eve Ayala

DIPPING THE PHOTO INTO CHEMI- CALS senior **Sarah Murray** awaits for the minute to come up, so that she can move onto the next chemical and soon, the water to be all done with the photo. *Photo*

Cramped, dirty, and a strange shade of yellow: this is no longer the description of Holt High School's weight room. The new \$141,000, state-of-the-art weight room is top of the line.

Not only is the equipment better, but the whole environment of the room has improved. This is evident in the level of participation after school. "Walk into the weight room at 3:00, and it'll be packed," said teacher Mike Smith. Thanks to the friendly environment, "we've also noticed more girls participating," said athletic director Rick Schmidt.

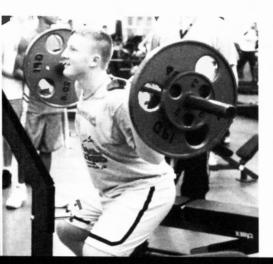

The weight room is equal to the likes of fitness centers like the MAC. "The weight room is probably the best in the state for any high school; it probably surpasses most Division 2 colleges, too," said Smith. The weight room now has much more than just weights: it has treadmills, bikes, and aerobic equipment. There is even a circuit of twenty machines that if done in order, will work your entire body.

Holt received such great new equipment thanks to a deal, set up by Schmidt, with top-of-the-line provider, Cybex. Cybex gave Holt at least one of every machine at a much lower price, which allowed our school to purchase even more equipment then originally planned. In exchange, the weight room doubles as the Cybex showroom. Occasionally Cybex representatives come in to show the equipment to potential future customers.

If the public wishes to use the weight room, the school allows community members to use it on Mondays and Wednesdays from 6:30 to 9:30 at night. But students and staff can use it every day after school. To the dismay of some students, they must have an adult in order to be allowed access. "We need to have someone present in case someone gets hurt," said Smith.

The weight room gives students and teams the ability to improve their training greatly, but as wrestling coach Rocky Shaft said, "It won't do anything if people of est a like Library ain'd Arch

"THE NEW WEIGHTS

have pads so that they don't hurt and it's a lot easier" said sophomore **Billy Albrecht**, as he uses the squat rack to strengthen his quads for football season. *Photo by Beth Keyes*

STANDING IN SET POSITION, Jake

Moreno gets ready to use the TredSled, which helps the football team simulate blocking and tackling. The machine tells you how fast, how hard, and how many yards you drive it. "It can also be used by the track team; there's a belt that holds you in place so you don't run off the edge," said teacher Mike Smith. Photo by Beth Keyes

THE EAGLE ROW

helps to work the back, "The back is one of the biggest muscles. I'm training for football and baskerball, but it's important for all sports," said junior Mikhail Eisler. "I lift to stay fit; I would still lift even if I wasn't in any sports." Photo by Beth Keyes

"MY PERSONAL BEST IS 55 LBS, but I don't care how much I lift, I just want to become stronger," said senior **Nick Kyriakopoulos** as he does curls to work his biceps for football. *Photo by Beth Keyes*

a flash Of ALARM

As the students filed out of the building for the sixth time in one week, teeth chattered and people huddled close together for warmth.

The first of six fire alarms that week were due to simple human error. As was the second. The third was from a student who hit the alarm as they were lined up by the door waiting for class to get out. The fourth, and most annoying, alarm went off because of a malfunctioning alarm in an air duct.

When the alarms go off, the strobes stay on until the cause is detected and fixed. Unfourtunately the malfunctioning strobe was located two stories above the ceiling. School officials had to wait until a person from

USUALLY IGNORED BY STUDENTS AND

FACULTY, the presence of the fire alarms' flashing strobes was unavoidable on November 26, when school officials couldn't figure out how to turn them off. *Photo by Beth Keyes*

Detroit could come in and fix the problem, which meant that although the sound of the alarm was silenced, the strobes stayed on. Most students found the silently flashing strobes to be the source of irritation and migranes. "They were really annoying and gave me a headache," said senior Kisti Boatright.

Students had to return to the outdoors two more times because of the constant fire alarms. School officials tried to reset the system to shut off the strobes,

causing the alarms to sound. School officials finally made an announcement that teachers should ignore any further fire alarm, but because of yet another malfunction the alarms could not be reset, and the strobes stayed flashing.

DOYOUH EAR?

by katie ross

Singing may just be something you do when your driving or in the shower, but to other people it goes a little more in detail.

Not hitting the right notes or maybe not singing in a high enough pitch gets to you after you've been practicing for a few years.

There are also two different types of chior. There is the cantique chior and the chorale chior. 'What's the difference?' you might ask. Well, the cantique chior is for females only and the chorale chior contains both genders. Since females have a tendency to hit higher notes, they have put together a special group which they named cantique. For males and females who like to sing together, there is the chorale chior available.

Of course anybody can sing in a chior if they practice at it right? Well, then you have to perform in front of an audience. For some vocalists, performing your peices in front of an audience is half the fun of practicing for years. A solo part is also an option of really getting your voice out there. Some may choose to do a solo because they have the passion for singing aloud. But, if you ask me what my comfort singing zone is, I'll tell you that I'm the one in the back lip singing!

SENIOR CADY COOLIDGE PA-TIENTLY WAITS TO BEGIN the first song of the night's event. The chorale chior sang 'This Little Babe' as their first piece. Photo by Katie Ross

AT THE 2004 Christmas Holiday Concert, they chorale choir sang bravely from the balcony of the new theatre. *Photo by Katie Ross*

OPPORTUNITIES TO MAKE MUSIC

ANOTHER OPPORTUNITY IS THE FINE Arts Technology lab. Located right around the cornor from the band room, it is open to the band and the chior. It is a computer lab with music stands on the desks. They come equipt with small piano keyboards that hook up to the computer. The reason for this is for music students to study music theory, the reading and writing of music and its rythems. The students can work through a study course, compose a piece or play their instrument into a micrphone and have the notes appear on the screen. "This will put our students at a college level in musical theory," Tim Parry said. Photo by John Zdankiewicz.

THE NEW SCHOOL HAS OPENED up several opportunities for the band, the band room has two sound proof practice rooms. They are big enough for a small group or an individual to practice in, "I is wonderful because you can have three practices going on at the same time and never hear each other," Band Director Tim Parry said. Photo by John Zdankowitz

"I didn't like it, it made my feet hurt. Too much sun, not enough water," said

Drilling, hot, fun, sunburn, dances, no parents, bonding, stressful.

senior Cristina Hogarth

Michigan State Marching Band Camp.

It is the start of a new season; a new class joins in the marching band as the older two classes have said goodbye to last years seniors.

There, rain or shine, the band practices from 8 in the morning to 8 at night with breaks only for water, lunch and dinner.

They start with a set of sheets with dots on them that represent people and a practice football field; they end with a spectacular show that they perform

the Saturday they are at band camp and during every half time at the home football games.

After the marching season the band moves to concert season which has a more relaxed mode in the sense that they aren't outside in all weather and having

evening practices. But they work just as hard on the music as they prepare pieces for concerts and

band festivals.

Individual students let their talent shine through Solo and Ensemble competitions. "You prepare a piece and play for a judge and get ratings. If you go to States, you sight-read music," senior Gretchen Baker said.

The band, director Tim Parry, and all the volunteers work hard and they produce joyful music year after year.

And as one more senior prepares to graduate this year, Jason Briggs said: "I'm going to miss P-Diddy (a.k.a. Parry) the most."

uiz bowl

Did you know that Uranus has a moon? Twenty one moons to be exact. This is one of the many fun facts that the Quiz Bowl team needs to know if they want to win at a meet.

Studying and learning facts is not the only thing they get to do; they get a little fun as a reward. Every year the team gets a chance to appear on televison. That's right; the team gets to have fifteen minutes of fame. They appear on a teen game show: Quiz Busters. This is where they go up against another school and try to answer questions correctly and then get the satisfaction that they won and gave our school another victory.

Do you think that you could be on the Quiz Bowl team?

forensics

Does your stomach get butterflies when you even think about standing up in front of people? If so, then Forensics is not the club for you. In this club it is all about appreciating the art of public speaking.

Students enter themselves in events where they can show their dramatic or persuasive side. One of the many events is the Duo in which two people team up together and memorize a play so that later they can perform in front of judges to be critiqued and get points for their team. Sound hard? Well it is The tricky part of this is when the Duo gets up to act they can't use any props. This is not true for Sales speaking, another event where the participant must try to sell a product or service to the judges using props and visuals.

Whether they are broadcasting the news or interpreting a poem, these brave souls have nerves of steel that most Americans do not possess -- the majority

forensics fanatics

"I joined the team because my friend Alice told me how much fun it was and that I would really enjoy it. Turns out that I do like it a lot.'

science olympiad

With a large group of students on the team ranging from the three seniors and the five juniors, five sophomores and the seven freshmen, the science olympiad team meets on Tuesdays and Thursdays after school until 4:45. This gives them plenty of time to prepare and work on their events. The members of this club are given the choice which event they want to do: they could decide to test their knowledge in an event where they study information and then answer questions, or they could team up and make practical applications in an event where they build a device out of raw materials.

STUDYING UP on trees are sophomore Andrew Quebbeman and senior Serina Mazzoni. The two placed third at regionals and twelfth at states in a forestry competition in which they identified trees by their scientific names. Photo by Kacie Dittenber

"I got into forensics because I like to act and I think that when I am older I could possibly major in it."

OUT WITH OLD IMAGINATIONS; IN WITH REALITY

by jesica craft-quenby and heather piper

Remember back in elementary and middle school when it was cool to have braces or glasses or even a broken bone?
Remember trying to fool your friends with the paperclip on your teeth or the ace bandage on your arm? Did you ever wear your mom's glasses to school and make yourself dizzy, but it was okay because you wanted them to be real? Apparently a lot of students felt the same way because almost everyone has a story about those past experiences.

Seniors Nikki Boyce and Richelle Corkins also wanted something they didn't have.

Boyce wanted braces and pretended like she had them. Corkins also wanted to have

braces, until she actually had to get them, "Then I didn't want them anymore", she said.

In third grade, senior Savannah Kissane wanted to get glasses because her sister had them so when she went in for her yearly eye exam, she lied to the doctor and told him that everything was clearer with the glasses so he gave her a prescription and she got glasses.

Girls weren't the only ones who longed for something they didn't have. Senior Jason Briggs used to tell his friends that he had a strong 20-year-old brother named Jerome who he would go hang out with and get rides places. Come to find out, Briggs never really had an older brother.

