*Changing  
Dimensions*

During the beginning of the 88-89 school year, things went quite slowly because of the 3 week teacher strike. But now that the year is almost done it seems like everything just flew by. (Except the yearbook) I must say thank you to Mr. Richardson for being the yearbook adviser, because if it were not for him there would be no Yearbook and thank Shane Fullerton for all the help he has given in putting together the pictures needed for our memorial book.

Our Varsity Basketball players did a great job this year. They won the ICL and could have won the districts, but lost by only a few points.

The wrestling team won the league meet and took second overall in the league while the volleyball team tied for the regular season championship. They ended up with 4th place.

The top movie this year was Rainman with two excellent actors Dustin Hoffman and Tom Cruise, personally, my favorite. Now for the top songs of today, the date being 6/9/89.

The top ten albums are:

1. Madonna- Like a Prayer
2. Fine Young Cannibals- The Raw and the Cooked
3. Tone Loc- Loc-ed after Dark
4. The Cult- Sonic Temple
5. Living Colour- Vivid
6. Enya- Watermark
7. Guns & Roses- G-N-R, Lies
8. Beaches- Soundtrack
9. Debbie Gibson- Electric Youth
10. Roy Orbison- Mystery Girl

1. XTC- Oranges and Lemons

2. Robyn Hitchcock and the Egyptians- Queen Elvis

3. The Pixies- Doolittle

4. The Cure- Disintegration

5. The Connells- Fun and Games

6. Elvis Costello- Spike

7. Sidewinders

8. The Cult- Sonic Temple

The top ten College albums are:

A few concerts that were hot were, New Order, Poison, Metallica and probably a few more I had not heard about. Graduation was today and Mr. Boyd's memorial plaque was on display.

There is a revolution going on in Beijing, China, right now and I only hope that they all get their differences solved soon. And here is your Yearbook, may it bring many memories to everyone who looks at it.

# “We Won’t Forget You”

A man who was cherished  
and loved in all our heart-  
It's hard to believe  
You were too young to  
depart-  
You're loving heart  
stopped beating  
You're hard working  
hands laid to rest.  
The Lord broke our hearts  
to prove,  
He only takes the best.  
As our thoughts go back  
To times gone by-  
The morning you left  
A sad good-bye.  
You're as much a friend  
more than a brother,  
Without you here there  
would be no other.

Kelly being serious???

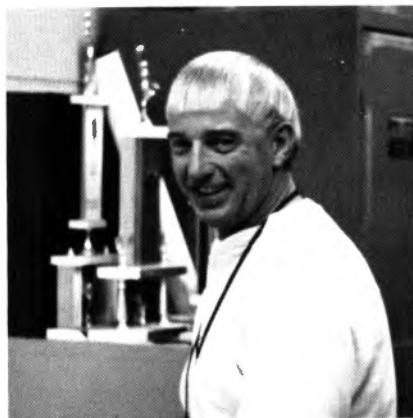

A little wider Shannon!!!!

This may not be the best yearbook of all time. When you start with a strike and end with the measles, and a totally different staff, you get the best that you can get. In many ways, it was a great year!!!!

THIS is my yearbook staff!????

## Japan

Sarasa Koda  
4-1-16-906 Roppongi  
Minato-ku Tokyo 106  
Japan

Hi! I'm Sarasa from Tokyo, Japan. I'm going to a public high school in Tokyo. The school is very big and there are 400 students in my grade. In Japan we go to school from Monday to Saturday, but we only have a half day on Saturdays and then we go out with friends. Stockbridge H.S. and my high school in Japan differ in many ways. At my school, only Seniors can choose classes that they want to take, the lower classmen however don't have many choices. All kids in the same grade have to take the same classes. Here, you can take classes that you want to take. That's what I liked about American school. My favorite classes this year were Art and Typing. Something I didn't like was that we don't have enough time to talk to friends during school. In Japan, we have more than one hour for lunch and at least 10 minutes in between classes. However, I still made a lot of nice friends here at this school.

I live right in the city of Tokyo. During my stay here I didn't miss my family as much as did high buildings, my friends and subways (wasn't allowed to drive over here). But most of all I missed my cat "TAMASABUROO". got very strong this year. Being an exchange student wasn't always easy but I met so many nice people and learned so much about the U.S. that I'm really glad that I came here.

## Spain

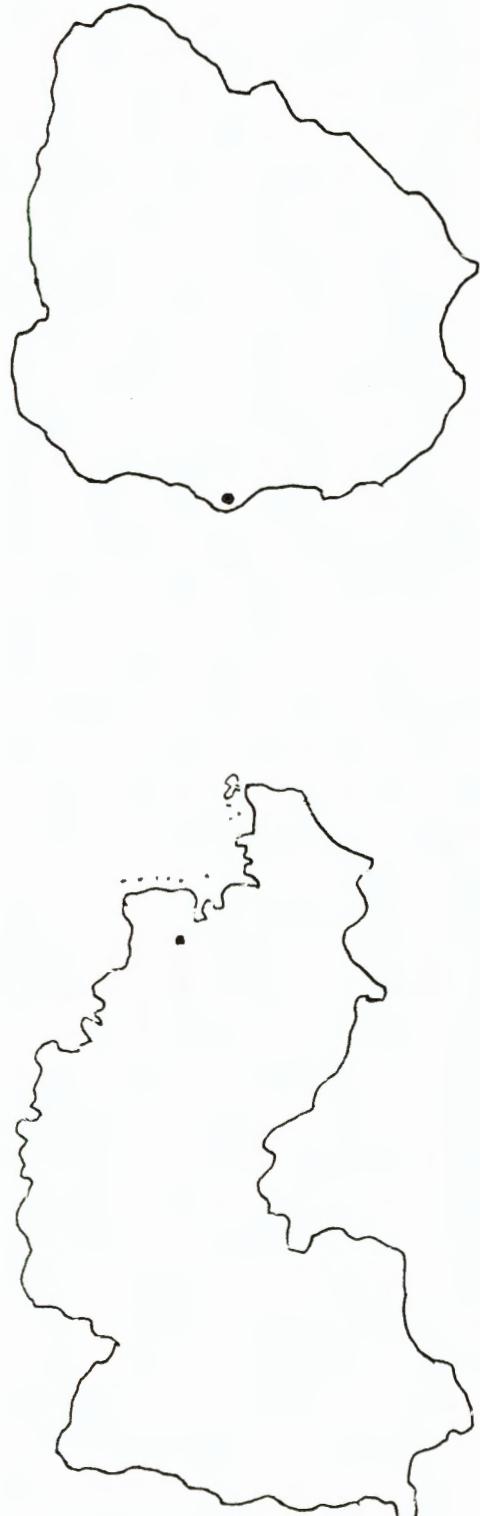

Esperanza Carnicero  
c/ Poseidon 15  
URB: Pinar Del Plantio  
Majadahonda  
Madrid; 28220  
Spain

My name is Esperanza Carnicero (Espi). I live in Madrid, the capital of Spain. It is a very big city with lots of night life. When I go out we usually meet as a group of teenagers at a dance place. The place my friends and I always go to is called "Oh" and it has a pool inside and is three floors high; it's wild! In the winter time I ski a lot. I'm on the ski team of Madrid and I ski every Sunday. For winter vacation my family and I go to the French Alps or the Spanish Pyrenees. I have two brothers: Miquel, 15 and Guillermo, 7. My mom is an English teacher but now she works for the Federal Board of Education. My Dad is the director of a company. During the summer vacation everybody in Spain leaves the cities and goes to the beaches for more than two months. My family usually rents a house for the month of August somewhere close to the coast. As you can see life is a lot different compared to what you are doing here! When I came to the U.S. I wanted to be a cheerleader, however, when I saw how hard it is I knew I would never make it. I played volleyball and that's a lot of fun; it was my first year. I've really enjoyed my stay here in Stockbridge and I would like to thank everybody but especially some of the Seniors for all the help they have given me. I really enjoyed the games and dances at your school. But something I will never forget is the Graduation and the party afterwards!