"I WAS COM-PLETELY IN LOVE WITH THIS GUY IN THIRD GRADE," says junior Nicole Zaborowski, "And I wanted to break my leg so he could sign the cast and carry my books around for me when I was on crutches. Plus, then I could ride the elevator." Photo by

Jesica Craft- Quenby

SENIOR NIKKI BOYCE USED TO WANT BRACES in elementary school. "I used to put the wires of paperclips on my teeth so it looked like I had them," she said. Many girls also remember doing the same thing. Photo by Jesica Craft- Quenby

SENIOR RICHELLE CORKINS SAID THAT SHE WANT-ED TO BREAK HER

ARM so she didn't have to do her homework. Many high schoolers remember wanting the same thing in elementary or middle school. Many of them sometimes still wish that so they wouldn't have to do their homework. Photo by Jesica Craft-Quenby

"I DECIDED I WASN'T SUP-

POSED TO WEAR OTHER PEOPLE'

"I LIED TO THE EYE DOCTOR", said senior Savan

nah Kissane. She got glasses in third

grade after she told the eye docto

she couldn't see without them. Ev

though she didn't

wear them, she wa excited that she

actually got them because her sister

had them. Photo I Heather Piper

GLASSES", said sophomore Laura Wilke when she told us how she once wore her mom's glasses to school and broke them when she w playing and got knocked down. Photo by Jesica Crd Quenby

JOHN MAJOR WANTED A

ementary school. So, to pretend he was driving, he would carry a cardboard box and hold in in front of him, pretending it was a car. He would ride in his Red Flyer wagon and pretend he was driving. But now he has a car so he doesn't have to pretand anymore. Photo by Jesica Craft-Quenby

"I BOUGHT KNOCK-OFF FUBU CLOTHES," said junior Eric McCulloh. He wanted to feel cool and he always pretended like he had the clothes that were popular at the time. He just made up the fact that he had nice expensive clothes at home but his mom just wouldn't let him wear them to school. Photo by Jesica Craft-Quenby

SOPHOMORE ROYCE RO-DRIGUEZ WANTED A DOG,

but his mom wouldn't let him get one so he got a piece of wire and walked around with it, pretending like he had an invisible dog on the end of it. Photo by Jesica Craft-Quenby

ankle was broken, and she also wanted glasses, but once she got them, she lost them and was happy to not get them back. Now she doesn't wish for anything she doesn't have. Photo by Jesica Craft- Quenby

SENIOR JASON BRIGGS USED TO TELL HIS FRIENDS

about his older brother Jerome in detail. He was big and strong; he had a nice car and would give Jason rides everywhere; he hung out with him all the time. And he was 20. The only problem? Jason doesn't have an older brother. He made him up because he wanted one so bad. Photo by Jesica Craft-Quenby

COMMONS

by heather piper and jesica craft-quenby

Our building has gotten bigger. It's population has gotten bigger. What else has gotten bigger? The area where the students hang out before, after, and during lunch: the commons. But there is a reason for that. The high school doesn't have a cafeteria so lunch is served in the commons area. Most students like the change in the commons and the large area allowed for lunch and think that if they can't leave for lunch, it's nice that they have the commons to eat in.

Aside from lunch, the commons are used for many other purposes. School functions like dances, meetings, and parent-teacher conferences are held in the commons. Also, the commons are a nice place for groups to meet during activity periods.

STUDENTS STAND IN THE MIDDLE OF THE

during lunch. The commons are a popular place to hang out with friends during lunch or break periods. Photo by Jesica Craft-Quenby

THE TABLES ARE SET UP AND THE LUNCH STAFF IS

READY to serve the students. At lunch, students have a variety of food options to choose from but only one place to eat at: in the commons. Photo by Heather Piper

COMMONS AREA is the popular place for security guards to stand and a nice place for spectators when activities are going on at lunch time, usually the week before a big game.

Photo by Heather Piper

THE BALCONY OVER THE

facing off against new FORCES

by John Zdankiewicz

Where old traditions end, new ones begin. People have mixed emotions towards the change of the CAACs.

Some love the opponents, some fear them, and others just don't care.

Not only sports, now the CAACs include other activities, such as Forensics and Quiz Bowl. "I don't like how Forensics is included and dance team isn't," says junior Katie Zeisman, who is on the varsity cheerleading team.

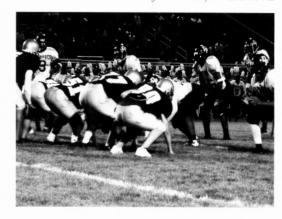

But, others have different views and feel it's good to have everyone work together and compete as a whole school. "I think any team, Forensics or anything, that practices and works together as a team, deserves the same recognition as a sport," says junior Erika Neumann, who is on varsity volleyball.

No matter what activity or sport, each team fights for the same goal: bringing home their own CAAC championship.

DREAM ORGAN OR

by dani dimmitt

Every little kid has that "dream job" that seems so achievable.

Most people have many different dream jobs. In high school there are many influences on these dreams, such as TV, classes, friends, grades, etc. Students now see what is a dream and what is a reality. But dreams are still dreams. These eight students all have jobs that are either an opportunity that they have already been working on, and for others it would just be "really cool."

See if you can match the job to the person, you may be surprised who wants what, and if they see a shining career at the end of their dream.

Answer Key:

A. Thereeze Ford B. Jason Alleman C. Andrea

When you think of hockey you might think of grown men with missing teeth skating around smacking and checking each other while trying to score a goal. Kirsten Carlson does just that, minus the missing teeth. She is in an all-girls hockey league where she plays defense left wing.

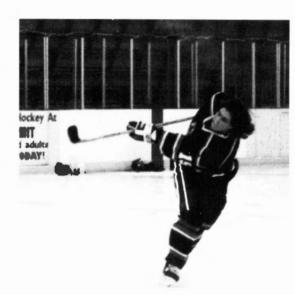

From figure skates to hockey skates Carlson first picked up a hockey stick in seventh grade and never looked back. "Hockey's been in my family for generations. I used to be a figure skater but I soon learned that hockey was way better," said Carlson of beginning her hockey career. Learning from her older brother lan, who is now playing in Alaska, making the transition from figure skating to ice hockey was an easy process. She joined an all-girls league at The Summit and began to develop her hockey skills.

Now just three short years later, she is traveling to Connecticut, Minnesota, and even the nation's capital to compete against girls of equal skill levels.

Carlson's sole focus is not on hockey; she's also a member of the varsity girls golf team in the spring. She hopes to continue playing hockey through college and eventually become a coach herself to teach girls the skills she has learned from her coaches.

STARTING OFF WITH FIGURE SKATING, Kirsten Carlson made the jump to hockey in seventh grade. Influence by her older brother Ian and the rest of her family. Carlson's transition was an easy one. Courtesy Photo

mikeredding.

by nathan parsons

In the cold, frost-bitten morning, a tiresome figure stands alone in the dark. The student is somberly awaiting his ride on the big, yellow school bus.

With the majority of students growing up riding to school on these transport vehicles, we have become accustomed to waking up early in the morning to get to the bus stop on time. We have also learned to fear explaining why we missed the bus to our parents. However, our loyalty to the free transportation that our parents taxes pay for ends all too quickly.

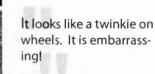

However, why is it that so many of our peers hurry to either drive, or get a ride to school, once we reach high school? What is it that is so bad as to scare us from riding the school bus? The following are some reasons described by numerous students.

To be old school, I'd ride horse and carriage to school instead of driving.

ROCKIN' OUT on bass guitar with fellow Dead End New Jersey bandmates is Kevin Judy. Dead End New Jersey opened for the Battle of the Bands contest earlier this year. "I was really nervous and I almost wet myself" said Judy about his Battle of the Bands experience. Photo by John Zdankiewicz.

joining the

by kacie dittenber & jeremy overton

After being home schooled all of his life, sophomore Kevin Judy is joining the crowd. "I was always given the option of going to public school since I was young, but I wanted to be home schooled."

Attending public school offers a lot of new things to do, like being able to enter his band, Dead End New Jersey, in the Battle of the Bands contest and coming in third place. All of the band members are home-schooled, except for Kevin who met most of his homeschooled friends at church events.

Church is a big part of Kevin's life "I have been a practicing Christian since I was born," he said.

While Kevin has met a lot of his friends through church, he has also managed to meet many friends while at the new high school.

"The best thing about public school is that you can meet a lot of different people and you get to see your friends all the time," he said.

you do the you do the

You're stuck in a cage, surrounded by nothing but your thoughts and the things you are not supposed to use. You're feeling like it has been ages since you have done the things you normally do in day-to-day life. You feel it setting in, you start talking to yourself and asking, "Am I crazy yet?" No, you're not in jail, you are merely stuck in your room, thinking about the thing you did to get grounded.

You can do almost anything to find yourself in trouble. From coming home five minutes late from a girl's house, to nearly wrecking your father's truck. The possibilities are endless.

"No TV, no phone, no car, no friends, no

nothing for a whole week, do we make ourselves clear young man?" These are among the many things parents say when taking away our precious privileges for bad behavior.

When you hear your parents use an authoritative voice to say your full name: first, middle and last, you know you're in big trouble. Like stepping before a judge, you wonder what you did this time and how long the sentence will be. The crimes as well as consequences may vary, you still find yourself stuck at home, or in your room, wondering if what you did was worth it.

Most of the time, it is.

suspect

Bruce Pettit

"I went to a party 45 minutes away and told my parents I was going to stay at a friends."

thetime

Grounded 3 days with everything except T.V. taken away.

Shamarr Gearhart

"I came home late from hanging out with some friends and not calling to say I would be late. "

Grounded for 5 days, with no telephone.

Drew Webber

"My dog got out and I was too lazy to go get him. So he roamed the neighborhood, and my parents almost hit him on their way home. They found out that I didn't go after him and grounded me."

Grounded from going out on the weekend.

what can you get for a lip?

by kacie dittenber & heather ungerman

A paperclip trade. Who has ever heard of such a thing?

Well, we decided to give two paperclips to two pairs of sophomores. Each pair had to go to as many houses as they possibly could in thirty minutes, while trying to get the best thing that they could get for what the last house traded them.

How persusive are these sophomores? Can they talk themselves from a paperchip to a new car?

To start off the trade, Shayla Kniffin and Lindsey Konzman went to the first door and received a jacket in exchange for one of the paperclips.

Throughout the thirty minutes they got so many different things. "I liked to see the expressions on the people's faces when we went up to the door," Kniffen

It was snowing like crazy the night the girls set out on their adventure. "It was freezing outside, but the snow added a really cool element," Konzman said.

The second pair of sophomores were lucky: they got to test out their neighbors when it was not so blizzardy outside. However Shaun Spivak and Justin Franks were not as lucky as the girls in their trades. Still they pulled away with some interesting things: a pocket knife, pencil, apple and bag of left over Christmas candy were among the prizes they traded.

Based on the results of our experiment, we can conclude that either the girls picked better houses, or they are simply more persuasive than the guys.

PROUD OF A GOOD TRADE is sophomore Shayla Kniffen. She puts on display a pack of Trident Gum. Later it was traded for a can of Mountain Dew. Photo by Kacie Dittenber.

NERVOUSLY LOOKING BACK are sophomores Justin Franks and Shaun Spivak as they approach the first house. The guys made a great trade, a paperclip for a pocket knife. Way to go guys! Photo by Heather Ungerman

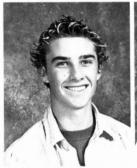

SURPRISED BY WHAT THEY RECEIVED are sophomores Lindsey Konzman and Shayla Kniffen. On the last house the two ladies hit it big. They received a candle and a Christmas candle holder Photo by Kacie Dittenber

STARING AT THE DOOR sophomore Shaun Spivak waits for an answer. He and Justin Franks are on a challenging hide and seek type mission. To find the best thing that they can for a paper clip. Photo by Heather Ungerman

Do you know what

it feels like to just be

living the moment

by sara bullion

Who is someone that you look up to?

My sister Amanda, because no matter what happens to her, she always gets through it. She is also really funny.

What is your dream job and why?

An actress, because I've been in plays and I love to be on stage; it just feels right.

Who is the funniest person you know?

Amy Waddell. The voice she uses to joke around in is so funny and she can make a joke about anything.

What are some of your phobias?

Needles: they're scary! The thought of seeing them go into someone's skin is just disgusting to me. I'm also claustrophobic.

What kind of pets do you have?

Two cats, Rex and Skye, and one dog named Sadie Mae.

If you could live anywhere in the world where would it

Scotland, because it's so beautiful and it seems so untouched by man and that's the way it should be.

What is your favorite snack?

Hormel chili with cream cheese dip that my mom makes.

Who are your best friends?

Ellen Meersdom, Chelsea Flinton, and Kristelina Barros

of rollercoasters since she was 4-years-old. Here she is at Cedar Point in Sandusky, Ohio. "I wasn't scared of rollercoasters then, and I'm still not today" said Mitchell. Courtesy photo

POSING AS IF SHE WERE A MODEL, Misty smiles nice and pretty for the photographer behind the camera. Courtesy photo

"We've known each other for five years and we just started talking a lot in French class last year and have hung out ever since." cheisea flinton

"We met in elementary school because she lived three houses down from me and we started talking and hanging out and we've been friends ever since. We always go to the movies and we try to go bowling every Friday." ellen meersdom

> **SUPPORTING HER SISTER** at graduation in 2002, Misty and older sister, Amanda smile for the camera. "I don't remember where we were at for her graduation, but it was a nice day. My sister still lives with us, attends LCC, and is also in the Army Reserves", said Mitchell. Courtesy photo

GETTING READY TO BLOW OUT THAT CANDLE, Misty

smiles as she makes her wish. "My mom didn't have any other candles so I had a big number one." "My mom wanted to make a cookie cake instead of a regular cake so I just said okay. My birthday is in October so I had Halloween decorations on my cake", Mitchell says. Courtesy photo

teachers

who

bove&beyond by katie dillon

Students were polled from every grade about which teacher in this school they admire most and why. These are just a few of those they mentioned.

RosiePeters

Selling donuts and running the German Club are a few of the things Frau Peters does for her students. "She's always so happy and energetic. She smiles all the time and has a way of cheering you up when you're having a bad day," said junior Heather Tews.

Jim Keckisen competes with students in Intramural Basketball and is on the championship dodge ball team. "He always had new and interesting ways of teaching, we would listen to music, then break down the song and relate it to history," said senior Sarah Moule

Ayesha Ahmad

Even though Ayesha Ahmad is an intern, she is going out of her way to help the students of Holt High. Starting a yoga class and the Academic Helproom are a few things she has done to benefit students. "She is always so willing to help you with whatever it is. She's young and knows what it's like to be in high school so she knows what we're going through," said junior Hannah Donaldson.

MattTrunk

Matt Trunk coaches the boys soccer team and helps with the girls soccer team. He is also the Student Council advisor, which makes him an important part of the staff to every student in the school. "Mr. Trunk's personality is like a wound that is profusely bleeding. You can't stop the overwhelming appeal of his extremely kind manner," said senior Nate Parsons.

ChristineBeno

Whether or not you have Christine Beno for a teacher, everyone in this school appreciates her. Being in charge of the yearbook is a tremendous responsibility and she does it to her full potential. "There is never a time when she hasn't been there for her students, no matter what they need," said junior Jessica Keener.

Today, almost everyone has a cell phone, and most people would agree that cell phones are a great convenience. There is still a controversy over whether or not cell phones should be allowed in school.

Students depend on cell phones for various different reasons; getting a ride to and from school, just in case an accident at school or on the road occurs. In this aspect many would agree that of course cell phones should be accessible for students on school property.

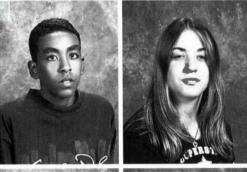

Certainly, people should not be chatting with their friends during a lecture. Many people agree that cell phones are a luxury, not a neccessity. Class is a time where learning should take priority over everything else. Cell phones do not belong in the classroom, but that doesn't mean that they shouldn't be allowed at school.

Cell phones are not to be used during the instrucional day, beginning at 7:30 A.M. and ending at 2:35 P.M. They are not to be used during break or at lunch. (Pg. 14, School Hand Book)

"I don't think that students really need them during class time, so I think it's a good policy." -Junior **Teddy Priebe**

"Well, mine just went off during my final. I don't think that teachers should throw a big fit about it."

-Sophomore Molly Kosloski

"I think as long as we don't use them during class and it's not a distraction I think we should be able to use them during break and lunch"

-Sophomore Allison Kelly

"It's good. I don't think we should be able to use them in class."

-Senior Mark Tomic Bobas

"What if there's an emergency and we need to call someone? Besides we should be able to use them at lunch when we're not in class." -Sophomore **Justin Baylis**

"It stinks, because if my dog died and no one could get a hold of me through the office, my mom or dad could just call my cell phone and I would know right then."

-Sophomore **Tyler Thelen**

"It's a stupid rule. What if you had an emergency and you're not in class. I think you should be able to use them when you're not in class because you're not hurting anyone else."

-Junior Daniel Amerman

"I don't think we should have it because teachers are allowed to talk on them, but we can't. They want us to act like adults, but they can't treat us like adults?"

-Junior Lacy Lippert

"I really don't like it. I think we should be able to have them, just on silent or vibrate mode."

-Senior Lavoris Watkins

"I could take over the world if I wanted watching The Twilight Zone, which Kroll said is his favorite TV show. Photo by John Zdankiewicz

rock on free

by bethany hollern and jeremy overton

Imagine this: You're walking down the halls of Holt High School and you see a guy dressed in a psychedelic disco shirt looking like it's from the 1970's. Halloween? No, it's just a typical ensemble of Thomas Kroll.

Nicknamed "Hollywood," Thomas Kroll is one of the most unique guys at Holt High School. His motto is "Rock On! Live Free!" and he says it to people all of the time.

When they're asked to act out scenes in Spanish, Thomas doesn't just talk in monotone like the rest of the students in the class. Instead, he goes all out, acting out the scene with style and emphasis. Thomas also has a flute-like instrument which he uses to play songs on during Spanish.

"Thomas is quite an interesting fellow," sophomore Tyler Thelen said. It's not unusual to see Thomas sporting Hawaiian shirts, disco clothes, and horns on his head.

"Thomas Kroll is a cool guy. He's really smart and I think that people should get to know him," said sophomore Allison Vanderberg.

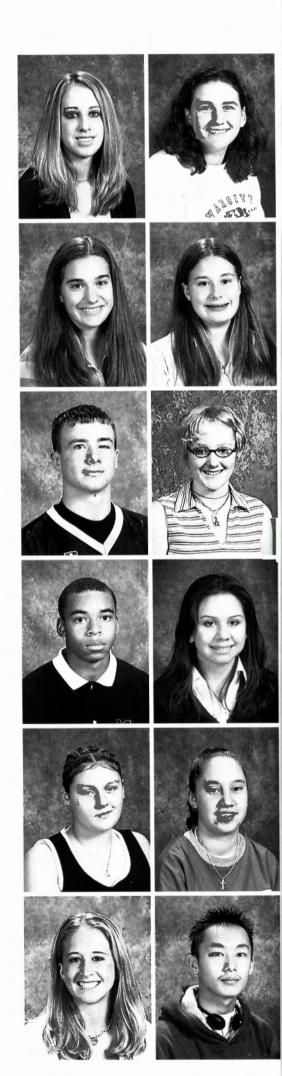

Everyone can agree on one thing about Thomas: he doesn't care about what other people think about him and he isn't afraid to be himself.

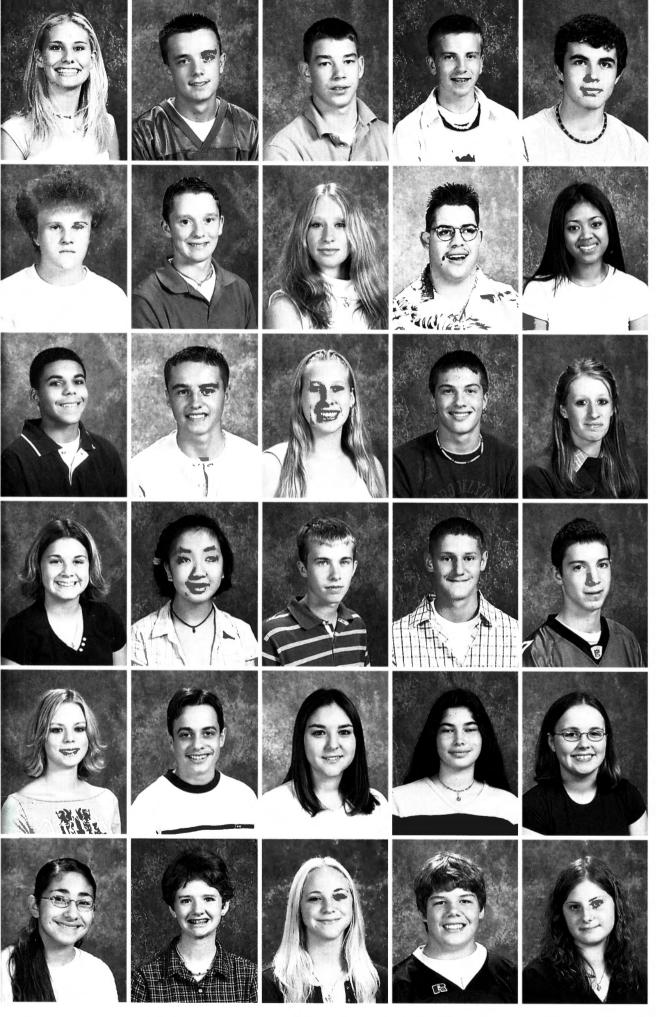

POSING IN FOREIGN FASHIONS, Thomas Kroll looks confused. "I'm wearing the shirt that my brother brought me back from Mexico. I wear it a lot," said Kroll. Photo by John Zdankiewicz

THOMAS KROLL WEARING HIS much-talked about disco shirt. "Tom's shirt is so cool," said sophomore Richelle Brown. You can tell by Kroll's shirt and pose that he's obviously not afraid to be unique. Photo by John 7dankiewicz

by ashley duffy

What teacher are you most like?