## Uruguay

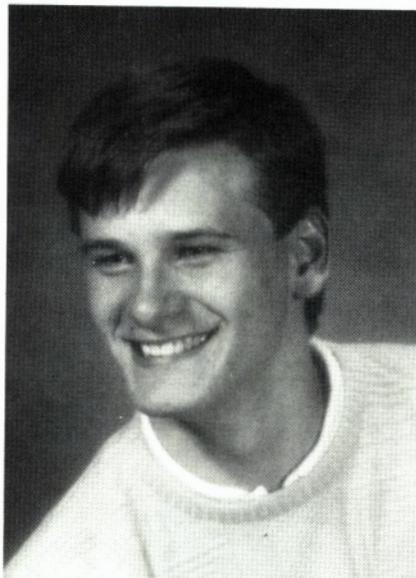

Maria C. Chiappara  
Florencio Escardo 1468  
Montevideo, Uruguay

Hi! My name is "Tina" and I'm 18 years old. I live in Montevideo, Uruguay's capital city, whose 1.5 million inhabitants represent half of the country's population. Montevideo has high buildings but gardens and parks, too. Uruguay has beaches all along the coastline and it never gets colder than 30 F. This year over here was my first year with snow! Teenagers in Uruguay go to school only half a day but after school we go to private institutes to learn languages, or to clubs to play sports. School is very hard and by the end of the year we have one exam that lasts at least 4 hours per subject! We have 3 to 7 days to study for each exam and we usually study in small groups to have a little more fun. When I go back I still have to finish the second semester of my senior year. I'm studying to be a biochemist. I'm also taking art courses outside school and I study English (9 years) and French (5 years). On weekends there's a lot of things to do. We have to be 18 years old to be able to drive, but there are buses and cabs everywhere. We usually go to dance places, bars, theaters or just get together at somebody's house. There are two big differences I noticed between Uruguayan and American parties: in Uruguay there is no drinking age and parties start at 11 p.m. and we don't get home until 4 or 6 o'clock in the morning. At home I live with my parents, one older and one younger brother and two younger sisters. I would like to thank you all for accepting me at your school and making it possible for me to learn so much about you, your country and your customs.

Tina

## West Germany

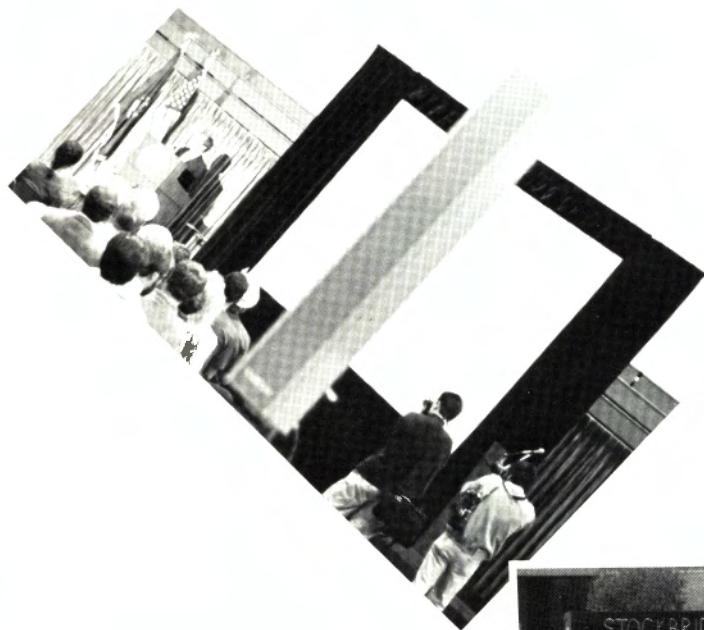

Lars Wessels  
Marderweg 13  
2900 Oldenburg  
West Germany

Hi! My name is Lars Wessels. I live in Oldenburg, West Germany, a city of more than 160,000 inhabitants. My only brother Carsten is 12 years old and hopes to be an exchange student also as soon as he turns 16. My mom is a housewife and my dad works as a designer for ads for a supermarket chain in Germany. So much about me and my family. Now to the good stuff! How is it in West Germany? Well, to cut a long story short, there are not many major differences between a German and an American teenager, besides the fact that you get your drivers license at 16 and we get ours at 18. Another thing is the school system. We have elementary and middle school like you but then . . . after middle school (6th grade) the teachers decide if you will attend a school of basic, advanced, or high advanced education for the remaining years of your school career. I am going to one of those highly advanced ones called Gymnasium. In Germany we don't start choosing classes until 11th grade. At the Gymnasium we have 7 more years of school of which the last two ones are on the college level. To get your diploma you have to pass several long oral and written tests at the end of 13th grade. After school most students decide to go to a University somewhere in Germany. When I go back home I will skip 11th grade but I still have to finish up 2 more years of school . . .

Well, I must say that I had a super and exciting year over here: My hostsister got married and had a baby and later in the year we moved to Stockbridge. I have seen a lot of Michigan and also got to go to Florida, Washington DC, and New York. I would like to thank all of my friends who really helped to make this year a unique experience. I know that I will miss every single one of you especially NAOMI. But who knows, maybe I'll be back in two years to go to college here . . .

See Ya,

Lars