They are bossy, mean, and they give a lot of homework. They are the ones that make high school a challange. Who is it, you ask? Well, they're the teachers, of course!

But all of that is not really true; it's just the reputation they get.

No matter how scary it may seem, some students are a lot like their teachers and here are the ones who admit to it.

"I AM MOST LIKE MRS. CLARK because we have the same sense of humor and we're both beautiful," says. junior Annie Childs Photo by Ashley Duffy

"I AM MOST LIKE FRAU PETERS because we are friendly, we're dedicated to everything we do, and we are best friends," said junior Chris Smith Photo by Ashley Duffy

"I AM MOST LIKE MS. BARRETT because we have the same initials, and similar personalities," said junior **Broiske Bambusch** *Photo by Ashley Duffy*

"I AM MOST LIKE MR. KECKEISEN because we both say the same things when we get mad," said sophomore Eric Wills Photo by Ashley Duffy

Sarah Castor and Ms. Ahmad

Mrs. Russo and Alicia Kyte

Frau Tews and Annilise Chagnon

"EVERYONE TELLS ME THAT I ACT

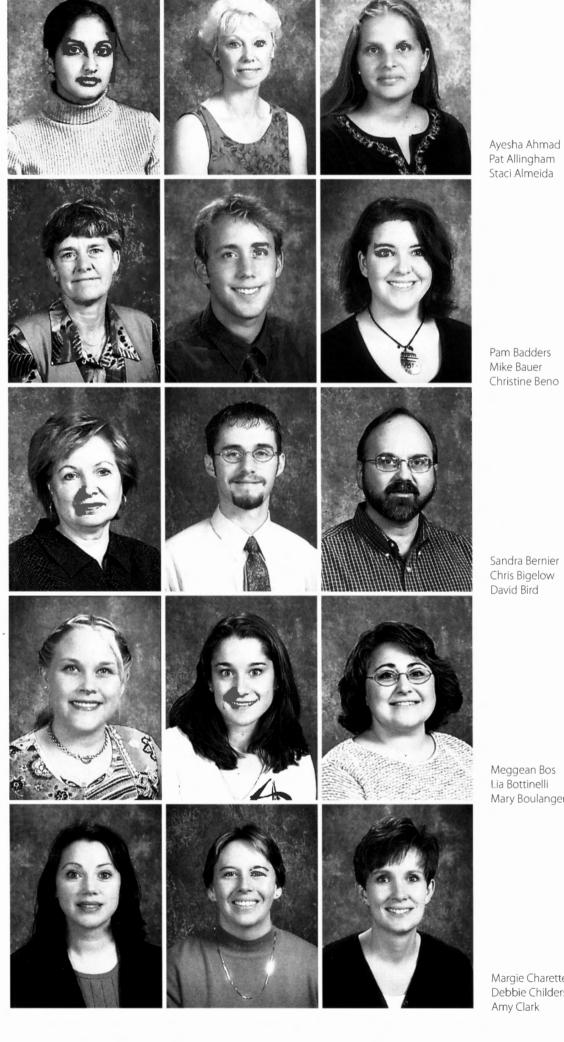

a lot like **Ms. Ahmad** because we both talk a lot, and we are very outgoing and happy. Another reason I think is because we are both extremely short and we have our noses pierced," said junior **Sarah Castor.** *Photo by Ashley Duffy*

"OUT OF ALL MY TEACHERS ITHINK

am a lot like **Mrs. Russo** becuase we act the same and we look a lot alike. Our styles of dress are similar, too. One day we were wearing the exact same shirt," said junior **Alicia Kyte** *Photo by Ashley Duffy*

"I AM MOST LIKE FRAU TEWS

because we have the same sense of style, and the same outlook on life," says junior **Annie Chagnon**. "We both maintain a positive and happy perspective on our daily and future endures," said **Tews** *Photo by Ashley Duffy*

and some things do...

We asked teachers what HAS changed since they went to Holt (obviously not Mr. Knetchel's maturity level). We also asked about what teachers were their favorite and why. Here are some of the responses...

CLASS LOUDMOUTH: Julie Gruhm, Dan Knetchel "There's a new school, we've got more money and more clientel. There were about 270 in my graduating class, now it's about 1/3 bigger. There's more college prep, because people are caring about their grades. Most of my teachers are gone, except Ernst, Lehman, Gillett, and Restau. The athletic department is better, we're more competitive, especially in basketball. When I graduated, we were the smallest in the CACs." danknetchel ('84)

"My favorite teacher was Mrs. Whithey because she made you work hard even when you didn't want to and, believe me, I didn't want to. She's the only teacher that wouldn't let me sleep in class." patwhitford ('85)

MOST MUSICAL: Tim Parry "When I came back from Portland, it still looked the same. Everything was kept up, just the teaching methods were different; like the Wednesday mornings. Now, it's more of a progressive school district. The student body has the same attitudes, the same level of wealth and such, but it's not as big of a city as I expected. timparry ('69)

MOST PREPPIE: Stephanie Fullerton "It's a new school there's more students and new developments. And we focus more on preparing students and career development." stephaniekingsley ('82)

"I got kicked off hall monitor because I had the ninth graders waiting on me hand and foot. And now, look what I am." terryroberts ('70)

"When I first came back, a lot of my teachers were still here. Now most of them are retired, except Mr. Gillett and Mr. Foy.' loribuwalda ('89)

after school. Sort of something to do, but now it's the career I want to go into," junior **Erin Siebert** said. Photo by Beth Keyes

"BEING A TRAINER IS NOT JUST ABOUT

the boys and the sports, It takes a lot of dedication on our part to be prepared for everything and anything," junior

Danielle Roberson said. Photo by Beth Keyes

by katie dillon

They're on the sidelines of every game, they take care of our beloved players, and yet no one really knows who they are and what they do. These are the athletic trainers at Holt Senior High.

There are eight trainers in all, including one freshman, four sophomores, two juniors and one senior. With responsibilities ranging from knowing how to stretch specific muscles, to being able to figure out what type of injury a player has, the trainers have been trusted with many important tasks.

Becoming a trainer simply entails approaching our Certified Athletic Trainer or ATC, Steve Pingston. All of the girls met Pingston through injuries they acquired, older siblings, or wanting to go into sports medicine after high school. After Pingston approves the people who apply, they shadow him for a few weeks until they get the hang of things for themselves. Once they feel comfortable on their own, they're on their own with Pingston there

for help if they need it.

Football, soccer, wrestling, hockey, basketball, and lacrosse are the sports that the trainers most frequently attend. With most injuries occurring in football, that is where they're most likely to notice the trainers.

"For those who think we only give out water, we don't; we do a lot more!" said sophomore Michelle Adams. The trainers are there at every game and every practice just in case something was to happen. They're trained to treat sprained ankles and cuts right on the spot and can even give an idea of what the injury is if it's not obvious.

"The best part of being a trainer is being right there on the sidelines with the team; you can't help but get into it," said junior Erin Siebert. Siebert became a trainer last year when she suffered an injury playing tennis.

So whether you know or appreciate any of the trainers, they're always on sidelines and they always will be.

"YOU HAVE TO BE IN the training room a lot and at the sports you do; you have to go to all the practices and games. It

takes a lot of your time," sophomore Amber Barr said. Photo by Beth

"WE SPEND A LOT OF TIME here helping the

athletes and we work really hard to make sure that there are as few injuries as possible, sophomore Danielle Kingsley said. Photo by

"THIS IS THE TYPE OF EXPERIENCE that

would be helpful to ao into the medical field someday. We make sure the equipment is taken care of and that stretches are done the right way." sophomore Michelle Bicego said. Photo by Beth Keves

The work they do is unmatched, thankless, labor-involved and dirty. They do it for nothing except a thank you. STEVEN PINGSTON

competion

by katie dillon

Placing in the top ten at State was a perfect end to an almost perfect season. Tying for ninth place is the best Holt has ever done in womens tennis.

Mia Theroux, a junior who has been on varsity for two years, made it to the semifinals. Her finish made this season the first time Holt has ever made it to the second day of State. "They were the best fans there," Mia Theroux said about her teammates and their loyal fans who traveled all the way to Midland to see the last match of the year. Even though she lost in the semifinals, it was a great experience that Theroux hopes to repeat next year.

Senior Jennie Hill, four year varsity player, is the only girl in Holt tennis history to go to State four years in a row.

The team plans to be back at State next year with a younger but improved team. Future seniors look forward to leading their team to an undefeated season, which was almost accomplished this year.

GULPING DOWN SOME WATER during her break, senior **Jennie Hill** takes a breather and relaxes for a few moments. Hill is a four-year member of the womens varsity tennis team. Hill has made it to State every year, which is a first for a single player at Holt. *Photo by Katie Dillon*

Over all this year was great: we had a great time, did really well and only had one major disappointment.

"We had a lot of team unity and definitely helped each other out this year," Crippen said. The team has gone through many struggles in past years, but this year accomplished many of their goals. "Everybody gets along a lot more and we work a lot harder," captain Chris Smith said. Courtesy Photo

DUSINESS.

by anslee stuber-powell

Do you have what it takes? "Skill, commitment, and hard work both on and off the field" are necessary, according to Jason Thomas, one of the team's captains.

Thomas had played soccer for eleven years before he started high school and struggled to make JV. "I was fat and out of shape," he said. As a sophomore, Jason started on JV and was nominated captain for the team. "I feel I waited too long to take it serious and get good," he said.

Jason was elected Most Improved on the varsity team, but did not start until half way through the season. "I worked the hardest in the off season between my junior and senior year. During the winter I trained almost everyday at Soccer Zone with top area players," said Thomas.

Did all Jason's dedication pay off in the long run?

Of course it did: Jason started and played every
game of his senior career. He was the team captain,
as well as being voted Honorable Mention All-City.

"No one ever became good by being lazy. You have
to train hard and play even harder," Thomas added.

WHAT IS HE DOING? This is the question most people ask when #7 Scott Ryan shows off his "signature move." Ryan is shown scoring a goal in the 6-1 win over Eastern. "The goalie was amazed by my moves," added Ryan. "We expected to win, but this game we wanted to have a blow out." Courtesy photo

by jessica keener

"We pray for each other, eat for strength, train for endurance, and try our best to win; that's what runners do," said junior Katie Flinton.

The womens cross country team had many goals in their season: "We were really in need of new team uniforms, but we didn't have enough money to buy them, so we had a can drive during a tornado watch just to get our new uniforms," said junior Tara Dell.

Another goal was to reach the state finals, although the team didn't make it, two members did: junior Rachel Fesseden and sophomore Missy Darling.

Darling's key to success has been helpful for the whole team.

"I prepare myself mentally, by knowing in my head what I have to and how I have to do it. Physically, I train all season, working hard at the beginning of the season and continuing to work hard all season," Darling said.

The season for the womens cross country team had several high points. The team finished second at the Greater Lansing Invitational. They also were third in the league invitational.

The team's number one strategy for winning is the placement of their top five runners: Fessenden, junior Rachel Porter, Darling, Dell, and junior Kate Brewer. "In order to win, our top five runners need to have better times than the opposing team's top five runners," said junior Talitha Taylor.

pushing PASTTHE PAIN

Laced up and ready to run, the mens cross country team made their way to the starting line. A shot rang out at the start of the race. Opponents were lost in a sea of brown and gold. The wind blew through their hair as their feet pounded the earth beneath them. Victory was within sight.

The season looked hopeful after a first place finish at the Jackson Northwestern Invitational. But soon the team's efforts fell short. Shin splints, sickness, and sprains started to affect their scores.

"Our season was plagued with injuries," said senior Chad Rogers, a top runner who suffered from a torn Achilles tendon. As Rogers explained, different shoes are required when running: "Regular shoes have no arch or heel support, they wouldn't last one mile in a three mile race. My shoes had too many miles on them and each time I took a step I hyper-extended my Achilles, so I taped it and stretched it and waited for it to heal by itself." He added, "I had to sit out three or four meets, and I missed half the season."

Senior Alex Cheney continued to run while suffering from shin splints. "I had to take it easy and not run real hard; I had to sit out during practice and I took Advil," Cheney said.

Senior Ben Watson, in his third year on the cross country team, fractured his ankle over summer during a "friendly game of football." He was required to wear a brace while running but ran without it after two weeks. "I wasn't able to do workouts when school started, so it affected my season."

"Kenny ran without his shirt on a lot," sophomore Andrew Sharrah said about junior Kenny Walker. As a result Walker was sick throughout the season. "He would always show up to practice with shorts and no shirt on," added senior Chris Dowling, who bruised his ribs when he ran into a fence.

Toward the end of the season, as injuries were healing up, the guys had to pull together as a team. "Running isn't fun but the camaraderie between the guys makes it fun," explained senior Alex Mishler. "We're all a pretty close pack, time-wise and friendship-wise," Rogers said, referring to the team's close scores at each meet. "We ran well together as a team and depended on each other," Dowling added. The friendship formed throughout the

season helped them to end it with a fourth place finish at CAACs and an eighth place finish at Regionals.

Although the runners had a lot of ups and downs, next year will give the new team a chance to improve themselves. "The top five runners are seniors, so underclassmen have to step it up next year," said senior Kyle Ghastin. As for this season, senior Nolan Jenkins summed it up: "We had a lot of potential, but we didn't reach our goals."

OVER SUMMER VACATION the

mens cross country team prepared for the upcoming season. Senior Chad Rogers attended MSU's Cross Country Camp. "When we're not running, we're running," he said about the experience. The team also met at Riverbend Park to do light running and to strengthen their legs. Rogers and teammate Alex Mishler stretch before a race at

A new court, a new team, new challenges. The womens varsity basketball team had to do a lot of hard work to achieve the high standards they had set for themselves with a new team. "We had to bring up our confidence before we could accomplish success. We knew we had the skills; we just had to trust in ourselves," said senior guard Whitney Arambula.

After graduating many key senior players last year and only having four seniors this year, they had to come together and work as a whole new team. They faced new challenges in the new league, as well. "We had to want to win, instead of needing to win and that helped bring us all together," said junior forward Annie Childs. The varsity team also included new freshmen who really helped in the success, including Casey Cryderman and Chloe Hamilton. "They were so good," said junior guard Natalie Monette, "I can't wait to see how good they are going to be."

The seniors this year are sad to see the season end, but are still happy that they got one last year to play. For many this year brought on new oppurtunites, such as Kalie and Jenna Hayes who got this year to play together. "It was so fun playing with my little sister Jenna. It made me play so much harder knowing that I've got the other one out there with me watching my back," said senior forward Kalie Hayes. The seniors also felt very lucky that they got the chance to play on the new courts. "Our courts were so amazing; it was really exciting to have one of the nicest courts in the league," said junior guard Julie Davis.

precision

by ben berry

"Whoosh!" Senior Kenny Watson hits a perfect drive off the ninth tee. This kind of skill doesn't come aturally. Every day after school, in rain or shine, the golf team is out practicing. There is no downtime when comes to golf because, though the season ends in late fall, the practicing never ends. "In the summer, I play olf at least five times a week," said sophomore Ryan Taylor.

Junior Brandon Boatman agreed, "I play golf almost every day in the summer because if I don't practice, nen I won't get any better."

Also, many golfers take lessons from golf pro Rick Courterior once a week in the summer to improve their kills. "The lessons really help a lot," said junior Kenny Cox, "Rick is a great teacher and I get better with every esson."

At the beginning of the season, members of the golf team were worried that they wouldn't do well because new lost the seniors from last year. But everyone on the golf team worked extra hard and ended up doing wretty well. "I think we did better than expected this year because we lost some really good seniors, like Chris ichards and Corey Danford," said junior Brice Dawson.

Coach Bill Dowell keeps track of all of the player's average scores every time they play. Juniors and seniors have to remain in the top twelve in order to play in matches, so that motivates the players to practice hard and improve their play, requiring them to practice as much as they do.

Throughout the season, the golf team faced some troubles, including bad weather, loss of seniors nd trying to stay high in the rankings. But they just kept on playing their best. The golf team ended up raking nird in regionals, beating teams like East Lansing, Grand Ledge, and Everett.

BRICE DAWSON cleans the face of his Odyssey "White Hot" putter. A good putting game is essential to a low golf score. When you are golfing, you probably do not-realize how much putting affects your score. If you only take two putts a hole instead of three, you can bring your score down from a 48 to a 39. *Photo by Ben Berry*

KENNY COX smashes a four iron off the tee. The ball lands and rolls to travel more than 200 yards straight down the fairway. An excellent shot. "I like hitting my irons off the tee sometimes because half the time it ends up better than my driver. Not as far but in the middle of the fairway," said Cox. *Photo by Ben Berry*

Before school even started in the fall, the womens swimming and diving team had been hard at work all spring and summer.

"Most of our team swims year round, and that's what pays off in the end," said sophomore Lindsay Howley.

So when their season arrived, these girls meant business. "Our team has won the past eleven CAAC championships. That's a lot to live up to," said junior Rachel Abbott.

The girls would need to put in a lot if extra work if they wanted to beat the ninth ranked team in the state, Okemos, who was now in their new conference. "I thought it would be really tough to beat Okemos when I first heard they were going to be in our

conference, but I thought we could beat them," said senior Amanda Kegler. The team ended up second in the CAAC championships next to Okemos, but they beat all the former CAC teams.

Winning isn't everything though.

During the season, the swimming and diving team spent lots of time together.

Fundraisers, sleep overs, and going out to dinner after meets are just some of the reasons this team stays so close.

CONCENTRATING for her big dive, senior **Erica Pfeiffer** performs her back and one half pike. This was Pfeiffer's last year of diving in high school, but she plans to dive in college. She placed first in CAACs and seventeenth in the State meet. "Diving is really a mental sport", says Pfeiffer, "It takes concentration and finesse." *Photo by Katie Lash*

TAKING A BREAK from warm up, the team does the water cheer after diving. "Each of us gets a lot of support," said **Kris Wheaton**, "whether we do well or we don't." *Photo by Katie Lash*

obstacles

by sarah moule and raquel Ilinas

You've all heard the story of Winnie the Pooh and Friends. This season the football team came bounding onto the field with high hopes and energy much like Tigger, the bouncy, energetic tiger.

After losing key players, quarterback Mikhail Eisler and running back Ryan Doss, both juniors, you'd expect the team to go from up beat to dejected. "I told the boys I wouldn't tolerate any Eeyore attitudes," said Coach Mike Smith.

Losing 14-7 to Everett was one of the lowest points of the season. "We knew that we could beat Everett, but we were over confident. We didn't expect the team to come out on fire," junior Andy Clark said about the loss.

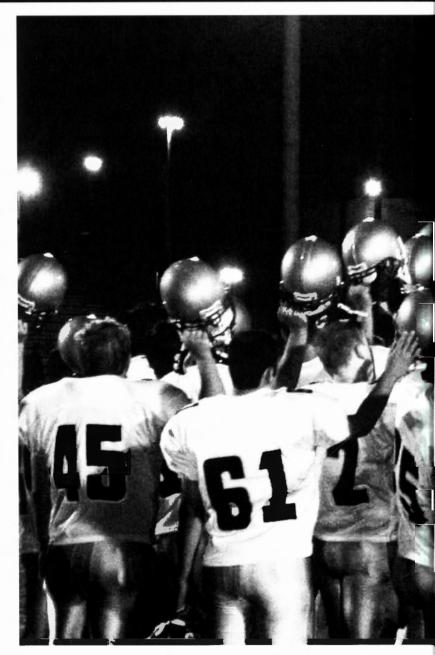

Jackson was what turned the season around. "It was like something out of the movies. In order to make it to playoffs we had to win four straight games," senior Nick Kyriakopoulos said.

The Rams were victorious in three of the four games, but a chance in the playoffs ended with a 27-7 loss against Grand Ledge.

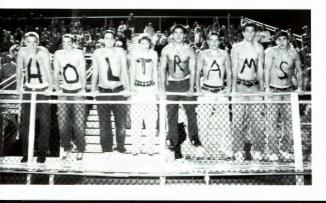

TAKING A BREAK, junior quarterback Mikhail Eisler views the field as the defensive line battles it out. After an explosive start against Charlotte, Eisler's dynamite play came to an end with an injury at the Detriot Depoires game. "It was hard to watch from the sidelines," Eisler said about the disappointment. Photo by Nathan Parsons

TEAM UNITY was what held the Rams together this season. "We have been playing together for as long as I can remember. Not playing with them anymore will be like losing a family memeber." said **Nick Kyriakopoulos**. Instead of letting obstacles tackle their season, they decided to step up and take things into their own hands. *Photo by Nathan Parsons*

ROOTY CAN DO THE CHEERS, TOO. Cheerleader Keegan Long and her teammates lift Rooty the Ram up to show him to the crowd. They didn't do this every game but said it was fun to do because the crowd liked it. "Rooty helped make football games fun," said senior Mandy Wall. Photo by Nathan Parsons

The football team scores a touchdown. The crowd screams. Emotions are running high. The cheerleaders are now pumped up and ready to go for half time. Before the game they drank their Red Bull energy drinks and did all their push-ups and other exercises with Rooty the Ram to get ready.

This is the routine for every game. They work hard during the day with practice and warm-ups. Then the game starts. With each touchdown, the team does the pushups for the crowd and they get more excited to cheer on the team and the crowd.

This season was a success for the cheerleaders. "It could have gone better, but we did really well with having so many new members versus how many we lost," said senior Becca Robins. The team went to CAACs and placed second out of all the teams.

Most of the members will return for next year and many are excited and hopeful to succeed in another season.

seniors

SENIORS POSE FOR THEIR LAST

CAMP PICTURE. "This year, camp was very different. We went to a different place and we lost a coach. We had a lot of ups and downs, but I think everyone really had fun." said senior Brooke Tice. Courtesy Photo

"IT'S A BLAST TO BE AROUND the JV and freshmen teams. They get so excited to be in the Homecoming parade and they pump up the varsity team to cheer harder and louder, both during the parade and at the game that night," said senior Mandy Wall. Photo by John Zdankiewicz

PUMPING UP THE CROWD AFTER HOLT SCORES A TOUCHDOWN are seniors Heather Ott and Rachel Dowell, along with the rest of the squad. The team did push-ups every time the team scored a touchdown. They would do as many as there were points on the scoreboard, so the more touchdowns the team made, the more exercise the cheerleaders had to do. Photo by Craig Steward

AFTER A FOUL SHOT, senior Kyle Waters battles for the rebound against Eastern. Holt ended up gaining a victory over Eastern. The final score was 66-58. Photo by Nathan Parsons

The season started off a little rough, but the team stuck together and showed off their confidence. "I feel that we've had a pretty good season, we've suprised many people" said junior co-captain Andy Clark, who was named an All-CAAC player.

The win against Grand Ledge (43-42) was a high point to the players, and having the students rush out on the court made the team feel good and more confident; it got them pumped and ready to move on.

"When we walk into the opposing team's gym, they know it's going to be a long night, same as to when they come in our house, we protect our house with everything," said co-captain Kyle Waters.

"The season is going very well: our record this year is a lot better then our record last year, I get along with my teammates, and we work together" said

junior John Roche.

JUNIOR TY MOTLEY WON a predictable point against East Lansing. He was the team's leading free throw shooter. The final score of the game was 67-60. Photo by Nathan Parsons

MOVING TO THE MUSIC,

the dance team performs in front of the entire Holt High School student body at the Homecoming pep rally. The cold weather didn't dampen the mood as they warmed things up. Photo by John Zdankiewicz

WE LOVE THE WAY

they move...

SPINNING WITH RELATIVE EASE, junior **Kaitlyn Sherer**performs even with with her hair

in her face. This performance was done in front of the home crowd at a boys varsity home basketball game.

Photo by Nathan Parsons

by nathan parsons

Prep-chasse-step-leap-chasse-chasse-axel.
Confused yet?

That was just the beginning of a routine by the dance team. Since the summer of 2003, the dance team has been perfecting their performances to win competitions and entertain spectators during the mens home basketball game halftime.

"Getting ready for competitions was frustrating and annoying," said sophomore Anna Keeler, "Everything had to be so perfect."

But the practice paid off: captain Kristin Spencer said, "We really matured after the first competition. The new girls realized what the dance team is all about. We really clicked after that."

The dance team performed at three competitions this past season, the Mid-American Competition at Eastern Michigan University, the Palace Invitational at the Palace of Auburn Hills, and the Sparta Competition at Sparta High School.

With these competitions, the dance team showed their talent by finishing respectably in each. With so much effort put forth to get the job done, the team achieved success in competitions and in friendship.

THE **SCORES**

DURING THE GUY-GIRL DANCE, seniors Nick Kyriakopoulos and Danielle Abood follow the rythym of the music. The dance routine is a favorite of many students and parents

alike. Photo by Nathan Parsons

PRACTICE MAKES PERFECT! Every Wednesday morning, you could find the dance team practicing their routines for the Friday home game performances. When this routine was presented on senior night, it was flawless. Photo by Nathan Parsons

HAIR SWINGING AND SMILES SHINING are sophomores Jacqueline Rendon and Dana Wright. Rendon and Wright have been members of the Pom squad since it started, their Freshman year. The girls have stuck with it and always have fun. Photo by Heather Ungerman

and **Dana Wright**.
"Everyone worked really hard this season and everyone did awsome. Overall we were a big family," said sophomore Rendon. *Photo by Heather Ungerman*

A COLD NIGHT IN NOVEMBER is not the time to lie on the ground wearing a skirt, but the Pom squad does it with a smile. "The grass was so wet during football season. It was hard to do turns and not fall. It was really gross but we liked it," sophomore Jacqueline Rendon said. Sophomore Amber Heyman also added, "There was one routine where we sat on the ground and got up and were like 'Oh crap!' but we did it anyway." Photo by Heather Ungerman

shake it LIKE A POLAROID PICTURE

by heather ungerman

When coach Tammy Bozzo looked out at the sea of faces for football seasons tryouts she was very pleased and knew the pom squad was starting to get recognition. "Starting out the season was a lot of fun. We had the best turn out for tryouts than we have ever had. It was really exciting," said sophomore Jacqueline Rendon.

During basketball season, the coaches arranged for the Michigan State dance team to come teach a routine. All the girls were very happy but knew they would have to work hard to get the routine right. "Preparing to perform the dance the MSU dance team taught us was very hard and stressful, but we all worked hard on it and pulled it off. After leaving the floor, with Missy Elliot still playing in the background, you could tell the whole team was happy," sophomore Amber Heyman said. "I was very happy and proud of myself that I didn't mess up," sophomore Dana Wright added.

How has the squad changed since it started for football season of 2002? Dana Wright has been on the team since then: "Poms has hardly changed since the 2002 football season. I think it is a little bit more organized though. I just love dancing and I love the coaches."

Trying to stay on task and practice the dance over and over is so hard because we all like to talk and mess around.

KRISTIN SPENCER

No matter what, we performed at the games because that's what we were on poms to do.

AMBER HEYMAN

CELEBRATING AFTER THEIR WIN

ming and diving team jumped into the pool. Every year the coaches and supporting girls swimming and diving team jump in with their clothes on. Althought they won the CAAC meet Jackson went home with the trophy for winning the most meets during the season. Photo by Kacie Dittenber

BREAKING THE face

SEARCHING FOR HIS TIME on the score board after competing in a race is senior Chris Meier. Meier swam great in the 50 Free and 200 Fly. Photo by Kacie Dittenber

"The worst place to shave would have to either be around the ankles or on your stomach. It's really easy to cut yourself and if you do it bleeds so bad," said sophomore Adam Lucas.

This doesn't exactly sound like something every teenage boy would do for no particular reason. But the swimmers do it once every year: the day before CAACs.

But that doesn't mean that they don't get to have enjoy the hair they have for a while. The week of CAACs they dye their hair an assorted rainbow of colors and odd hair cuts like mullets.

"It was hard to take them seriously at at first because their hair looked like clown wigs. But it seemed to be a fun thing the team could do together," said science teacher Lori Buwalda.

Fortunately for the divers, they don't have to shave at all. This year there were only two returning divers: sophomores Drew Webber and Gavin Mishler, and one new diver: senior Chris Sweeney. When the season began, things didn't look good.

"It was rough we weren't expected to do as good because we were missing some key divers that had graduated the year before. But in the end we kicked it up," said Mishler.

ENJOYING THE FEELING of having made it into the state cut for the 200 free relay are seniors David Wheeler and Bryan Johnson, junior Brad Voss, and sophomore Kirk Gibbs. Photo by Kacie Dittenber

EXHAUSTED BUT THRILLED, senior William Rodgers-Snoddgrass steps up to the starting block to be recognized for getting first place in the 200 individual medley with a time of 202.99. Rodgers also came first in the 100 butterfly with a time of 54.9. Photo by Kacie Dittenber

ivers

WAITING THEIR TURN to dive are ophomores Drew Webber and Gavin Mishler and senior Chris Sweeney. At meets the divers get the chance to show their stuff either after the swimmers or in the middle of the races. Taking home first place for diving was Mishler. Photo by Kacie Dittenber

WARMING UP at practice is senior Chris Sweeney. Unlike the swimers, the divina team doesn't have morning practices; but that doesnt mean that they don't work hard. The diving team always manages to do well at meets. Photo by Kacie Dittenber

by eve ayala

While other things with the new school were new, so was the season for gymnastics this year. Although they didn't get to have everything in the high school, they did get a new location. In the past years they practiced upstairs in the Jr. High, and for home meets, they would have to tear down and set everything up in the gym. This year, they got a new floor, and everything was put into the auxiliary gym at the Jr. High. They had a lot more room and most of it was better but "it was very cold," said sophomore Justine Kozlina.

Senior Amanda Dykhuis has been with the team since 8th grade, and this year she decided to make a bar routine. "My bar routine was hilarious, it was so great," Dykhuis said. After having the same floor routine for 2 years, junior Gracie Hilliard decided she wanted yet another thing new and changed that as well.

season

COMPLETING ONE OF THE HARD-EST SKILLS on the bars, a giant is sophomore Sami Byer. She is the only member of the team to perform this skill in her bar routine. Photo by Eve Ayala

CATCHING A BREATH in the middle of a beam routine, junior Gracie Hilliard poses for the audience. While having a beam routine full of jumps, twists, and flips Hilliard also includes moments where she is able to take a break while looking wonderful on the beam. Hilliard was an All-CAAC selection for the beam and honorable mention for all-around and bars. Photo by Eve Ayala

we don't rebuild, we reload

FOR THE PAST TWENTY-FOUR YEARS and counting, Rocky Shaft has coached Holt's wrestlers. Before becoming the head coach, Shaft was an assistant coach in Jackson for one year and then transfered to Holt for two years as an assistant coach. "There is so much positive in this sport, yet only those who have participated appreciate all you do to be successful in wrestling," Coach Shaft said. Photo by Craig Steward

There's a lot more to wrestling than most people think. Of course everybody who has watched their practices knows about the unbelievable conditioning wrestlers put themselves through. But, do they know about the state-required nutrition meetings and body analysis? Many people assume that wrestlers just don't eat or barely eat to cut weight.

As Coach Rocky Shaft would say, "only the stupid starve." Shaft believes everyone across the nation is complaining about obesity and out-of-condition youth and he's exactly right about that. Wrestling is a sport that is not only about competition, strength and having fun. It is also about learning the right nutrition.

Throughout the year, there is an outstanding booster organization for the reinforcement of proper nutrition. During a wrestling season, there are many steps to cutting weight. Eating fruit after practice and a proper diet provided at team state tournaments are just a few ways wrestlers keep themselves at a healthy, competitive weight.

USING HER ARM MUSCLES AGAINST Waverly, Senior Ali Hull gets around the blocker and hits the ball over to Waverly. "The only bad thing about having my mom as a coach is that I can't go home and complain about her," Hull said. Hull also said " I think we all played our best against Okemos; they just proved to be the better team." Photo by Nathan Parsons

FRIENDSHIP AND TALENT HELPED THIS YEAR'S VARSITY VOLLEYBALL TEAM

volleyball

TAKING A QUICK TIME OUT

during their tournament, the team discusses how their going to keep playing the way they know how. "I was really looking forward for the season when I found out I made the team. I knew we had a lot of talent and I was glad I got to play with some of the girls I played with last year," Sophomore **Franny DeJongh** stated. photo by Nathan Parsons

"000000000" WAS THE

blocking cheer this year for the team, and they had no problem yelling it after Juniors Erika Neumann and Erica Albrecht jump up at just the right time to do a double block. "Being friends really helped us this year because if you don't get along then you won't play well together. I think the reason we did so good is because we knew how everyone played so we knew what to do and what not to do on court," Albrecht said. Photo by Nathan Parsons

play their game

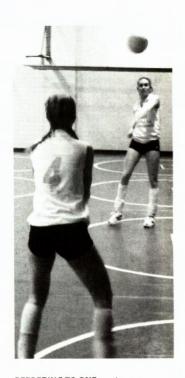

by sara bullion and nathan parsons

Do karaoke and volleyball have anything in common?

They don't unless you were on the varsity volleyball team this past season.

"We sang karaoke at Teddy Priebe's house before a couple volleyball games," said junior Courtney Grafuis. The team of two seniors, seven juniors and one sophomore became extremely close due to these types of gatherings. These miniature "Nights at the Karaoke Bar" showed just how close the team was. The girls' unity allowed them to have one of the best seasons throughout Holt's volleyball history. "Being friends really helped because if you don't get along you won't play well together," said junior Erica Albrecht. "This was my Mom's first year as coach of the Holt Varsity team." says senior player, Ali Hull, also the daughter of Coach Debbie Hull. "She used to coach a varsity team down in New Albany, Ohio. They were able to make it to the state's finals which is really cool."

As the new coach of the varsity team, Coach Hull led the group of girls to a second place finish in the CAAC season and a second place tournament finish. They completed their season only behind Okemos, one of the two teams which had been able to beat Holt during the past season games. The team had a season record of 18 and 5, making it to the conference finals in the tournament. They won numerous trophies from tournaments and invitationals which will only feed the teams hunger for next season. With 8 of 10 players returning next year, this team will be ready to take it all.

PEPPERING TO ONE another as they warm up for their tournament, sophomore Franny DeJongh and junior Courtney Grafuis get their fun but serious faces on. Grafuis says their coach this year "brought serious and fun together. Once our team realized how much talent we had, we realized that we could win more." Photo by Nathan Parsons

in check

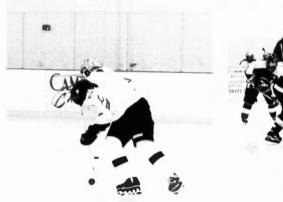

by sarah moule

These things are not the first things you notice when you walk into a Holt hockey game. What you will see are several girls supporting their team covered only in tiny tank tops and goosebumps. Despite some of the bumps in the road, there is no doubt that the fans were behind their team one hundred and ten percent.

"We had a disappointing year that was filled with injuries and internal conflicts," said senior captain Billy Kingsley. For example, in a freak accident, senior Josh Major ran over twin brother John Major's finger, slicing a few of the tendons. Too many of the players, the highlight of the rough season was when they beat Jackson. Senior goalie Josh Endsley said, "We actually came together as a team in that game."

ANXIOUSLY AWAITING the puck, captain Billy Kingsley

prepares to keep the game moving. As team captain and a senior, Kingsley played a huge leadership role for the team. According to Kingsley, "Even though this year was somewhat disappointing for the large number of seniors, the underclassman are really beginning to click, and they will be a force to reckon with, in the next couple of years." Courtesy photo

IN THEIR SPARE

by stephanie gibbs and bethany hollern

Strategy.

A careful plan or method.

Ball in the ready position,

Feet on the marks,

Start stepping.

See the pins,

Line up the arrows,

Set an angle,

Start to slow down,

Pull the ball backwards,

Push it forwards,

Turn the wrist,

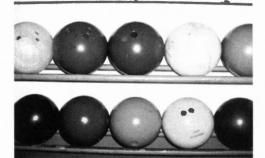

Check the arrows once more,

Release.

This year the bowling team became a varsity sport and the bowlers have worked very hard. Being a good bowler doesn't come naturally, as junior Michaela Bond knows. "To become a better bowler, my mom took me bowling and told me to find one way to bowl. I practiced consistantly and a lot on my own time. It was a lot of fun and I encourage people to try out next year," Bond said.

SENIORS SAMANTHA TOROK

and Kelsey Ketcik talking at one of their matches. Ketcik was first at CAHSBC this year. Courtesy photo

FRESHMAN CHAD FOX

BOWLS at one of their matches. This is Fox's first year on the team, but he's bowled for a long time. He even has his name up on Mason Lanes for having a really high series. Courtesy photo

MASON LANES IS WHERE THE

bowling teams practice at. The team's coach is Craig Huhn. Courtesy photo

SOME OF THE BALLS THAT

THE players practice with at Mason Lanes. "Bowling is bowling. We've been together for so long that we've grown together as a team," senior Liza Lindeman said. Lindeman was first for CAHSBC's along with senior Kelsey Ketcik. Courtesy photo

JUNIOR KATIE GOLDEN shows her horse Charlie to judges at the Mason meet. She has had Charlie for two years. "Showmanship is my favorite event because there are so many details and if you work them all out you can do really well," said Golden. "And I like competing with Charlie because he's the cutests," she added. Courtesy Photo

BACK IN THE SACK I

Most people only see horses at parades or the county fair, for the members of the equestrian team it's part of their daily life. "I have to feed them every morning before going to school. After school their stalls and buckets need cleaning. They also have to be let in at night to eat again, this is on top of providing them with attention and training," said sophomore Jessica Seguin. "We also have to schedule the dentist, farrier

Kaitlyn Sherer.

These girls have taken on the extra responsibility to compete in something they love. They compete in level 4-H shows, as well as equestrian team meets. They compete in events such as Dressage, Western, Hunters, and Gymkahna events as well as flag and barrel racing.

and chiropractor regularly," said junior

After high school these girls would like to continue with the sport they

love. "I would like to be on a college equestrian or rodeo team and continue to barrel race. I hope to be able to have horses when I'm older," said Sherer. "I will hopefully be able to continue competing once out of high school but if not I would surely continue riding for pleasure," added Sequin.

These girls ride in Holt's parade every year and they have meets every September at the Ingham County Fairgrounds.

COMPETING IN TRAIL is junior Kaitlyn Sherer with her horse Revie, but Sherer's favorite event is barrel racing. "I ride Stormy, my cousins horse; she is a Quarter Horse that I barrel race. I have also ridden Revie my 24-year-old Arabian for six years in 4-H shows and barrel races," said Sherer. Courtesy Photo

"I HAVE SHOWN IN 4-H since I was seven," said sophomore

Jessica Seguin. Here, she is competing in Hunt Seat with Conn, a 23 year old Lippizanner-Quarter Horse cross. "In Hunt Seat you ride around in three different gaits and have your riding critiqued," said Seguin. Courtesy Photo

SOPHOMORE JESSICA

SEGUIN'S favorite event is Dressage, although it is not offered at equestrian team meets. Here she competes in Gymkahna with Conn. "My horse lke is an eight year old Standardbred but he wasn't ready for competition so I rode Conn instead," said Sequin. Courtesy Photo

JUNIOR KAITLYN SHERER has been riding horses since she was eight years old. "My family four horses, two of them are mine. We are also keeping two of my cousin's horses right now. We keep them at my house." Here, she competes in a pole race. Courtesy Photo

coping with hole new WORLD

by ashley duffy and bethany hollern

Holt High School used to be in the center of everything, bringing students to the businesses nearby. But do students still go into town even though the high school has rnoved?

"It is an inconvenience to drive all the way into Holt when it is not on the way so
I don't really go in to town that much," said junior Jessica Merriott. Although some
people don't find a need to travel into town, some people still need to get their fix of a
silurpee, such as sophomore Lindsey Konzman who said that she "occasionally goes into
town to eat ice cream and drink slurpees." Sophomore Allison Vanderberg agreed: "I
always go to 7-11 to get cherry slurpees after cheerleading practice. They're so good."

Not only do people go to 7-11, but also they visit the one of the newest additions

to our community: Van Java Café. Many local bands play there, including teacher Craig Huhn's and sophomore Brandon Baxter's, but an employee of Van Java, junior Dani Dimmitt said, "The business would be so much better if we still were going to the old high school because so many students would stop there just like everyone who used to eat at Little Caesars."

But the new location of the high school did not diminish the support by the community for the lighting of the Christmas tree. Many people came to the library to see the lighting, listen to the choir and band, and watch the Girl Scouts who led everyone

THE SIGN SWINGS FROM OUTSIDE
Van Java Café in downtown Holt. The café is one of the newest businesses in Holt and is known for having musical entertainment. They have open mic nights every Tuesday and Thursday, and also have bands play on the weekends. "I like working there because I get to listen to the bands," said senior

Jamie Morrow. Photo by Ashley Duffy

in the Pledge of Allegiance. This is one thing that the community does during the year together, so a lot of people wanted to be a part of it. "I froze my socks off, but it was so cool to see everybody that showed up," said junior Sarah Benson.

While the location of the new high school has affected some of the businesses, it hasn't changed the most important thing; how people feel toward our community.

EVERYONE GATHERED AROUND

in the library to get away from the cold during the tree lighting ceremony. People of all ages came to the Township Hall. The spirits were high for the holiday season this year and everyone had a great time. Photo by Bethany Hollern

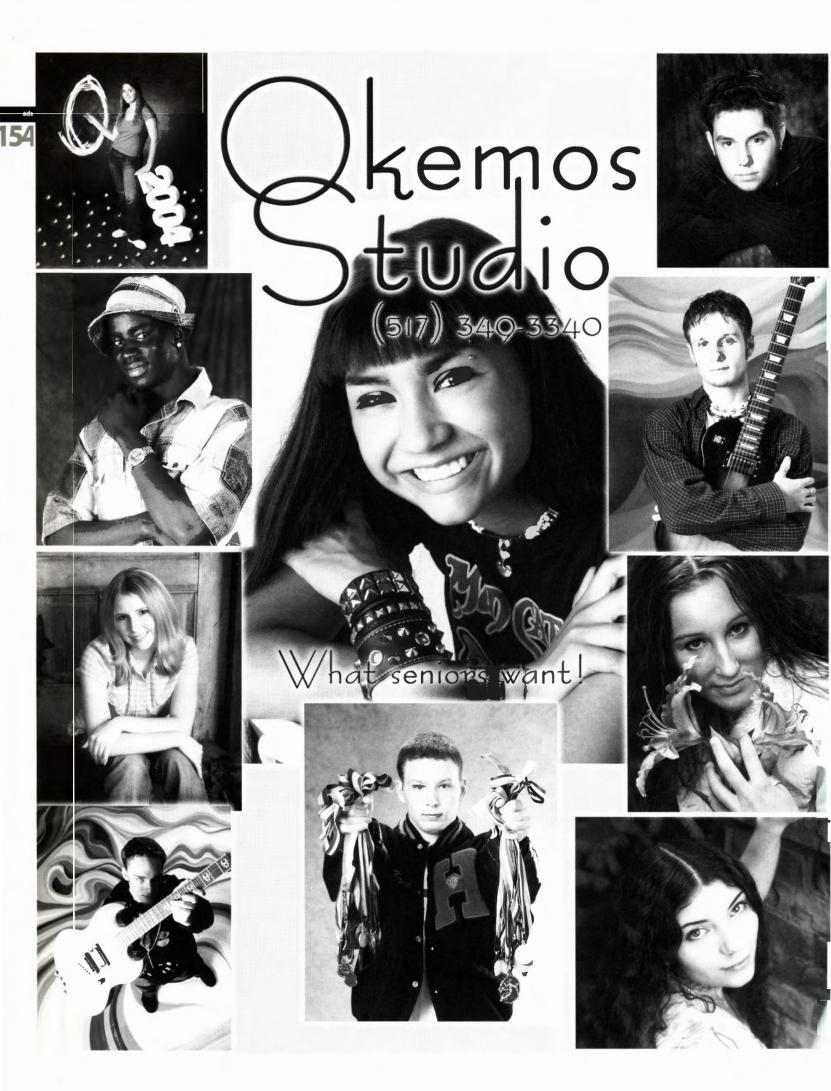

THE CLOCK SITS AT THE HOLT

and Cedar St. intersection. It was built in 1995 along with the surrounding stores. The idea for the building was to help improve and expand the community. Some of the businesses at the plaza include Neumann Law, Fantastic Sam's, Cottage Inn and Cozy Cup. Photo by Ashley Duffy

SANTA AND MRS. CLAUSE entertain the crowd while Holt's choir exits the stands after their performance at the tree lighting. "Everyone seemed happy and full of holiday spirit. I love Santa!" said junior **Sarah Castor**. *Photo by Bethany Hollern*

The Meaning of Success:

"To **laugh** often and much; to win the respect of intelligent people and the **affection** of children; to earn the appreciation of honest critics and endure the betrayal of false friends; to appreciate **beauty**, to find the best in others; to leave the world a little better, whether by a **healthy** child, a garden patch or a **redeemed** social condition; to know one's life has breathed easier

This is the meaning of success.

more choices bring more diversity to school

school of choice students exercise their right to choose and choose Holt Senior High

by heather piper and jesica craft-quenby

As the community grows more and more people become interested in what it would be like to live in or go to school in Holt. With the addition to the hundreds of students who already attended Holt Public Schools 23 new school of choice students have chosen to be a part of the new High School

Secretary Becky Swanson believes that school of choice students add to the school over all. "It's a growing district so we get more students, which in return we get more money for."

Judy Woolston, administrator in charge of attendance agrees. "Having school of choice students enhances our students population. The school brings more kids from different backgrounds who have different interests, which helps with our diversity, that's always a positive for us. I think we definately have a great group of school of choice students this year."

rampages

What encouraged you to become one of us?

"I LIKED GETTING yelled at last year by all the hot seniors for not getting the job done. I came back again this year to prove that I could finish my pages on time and be a good staff member," said junior Ben Berry. Photo by Katie Ross

"THE REASON I wanted to be in yearbook was to get my picture in it more often, but come to find out when you're on the staff you can't be," said senior Sarah Moule. Photo by Katie Ross

AT A LUNCHEON DURING an annual MIPA conference, yearbook and journalism students gather around the table together at the Nuthouse on Michigan Avenue across from the Lansing Center where the conference was held. From left: seniors Katle Dillon, Whitney

Arambula, juniors Jessica Keener and Ben Berry, seniors Lindsey Beemer, Bethany Keyes, Ashley Hunt, Katie Ross, and Eve Ayala. Photo by John Zdankiewicz

SOMETIMES DURING YEARBOOK

class, or even on a late afternoon, you just have to be in a good mood to continue on through very frustrating moments. Adviser **Christine Beno** waves a big hello in between answering challenging questions and fixing major problems. *Photo by Katie Ross*

SENIORS EVE AYALA, ASHLEY HUNT, and Beth Keyes wait patiently for the next MIPA session to begin. Each class was roughly forty-five minutes long. Every year MIPA provides a variety of different sessions that students can choose to attend. Photo by Katie Ross

SOPHOMORES KACIE DITTENBER

and **Heather Ungerman** get used to the many attachments that come along with being new yearbook members. To begin, they search the computer for interesting layouts. *Photo by Katie Ross*

SENIOR KATIE ROSS, the only third year advanced yearbook staff member, plans out one of her final pages for the last time. Ross has spent many saturdays attending to yearbook needs and plans on visiting in the future just to check up on the new members. *Photo by Dani Dimmitt*

ove notes

Katie,

KATIE

You have experienced so much - and grown - you're awesome! Keep up the patience and perserverance.

Remember to write from college.

We love you!

Finish

by Dani Dimmitt

Each school year has many different "finishes."

After one sports season ends, a new one begins.

A new semester ends, a new one begins. The end of a school year is not an end, but a continuation.

For underclassmen, it's a break and then another year of school.

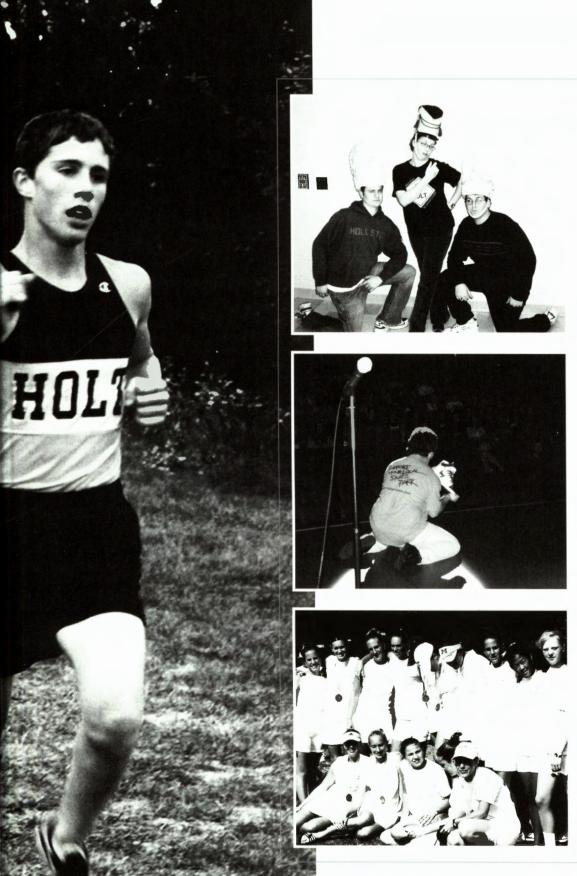

But seniors embark on a new journey: real life.

For many this is college, and for others it is their career. "I plan on attending an in-state college because it's a lot cheaper and close to home," said senior Kenny Fellows.

Regardless of expectations, students still have plans for the summer. "I plan on working again this summer to save money for college and I plan on going to my camp," said junior Jessica Merriott.

With success and some disappointment, the first year at the new school has come to a close.

AT THE FINISH OF THE SEMESTER

the band students clean out the back of the stage for the start of a new semester. Seniors Jason Briggs, Ryan Collins and Samantha Torok goof around while cleaning. "Every year we have to clean out the stage area, obviously we have fun," said Collins. Photo by John Zdankiewicz

FINISHING HIS BATTLE OF THE BANDS ROUTINE is senior Nick Noble. "By screaming, Nick Noble was representing 3.0," said senior Jamie Morrow who is also a member of 3.0. Photo by John Zdankiewicz

THE VARSITY WOMEN'S TENNIS

season finished successfully. Junior **Mia Theroux** made it to the second day of states, the best Holt has ever done. "It was the best way to finish," said Theroux. "It was a really fun season, we were so successful." *Photo by Katie Dillon*

THE CROSS COUNTRY TEAM EXPERIENCED MANY BUMPS in

the road that led to a finish that wasn't expected. Senior **Alan Fobbe** was one of the few people to not get injured during this rocky season. "We were hoping for a much better year than we had. We started out really strong; it's too bad we couldn't have done better," said Fobbe. *Photo by Ashley Hunt*

What lies
behind us
and what lies
before us
are small matters
compared to what lies
within us.

-Ralph Waldo Emerson
2004 Senior Class Motto
